Buckbee's Collections of Vegetable and Flower Seeds

$1.00 Prize Medal Collection
26 Packages of the Best Vegetables, Sufficient for a Family Garden, Postpaid for Only $1.00

NOTICE—The Prize Medal Collection is sold at the extra low price because made up before the busy season begins. It cannot be broken.

Boy's Star Collection
Comprising liberal packages of the following 10 Varieties

Give Your Boys a Garden
To encourage gardening for the young we offer at reduced rates this choice collection, composed of varieties sure to please, and at the same time most likely to succeed with indifferent care.

NOTICE—None of the Collections offered on this page can be broken under any circumstances. Please don't ask it.

Children's Collection of Hardy Summer Flowering Annuals
12 Varieties of the Best and Most Popular Sorts Only 25c

Aster
Petunia
Verbena
Butterfly Flower
Cosmos

1 Pkt. Alyssum—Little Gem. Called the snow-white carpet plant, fragrant.
1 Pkt. Asters—Mixed. Most beautiful, striking and distinct colors.
1 Pkt. Butterfly Flower. (Schizanthus). Beautifully marked and spotted.
1 Pkt. Gallipolis—Mixed. Flowers yellow, orange, crimson and red and brown.
1 Pkt. Cosmos—Mixed. Lovely flowers of white, pink, crimson and purple.
1 Pkt. Mignonette—Sweet, large flowered. The old favorite sweet Mignonette.
1 Pkt. Petunia—Mixed. Embracing all colors including striped.
1 Pkt. Pink—Double Mixed (Dianthus). All the new and brightest colors.
1 Pkt. Poppy—Mixed. A dazzling mixture of beautiful double varieties.
1 Pkt. Verbena—Mixed. The richest and most brilliant colors.

This collection has been made up especially so as to secure the Best Ever For The Least Money. All new, fresh "Full of Life" seed and full sized packets. They are from first to last not only easy of culture and sure of growth, but they produce gorgeous masses of the most lovely flowers imaginable.

PLEASE REMEMBER:—
We cannot make a single change in this collection and no other varieties can be sold so cheap.

One Full Size Packet each of the 12 varieties mailed to any address for $0.25
DIRECT FROM THE GROWER TO THE PLANTER
They are Tested, Reliable Seeds for all Soils and all Climates
They Have Satisfied Every Buyer for 50 Years

No Book Accounts

TERMS CASH WITH ORDER

USE ORDER BLANK AND ENVELOPE WHICH YOU WILL
FIND INCLOSED WITH THIS CATALOGUE IN MAKING
OUT YOUR ORDER

Customers from Canada and Foreign Countries
Must Remit at Postpaid Price as All Shipments Must Be Prepaid.
In Addition Foreign Customers Must Send Twenty-Five
Cents Additional for Postage and Packing on
Each Dollar's Worth of Seeds Ordered.
REMEMBER—We cannot accept Canadian and Foreign Postage Stamps.

Plant Shipments
We always recommend having plants
sent by express, when there is an ex-
press office near, as we can usually send somewhat larger plants,
and do not have to wash the soil off the roots (as in the case when
sent by mail). We always try to add enough extra plants of our
own selection to help pay charges.

Kindly write your list of plants, bulbs and roots all together (not
mixed up with the seeds) so as to prevent any mistake upon the
part of our clerks in copying the order. Do not ship plants to
foreign countries.

READ THESE FEW WORDS ABOUT RELIABLE SEEDS
From good seeds only can good crops be grown
Yet a great many contingencies may arise to prevent the best seeds
from giving satisfaction, and for all these reasons we cannot, of
course, guarantee or be responsible for a crop, as success is dependent
upon natural causes, which are beyond human control. Therefore,
we do not warrant in any way, express or implied, the contents, or
the description, quality, productivity, or any other matter of any
seeds, bulbs, or plants sold by us, and we will not be in any way re-
 sponsible for the crop. If the purchaser does not accept these goods on
above terms, no sale is made thereof, and he must return them at
once, and money will be refunded. Subject to above conditions we
make this sale, at the moderate prices at which we sell our goods.

FAIR PLAY GUARANTEE

First—We guarantee that all seeds sold shall reach customers in
good condition.
Second—We guarantee to hold ourselves responsible for the safe
arrival of all remittances sent us by P. O. Order, Bank Draft, Express
Order, or Registered Letter.
Third—We guarantee to deliver free of charge in the United States
all garden and flower seeds listed in this catalogue, except those quoted
at wholesale prices on pages 2 and 3, and Field Seeds, Grass Seeds,
Potatoes and such other items that are plainly marked to be shipped
by Express or Freight at purchasers expense.
Fourth—We guarantee Buckbee’s “Full of Life” seeds to be just as
represented—if they prove otherwise, notify us promptly upon
receipt of seeds, sending us the numbered shipping tag which was on
the shipment and we will refill the order free of charge, or refund
the money paid us for same.

Rockford Seed Farm, H. W. Buckbee, Rockford, Illinois.

THIS CATALOGUE CANCELS ALL FORMER PRICES

United States Food Administration License Number G-43107
**SPECIAL WHOLESALE BULK PRICE LIST OF BUCKBEE’S “FULL OF LIFE” SEEDS**

NOTICE—All Seeds listed on Pages 2 and 3 of this Catalogue are shipped by Express or Freight at purchaser's expense. No extra charge is made for packing, boxes or bags.

SEEDS—If any item is wanted by PARCEL POST additional for postage and packing at the rate of 10 cents per pound to Wholesale Prices quoted on Pages 2 and 3 of this Catalogue.

IMP. MANGELS—Our “Full of Life” seeds are grown under very short day conditions during the past season, and we reserve the right to decline orders for scarce items unless included along with a good general order for Vegetable Seeds, as it is our purpose to protect, as usual, our customers of the quality usually required for a good supply of Buckbee’s “Full of Life” seeds.

For success and immediate results we recommend planting the 3 and 4 year old roots.

Owing to the many and numerous requests of our customers for the largest sized roots we have specially grown a fair supply of selected 3 and 4 year roots to meet this demand. Our price, as long as the supply lasts, on any of the 7 varieties listed on this page, only 50c per doz.; 8.75 per 100 postpaid. By express or freight at buyer’s expense, $1.75 per 100; $15.00 per 1000.

BROCCOLI

Similar to Cauliflower, of less delicate flavor but hardier; of value in the Northern States.

EARLY PURPLE CAPE—This is the best variety for our climate. It produces large heads of a purple-brownish color. Very close and compact. Pkt. 10c; oz. 40c.

NEW WHITE CAPE—Medium sized heads, sprouts coarse and compact, of creamy-white color. A sure header. Pkt. 10c; oz. 30c.

Brussels Sprouts Buckee's Matchless

Brussels Sprouts are very largely grown in the South, as high as 250,000 barrels being shipped a single season from Norfolk, Va. They are well worthy of extensive culture anywhere in this country. The plants resemble Cabbage in growth, but make small, compact, round heads at each leaf joint on the stalk. These heads are cut off when well formed and marketed in Strawberry Boxes holding one quart. The plants are quite hardy, are not injured but improved by hard frosts and are left in the garden or field during winter until wanted. These miniature Cabbages may be boiled like cabbages or cooked in cream like Cauliflower. They are the most delicious and delicately flavored variety of the Cabbage family.

IMPROVED PARIS MARKET—On this variety the heads grow very closely arranged on a stalk 20 in. to 3 ft. in height. Quality is very fine. Pkt. 5c; oz. 25c; 2 oz. 40c; ½ lb. 75c.

Buckee's Matchless—The finest strain of sprouts. The plants are of strong, vigorous growth, closely pointed and are covered the entire height with very large solid, tightly folded sprouts of exquisite quality. Buckee's Matchless is an early variety; frost will find the sprouts fully developed and the stems thickly set. Pkt. 10c; oz. 35c; 2 oz. 50c; ½ lb. 90c.
**THE BEST**

**BUSH LIMA BEANS**

**Buckbee’s Improved Bush Lima**

Superior Quality, Exquisite Flavor, Fine Color, Good Shipper, Hardy Grower, Enormously Productive, Matures Early, Excellent Keeper.

This is the very "newest" in the Bush Lima Bean. It greatly excels all other Bush Limas in productiveness, being practically loaded down with pods continuously from early Summer till frost.

It Matures Extremely Early. Is Suitable, Therefore, for All Sections North and South, and is a Continuous Bearer Until Frost.

In size the Beans are what might be termed intermediate, not quite so large as the Burpee Bush Lima, but considerably larger than the Henderson’s Bush Lima, making it, in our estimation, the finest size for all purposes. The plant is sturdy in habit and about 24 inches high, having good large leaves. It bears its fruit on long spikes in heavy clusters well out from the plant. There are several pods in each cluster, as many as ten having been counted. Each pod contains on an average of four Beans, though there are more containing five than three, so you see that it is a great improvement over the old-fashioned Bush Limas which oftentimes have only one or two in a pod. Considering the large number of pods on a bush, the yield is amazingly enormous. In quality the Bean is par excellence, flavor unsurpassed, and color the very best, both before and after cooking. Valuable also as a shell bean for winter use.

It has become very popular and the existence of it are enormous, far exceeding those of any other Bush Lima variety. Send to BUCKBEE for originator’s stock seed. Postpaid, pkt. 10c; ½ lb. 30c; lb. 1.30c.

**FORDHOOK BUSH LIMA**

Exceptionally Fine Quality. The Leading Bush Lima in the East. An improved Dresier’s Bush Lima. The plant is vigorous and erect growing, bearing the pods well above the ground. The pods, which are produced in large clusters, are medium green, about 4½ inches long, and each contains three to five large Beans of exceptionally fine quality. Both pods and Beans are twice the size of Dresier’s Bush Lima; in season it is two weeks earlier. Seed large, irregularly oval in shape, very thick, white with greenish tinge. We consider this a decided acquisition to the Dwarf Limas and one of the very best. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.

**BURPEE’S BUSH LIMA**

Erect, stout bushes, 1½ inches high, and with a diameter of 2 to 3 feet. Very productive. Large pods filled with large beans of luscious quality. Postpaid, pkt. 5c; ½ lb. 25c; lb. 40c.

**DREER’S BUSH LIMA**

Pods short, containing three to four beans which are closely packed and are thick, sweet and succulent. Postpaid, pkt. 8c; ½ lb. 25c; lb. 45c.

**NEW JACKSON WONDER BUSH LIMA**

Compact bushes one foot high. Valuable on account of its earliness and productiveness. Pods short, flat, with three small Beans of delicious quality. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

**HENDERSON’S BUSH LIMA**

The Earliest Large Seeded Bush Lima. One of the Best for Market as Well as the Home Garden.

This is the earliest of the large seeded Bush Lima Beans. The first pickings fit for the table may often be taken in July and from that time until frost a continuous supply may be gathered. It is fully 8 days earlier than the old Burpee’s Bush Lima and produces larger pods and more and larger Beans in the pod than this variety; the seed is also considerably thicker. The plants grow upright about 30 inches in height and measure often 24 inches across the top. They are very productive, producing immense crops of showy pods which measure from 5 to 6 inches in length. The Beans are of enormous size and of most luscious flavor. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.

**BUSH LIMA**

**BURPEE’S IMPROVED BUSH LIMA**

This is the most productive and very earliest of the Bush Limas. It is of true bush form, about 2 feet high, bearing in greatest profusion, broad, flat pods, each having from three to five medium-sized, handsomely speckled Beans, which cook quickly and are of superior quality. Good for Summer use, and as Winter shell Bean. A splendid Bean for the home garden.

Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.
Best Dwarf Green Potted Beans

BUCKBEE'S IMPROVED EARLY VALENTINE
Standard Round Pod Snap Bean.

BUCKBEE’S Improved Valentine is the earliest, hardest and finest strain of this popular variety in the country; it is a heavy cropper; true round podded; the pods are very uniform in size and of excellent quality. This strain produces edible pods in less than five weeks from sowing. For snaps there is nothing superior to this variety among the green podded sorts. Vines erect, with coarse dark green leaves and large white blossoms. Pods medium length, curved, cylindrical with crease in back; very bushy, crisp and tender. Beans medium size, long, irregular, pink marbled with red. Largely grown by market gardeners for an early crop. Postpaid, pkt. 8c; ½ lb. 18c; 1 lb. 34c.

EARLY MOHAWK

Very Early and Productive.

Very hardy, can be planted early. Pods very long and straight. Beans kidney-shaped, variegated drab. purple brown. Postpaid, pkt. 8c; ½ lb. 18c; 1 lb. 30c.

NEW EXTRA EARLY REFUGEE

Splendid Pods of Excellent Quality.

A very early green-podded bean, furnishing bushy pods of fine quality. About two weeks earlier than the Late Refugee, with pods of same size and shape, except slightly flatter. Postpaid, pkt. 8c; ½ lb. 18c; 1 lb. 30c.

EXTRA EARLY BOUNTIFUL

Stringless, Tender, Continuous Bearer.

One of the very earliest and largest potted green bush Beans. Pods handsome, long and straight, of very fine quality. The plants are quite large, grow erect, commence to bear very early and continue for a long time. They are very productive. The pods are from 1 to 1½ inches long, are flat, of light green color, solid, meaty, brittle, tender, stringless at all stages of growth, and of delicious flavor. They are also of very uniform size and shape. The dried seeds resemble those of the Yellow Six Weeks, but Bountiful is much superior in quality, entirely stringless; also earlier and more productive. A splendid variety for the home garden. Pkt. 8c; ½ lb. 19c; 1 lb. 32c.

VARIETIES FOR SHELL BEANS

The following kinds are used exclusively as shelled beans, either green or dried for winter:

BOSTON WHITE BAKING BEAN

Famous for Baking.

A sure cropper and more prolific than the common white Bean and also of better quality, ripening its crop early and all at once. Pods straight, short, small; Beans small, oval, white. Postpaid, pkt. 8c; ½ lb. 19c; 1 lb. 32c.

NEW DWARF CRANBERRY OR WREN’S EGG

Excellent for Soup or Baking.

Vines compact, upright and very productive. Pods medium length, cylindrical and curved, with splashes of bright red on a yellowish ground. The ripe Beans are large, plump, oval and nearly covered with splashes of bright red. Equal to Lima Beans in quality. Postpaid, pkt. 8c; ½ lb. 19c; 1 lb. 32c.
**BEST DWARF GREEN PODDED BEANS**

**Buckbee’s Early Wonder**  
The Earliest Bean, an Ideal Snap Bean.

The plants are quite large, grow erect and carry their crop well above the foliage. The pods average about 5 inches in length, usually containing about six seeds, and are round, broad, of a dark green color, solidly meaty, extremely brittle and entirely stringless. They are almost free from disease. Flavor is most delicious. It has the peculiarity of preserving its delicate color almost intact when prepared for the table. Its bearing qualities are unexcelled and it matures its crop very regularly, even under adverse conditions. Buckbee’s Early Wonder is one of the most popular Beans grown, on account of its extreme earliness, hardiness, great productivity, freedom from stringiness, and splendid quality. Postpaid, pkt. 10c; ½ lb. 20c; lb. 35c.

**New Stringless Green Pod**  
Valuable for Good Quality and Lack of Stringiness.

Early and very prolific; long, round, straight, thick, meaty pods, entirely free from strings or shrivels, of rich, deep green color. Their great attractiveness, productivity and excellent quality is giving them an ever-growing popularity. It is now a great leader and standard for general purposes. In the garden where green pod Beans are desired this sort is quite indispensable. Plant every two weeks for succession until September. Postpaid, pkt. 8c; ½ lb. 19c; lb. 37c.

**Tennessee Green Pod**  
An Early Intermediate Snap Bean.

This is a very popular Bean wherever known. The plants are large, somewhat spreading and prolific. The pods are very long, often 6 to 7 inches, flat, irregular in shape, bright but rather dark green and of exceptionally fine flavor. Postpaid, pkt. 8c; ½ lb. 19c; lb. 37c.

**Refugee or 1,000 to 1**  
Splendid Quality. Extremely Productive.

Highly esteemed for late planting and for canning and pickling. Pods long, cylindrical, green becoming white, streaked with purple as they mature; of good quality as snaps. Seed long, light drab, thickly dotted and splashed with purple. Postpaid, pkt. 8c; ½ lb. 19c; lb. 37c.
Best Dwarf Wax Yellow Pod Beans

Buckbee’s New Wonder Wax

Buckbee’s New Wonder Wax
Extra Early—Rust Proof—Heavy Yields.
This variety is a flat-podded, yellow, wax-like, and extremely productive. Pods are round, 5 1/2 to 6 inches long, slightly curved, wax-like, light, yellow, solidly fleshy, tender, brittle and entirely stringless at all stages of growth. They are uniformly perfect, an ill-shaped one being rarely seen. The best of the new round-podded sorts and excellent for all purposes. Seed long, medium-sized, nearly white, with a little dark marking about the eye.

New Early Prolific or Improved Black Wax

The Earliest Wax Bean and One of the Best for the Market and Home Gardener.
You will be thoroughly satisfied with this greatly improved strain of Black Wax, which is more vigorous and extremely productive. It is one of the best varieties for early market. Pods are flat, waxy-yellow, brittle and stringless. Desirable for every climate. Pods are curved, cylindrical, of a clear waxy-white color, with long, slightly curved points. Seed kidney-shaped, clear white and excellent for baking. A vigorous, hardy, very productive variety, ripening medium early; pods 7 inches long, straight, very showy. The length, uniformly straight, perfect shape, fine color of the pods and the enormous productiveness make this one of the best Beans for the market gardener as well as the canner.

Davis Kidney Wax
Big Money Maker for Gardeners and Truckers.
The vine is rustless and very vigorous, bearing its pods near the center in clusters. When young, the pods are brittle, crisp and tender. Seed kidney-shaped, clear white and excellent for baking. A vigorous, hardy, very productive variety, ripening medium early; pods 7 inches long, straight, very showy. The length, uniformly straight, perfect shape, fine color of the pods and the enormous productiveness make this one of the best Beans for the market gardener as well as the canner.

Wardwell’s Kidney Bean
Most Profitable Market Gardener’s Shipping Bean.
The Bean is entirely distinct from that of all other wax varieties. It is a very early variety, ripening only a little later than Golden Wax and yields a larger crop. Pods are 6 to 7 inches long, straight, flat, waxy-yellow, brittle and stringless. Desirable for every climate. Can be grown with great profit in the South for early shipment North. They always command a ready sale in every market.

New Perfection Wax
Rich golden yellow, 5 to 10 inches long; broad; hang in great clusters. Extremely tender and brittle. Combines great productiveness with high quality.

New Brittle Wax
Extreme Earliness—Great Productiveness—Superb Quality—The Best Wax Bean for the Home Garden.
An extremely early Wax Bean, exceedingly handsome and very desirable, especially for snaps for the home garden. The vines are dwarf, spreading and enormously productive. The leaves are roughened. Pods are round, 5 1/2 to 6 inches long, slightly curved, wax-like, light, yellow, solidly fleshy, tender, brittle and entirely stringless at all stages of growth. They are uniformly perfect, an ill-shaped one being rarely seen. The best of the new round-podded sorts and excellent for all purposes. Seed long, medium-sized, nearly white, with a little dark marking about the eye.
Best Dwarf Wax Yellow Pod Beans—Continued

Jones New Stringless White Wax

An Exceptionally Valuable New Early Bean.

This Bean has often been called the White Seeded Golden Wax. It resembles this old and popular variety very much, but it is superior to it in being of more robust and vigorous growth and more productive. Furthermore, the seed is pure white. This feature gives it a decided advantage over all colored Beans, as used as snap Beans they cook without discoloring, and are, therefore, more attractive at the table besides that, the dry Beans can be used the same as any other staple white Beans. Pods 4½ to 5 inches long, golden yellow, broad, very mealy and of the finest quality. Postpaid, pkt. 10c; ½ lb. 35c; lb. 45c.

Improved Golden Wax

The well known "good old fashioned" sort, very popular for all purposes. Postpaid, pkt. 8c; ½ lb. 25c; lb. 35c.

Hodson Wax

The Most Productive Garden Bean

Plants of vigorous growth, late maturing, hardy, very productive and free of blight and rust. Pods seven inches long, straight, flat but thick, of cream-yellow color. Postpaid, pkt. 8c; ½ lb. 18c; lb. 35c.

The Yosemite Mammoth Wax

High Quality Monster Podded Wax Bean

The pods frequently attain a length of 10 to 14 inches, with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small when fit for use. They are of rich golden color and are absolutely stringless, cooking tender and delicious. A popular wax Bean for family or market purposes. It is enormously productive, as many as fifty of its monster pods having been counted on one bush. Postpaid, pkt. 10c; ½ lb. 22c; lb. 40c.

Currie's Rust-Proof Black Wax

Great Rust Resistant Market Gardener's Bean.

Early and enormously productive, with large golden-yellow pods and in many localities intensively grown for both market and shipping. One of its chief features is its freedom from blight and rust. Postpaid, pkt. 8c; ½ lb. 18c; lb. 34c.

Buckbee's Rust-Proof Golden Wax

The Standard Wax Variety for General Use

One of the most reliable early sorts. Our own original stock, unequalled in size, color and quality of pods. In this variety we have a Bean that possesses all the good points of the old favorite—Golden Wax—but is larger in pods, much more prolific and handsome in appearance, being of a dark, rich yellow color and of perfect shape. Of grand quality, showing no string or coarseness, even when past its best, but is of tender and melting flavor at all stages of its growth. Being so exceedingly prolific it is not injured by rust. Dwarf, thick-stemmed plants with oval, straight pods which are brittle and entirely stringless. For market gardeners or private families no better variety can be planted. Postpaid, pkt. 8c; ½ lb. 25c; lb. 40c.
BUCKBEE'S BEST POLE OR CLIMBING BEANS

BURGER'S GREEN POD STRINGLESS
This variety is also called White Seeded Kentucky Wonder; it resembles this variety in form of pods, but is earlier, and covers a longer period of productiveness. The pods are straight, long, of a rich dark green, very meaty, of fine quality and entirely stringless. Seed small and pure white. Postpaid, pkt. 8c; ½ lb. 21c; 1b. 38c.

LAZY WIFE POLE
Enormously Productive. Splendid Quality. Pods wonderfully broad, thick, entirely stringless; when fully grown from 4 to 6 inches long and exceedingly rich, buttery and fine flavored when cooked. Fine for snap sorts; also as dry shell or Winter Bean. The seed is medium sized, nearly round and pure white. Postpaid, pkt. 10c; ½ lb. 32c; 1b. 40c.

BUCKBEE'S GOLDEN HARVEST CLUSTER WAX
The New World-Beating Wax Pole Bean. A magnificent variety that bears very early and continually the entire season, producing clusters of 3 to 6 pods of fine light yellow color. Pods average about 8 inches in length, exceedingly tender and entirely stringless. Owing to its earliness and hardiness this magnificent Pole Bean is well adapted even to very Northern latitudes. Its very large pods are beautiful in appearance and are unexcelled in quality by any Wax Bean. Postpaid, pkt. 10c; ½ lb. 35c; 1b. 45c.

BUCKBEE'S EVERBEARING STRINGLESS

This splendid Pole Bean originated on Rockford Seed Farms, and has been bred up to the highest degree of perfection by years of careful work and selection. An excellent heavy yielding Pole Bean for the home garden and for the market garden and trucker. Robust, hardy and one of the very earliest.

The enormous rich dark green pods which are produced in immense clusters often measure from 7 to 9 inches long and contain from 5 to 7 Beans. They are of admirable form, free from coarseness, exceedingly tender and of delicious mild and sweet flavor. The dry Beans are white.

We own the entire stock of Buckbee's Everbearing, and this variety can only be had from us. Postpaid, pkt. 10c; ½ lb. 32c; 1b. 40c.

MCCASLAN NEW POLE
The Best Pole Bean in Existence. A White Seeded Green Pod Snap or Shell Bean.

Although only of recent introduction, the McCaslan Bean is already very popular and in many localities has displaced the older pole varieties. It is earlier and more productive than Kentucky Wonder and Burger's Stringless and is fully equal to them in quality.

It is the earliest Pole Bean in cultivation, maturing about 10 days earlier than Burger's Stringless and White Creaseback, which were the earliest Pole Beans known so far. The illustration on this page is taken from a photograph of a single matured plant and shows its immense prolificness. The pods are of dark green color, 10 to 11 inches long, and fill perfectly, containing ten and more seeds. They are fine for use as snap sorts, being entirely stringless, meaty and of the finest flavor and quality. When allowed to mature the shellled beans are of pure white color, good sized and most excellent for Winter use.

The Vines begin to bear pods quite early and continue to produce enormous quantities until frost.

This is the one Pole Bean for every garden north and south; it stays with you all season, furnishing delicious Beans in Summer and Fall when this vegetable is always scarce. Postpaid, pkt. 10c; ½ lb. 32c; 1b. 40c.

Red Speckled Cut Short or Corn Hill
A popular variety for planting among the corn and thus furnishing a good crop without the use of poles. Medium early, very productive, pods about 4 inches long. Postpaid, pkt. 8c; ½ lb. 19c; 1b. 33c.
**BEST POLE OR CLIMBING BEANS — Cont’d**

**Famous Kentucky Wonder or Old Homestead**

The Old Reliable Standard Green Pod Pole Beans.

Very early and enormously productive, single vines often yielding as much as a peck; entirely stringless. Pods of a silvery green color. Postpaid, pkt. 8c; ½ lb. 19c; lb. 35c.

**Mammoth Pooded Horticultural**

The mammoth pods are striped and splashed with brilliant crimson. The beans are of immense size and of the finest quality, used either green or dry. They are by many preferred to Limas. Best suited for cool climate. Postpaid, pkt. 8c; ½ lb. 19c; lb. 34c.

**Early Golden Cluster Wax**

A most productive main crop variety of the Wax Pooded Pole Beans. It is medium early, and of excellent quality if used either as snap or green and dried shelled. The beans are large, vigorous. The pods average 8 to 9 inches in length, are very attractive and much used for exhibition purposes; they are flat, straight, very broad, thick and fleshy, entirely stringless. The dry seed is medium sized, oval and pure white. A splendid variety for the home garden and for market. Postpaid, pkt. 10c; ½ lb. 35c; lb. 45c.

**BEST POLE OR CLIMBING LIMA BEANS**

**Buckbee’s Ideal Pole Lima**

The Largest Pooded and Most Prolific Pole Lima Yet Introduced.

Vines unusually vigorous, bearing large clusters of broad pods from 7 to 8 inches in length and containing 4 to 6 large Beams of superb quality and rich flavor. This is a medium late variety, a little later than Seibert’s Early, but earlier than King of the Garden, and with much larger pods and more productive than either of them. In quality it is unsurpassed and ought to have a place in every garden. It also is the best main crop variety for market gardeners in the Central States. Postpaid, pkt. 10c; ½ lb. 22c; lb. 40c.

**Buckbee’s New King of the Garden**

This Old Standard Market Sort Is One of the Best for Main Crop

It is vigorous in growth and immensely productive. The vine begins to produce pods near the foot of the pole and the bearing season continues without interruption until frost. The pods are large, numerous and well filled and the Beans are of mammoth size. The handsome pods often attain a length of 5 to 7 or even 8 inches, with five or six perfectly formed Beans in each pod. Postpaid, pkt. 8c; ½ lb. 21c; lb. 38c.

**Seibert’s Early Lima**

The vine is exceptionally hardy, vigorous and produces pods very early and continues bearing for a long time. In earliness, ease of shelling, size, beauty and quality of green Beans, this variety takes front rank with the best early sorts. Postpaid, pkt. 8c; ½ lb. 21c; lb. 37c.

**Large White Lima**

Regular strain; pods and Beans of large size. Too late for the North. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

**Early Leviathan**

This Is The Earliest Variety of the Large Seeded Pole Limas

It is a most productive sort and produces pods which are from 5 to 5½ inches long and contain four to six very large seeds, which are quite white, with a slightly greenish tinge, and are of the finest quality. It is excellent for either home or the market. We especially recommend this variety for the Northern States, where, on account of the short season, it has been hitherto impossible to grow this delicious vegetable. Postpaid, pkt. 10c; ½ lb. 22c; lb. 30c.

**White Dutch Caseknife**

A medium late variety, very productive, with pods 3 inches long, containing 7 to 8 pure white seeds. This variety is very largely planted all over the country and is mostly used for green or dried shell Beans which are of splendid quality. Postpaid, pkt. 8c; ½ lb. 19c; lb. 32c.

**Scarlet Runner**

Good for snaps and for green shelled Beans, often used in place of Limas. Mostly used, however, as an ornamental climber, the plants bearing large sprays of brilliant scarlet flowers which are twice the size of common Bean blossoms. Postpaid, pkt. 8c; ½ lb. 20c; lb. 33c.

**White Creaseback**

Valuable for its extreme earliness and its habit of ripening all of its pods within a short time. Very prolific, bearing round, fleshy pods in clusters of 4 to 12. Best quality as snaps. Seed small, oval, white, much used for baked beans. Postpaid, pkt. 8c; ½ lb. 19c; lb. 32c.

**New Striped Creaseback**

An extremely early variety with medium sized vigorous vines which are wonderfully productive and bear round, fleshy pods, about 5 inches long, of light green color which are of best quality as snaps. Much used as seed beans. Postpaid, pkt. 8c; ½ lb. 20c; lb. 33c.
TABLE BUCKBEE’S BEETS
"Full of Life"

Buckbee’s Earliest of All

Extremely Early
As early as the earliest; makes good crops in less than seven weeks from sowing.

Of Beautiful Appearance
Perfect globe shape, smooth, free from side roots; of rich red color.

Buckbee’s Earliest of All—The Best Extra Early Red Turnip Beet, not only for market gardeners, but for canning, and especially for the home garden, making a strikingly handsome product, much superior to that obtained from any other variety equally as early. Its small top, early maturing and the splendid shape and color of the root make it popular with everyone who plants it. Top small, upright growing, so that the rows may be close together. Leaves are rich bronze-purple borne on slender stems, growing quite compactly. Root globular or ovoid and very smooth. Color of skin dark blood red; flesh deep vermilion red zoned with a darker shade. Very crisp, tender and sweet and remaining so for a long time. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 70c; 1lb. $1.25.

Crosby’s Egyptian Extra Early
One of the Earliest Beets in the Market.

Deep red, almost black in color; an improvement over the old Egyptian, being sweeter, more tender, smoother, and also more round in form and larger, although equally as early. The most desirable sort for small Beets for early market, as it is in presentable market shape quicker than any other sort. It is a very rapid grower and can be sown outside as late as July. Crosby’s Egyptian is one of the best Beets and a sure money maker for the market gardener. Our strain is exceptionally fine, extremely early, and very uniform in shape and color. Pkt. 5c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 65c.

Detroit Dark Red Turnip
A most excellent medium early turnip-rooted sort. It grows to a large size, is of most handsome appearance, and is very productive in all soils and locations and in all seasons. The tops are small, upright growing, so that the rows may be planted close together. Leaf stems and veins are dark red, blade green, roots globular, perfectly smooth, dark blood red. Flesh bright red, zoned with a darker shade; very crisp, tender and sweet, remaining so a long time. Our stock is very uniform in size, shape and color. One of the best Beets for gardener or cauner. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; 1 lb. 80c.
BUCKBEE'S “FULL OF LIFE” GARDEN BEETS FOR TABLE USE

**Buckbee’s Sunset**

Without Exception the Best Second Early and Main Crop Variety

Extended experience has shown this variety of our own introduction to be one of the best sorts, not only for market gardeners, but for the home garden. An improvement in turnip-shaped Beets for table use, and by far the best early, dark red turnip Beet in cultivation. Roots are globular and smooth, with flesh deep vermillion red, crisp and sweet. Tops small, upright growing, which allows close planting, making possible the biggest yield per acre of any turnip-shaped variety. The stock which we offer will produce a crop more uniform in shape, color and quality than any other Beet; a little later, but larger than Earliest of All. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 70c; lb. $1.25.

**The Bismarck**

A Superb Main Crop Turnip Beet.

Of fine turnip shape, very smooth, free of all side roots; about 4 inches in diameter. The tops are small, of dark bronze-red color; the flesh deep blood-red, exceedingly tender, entirely free of fibre and of rich sugary flavor. Medium early; very handsome. A splendid variety for the home and market gardener. We control the entire supply of seed of this variety. Pkt. 6c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

**Edmand’s Early Blood Turnip**

Roots round and smooth, good marketable size; skin and flesh dark blood-red, tender and sweet. It is an excellent keeper. A very desirable second early for market and home garden. Pkt. 5c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

BUCKBEE'S "Full of Life" GARDEN BEETS FOR TABLE USE

IMPROVED EXTRA EARLY ECLIPSE
The Popular Best for Early Use

Tops small, dark purplish green. Roots nearly globular, with a small tap root and collar. A splendid variety. Flesh dark red, zoned with lighter red; sweet, crisp and tender. We believe this is the best Beet for the market and home garden, and on account of its uniformly deep rich color the most desirable for canning. The variety is also very desirable for bunching. Careful comparisons with all prominent varieties on the market prove that our Improved Extra Early Eclipse is the most uniform in shape and size and the most attractive in color. It is unsurpassed in quality. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; lb. 75c.

NEW TRUE DARK STINSON
Dark Red Color—Long Keeper

A medium early variety excellent for the open garden and very suitable also for forcing; the leaves being small, only 5 inches high, the plants can be grown close together. This is a finely bred Beet; the roots are medium size, growing about 3 inches in diameter, are most uniform in size and shape. The color of the skin and flesh is extremely deep red, and the quality exceptionally fine with a very sweet flavor. We can especially recommend the Stinson to the home gardener—it is a most beautiful variety and unsurpassed in its exquisite quality. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 45c; lb. 85c.

LATE BLOOD TURNIP
Standard Late Beet—Popular Everywhere

Symmetrical in shape; flesh deep blood-red color; tender and sweet. Pkt. 5c; oz. 8c; 2 oz. 12c; 1/4 lb. 20c; 1/2 lb. 35c; lb. 60c.

BUCKBEE'S NEW HALF-LONG BLOOD
The Very Best for Winter Use

Roots half as long as Long Blood, but on account of their thickness weigh just as much. Always smooth, sweet, crisp, tender and never woody. Both flesh and leaves are intensely dark crimson in color. One of the best late sorts. Pkt. 5c; oz. 8c; 2 oz. 12c; 1/4 lb. 20c; 1/2 lb. 35c; lb. 65c.

BLACK QUEEN
Darkest of All Blood Red Beets

Black Queen is particularly valuable where a late Summer or Winter variety is wanted. The roots are pear-shaped, of medium size and fine form. Nearly buried in soil, flesh deep blood-red color, almost black, making a strikingly handsome Beet. Exceedingly tender and never woody. It is a large cropper; a good keeper till Spring. Its nicely crumpled leaves are of a beautiful dark red color, giving it a striking appearance on the market stall and making it a fine variety for ornamental bedding. Pkt. 8c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; lb. 75c.

MARKET GARDENERS
Profitable Money-Making Variety

The root is deep red, very symmetrical, two or three times as long as thick, and always smooth and handsome. The flesh is rich, very dark red, sweet, crisp and tender, never becoming woody even in the portions above the ground. It is a late variety and particularly valuable to store for Winter use. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; lb. 75c.
BUCKBEE'S "FULL OF LIFE" GARDEN BEETS FOR TABLE USE

Crimson Globe
Splendid Cropper—Good Keeper
A splendid, very handsome extra early Beet. Skin smooth and firm, almost globe shaped, of quite large size. The flesh is a deep purplish crimson, slightly "zoned"; this is a finely bred Beet, of exquisite quality, sweet and tender. The foliage is small, of a rich bronze-purple. In the home garden it is a most excellent sort; for market use as a maincrop variety, it is a favorite everywhere. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

Early Yellow Turnip
A Very Popular Variety
Similar to the Blood Turnip Beet, except in color, which is bright yellow. It is of a very sweet, fine flavor and is deservedly popular. The roots are round and smooth and are of good marketable size. The shape is the kind most desired. As a matter of fact, the Early Yellow has much to recommend it and should please you. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

Early Blood Turnip
An Old Reliable Favorite Sort
Roots nearly round, flesh deep red with lighter zones; sweet and tender; medium early; later than Detroit and has larger tops. Pkt. 5c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Buckbee's Extra Early Egyptian
Large, Early, Prolific, Attractive and Palatable
One of the very earliest and best varieties for forcing; also excellent for first early crop out of doors. Leaves are dark green, veined with dark red; roots dark red, rounded on top, but flat beneath with very small tap roots; flesh dark red, zoned with lighter shades; hard, crisp and tender at all times. Pkt. 5c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Dewing's Blood Turnip
Medium Early—Good Keeper
This medium early table sort is tender, sweet and a good keeper. Tops medium sized; leaf stems and veins dark red; leaves green. Roots dark purplish-red, turnip shaped with medium sized tap. Flesh carmine with purplish tinge, zoned with lighter shade. Pkt. 5c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Columbia
Deep Blood Red—Splendid Quality
The roots are of a neat turnip shape, with smooth skin and deep blood-red flesh of rich, tender quality. It is ready to use very early, growing almost as quickly as does the Egyptian, while it does not become coarse and stringy when of large size. Gives a good crop from seed sown in July. Pkt. 5c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Buckbee's Improved Long Dark Smooth Blood
The Standard Long Blood Beet, Excellent for Greens
Without question the finest long beet grown for Fall and Winter use. It is of deep red color, almost black, rich, excellent flavor; is an enormous cropper, and keeps solid and fresh throughout the long Winter. Cooks sweet, tender and crisp; is very desirable for pickles. It must not be compared with the common Long Smooth Blood offered by many seedsmen at a less price; as its high grade was attained by long years of care and selection. The roots are thick shouldered, grow largely under ground, are, when mature, about 2 inches in diameter and 10 inches long. They are ready for the table in about 60 days. They are very prolific, as much as 10 to 12 tons having been grown per acre. Foliage dark crimson. Pkt. 5c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Buckbee's "Full of Life" Mangels and Sugar Beets on pages 16 and 17 make the best stock food in the world.
MANGEL WURTZELS

Any land that will grow a good crop of Corn will produce a good crop of Mangels or Sugar Beets, which are surer crops than any other root.

Mangels give one-third greater increase of milk in feeding cows than does the same weight of Potatoes. Forty tons Mangels (a crop of an acre) have as much nutritive matter as 130 bu. of corn and are more digestible. Send to Secretary of Agriculture Washington, D.C. for Special Bulletin on Mangels and Beets.

Plant five pounds of Seed per acre.

BUCKBEE'S MASTODON

The Heaviest Cropping and Largest of All Mangels.

It is true a Mammoth, a single root often weighs 75 pounds and over; in yield it is enormously productive—1,500 to 2,000 bushels per acre is nothing uncommon on good soil. It grows well above ground and on account of its shape is easily harvested. In length is about the same as Buckbee's Mammoth Long Red, but is more remarkable for its handsome shape and broad shoulders, the diameter being greater, and in weight much heavier; flesh deep red, fine texture, roots solid, tops small. In fact it combines all the fine points possible to conduce in a Mangel of the highest nutritive value, and is without question the best and most profitable Mangel for dairy farmers. This is our pedigree stock—especially selected, and can be relied upon as the price plant will and can produce plant will in the reach of all.

BUCKBEE'S MAMMOTH LONG RED

A Wonderful Yielder.

A standard and favorite Mangel, producing a very large root uniformly straight and well formed, weighting from 30 to 40 pounds each, of a beautiful dark red color, wonderfully productive, acre. Keeping to 1,000 bushels per acre. This is a true and unexcelled. Our stock is a great improvement over the old variety. 7c; 2 oz. 12c; 1/2 lb. 20c; 1 lb. 30c; 3 lb. 50c; postpaid.

GOLDEN TANKARD

The Great Milk Producer.

This distinct variety is a most important addition to our list of roots for stock feeding, as it contains less water and more sugar than most Mangels. Sheep and all other stock thrive wonderfully well on it, its great milk-producing qualities and fine milk-producing qualities not excelled. Our stock is a great improvement over the old variety. 7c; 2 oz. 12c; 1/2 lb. 20c; 1 lb. 30c; 3 lb. 50c; postpaid.

BUCKBEE'S GOLDEN MONARCH

This entirely new and distinct Mangel grows to the largest size and is of a beautiful russet yellow color. The flesh is white, firm and sweet, greatly relished by cattle and other stock. The roots are large, oval-shaped, and with small tops, admitting close cultivation, and an excellent keeper. 7c; 2 oz. 12c; 3 lb. 30c; 5 lb. 50c; 10 lb. 1.00 c.; postpaid.

GIANT RED ECKENDORF

The roots are smooth, of cylindrical shape, very much like the Tankard shape, and weigh from 90 to 150 pounds each. The flesh is firm, solid, of white color and of highly nutritive value. The Eckendorf are phenomenal yielders and are easily harvested, the root growing to the largest part above the ground. 8c; 2 oz. 12c; 1/2 lb. 20c; 3 lb. 35c; 1 lb. 60c; postpaid.

GIANT YELLOW ECKENDORF

The same as the Red Eckendorf, but with yellow skin. 8c; 2 oz. 12c; 1/2 lb. 20c; 3 lb. 35c; 1 lb. 60c; postpaid.

CHAMPION YELLOW GLOBE

One of the best for stock feeding. The roots grow almost entirely above ground and are adapted for shallow soils and are easily harvested. It produces as much per acre as the longest growing Mangels. It is a good keeper. 7c; 2 oz. 12c; 1/2 lb. 20c; 3 lb. 35c; 1 lb. 60c; postpaid.

CHAMPION RED GLOBE

Similar to above except in color, which is a light red or pink. 7c; 2 oz. 12c; 1/2 lb. 20c; 3 lb. 35c; 1 lb. 60c; postpaid.

GIANT OR MAMMOTH JUMBO OR EIFFEL TOWER

A large long red variety of excellent quality. Very similar to Mammoth Long Red. 7c; 2 oz. 12c; 1/2 lb. 20c; 3 lb. 35c; 1 lb. 60c; postpaid.

MIXED MANGEL SEED

Cheapest sorts mixed. 7c; 2 oz. 12c; 1/2 lb. 20c; 3 lb. 30c; 1 lb. 50c; postpaid.

NOTE—Write for special prices on larger quantities.
BUCKBEE'S SUGAR BEETS FOR STOCK FEEDING

GIANT FEEDING SUGAR
The Greatest Beet for Feeding Stock.
This magnificent Sugar Beet, while giving nearly as large a yield of easily grown and harvested roots as a crop of Mangolds, supplies a food of very much higher nutritive value, being much richer in sugar. They yield under equally favorable conditions, more than double that of sugar beets and not being so sweet, are less liable to injure the kidneys, when fed in large quantities.
The roots grow about two-thirds out of the ground and because of this and their shape the crop can be harvested and stored at less expense than any other root crop. Roots very large, smooth, clean and of oval shape; white skin, white flesh. Every farmer should try it. Oz. 8c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 60c; postpaid.

BUCKBEE'S SUGAR BEETS FOR STOCK FEEDING

BUCKBEE'S NEW IMPERIAL SUGAR
This Beet is the result of years of methodical and persevering selection. It gives better results than any other variety. It is extremely rich in sugar, thousands of analyses showing that the average percentage of sugar obtained from this variety is about eighteen and its average yield may be stated as from 15 to 16 tons an acre, but crops of 25 to 40 tons per acre have been obtained off it. Flesh finely grained and very sweet. We sell thousands of pounds each year to the large growers and Beet sugar factories through the country, always with the most satisfactory results. Postpaid, oz. 8c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 60c.

KLEIN WANZLEBEN SUGAR BEET
This variety at the present time has probably a wider cultivation than any other Sugar Beet. While not, as a rule, equal to BUCKBEE'S NEW IMPERIAL SUGAR in saccharine richness, it is considerably more productive. We offer seed the second year from polarized roots. Postpaid, oz. 8c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 65c.

THE BEST STOCK CARROTS

Buckbee's Champion
The World-Beating Stock Carrot
Buckbee's Champion is not, properly speaking, a table Carrot, although the flesh is remarkably firm and sweet. But it is most emphatically a Stock Carrot for the farmer and stock raiser, and once used nothing will take its place. It is the heaviest cropping variety grown, yielding more tons to the acre than any other sort. The flesh is white, crisp, solid and very sweet in flavor. The roots are of medium size, very broad and heavy at the shoulder and are therefore easily harvested. They frequently measure 15 to 20 inches in circumference and 25 to 50 tons per acre is not an extravagant statement as to yield.
Our own growth, Choicest Northern Home-Grown Pedigreed Stock Seed. Pkt. 6c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; 1 lb. 75c.

BUCKBEE'S IMPROVED SHORT WHITE—Roots 7 to 9 inches long, smooth, very firm at the shoulder, having a diameter of 2 to 4 inches, but taper regularly to a point growing almost entirely in the ground. Flesh rich, white, solid, crisp and of excellent flavor. Pkt. 6c; oz. 10c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 60c; 1 lb. 100c.

BUCKBEE'S MAJESTIC—The largest, heaviest cropping and most nutritious yellow Carrot. The roots are of excellent quality, possessing high feeding qualities. Pkt. 6c; oz. 10c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 70c; 1 lb. 65c.

LARGE WHITE VONGES—A field Carrot especially suited for soils that are not very deep. One of the very best for cattle feeding. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 60c; 1 lb. 100c.

MAMMOTH WHITE BELGIAN—Splendid variety for fattening stock. The roots are mammoth in size and very productive, often yielding ten tons roots per acre. Pkt. 1c; oz. 15c; 2 oz. 30c; ¼ lb. 60c; ½ lb. 120c; 1 lb. 200c.

MAMMOTH YELLOW BELGIAN—Identical to the White Belgian except in color. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 60c; 1 lb. 120c.
BUCKBEE'S "Full of Life" CARROTS

One Ounce Will Sow a Row 100 Feet Long. Four to Five Pounds Will Sow an Acre

The best soil for the Carrot is a sandy loam made rich by manuring the previous year; any good land if thoroughly and deeply worked will produce satisfactory crops. It is advisable to sow as early in the Spring as the ground is fit to work, though good crops may be grown from sowings as late as June 15. For table use sow the smaller kinds early in rows 16 to 18 inches apart. For field culture sow in drills 18 to 24 inches apart, using from 1 lb. to 3 pounds of seed to the acre. Cover ½ to 1 inch deep and see to it that the soil is pressed firmly above the seed. As soon as the plants appear, use the cultivator or wheel hoe. Thin 2 to 6 inches apart in the row, according to the size of the variety.

BUCKBEE'S Earliest Garden

The Earliest Variety in Cultivation and Best for the Table.

Tops small, finely divided. The reddish orange colored roots are nearly round with a groove about the crown and when fully matured they are about 2 to 2½ inches in diameter, but they should be used before they are full grown, when they are tender and delicious. Much used for forcing, and pulled when they have only 4 or 5 leaves. Pkt. 6c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. 90c.

BUCKBEE'S Golden Ball Forcing

Standard Early Forcing Carrot.

One of the earliest varieties in cultivation and very desirable for forcing. The tops are very small. The roots are reddish orange and are nearly round when forced quickly in very rich, well prepared soil, but are somewhat longer when grown outdoors. When fully matured the roots are about 2 to 2½ inches long, but they should be used before fully grown while young and tender. Pkt. 6c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

EARLY SCARLET HORN

A Good Variety to Grow for the Market—Tender and Delicious.

A favorite for early crop; a little later than Early Golden Ball. Color deep beautiful orange; has a short, stump-shaped root about 3 inches long, large at top, therefore easily pulled. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE'S Champion Horn

Extra Early—Good Size—Splendid Keeper.

A splendid new Carrot from Holland where it is very largely grown for the market and considered the finest of all table Carrots. It is an extremely early variety, as early as Scarlet Horn and will be ready for the market in about 45 days from sowing, but it is about 6 to 7 inches long or twice the size of Scarlet Horn. It is the sweetest of all Carrots and without any yellow core. The roots are cylindrical, blunt at the end and having a fine neck and small top can be planted close together. The color is very attractive bright red. They are entirely free from any stringy, coarse heart which is found in most other Carrots; are of fine texture and most delicious quality. Owing to its excellent quality, it ought to have a place in every garden and its extreme earliness and great productivity make it an indispensable variety and a great money-maker for the market gardener. Pkt. 6c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. 90c.

OX HEART OR GUERANDE

Early—Handsome—Ready Selling.

Tops small for the size of the roots, which are comparatively short, about 5 inches long, but thick and often weighing a pound apiece; they terminate abruptly in a small tap root. Flesh bright orange, fine grained and sweet. About 10 days earlier than Danvers. A splendid variety. This is a desirable variety for soil so hard and stiff that longer growing sorts would not thrive in it. When young, excellent for table use, and when matured, equally good for stock. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE'S Pride of the Market

A large, handsome, main crop variety. Roots grow 10 to 12 inches in length, very broad at the neck, tapering even to the small tap root. Grows smoothly and uniformly; flesh tender, sweet and entirely free from woody coarseness. Unsurpassed for table use and most valuable for market purposes. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 35c; ½ lb. 50c; lb. 90c.
BUCKBEE’S “Full of Life” CARROTS

Buckbee’s Select Danvers
The Best Carrot for Every Purpose.

In this selected strain of Danvers Carrot, we have not only a splendid appearing Carrot, which always sells readily, but a variety which is an extra heavy yielder in any soil. We have spared no labor nor expense in perfecting this variety, and confidently claim and believe that it is now the leading Carrot. Adapted to all soils and enormously productive, yielding more than any other table Carrot, and often more than the large field Carrots, and is much easier harvested than these. The flesh is very tender and sweet; it is a valuable Carrot for both table use and for stock. We have an extra fine strain of this favorite sort, which is of very fine bright color, and exceptionally uniform in shape, size and color. We have sold this strain for years and it is giving the greatest satisfaction to our customers. Pkt. 7c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ¾ lb. 50c; 1 lb. 90c.

Half Long Danvers
The Popular Carrot for the Home Garden or Market.

This variety is well adapted to all soils and sections, and some years it leads our whole list as the best seller. It is half long in shape, almost cylindrical, somewhat stump rooted, and of rich, dark orange color. We claim that it will yield greater bulk and weight for a given length of root than any other Carrot now grown. Over 40 tons per acre of fine Danvers have been grown, and a yield of 25 to 30 tons per acre is not uncommon. Matures its crop of beautiful shaped roots in 70 days. Grown extensively by market gardeners for bunching and makes a handsome appearance on the market stalls; of the finest quality and one of the most popular sorts for home use. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 45c; 1 lb. 75c.

Improved Long Orange
The Best Keeper.

The roots of the improved strain of this variety we offer are very deep orange, long and comparatively thick, often 12 inches in length and 3 inches in diameter at the crown, tapering regularly to a point. The tops are rather large. This intermediate to late maturing sort is suitable for table use as well as stock feeding, combining great productiveness with uniform shape where grown in light, deep, rich soil. When of size suitable for the table, the roots are tender and of good quality. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 45c; 1 lb. 75c.

New Early Chantenay or Model
A Fine Bunching Carrot—Private Stock.

A most excellent, medium early, half long variety. It is one of the best in quality for the market and home garden, while its great productiveness and the ease with which it can be harvested make it desirable as a field sort. The tops are medium sized with small neck. The mature roots are thick, 5½ to 6 inches in length, uniformly half long or stump rooted but tapering slightly, smooth, deep orange-red in color. The flesh is very crisp and tender. Although a medium early sort the roots are suitable for use nearly as early as any. The variety is extensively used for bunching. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 40c; 1 lb. 75c.
Buckbee's Reliable Cabbage Seed

Extra Early Pointed Heads

Buckbee's New Race Horse

Absolutely the earliest Cabbage in cultivation. Indispensable to the market gardener for his very earliest crop.

Buckbee's Race Horse is ready for use in sixty days from the sowing of the seed—that is ten days earlier than Jersey Wakefield or Lightning and other so-called earliest sorts of other seedsmen. The plants are very hardy and can be set out very early; they are always sure to head, making good sized, solid and firm pointed heads, which, though a little smaller than Jersey Wakefield, are always marketable and being the first in the market bring high prices. There are but few outer leaves and the plants may therefore be set closely together, they will then yield large crops, and as many as 14,000 heads have been grown of this variety on one acre, which brought a larger profit per acre than later and heavier varieties. The heads are very attractive in appearance, of splendid quality, tender, fine grained and of sweet, delicious flavor.

Some space should be given in every garden to this variety, as coming ahead of every other kind, it is bound to make money for the market gardener, and its sweet, delicate flavor will bring a welcome change from the coarse winter sorts for the table.

We control the entire stock of this earliest of all Cabbage. Pkt. 10c; oz. 35c; 2 oz. 60c; ½ lb. $1.15; 1 lb. $2.00; 3 lb. $3.50.

Buckbee's Selected True Early Jersey Wakefield

The Standard Extra Early Cabbage in Cultivation.

Buckbee's stock of Jersey Wakefield is grown from selected heads only and is the earliest and finest strain of this variety in the market; it is sold by others also as Lightning. It forms fine solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. The seed is remarkably pure and always gives satisfaction. Buckbee's Jersey Wakefield is about ten days later than Buckbee's Race Horse, but has larger heads and is much more productive. It is the variety most-likely planted by market gardeners for the bulk of their extra early crop. Pkt. 8c; oz. 35c; 2 oz. 50c; ½ lb. 75c; 1 lb. $1.70; 3 lb. $3.00.

Charleston or Large Wakefield

A splendid strain of Jersey Wakefield, about a week later, with heads twice as large, weighing from 6 to 12 pounds each and more, and not so pointed as the original Charleston Wakefield, is a good keeper and may be planted as a second crop, to mature in Autumn, if desirable. It is much used by market gardeners to follow Jersey Wakefield; a first rate shipper, and in great favor with everybody who knows it. Pkt. 8c; oz. 35c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.15; 1 lb. $2.25.

Extra Early Winningstadt

A very fine header and will grow a hard head under circumstances where most sorts would fail. It will stand more frost, drought, wet, insects and diseases than any other early Cabbage. Plants very compact, with short thick leaves. Heads regular, conical and very hard. It is the latest of the pointed varieties. Pkt. 5c; oz. 30c; 2 oz. 55c; ¼ lb. 60c; ½ lb. $1.15; 1 lb. $2.50.
BUCKBEE’S “FULL OF LIFE” CABBAGE SEED
EXTRA EARLY FLAT AND ROUND HEADS

The Heaviest Yielding First Early Cabbage.
The Earliest, Large, Round-Headed Variety.
A Distinct and Most Desirable Sort.
Very Popular With Market Gardeners and Most Excellent for the Home Garden.

Copenhagen Market
An extra early Summer Cabbage maturing fully as early as Jersey Wakefield but producing larger heads than any other Cabbage equally as early. The heads average about 10 pounds each in weight, are ball-shaped, solid and firm, with a small core, fine veins, of splendid quality, and remain in marketable condition for a considerable length of time. The type is thoroughly fixed and the heads mature all at the same time, so that the entire crop can be harvested at one time and the field cleared for other crops. The leaves are of light green color, tightly folded together in a remarkably solid and compact form; it has few outer leaves curving inwards, is of upright growth permitting closer planting than any variety with heads of similar size; it has a short stem, growing close to the ground.

Our stock is grown by the original in Denmark; it is that strain which produces the large, heavy, round heads of excellent quality, which have made this variety famous.

Pkt. 10c; oz. 35c; 2 oz. 60c; 1/2 lb. $1.15; 1 lb. $2.00; lb. $3.50.

Early Spring
The Earliest Flat-Headed Variety. A few days earlier than Jersey Wakefield, producing heads of the same weight but different in shape, being flat, slightly rounded. They are intensely solid, of vivid green color, with short stems and but few outer leaves. Small heart, fine veins, flavor delicious. Pkt. 5c; oz. 25c; 2 oz. 40c; 1/2 lb. 70c; 1 lb. $1.30; lb. $2.50.

Enkhuizen Glory
Very early, 10 days later than Jersey Wakefield but heads twice as heavy, ball-shaped, thin ribbed, very firm; splendid keepers and of excellent quality. The color is a pale green. In appearance the heads are those of a small Danish Ballhead. The plants grow very uniform in size and shape, are always sure to head. Pkt. 8c; oz. 30c; 2 oz. 55c; 1/2 lb. $1.00; 1 lb. $1.80; lb. $3.50.

All-Head Early
A sure header. Matures at the same time as Enkhuizen Glory. The plant is compact, with few outer leaves, stem short. Head very large for so early a variety, very solid, flat, but very deep and uniform in size and shape. Well adapted for kraut. By planting late it can be used also as a Winter Cabbage. Our strain is the finest. Pkt. 5c; oz. 25c; 2 oz. 10c; 1/2 lb. 70c; 1 lb. 1.30; lb. 2.50.

Buckbee’s Early Greenback
If a gardener will plant but one kind of Cabbage this is the one to use. It is a large, solid, flat-headed cabbage, fully as early and as large as All-Head, and can be planted in Spring and Summer and keeps splendidly over Winter. Practically every plant will produce a nice, hard head, measuring from 12 to 14 inches in diameter. Pkt. 6c; oz. 25c; 2 oz. 50c; 1/2 lb. 90c; 1 lb. 1.70; lb. 8.00.
CABBAGE

BUCKBEE'S
Extra Early
Large New
Queen

Some Cabbage will do, others please, but Buckbee's Early Large New Queen has satisfied and made more money for Cabbage growers throughout the country during the past nearly half a century than any variety ever offered.

Unquestionably it is the finest bred and earliest of the very large (weighs from 17 to 25 pounds) Cabbage and the most solid headed, thoroughbred of this class. It is a dwarf, compact grower, allowing close planting, a sure header, most uniform in growth, beautiful in appearance, free from coarse veining of the leaves, of much better quality than the big ribbed Winter sorts; in fact, it possesses all the fine qualities of the best early varieties, it is unexcelled in flavor and always the leader in every market. Practically every plant will form a very large, solid head and will mature earlier than any variety of equal size. It is suitable for every growing season; in the South it is considered the best Cabbage for Fall planting. remarkable hardiness and vigor make it the safest Cabbage to plant. It is good for use in Summer, Fall and Winter. The heads become solid and eatable long before they are fully grown, and they will stand well without splitting long after they are fully developed, making them available for use over a longer season than any other kind we know of. It has been proven wherever grown in every way superior to all other Summer Cabbages.

If you want the best early Cabbage, plant Buckbee's New Early Large Queen and you will not be disappointed. We control the entire seed supply and offer the choicest "FULL OF LIFE" Seed of our own growing at the following reasonable prices. Send to Buckbee for the true "Queen." Order early.

Pkt. 10c; oz. 35c; 2 oz. 65c; ½ lb. $1.35; 1 lb. $2.30; lb. $4.00.

Gaines, Cole & Co., State Line, Miss., write: "Have used Buckbee's Queen since its introduction. It is a week earlier and much finer in every way than Henderson's Early Summer, and markets more to the acre."
SECOND EARLY CABBAGES

BUCKBEE’S ROCKFORD MARKET

A Fine Second Early Cabbage.

It has the peculiarity of heading firmly at an early stage in its growth so that the finest Cabbage can be obtained long before it has attained its natural size. Its uniformity in shape and large yield per acre render it particularly valuable to truckers, and its compact form and good quality make it also one of the finest of the second early Cabbages for the home garden. It is about a week later than New Queen. Pkt. 10c; oz. 25c; 2 oz. 45c; 4 lb. 95c; ½ lb. $1.70; lb. $3.00.

BUCKBEE’S EARLY MARVEL

The heads are extremely hard and solid, round, flattened on top and ready to market fully as early as Early Summer, but larger. It is as good for Autumn or Winter as for early Summer. Pkt. 10c; oz. 25c; 2 oz. 45c; ½ lb. 80c; ½ lb. $1.45; lb. $2.25.

HENDERSON’S EARLY SUMMER

Standard Midsummer Variety.

This variety is deservedly popular with the market gardeners. It forms large, round, firm, head, uniform in shape and color, which seldom bursts or rots. With good cultivation heads attain a weight of 25 to 30 pounds, and are of the finest quality. Succeed in heading and regularity in growth has made this one of the most popular standard sorts for Winter keeping. The quality, either for slicing, for kraut and for general table use is unsurpassed. It is as natural for this Cabbage to form heads as leaves. This variety is much used by market gardeners in northern Illinois and has proved a money-maker to them. It is a very fine strain of late Cabbage and can be profitably grown anywhere in this country; it is a splendid sort for general use, giving unbounded satisfaction. Pkt. 10c; oz. 20c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.45; lb. $2.75.

SURE HEAD

A Famous Main Crop Cabbage.

Of the “Flat Dutch” type. Heads uniform in size and color, round, flattened on top, extra hard, and firm and fine in texture. Well above average cultivation from 10 to 15 pounds; sweet flavored, head and hard, any loose leaves. One of the most reliable main-crop Cabbages. A sure header. Its great solidity makes it very desirable for shipping as well as keeping variety. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.15; lb. $2.25.

BUCKBEE’S MAMMOTH LATE FLAT DUTCH

Everywhere a Favorite Market Variety. Always Sure to Head.

This is a money-maker among late Cabbages for gardeners, and for family use, it ranks the highest. No variety of late Flat Dutch surpasses it in fine quality and uniform reliability to produce solid, firm heads. Even during the most unfavorable weather the heads are large. They are usually very heavy and solid. In form are round, flat on top, and off, firm at the root and with but few outer leaves. The quality is fine and flavor excellent, heads being crisp, tender and white, and the keep in good condition until Spring. Outside of Buckbee’s Christmas King this is the variety planted by more gardeners than any other late sort, and one of the best to grow for the family table. Always sure to make a crop where other sorts fail, and sure to please everybody. Pkt. 10c; oz. 25c; 2 oz. 45c; ¼ lb. 85c; ½ lb. $1.70; lb. $3.00.

LATE OR WINTER CABBAGE

BUCKBEE’S MAMMOTH LATE BRIDGEPORT DRUMHEAD

A Standard Fall Shipping Sort.

It makes a large, round, firm head, uniform in shape and color, which seldom bursts or rots. With good cultivation heads attain a weight of 25 to 30 pounds, and are of the finest quality. Succeed in heading and regularity in growth has made this one of the most popular standard sorts for Winter keeping. The quality, either for slicing, for kraut and for general table use is unsurpassed. It is as natural for this Cabbage to form heads as leaves. This variety is much used by market gardeners in northern Illinois and has proved a money-maker to them. It is a very fine strain of late Cabbage and can be profitably grown anywhere in this country; it is a splendid sort for general use, giving unbounded satisfaction. Pkt. 10c; oz. 20c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.45; lb. $2.75.

GREGORY’S ALL SEASONS

Nearly as early as Early Summer, but considerably larger in size and one of the largest and most desirable of the second early varieties. The heads are large, nearly round, extremely hard and solid, with finely ribbed leaves; the eating quality is not excelled by any other Cabbage and is far better than that of the big-bigger sort. Winter sorts, and considered one of the best for kraut. It is suited to all growing seasons, is a sure header under most adverse conditions, and keeps well even if planted very late. Remarkable for its ability to stand the hot sun and dry weather, remaining an exceptionally long time in condition for use. Our strain is the finest on the market. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.15; lb. $2.25.

SUCCESSION

A great favorite with market gardeners. About two weeks later than New Queen, a sure cropper and long keeper. The heads are very large, deep, solid and firm, of a beautiful light green color and free of any coarse veining; they run very uniform in size and shape and are of splendid quality. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.15; lb. $2.25.

BUCKBEE’S NEW CENTURY

One of the very best for general use, being very hardy and sure to head well at all seasons. Heads heavy, late and keeps well both Summer and Winter. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 95c; ½ lb. $1.70; lb. $3.00.

PREMIUM LATE FLAT DUTCH

An old and popular variety, remarkably uniform in size and type. Very heavy, late and a fine shipper. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.

LARGE LATE DRUMHEAD

Closely allied to our Mammoth Bridgeport Drumhead. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.
Buckbee's “Full of Life” Cabbage Seed

Buckbee's “Full of Life” Cabbage Seed

Buckbee’s Christmas King Cabbage
The Grandest Winter Cabbage
The Largest Cabbage in the World
The Longest Keeper and Surest Header

The grandest late Cabbage ever introduced. This truly wonderful late variety of our own introduction gives the greatest yields of any Cabbage grown. Thousands of acres are annually sown with this one kind; it is a favorite among the largest and most discriminating growers everywhere and none of them have ever been disappointed in the results. Nine hundred and ninety-nine out of every thousand plants will produce marketable heads, which are of mammoth size, on good, rich soil, reaching the sensational weight of 60 pounds each. The leaves are deep blue, very wide and overlapping each other forming tight, compact heads, which are all very uniform in size and in time of maturity, and are of the most delicious flavor, crisp and sweet. It never bursts, has but few outside leaves and can be planted closer than most sorts and will then produce a larger crop per acre than any other variety. It is the best Winter keeper; there is no other variety which maintains its fresh appearance so long after it has matured. It is also the best for kraut.

Buckbee’s Christmas King is the finest late Cabbage known today; for the market, for shipping and for the home garden it has no superior. We have grown this variety for many years, but improved it continuously and it is today better than ever.

There is big money in Cabbage, but your harvest depends on the seed you sow. Always remember that the seed is the cheapest thing about your entire crop, therefore buy the best, regardless of price, buy the right varieties, and varieties that have been tried out and yield bumper crops in the North, South, East and West. These are Buckbee’s Early Queen and Buckbee’s Christmas King. We control the complete stock of Christmas King and offer the choicest “FULL OF LIFE” Seed of our own growing at the following reasonable prices. Send to Buckbee for the true “Christmas King.”

Pkt. 10c; oz. 35c; 2 oz. 65c; ½ lb. $1.25; ¼ lb. $2.30; lb. $4.00.
The Hardest Headed Late Cabbage. The Gardener’s Favorite, the Best Shipping and Longest Keeping Cabbage.

For years large quantities of Danish Cabbage have been imported to our leading markets, the heads being of such solidity that the demand has been far in excess of the supply, and always at a price far above the ruling market rates. To get to the source of this supply I sent an expert to Denmark, who after careful inspection of the Cabbage-growing localities found at the island of Amager the GREAT DANE Cabbage, which he considered by far the finest and most productive of all the types and strains of the Ball Head Winter Cabbage grown in Denmark, and he contracted with its originator for all the seed he could supply.

I have handled his stock now for many years, have supplied annually large quantities of it to the Cabbage growers of this country and every year the orders for it show an enormous increase over those of the previous one; proving without doubt the better adaptability to our climate and the great superiority in many other respects of the GREAT DANE to other similar types.

I give herewith the description of this great Cabbage—by the originator, Mr. Torgeson: “For more than twenty years I have worked in perfecting this variety. The stem is medium sized, heads are almost as round as a ball, of good size, perfectly solid, very fine grained, of the best quality. They average larger and heavier, also mature earlier than the other strains of Hollander or Ball Head grown here. Because of the larger size, heavier weight, greater solidity of its heads, its unequalled keeping and shipping properties and its more tender quality, it will supplant all other varieties for winter use. I cannot too highly recommend it to gardeners in your land (America).”

We control the entire seed supply and offer the choicest “FULL OF LIFE” Seed (grown by the originator in Denmark), at the following reasonable prices. Send to Buckbee for the true “Great Dane.”

Danish Ball Head

Extra Selected Danish Grown Seed.

The heads, which are of medium size, average a weight of about eight pounds; are very solid and deep, and of a fine white color. Their quality is excellent, and the heads being just as solid and perfect when taken up in the Spring as when they are put away in the Fall. Stem about 5 inches high. Pkt. 5c; oz. 25c; 2 oz. 50c; 1/4 lb. 85c; 1/2 lb. $1.75; lb. $3.00.

Wisconsin Hollander

Introduced by the Wisconsin Experiment Station. A strain of the Hollander grown in Wisconsin, resistant against the Yellow Rot disease. Has been grown successfully on the sickest old cabbage fields. Pkt. 5c; oz. 35c; 2 oz. 60c; 1/4 lb. $1.15; 1/2 lb. $2.00; lb. $3.50.

New Round Head Danish

A Short-Stemmed Type.

Two weeks earlier than Ball Head, heads more round, unusually solid, average larger, with less outer foliage, of more robust growth, and is better able to resist blight. The heads are beautifully white when trimmed. Is especially recommended for high and light soils. Are splendid keepers. Short stems about 2 inches high. The Round Head requires less space; can therefore be set closer together than Ball Head. Pkt. 5c; oz. 30c; 2 oz. 55c; 1/4 lb. $1.00; 1/2 lb. $1.80; lb. $3.25.
RED CABBAGE

New Dutch or Pickling
Raised extensively for pickling purposes. Always the first of the Red Cabbages in market. Small, handsome, hard heads of blood-red color and of the finest quality. Average weight, 8 pounds. Pkt., 6c; oz. 25c; 2 oz. 50c; ½ lb. 53c; ¼ lb. 1.00; lb. 3.60.

Mammoth Red Rock
One of the finest Red Cabbages on the market. Heads average over 10 pounds each, and are always of rich red color, very solid and of excellent flavor. Always sure to head. Try it. Pkt., 6c; oz. 30c; 2 oz. 53c; ½ lb. 1.00; ¼ lb. 1.80; lb. 3.60.

New Red Polish
The Best Red Cabbage for Pickling or Table Use.
This New Red Cabbage is a vigorous grower and quite hardy. The heads are of a dark red color, and are extremely firm and heavy. The outside leaves are somewhat crumpled at the edges, giving the plant a pleasing and rather ornamental appearance. It is the largest and surest heading Red Cabbage. New Red Polish is the most profitable red sort with which we are acquainted, and will prove satisfactory in all respects to growers, cooks and pickle-maker. Pkt., 6c; oz. 35c; 2 oz. 60c; ½ lb. $1.40; ¼ lb. $2.15; lb. $4.75.

Buckbee's Chinese or Celery Cabbage
A new, most delicious vegetable which should be in every garden and which is one of the most profitable crops to grow for the market.
The Chinese or Celery Cabbage belongs to the Cabbage family; when young it resembles a smooth-leaved Chard-Beat, leaves being light green and crimped; the plant as it matures forms heads much like Cos Lettuce, which are about 15 inches high, have a diameter of 6 to 8 inches, weigh often 4 lbs., and are as firm and solid as Cabbage; their heart blanches to a crystalline white, whiter than any Lettuce or Cabbage. The leaf is as tender as Lettuce and has a distinctive flavor, very delicate and pleasant; every leaf, including the outside ones, is tender and eatable.
It is served on the table like Lettuce with French dressing; or if cut up like Cabbage and served with mayonnaise or French dressing it makes a splendid cold slaw. It can also be cooked like Cabbage, but it is without the strong Cabbage flavor and tastes more like Cauliflower.
Our seed is Chinese grown, which is the only reliable stock for good solid heads. Prices, postpaid, pkt. 10c; oz. 25c; 2 oz. 40c; ½ lb. 75c.

Buckbee's Frost Proof Cabbage Plants
To get the advantage of these frost-proof Cabbage Plants they must be planted a month or six weeks earlier than you would plant home-grown plants.
Our Cabbage Plants are grown in the South from the best Long Jass and grown seed and are shipped direct from our growing station in South Carolina by mail or express. We can fill orders from December 1st to April 15th. Owing to present congestion of all transportation, our responsibility ceases upon delivery to transportation company.
The plants will be somewhat wilted and have a hard, stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce the results. Can supply only the following varieties of frost-proof Cabbage Plants: Early Jersey Wakefield, Charleston or Large Wakefield, Succession and Early Flat Dutch.
Plants packed 500, 1,000 or 2,000 to the crate. Ordered in these quantities, they weigh about 25 pounds per 1,000 crated for shipment, and can be shipped to any point where they will arrive within four or five days. No plants shipped C. O. D.
Prices: By Mail, Postpaid, 50c per 100. By Express, purchaser pays carriage charges for $1.50 in lots of 1,000 @ $2.15 per 1,000; in lots of 5,000 to 9,000 @ $2.05 per 1,000; in lots of 10,000 and over @ $1.95 per 1,000.

Buckbee's Chinese or Celery Cabbage.
BUCKBEE'S EXTRA EARLY CHIEF CAULIFLOWER

The Earliest Grown—A Sure Header—Drought Resister—Large Solid Heads of Snowy Whiteness

The best variety for either market or family purposes, by far the earliest and surest large header and the most profitable grown. The greater part of Cauliflower seed offered is of European growth, but after years of careful study and perseverance we are able to offer this thoroughbred American variety—"CHIEF." It is of very compact growth, with very short stalks. The plants can be set very close together, and the leaves growing upward naturally protect the heads, which are handsome beyond description, measuring fully 12 to 15 inches across, and even more under careful cultivation; they are pure snow-white, very close, compact and of the most superior quality. The heads being so extremely solid and deep, weigh heavier than any other early variety.

It can be used for early or late planting, for forcing or the open ground; used any way, I recommend it with the full assurance that it will give entire satisfaction and that it is not surpassed by any other variety in earliness and sure heading quality.

In no vegetable is there so vital a relationship between seed and crops as in the Cauliflower. I make Cauliflower a specialty and I know Extra Early Chief will never fail to please the most exacting; it is a thoroughbred, pedigree-strain, the grandest, large-heading, early Cauliflower ever grown. I have sold it for years, supplying the largest Cauliflower growers with it in every part of this country and have received nothing but praise from everybody.

Comparative tests have proved conclusively that Buckbee's Chief matures earlier, is a sure and heavier cropper and produces more marketable heads per acre than any other Cauliflower of equal size. No grower of Cauliflower need fear the outcome of the crop if he is relying on this superb, world-beating variety.

PRICES OF BUCKBEE'S EXTRA EARLY CHIEF

Pkt. 15c; 1 oz. $1.00; 2 oz. $3.00; 5 oz. $5.50; 1 lb. $10.00.
BUCKBEE'S “FULL OF LIFE” CAULIFLOWER—Cont'd

TRUE EARLY SNOWBALL, Pedigree Seed

Certainly a fine variety, a great favorite with market gardeners and a standard throughout the country; very early, close growing, of compact habit; is well adapted for forcing under glass during winter and spring. The heads are large. For early or late planting, for the family or the market garden, this variety can be depended upon for excellent results. Snowball is but a few days later than "Buckbee's Chief" and it is not quite so large. We have the finest strain of the Snowball in the country; this can be attended to by our many market gardener customers who used it for many years with great success. Pkt. 10c; ½ oz. $1.35; oz. $2.35; 2 oz. $4.00; ½ lb. $7.50.

EXTRA EARLY DWARF ERFURT SELECTED

Remarkable for reliability of heading; dwarf; solid, pure white heads of most superior quality. If planted the first of March, heads 8 to 10 inches in diameter will be ready early in June. This is a fine old sort and as yet a favorite with many; Snowball and Buckbee's Chief are highly developed strains of this variety and produce somewhat larger heads earlier in the season. Pkt. 10c; ½ oz. $1.05; oz. $1.85; 2 oz. $3.50; ½ lb. $6.75.

EXTRA EARLY PARIS

An extra early variety, useful for Spring planting. Heads of medium size with narrow and straight leaves; they are snow white and of fine quality, but not as large nor as firm as the Erfurt type of Cauliflower. Dwarf habit, Pkt. 8c; ½ oz. 40c; oz. 75c; 2 oz. $1.45; ½ lb. $2.75.

LE NORMAND'S SHORT STEM

Sure Heading Standard Late Variety.

The very best large late variety grown. Sure to please. Curd is well protected by heads of short leaves of deep green color; the stems are extremely short and stout. Head very large, solid, pure white and of superb quality. It flowers abundantly, grows very well, and also frosts. It is a sure heading. Fine in every way. Very popular with market gardeners. Will be ready for use in about 120 days from sowing. Pkt. 8c; ½ oz. 40c; oz. 75c; 2 oz. $1.45; ½ lb. $2.75.

BUCKBEE'S “FULL OF LIFE” CELERY

BUCKBEE'S ALL HEART

Crisp and Brittle—Rich Golden Color—Exquisite Nutty Flavor.

The latest and best creation in Celery. Originated on Rockford Seed Farms after years of careful trial and experiment and has given unparalleled satisfaction in every part of the country. It is the earliest of the Winter Celeries—ready for use about 14 days later than the early self-blanching sorts listed on page 28. It is a very showy sort, with very broad, medium sized stalks, of fine ivory-white color and a rich golden heart. Crisp, tender and brittle. The flavor is delightfully rich and nutty. This is the best celery for Winter storage. It is unsurpassed for the professional Celery grower, the home and market garden. We control the entire stock of Buckbee's All Heart Celery. Pkt. 10c; oz. 35c; 2 oz. 60c; ½ lb. $1.15; ¼ lb. $2.00; lb. $3.50.

BUCKBEE'S GENUINE GOLDEN HEART

Original Private Stock. This variety is of a short, stocky growth with a large heart which blanches a beautiful golden yellow, and is crisp, brittle, tender and of fine flavor. An old, very popular, long-keeping sort. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.

BUCKBEE'S PERFECTED KALAMAZOO

It is an acknowledged fact that more good Celery is grown in the famous "Kalamazoo Celery Fields" than anywhere in the country. For years our heaviest sales of Celery Seed have been in that section, and we have devoted much time to the improvement of the jutly celebrated variety grown in that section, and Buckbee’s Perfected Kalamazoo will be found greatly superior to the old strain. The stalks are quite thick, solid, crisp and of creamy-white color, growing very uniform in size and shape. It is profitable alike for market or family use. There is no waste in preparing it for the table. Pkt. 6c; oz. 25c; 2 oz. 40c; ¼ lb. 75c; ½ lb. $1.30; lb. $2.50.

GIANT PASCAL OR WINTER KING RE-SELECTED STOCK SEED

A selection from the Golden Self-Blanching, and adds to the general good qualities of its parent, superior keeping qualities. The stalks are short, broad, heavy, thick, solid, crisp, and of a rich nutty flavor, free from any trace of bitterness. They blanch to a papery whiteness. One of the very finest of our Winter Celeries. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.

WINTER QUEEN

A very popular sort, and an excellent winter keeper, with short, broad and extra heavy stalks; of compact growth, with very large heart. Blanches easily and quickly. Crisp and delicious the first nutty flavor. As a late winter keeper it is unsurpassed. It is worthy of a place in every garden and is a money-maker for the market grower. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.
Buckbee's Easy Blanching Celery

Easiest Blanching and Longest Keeping Celery.

A most valuable Celery of recent introduction. An entirely new and distinct variety, and the only easily-blanching green or long-keeping sort known. It is already quite extensively grown by the most progressive Celery growers, and is bound to become one of the most popular varieties in this country.

Its remarkable combination of easy blanching and long-keeping qualities—not found in any other variety—make it at once the most valuable of all Celeries for those who grow for market as well as for all private gardeners, both for an early crop and for Winter use.

The plants are of strong and stocky growth with green foliage, showing a slight tinge of yellow in the inner leaves. The stalks are very large, heavy, thick and solid with shallow ribs and with extra large and firm hearts.

Our strain blanches so quickly and easily that even those who have never been successful in growing good Celery can now produce Celery equal in quality and appearance to that grown by professional growers and can enjoy this wholesome vegetable during the season.

Easy Blanching is of most attractive appearance, largely on account of its large, finely colored heart, and the quality is superb, tender and brittle, with an excellent nutlike, aromatic flavor.

It grows well on muck and upland soil and keeps better in the trench than any other Celery.

Easy Blanching is displacing Golden Self Blanching wherever it becomes known, as it is less liable to blight and is far superior to it in eating and keeping qualities. It is a trifle taller, fully as stout and ready for the market about two weeks later than Golden Self Blanching, but when blanched and ready for sale it can hardly be distinguished from that variety.
BUCKBEE'S "Full of Life" CELERY

BUCKBEE'S GOLDEN YELLOW SELF-BLANCHING
Originator's French Grown Seed.
This is the strain used by gardeners and extensive growers in every large Celery district in the United States. No other strain of seed gives such universal satisfaction, and it is without question the most popular and dependable early strain of Celery grown. The plants are medium sized, stocky, and the stalks crisp, solid, heavy and of a yellowish-green color when young, but as they mature the inner stems and leaves turn a beautiful golden yellow, which adds much to their attractiveness and makes the work of blanching much easier. The handsome color, crispness, tenderness, freedom from stringiness and fine nutty flavor of this variety make it only necessary to be tried in order to establish it as the standard of excellence as an early sort. Pkt. 10c; oz. 60c; 2 oz. $1.05; ¼ lb. $1.95; ½ lb. $3.65; lb. $7.00.

Select American grown seed. Pkt. 8c; oz. 40c; 2 oz. 75c; ¼ lb. $1.40; ½ lb. $2.50; lb. $4.50.

PERFECTED WHITE PLUME
Buckbee's Private Stock.
It is too widely known to require extended description. We will only say that we have not yet found a strain that is as early and of as good a flavor, crisp and tender, as our selection of this sort. It is unsurpassed for Fall and early winter use. Pkt. 8c; oz. 25c; 2 oz. 10c; ¼ lb. 75c; ½ lb. $1.30; lb. $2.50.

NEW COLUMBIA
Buckbee's Perfected Strain.
An early maturing sort, only a few days later than Golden Self-Blanching, and unsurpassed in shape and quality. The plant is of medium height, but very stocky and heavy. The stalks are thick, almost round, resembling in shape those of Giant Pascal, but the color has in it more of the rich yellow tint of Golden Self-Blanching which variety it resembles very much in appearance when trimmed and bunched for the market. Pkt. 8c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.15; lb. $2.75.

BUCKBEE'S "FULL OF LIFE" CELERY SEED
Is noted the World over and is planted by the largest, most critical and successful Celery growers in the United States.

CELERIAC, OR TURNIP ROOTED CELERY

CELERIAC is grown for the bulbous roots, which are excellent for stews, soups, and salads.

NEW DELICATESSE—Root turnip-shaped; much larger, smoother and of more tender, sweeter taste, stronger flavor than other varieties. Pkt. 10c; oz. 35c.

LARGE ROOTED GIANT PRAGUE—Improved form of turnip-rooted Celery, producing large and smooth roots, almost round; few side roots. Large green foliage. Pkt. 8c; oz. 25c.

CELERIAC SEED FOR FLAVORING

Oz. 8c; 2 oz. 12c; ½ lb. 20c; ¼ lb. 30c; lb. 45c.
THE THREE BEST SWEET CORNS

The Best Early  The Best Mid-Season  The Best Late

BUCKBEE'S

"FIRST of ALL" SWEET CORN.

BUCKBEE'S FIRST OF ALL

Extra Early, Large Size, Heavy Cropper, Sweet and Tender. Comparative tests made by Sweet Corn experts throughout the country as well as at Rockford Seed Farms have proven it to be from three days to a week earlier than Cory, making it very desirable, not only for family gardens, but an especial boon to market gardeners who desire to have the first Sweet Corn in market. Ears are of good size, well filled with large grains to the very tip. Many of the ears contain from ten to twelve rows, while the Cory generally has only eight rows. In habit of growth it excels all other early varieties, being stocky and exceptionally vigorous. The quality is excellent and surpassing sweet. Postpaid, pkt. 8c; ½ lb. 10e; lb. 30c.

BUCKBEE'S BEST OF ALL SWEET CORN.

BUCKBEE'S BEST OF ALL

Early, prolific, sweet, tender, large, handsome. "Best of All" is of exceptionally stocky growth and an abundant and satisfactory yielder; ears of large size; kernels very broad and especially sweet, rich, white and tender. Not only is it valuable for family use, but for early market and shipping purposes it is also in the lead. "Mr. Crane, one of the most prominent Sweet Corn specialists, writes: "Give Buckbee's Best of All" a fair trial, and will say that it surpasses every claim that you make for it, and more, too. I can highly recommend it for all general purposes." Postpaid, pkt. 8c; ½ lb. 10e; lb. 30c.

BUCKBEE'S PRIVATE STOCK EVERGREEN

BUCKBEE'S PRIVATE STOCK EVERGREEN

This Sweet Corn as now improved is the best for main crop. The illustration distinctly shows the formation and depth of grains and the manner in which they are set on the cob, which is small in comparison to the size of the ears, making this strain of Evergreen Sweet Corn the most preferable variety ever offered for main crop. For table use the quality of Buckbee's Private Stock Evergreen Sweet Corn cannot be excelled. It is very tender, sugary, and remains a long time in condition suitable for cooking, coming into market at a time when the main crops are being sold, these are very important conditions. For canning purposes Buckbee's Private Stock Evergreen Sweet Corn will prove most satisfactory; its large ears, with long, slender grains, make by far the most saleable canned corn, and it out-yields all other varieties. Many of our customers who made trials of this splendid Sweet Corn the past year, report yields of over 200 bushels of ears per acre. You cannot possibly be disappointed by planting Buckbee's Private Stock Evergreen. Pkt. 8c; ½ lb. 10e; lb. 30c.
The Best First Early Sweet Corns

Buckbee's New Early Sunrise
Absolutely the Earliest Good Sweet Corn

The beauty and quality of this remarkable variety give it prominence over all others for family, market, canning, shipping, and, in fact, all purposes. Ears large (the fat kind), grains of great depth, exceedingly tender and sweet, the sort that fairly melts in the mouth. Something in Sweet Corn that makes everybody talk Early Sunrise as the very best introduction to present date. Our seed stock is carefully grown and selected with the sole object of keeping it up to the highest standard of excellence as the earliest, largest and best on record. This is a very distinct variety, which was originated many years ago by a market gardener in northern Iowa. With us it always proved earlier than any other so-called extra early variety of other seedsmen. The ears are about 6 inches long, 10 to 12-rowed; they are very uniform and handsome and have a small white cob. Postpaid, pkt. 10c; ½ lb. 20c; lb. 35c.

Golden Bantam

A very early Sweet Corn, about ten days later than Sunrise; more hardy and can therefore be planted earlier than most other sweet corn. It grows 3½ to 4 feet high, produces two or more ears to the stalk; the ears, which are 6 to 7 inches long and covered with eight rows of golden yellow grain, are very tender and of exceptionally rich and delicious flavor. Golden Bantam has a distinct taste and many people prefer it to all other varieties. Market gardeners will find it a well-paying crop wherever it has been tried. Our stock has been carefully selected. Postpaid, pkt. 8c; ½ lb. 17c; lb. 32c.
BUCKBEE’S PEDIGREED SWEET CORN

FIRST EARLY VARIETIES—Cont’d

Buckbee’s Everbearing

The ears are of good size and covered with kernels clear to the end of the cob. The husks and stalks are of a red color; each stalk will produce one to two well developed ears; now if these are picked when mature, one to two and even four more ears will set and develop on the same stalk during the next two to four weeks. Three or four dozen hills will supply a good sized family for weeks. Postpaid, pkt. 9c; ½ lb. 18c; lb. 32c.

Perry’s Hybrid

Another very popular variety. Stalks of medium height, bearing two large, 12 or 14 rowed ears, which often have a red or pink cob; grain medium size, cooking very white and tender. Postpaid, pkt. 7c; ½ lb. 17c; lb. 28c.

Moore’s Early Concord

Produces its large, handsome, 14 to 16 rowed ears very low on the stalks and comes into use after Perry’s Hybrid. An excellent sort either for canning factory or the garden. Postpaid, pkt. 7c; ½ lb. 17c; lb. 28c.

Black Mexican

This corn, when very young, cooks remarkably white, but the ripe grain is bluish black. For home use we consider it the best second early sort where tenderness and sweetness are the qualities most desired. It does especially well as a second early variety in the South. The stalks are about ½ feet high. The ears are about 8 inches long and are usually eight rowed. Postpaid, pkt. 8c; ½ lb. 19c; lb. 32c.

Buckbee’s Selected Mammoth Early White Cob Cory

A very fine extra early variety, but somewhat later than Buckbee’s Early Sunrise, and is very largely planted by market gardeners to follow this variety; it has proven a well-paying crop for them. Mammoth Cory is a selection from the old White Cob Cory, but its ears are 12-rowed and the kernels sit very close together, so that there is no lost space on the cob. The grain is large, broad, very white and of sweet, delicious quality. The plants are vigorous growers of medium height and are very prolific. This is a finely bred sweet corn with handsome, symmetrical ears and is worthy a place in every garden. Postpaid, pkt. 8c; ½ lb. 19c; lb. 32c.

Peep o’ Day

Very early small-eared variety. Stalks grow three feet high, have few leaves and produce generally more than one ear to the stalk. Ears small, measuring not more than five inches long and filled from butt to tip with ten rows of small grains of a very sweet flavor. Much grown in the Northwest; not quite as early nor as large as Sunrise. Postpaid, pkt. 8c; ½ lb. 18c; lb. 30c.

Extra Early Cory

One of the most popular varieties and extra early. Ears of good size, well filled to the very tip with eight rows of broad kernels of excellent quality; vigorous grower; about four feet high. Postpaid, pkt. 7c; ½ lb. 17c; lb. 27c.

Early Crosby

A most excellent variety, remarkably early and of the best flavor. Ears of medium size, 12 or more rowed, grain very thick and sweet. Largely grown for canning. Postpaid, pkt. 7c; ½ lb. 17c; lb. 27c.

Early Minnesota

This popular variety is one of the best early sorts for the market and the private garden. By careful selection we have developed a stock which is remarkably uniform, and in which all the good qualities are intensified. The stalks are about 6½ feet high, bearing one or two ears which are about 8 inches long. 8 rowed and have very broad, white, sweet and tender kernels. Postpaid, pkt. 7c; ½ lb. 16c; lb. 26c.

Kendall’s New Large Early Giant

Ears large and long; 18 to 12 rowed. Kernels white, sweet and tender. Very desirable for both market and family purposes. Postpaid, pkt. 7c; ½ lb. 17c; lb. 28c.

Improved Adams Early

While not a Sweet Corn, this is a tender corn often used for the table, particularly in the South. The ears are about 8 inches long, 12 to 14 rowed and the kernels are white, somewhat deeper than broad and indented at the outer end. The stalks are about six feet high. Can be planted earlier than any Sweet Corn. Postpaid, pkt. 7c; ½ lb. 15c; lb. 25c.
BUCKBEE'S NEW GOLDFEN EVERGREEN

The Sweetest Corn Ever Eaten
The Greatest Sweet Corn Yet Introduced
The One Best Sweet Corn

BUCKBEE'S GOLDEN EVERGREEN is the result of a cross between White Evergreen and Golden Bantam, and proved to be a happy and complete blending of each kind, combining the deliciously sweet flavor of Golden Bantam and the evergreen habit of the White Evergreen; those who tasted it say that it outclasses the parent sorts in sweetness and tenderness. It is a true Evergreen, as the ears remain evergreen and edible for many weeks.

BUCKBEE'S GOLDEN EVERGREEN is ready for the table about five days after Golden Bantam, but the ears are much longer than those of that sort, being intermediate in size between those of its parents; they are none too small nor too large and bulky, but just the right size for eating off the cob. The stalks are 6 to 7 feet high, of very strong growth, very close-jointed and sturdy; never blowing over; they bear at convenient height two or more ears, covered with 12 to 14 rows of deep, sugary grains with a tender skin, which is light yellow in the green stage, but cooks to bright golden yellow. The Corn comes true to type.

BUCKBEE'S GOLDEN EVERGREEN is of the right size, nice appearance and considered by all who tried it the sweetest Corn ever eaten. It is sure to outstrip in a few years all other varieties in popularity. We believe it is the best all-around Corn and the most desirable one for the family garden; it is also particularly well adapted for market gardeners having a discriminating trade and has always been sold at a premium, there never having been enough to supply the demand. Pkt. 10c; ½ lb. 30c; 1b. 33c.

NEW HONEY SWEET
A most desirable Second Early Variety

With the possible exception of Buckbee's New Golden Evergreen described above, New Honey Sweet is the sweetest flavored corn grown. Of beautiful pearly white color, and only a week or two later than the Extra Early, this meets with ready sale wherever offered. Ears 12 rowed, medium size. Grains deep and cob small. Quality excellent, and stays fit for the table longer than most sorts. Add to all this the extraordinary sweetness, and you have a corn that is practically without a rival. Postpaid, pkt. 8c; ½ lb. 10c; 1b. 33c.
BUCKBEE’S PEDIGREED SWEET CORN

LATE OR MAIN CROP VARIETIES—Cont’d.

BUCKBEE’S HICKOX

Usually Two to Three Ears to a Stalk. See Illustration. Pop about 6 weeks sooner. One to two weeks earlier than Evergreen. Large, attractive ear; has a white cob and grain and remains in condition for use a long time. Best sort for drying and canning. Postpaid, pkt. 8c; ½ lb. 18c; lb. 30c.

STOWELL’S EVERGREEN

The best known and most largely planted of all the late varieties. This Corn is distinguished by the large ear, the long, deep kernels, its rich, sugary flavor and its long keeping quality. It has been selected for its sweetness and productiveness and large size. No better can be obtained. It is Northern grown. Our stock is particularly fine and our price is very reasonable. Postpaid, pkt. 7c; ½ lb. 17c; lb. 28c.

MAMMOTH LATE OR SUGAR

Produces the largest ears of any variety, a single ear often weighting 2 or 3 pounds. Of excellent quality. Very late. Postpaid, pkt. 8c; ½ lb. 18c; lb. 30c.

COUNTRY GENTLEMAN

This variety is often called the “Shoe Peg” Corn, owing to the arrangement of the crowded kernels, which are long and very sweet. Our seed of this variety has been carefully selected and true to name. It is considered by many the best of the late varieties. It remains tender and fit for use longer than most sorts, as the ear is enclosed in a thick husk, which keeps it “in the milk.” Slender, very deep, white, very tender and deliciously sweet. Postpaid, pkt. 8c; ½ lb. 19c; lb. 32c.

BUCKBEE’S “FULL OF LIFE” POP CORN

Pop Corn should be found in every garden, especially if there are children to enjoy it during the long Winter evenings which bring young people together for social amusement. Pop Corn pops best when more than one year old, and when well popped it becomes twenty times its natural size; thus a quart and a half will make nearly a bushel of popped Corn. Pop Corn is a money-making crop. It always brings a very much higher price than any other Corn and usually a ready market is easily found for any quantity, while in the event of an inactive market it can always be fed and a farmer cannot raise better feed.

NEW TOM THUMB—The newest and best. Dwarf growing, heavy cropping, sure poppers. Beautiful creamy color, making a beautiful appearing dish when popped. Nothing ever grown can compare with this strain. Send to Buckbee for true stock. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.

BUCKBEE’S SNOWBALL—The finest white variety in existence, belonging to the rice family. The best yields and late in advance of any other variety, ears averaging 6 inches in length. Beautiful shape; the best popper. Postpaid, pkt. 10c; ½ lb. 23c; lb. 40c.

NEW RED BEAUTY—Fine variety. The stalks grow 6 feet high, and average three to four ears each from 5 to 6 inches long and covered with large rice-shaped kernels of a deep red color. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.

QUEEN’S GOLDEN—One of the very best and most prolific varieties grown. Its quality and handsome appearance when popped are very noticeable. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. The stalks grow 6 feet high and the large ears are produced in abundance. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

MAXIM’S Prolific—The stalks grow 6 feet high, and the ears are all large in size, with grains nearly clear white in color. At an average ear measured six inches and a half long and contained 586 perfect kernels. Pops pure white, of fine quality. Be sure to include this remarkable variety in your order. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

NEW STRIPED, OR VARIEGATED—A fancy variety, very showy and one of the best quality selected. The large ears, filled out with clear, transparent white kernels, beautifully striped with bright crimson. A good popper. Postpaid, pkt. 8c; ½ lb. 25c; lb. 40c.

BUCKBEE’S NEW BLACK BEAUTY POP CORN—The Most Delicious of All—An extra early variety which pops very large and is the most tender and crisp of all. Although the kernels are black, this color does not seem to show at all when popped. It will then be nearly white. This new variety has been bred in Wisconsin and is extremely early, ripening so early it may be popped the same season as grown, without kiln drying. Ears about 6 inches long, twelve-rowed; kernels smooth, shallow, nearly square. Postpaid, pkt. 10c; ½ lb. 30c; lb. 60c.

Buckbee’s Hickox Sweet Corn.

Country Gentleman Sweet Corn.

Special Offer FOR ONLY 55c we will send postpaid ONE LIBERAL PACKET EACH OF THE 7 GRAND VARIETIES OF POP CORN listed on this page.
BUCKBEE'S "FULL OF LIFE" PICKLING CUCUMBERS

BUCKBEE'S NEW ROCKFORD PICKLE

Without question the finest variety for pickling, possessing every qualification required of a perfect pickling Cucumber and is four-to-one in productiveness compared with other standard sorts. It has become a general favorite everywhere and is used exclusively by many pickle factories throughout the country. The fruit is of medium size, slender, cylindrical, with large spines and of dark green color. It is wonderfully even in growth and the whole crop can be depended upon to make fine shaped pickles. The vines begin to set the fruit when quite young and continue to bear longer than any other variety, yielding many hundred bushels per acre. You will find this variety valuable for slicing also, being of fine flavor, crisp and delicious. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; 1 lb. 75c; 2 lb. $1.25.

EARLY GREEN CLUSTER

Fruit is of the form desirable for pickling. Extraordinarily prolific, growing in clusters of 2 to 3 Cucumbers. Nothing more desirable for small pickles. If the fruit is kept closely gathered the vines will continue bearing all summer. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

BUCKBEE'S INTERNATIONAL

This grand, good, early variety of our own introduction more than pleased all who have tried it. Has no thick ends; of rich, luxuriant growth, an abundant yielder; has beautiful medium-sized fruit always of good, even shape. In flavor it has no superior, always tender and crisp. You should not fail to try it. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. $1.25.

EARLY PROLIFIC SHORT GREEN, or EARLY FRAME

A most excellent sort for pickling as well as for slicing. Vigorous, productive plants. Fruit straight, handsome, crisp and tender. Keeps green a long while. Our stock is Al. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; 1 lb. 80c.

NEW EVERBEARING

The merit of this variety is in the fact that the vines produce fruit continuously until killed by frosts. They exhibit at the same time Cucumbers in every stage of growth, but invariably of perfect form, even when quite small. The fruit is of fine green color and very desirable for pickling. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; 1 lb. 85c.

SNOW'S PICKLING

An early maturing, very small, dark green Cucumber, cylindrical, square ended and very popular with growers for small pickles. We have been growing this variety ourselves for several years, giving special attention to purity and uniformity of type, and we believe the seed we offer meets the requirements of those who want an ideal bottle pickle. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; 1 lb. 85c.

WESTERFIELD'S CHICAGO PICKLE

A very desirable sort: fruits of medium length, tapering at each end, with very large and prominent spines. The color is deep green. This is a most prolific variety and is very largely grown for pickle factories. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; 1 lb. 85c.

BUCKBEE'S NEW EXTRA EARLY LONG GREEN

The Ideal Variety to Plant for General Crop.

Produced by selection from Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts. Fruits often measure 15 to 20 inches when fully matured. They are of fine quality, firm and crisp. Highly valued for slicing. The young fruits make the best pickles, and when ripe are preferable to any for sweet pickles. Our strain is the finest in the market, producing fruits uniformly long, slender, of nice dark green color and of good form, with the large warts and spines well distributed over the surface. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; 1 lb. $1.25.

Buckbee's New Extra Early Long Green.
BUCKBEE'S "FULL OF LIFE" CUCUMBERS

BUCKBEE'S MONARCH WHITE SPINE

An extra early White Spine Cucumber; fruits are ready to gather only 5 or 6 days later than Buckbee's First Crop, which is the earliest Cucumber grown. But they are much larger, growing usually from 8 to 10 inches in length. They are nearly cylindrical in form, slightly pointed at the ends; very smooth, straight and of intensely rich dark green color; are very uniform in shape, size, color, always retaining their beautiful color until fully ripe, and presenting the finest appearance on the market. The flesh is white, fine grained, solid and of excellent flavor. The vines are robust, free of disease, setting on fruit quite early and bearing continuously until frost. They produce the largest crop of any known variety.

The Monarch is a sport of the Early White Spine. We have devoted many years to perfecting it by careful re-selection of the finest specimens, but it has been tried now throughout the entire country and has not been found wanting in a single point. We recommend it as the best strain of Extra Early White Spine for the market and for the home garden. It is one of the finest Cucumbers for slicing and one of the best for small pickles. This is the variety mostly grown for the market in the South, yielding crops there of more than $1,000.00 per acre and is matchless for shipping long distances. Pkt. 10c; oz. 25c; 1/4 lb. 40c; 1/2 lb. 65c; lb. $1.25.

BUCKBEE'S FIRST CROP

This is the earliest of all cucumbers producing marketable fruits of good size; the fruits are 8 to 9 inches long, straight, cylindrical, blunt at the ends and of very dark green color, which they retain a long time after picking. They grow very uniform in shape, size and color. The flesh is firm, crisp and of the finest flavor. The vines are healthy, very vigorous and produce a good crop much before any other variety and continue bearing for an unusually long time. Owing to its extreme earliness, good size, and its beautiful dark green color, it is of great value for the market gardener and is grown on a large scale in many localities of the South to ship North, having proven a big money maker for the Southern shippers. As a pickle for bottle goods, they are also much used, being of ideal size and shape.

Pkt. 10c; oz. 15c; 1/2 oz. 25c; 1/4 lb. 40c; 1/2 lb. 65c; lb. $1.25.

BUCKBEE'S NEW ALASKA

Beautiful in shape and color and of the finest quality. An entirely distinct sort developed by ourselves. The vine is vigorous and productive and comes into full bearing very early. The fruit is of fine shape with crisp and tender flesh. An excellent sort for culture under glass. The fruits are about 7 to 8 inches long and are ready for the market between Buckbee's First Crop and Monarch. Pkt. 5c; oz. 10c; 1/2 oz. 15c; 1/4 lb. 30c; 1/2 lb. 50c; lb. $1.00.

BUCKBEE'S NEW IVORY KING

The Only Pure White Cucumber. During the whole period of growth from the time they first set until full grown, the form is exceptionally straight and symmetrical, making them as choice for a slicing variety as for pickles. The flesh is firm, very crisp, and tender at all stages. Fruit large with clear white skin, tender and excellent in flavor, makes an excellent show for home garden. Pkt. 10c; oz. 15c; 1/2 oz. 25c; 1/4 lb. 40c; 1/2 lb. 65c; lb. $1.25.
BUCKBEE’S “Full of Life” CUCUMBERS

Davis Perfect—Buckbee’s Private Stock

The Most Popular of Extra Long White Spine Cucumbers, Both for Indoor and Outdoor Planting.

In the Northern States where long varieties of Cucumbers are preferred on the markets, Davis Perfect is the one most grown by market gardeners, and is also the most productive and the most perfect and handsome in form and color of the long White Spine sorts. There is always a ready sale for these beautiful, slender, dark green fruits, which measure from 12 to 18 inches in length and always retain their color until fully matured; and this color, the handsomest of all Cucumbers, is alike on field and hothouse-grown stock. About a week or 10 days later than Monarch White Spine. We have the finest strain of this variety in the country.

Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; 1 lb. 65c; lb. $1.25.

Klondike

An extra fine new strain of White Spine, of very beautiful dark green color. Extremely popular in the South to ship North. Good for table, market or pickling. Comes into bearing early and continues through the season. The fruit is firm and hard and keeps in prime condition a long time after picking. Grows about 8 inches long and matures between Monarch and Davis Perfect.

Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¼ lb. 55c; ½ lb. 90c.

New Cumberland

Fruits light green, long, straight, thickly set with fine spines. Fine for pickles and slicing.

Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 30c; ¼ lb. 55c; ½ lb. 90c; lb. $1.00.

New Parisian

Prolific Pickling

Decidedly the best of all in quality for pickling. The fruit is of an unusually dark green color, so deep that no coloring matter is necessary in preparing them for pickling. Very crisp and tender.

Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

We can also supply the following varieties of Cucumbers, which are too well known to require description, at the following prices:

- Each pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ¼ lb. 50c; lb. 90c.
- Davis. Early Russian. New Emerald.

ODD CUCUMBERS

SNAKE OR SERPENT

This Cucumber is curious as well as useful. We have seen it 6 feet in length, coiled like a serpent. It is an interesting thing in the garden and for exhibition purposes. It is good for food, of fine quality.

Pkt. 5c; oz. 30c.

LEMON CUCUMBER

A real Cucumber not to be confounded with the Garden Lemon. An entirely distinct variety, similar in shape to that of a lemon and when ripe of same color. Skin smooth, flesh white, tender, crisp, of a sweetness and luscious flavor surpassing all other Cucumbers. Will yield four times as many Cucumbers as any other variety. Should be in every garden.

Pkt. 5c; oz. 30c; 2 oz. 35c.

GIANT PERA

Of enormous length, often 2 feet long and of great beauty. Crisp, brittle, of mild flavor, with but few seeds. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 65c; lb. $1.25.

JAPANESE CLIMBING CUCUMBER

The vines are of vigorous growth, with dark green foliage and have strong tendrils, enabling them to climb trellises, brush, etc. Comes into bearing quickly and continues abundantly through the season, while the climbing habit enables the fruit to grow perfectly straight—from 12 to 15 inches in length. Flesh pure white, thick, tender and of delicate flavor. When young makes attractive pickles.

Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 65c; lb. $1.25.
CHRISTMAS SALADS AND CHICORY

BUCKEE’S CHRISTMAS SALAD
The Very Choicest of All Winter Salads.
This is the new salad which is sold at such high prices by dealers of fancy fruit during winter and is so much relished by epicures at the leading hotels.
The blanched heads are the edible portion of the plant and they are ready to use as soon as they show above the sand, which should be in two or three weeks.
The heads are oblong and very solid, they blanch ivory white and are often quite large, equal to a compact Cos Lettuce. When lifting cut whole head with small portion of the roots attached to it to hold the leaves together. They are generally eaten raw with French dressing and are the tenderest and most delicately flavored of all salads. Pkt. 5c; oz. 25c; 2 oz. 45c; ½ lb. 85c.

WITLOOF CHICORY OR FRENCH ENDIVE
A delicious winter vegetable which is really a variety of chicory, but is sometimes called French Endive and can be eaten raw as salad or boiled. Bask a profitable crop, can be easily grown by anyone. The seed should be sown in the open ground not later than June and can be thinned out the plants so that they will stand not closer than 3 inches. Pkt. 5c; oz. 20c; 2 oz. 35c; ½ lb. 65c.

CHICORY—LARGE ROOTED OR COFFEE
Dried and prepared roots are used quite extensively as a substitute for and an adulterant of Coffee. Pkt. 5c; oz. 15c; 2 oz. 25c; ½ lb. 45c.

ASPARAGUS CHICORY
A good healthy and tasty substitute for the well known “Asparagus” and can be produced from seed the first year. The sprouts of this plant, when cut fresh, boiled in salt water, and served either warm, or as a salad, make a most excellent substitute for the genuine article. It can be blanched like the same as celery and is preferred by many to that delicious vegetable. Pkt. 10c; oz. 45c.

NEW UPLAND CRESS—Has the highly prized flavor of Water Cress. Its usage should be more general, as it is of as easy culture as Spinach. It is a perennial plant and can be grown for several years without renewal. Pkt. 5c; oz. 20c.

CURLED OR PEPPER GRASS—Much used with Lettuce to the flavor of which its warm, pungent taste makes a most agreeable addition. Pkt. 5c; oz. 6c; 2 oz. 12c; ½ lb. 20c.

TRUE WATER CRESS—Known as the last; thrives only when its roots and stems are submerged in water. Grown best along moist banks of small, rapid streams, or in a tub, in water-covered soil. The plants will increase rapidly by self-sown seed and extension of the roots. One of the most delicious of small salads. Pkt. 10c; oz. 35c.

CRESS

CURLY—Hardy annual, worthy of more general use for flavoring and garnishing than Parsley. Greatly superior to the old, plain variety, earlier, more handsome, having fully as fine perfume and flavor. Pkt. 10c; oz. 25c; 2 oz. 45c; ½ lb. 80c.

CORN SALAD
This delightful salad is used during the late Fall, Winter and Spring months as a substitute for Lettuce. It is also cooked and used like Spinach. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c.

CHIVES
Also Called Schnittlauch
Chives are perfectly harshy perennial plants of the Onion type. They are grown for their small leaves which are produced very early in the spring and are used for giving a mild onion flavor to various dishes. Easily raised from seed. Pkt. 15c; 2 pkts. 25c; Selected clumps or plants by mail 20c each; $1.75 per doz., postpaid.

CHIVES—SCHNITTLAUCH

CHUFAS OR EARTH ALMOND
In sweetness and flavor very much resembles a cocoanut or almond and greatly liked by all children. Very is side from a large pea to a hazelnut. The nuts grow under and from near the surface of the ground, easily reached and relished by pigs and poultry. As soon as the crop is grown, turn these animals into the field, thus saving the labor of harvesting and feeding. Pull up a few plants from the roots and leave them on the ground, and when other hogs or chickens get a taste of them they will go over the whole field in search for them. Very prolific, nutritious and fattening. Pkt. 15c; ½ lb. 15c; 1 lb. 20c; ½ lb. 35c.

CORN SALAD

CORN SALAD

COLLARDS
Georgia, Southern or Creole
A variety of Cabbage known in different sections as "Cole," "Colewort," or simple "Greens." It is extensively used in the South. We offer the true white or green stemmed sort so popular in the South. Forms a large, loose, open head, on tall stems. Freezing does not injure but rather improves their quality. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

THE WONDERFUL COFFEE BERRY
The Greatest Health Drink—Once Tried Always Used
All pronounces it better than the genuine. It is certainly the best berry to mix with any other coffee. Half and half will produce a drink claimed by many to be equal to a good cup of Rio. You can raise your own coffee for one cent a pound. Full directions on every package. Large pkt. 5c; ½ lb. 15c; ½ lb. 25c; lb. 40c.
BUCKBEE'S "FULL OF LIFE" EGG PLANT

BUCKBEE'S NEW EARLY LARGE PURPLE

Better variety than New York Purple. Its earliness, large size, high quality of fruit, and its extreme productiveness make it the most profitable to grow. Plants large, spreading; foliage light green. Fruit very large, oval or short, pear-shaped; skin smooth, deep purple; flesh nearly white. Plants ripen two to six large fruits, entirely free from spines. Pkt. 10c; oz. 40c; 2 oz. 80c; ½ lb. $1.50.

New Black Beauty

This recently introduced Egg Plant is from 10 days to 2 weeks earlier than the old New York Purple varieties, and of rich, lustrous, purplish-black color, and is a most distinct sort and a favorite where known. The plants are remarkably healthy in their growth, and yield an abundance of large fruits, which are very attractive in appearance. This variety is entirely spineless. The fruits are of the very finest possible quality. Pkt. 5c; oz. 45c; ½ lb. $1.40.

Buckbee's New White

Produces large fruits, and is very productive. The flesh is more tender and flavor more delicate that that of many purple varieties. Pkt. 5c; oz. 40c; 2 oz. 75c; ½ lb. $1.35.

Improve New York Purple

Large, round or oval, of excellent quality; highly esteemed in market. Pkt. 7c; oz. 35c; 2 oz. 75c; ½ lb. $1.35.

Extra Early Long Purple

One of the earliest and most productive varieties. Fruit long, dark, rich purple, and of fine quality; earlier but smaller than New York Purple. Pkt. 5c; oz. 35c.

Honey Plant Seed

SPECIAL MIXED—From all the best honey plants that have been found; highly esteemed in market. Pkt. 5c; oz. 10c; ½ lb. 35c; ½ lb. 65c; 1 lb. $1.00.

Endive or Winter Lettuce

GIANT FRINGED OR OYSTER—When fully grown, the center portion can be blanched to a creamy white by tying up, and contrasted finely with the deep green tips of the outer leaves. It is of excellent flavor served as salad. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ½ lb. 65c; 1 lb. $1.25.

GREEN CURLED—A very attractive sort. Dense heads with divided leaves of bright green color, blanching readily to creamy white. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; 1 lb. $1.00.

NEW MOSS CURLED—A dense cluster of finely cut-in green leaves, resembling a tuft of moss. When properly blanched they are crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; 1 lb. $1.00.

BAYTAN OR ESCAROLLE—Large, solid heads, thick leaves which can be blanched a fine white and are unsurpassed for salad or make excellent cooked greens. Probably used more than any other variety. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; 1 lb. $1.00.

Horse Radish

Horse Radish rarely produces seed, but is grown from pieces of the roots.

NEW BOHEMIAN OR MALINER KREN.

Ordinary Horse Radish is a very profitable crop, but with this magnificent new sort from Bohemia the possibilities are wonderful. The roots are so much larger and heavier that the yield is about doubled. Then, too, it matures so much quicker that the crop can be sold in October. The flesh is pure white. Three and four tons per acre can be grown easily. Fine Sets, postpaid, 30c per doz.; $1.75 per 100. By express or freight, not prepaid, 190 for $1.35; 300 for $7.25; 1,000 for $11.00.

COMMON HORSE RADISH

The old-fashioned standard variety. Sets or Roots, postpaid, 25c per doz.; $1.50 per 100. By express or freight, not prepaid, 190 for $1.35; 300 for $7.25; 1,000 for $12.00.

Dandelions

Improved Large Leaf.

An improved variety of Dandelion, very early. Leaves fully double the size of the common Dandelion. Now in May or June and cultivate during the Summer, and the following Spring the leaves will be fit to cut. Cultivated Dandelions are fast becoming favorite Spring Greens. If blanched like celery they make a fine and delicious salad. The roots when dried and roasted are often employed as a substitute for coffee. Pkt. 10c; oz. 30c.

Garlic

The Garlic is the most pungent in taste and has the strongest odor of all the Onion family. It is largely used in the South of Europe, where it is esteemed for flavoring soups, stews, etc. The root or bulb is composed of many small bulbs called ‘cloves,’ which are planted in the spring. We frequently receive orders for Garlic seed, but can supply the bulbs only. Fine bulbs—½ lb. 25c; ½ lb. 40c; lb. 75c, postpaid.

Endive—New Moss Curled.

Endive or New Moss Curled.
GOURDS

CALLABASH PIPE

NEW NEST EGG—Resembling in color, shape and size the eggs of hens. Do not crack, last for years, and make the best of nest eggs. Rapid grower and good climber, extremely ornamental and useful for covering screen, etc. Pkt. 5c; oz. 25c.

HECERA CLUB—Enormous, long club-shaped fruit, curious and at the same time exceedingly useful to use in storing various articles, as the fruit is hard shelled and lasts for years in perfect condition. Pkt. 5c; oz. 15c.

NEW SERPENT—A beautiful climbing variety of easy culture, having foliage and serving as the best shade. None better for climbing purposes. Pkt. 10c.

DIPPER—Another useful gourd that, as its fruit is light and strong and does not rust, rot or heat easily, is just right to use in dipping hot liquids, soap, etc., besides being useful for birds' nests, farm and hanging baskets, etc. They hold from a pint to a quart and a half each. Pkt. 5c; oz. 18c.

NEW SPOON—Small fruits with slender neck four to five inches long, brilliantly marked in green and orange with white or light green stripes. By slicing off a portion on the side of the bowl and drying the shell, a spoon may be made. They will be found quite useful also in darting stockings and gloves, while the dry fruits with the seeds left in make fine filler for the baby. Pkt. 10c.

FINEST MIXED—Combining in the largest mixture the most curious, interesting and useful of the entire Gourd family. Pkt. 5c; oz. 15c.

KALE OR BORECOLE

1 oz. of seed for 3,500 plants.

DWARF EXCELSIOR GREEN MOSS CURLED KALE—(Greens or Sprouts)—This is harder than cabbage and makes excellent greens for Winter and Spring use. The leaves are as curly as Parsley, tender, and of very fine flavor. It is improved by frost. Sow the seeds in May or June, transplant in July and treat same as Cabbage. Immanse quantities of this a grown in the South and shipped to Northern Markets. Pkt. 5c; oz. 18c; 2 oz. 30c; ½ lb. 60c.

TALL GREEN CURLED SCOTCH—This variety is very handy and is improved by a moderate frost. About thirteen inches tall, with an abundance of green leaves, which are densely curled and crinkled. Stands the Winter in the Middle States without protection. Pkt. 5c; oz. 15c; 2 oz. 25c; ½ lb. 40c.

SIBERIAN—One of the best known and most largely used varieties of Kale. It is sometimes called Sprouts or Greens. The green leaves are very large, and comparatively plain in the center, but cut quite evenly, and distinctly frilled on the edge. The plant is low but spreading and very hardy. Plt. 5c; oz. 12c; 2 oz. 20c; ½ lb. 35c.

KOHLE RABI

A vegetable intermediate between the Cabbage and Turnip, combining the flavor of both. Edible part is a turnip-shaped bulb, formed by swelling of stem. When used for the table this should be cut when quite small, as it is then very tender and delicate.

KING OF THE EARLIEST—WHITE—Early and choice. Handsome white bulbs. Pkt. 5c; oz. 15c; 2 oz. 30c; ½ lb. 60c.

IMPROVED EARLY IMPERIAL—PURPLE—Color bright purple, with leaf stems tinged with purple. Pkt. 5c; oz. 18c; 2 oz. 30c; ½ lb. 55c.

LEEK

Belongs to the Onion family. Sow the seed and care for the young plants as for Onions.

NEW FLAG—We offer a very superior stock of this popular variety, as largely grown for Fall and early Winter use. It is of quick growth, producing long stems of uniform shape and size, averaging 12 inches through by 10 inches long, blanched beautifully white and fine. Mild flavor. Pkt. 5c; oz. 15c; 2 oz. 35c; ½ lb. 65c.

ROUEN VERY WINTER—The best variety for winter and spring use, being very hardy; it keeps well when earthed up. Splendid for flavoring. Immeasurably stone stems 3 inches in diameter; 6 to 8 inches long, snow white and of delicious flavor. Pkt. 5c; oz. 18c; 2 oz. 35c; ½ lb. 60c.

Kale, Excelsior Moss, Curled.
HERBS Pot, Sweet and Medicinal

Save a corner of the garden for a few Pot and Sweet Herbs (for flavoring soups, meats, etc.); they are indispensable to every garden, while some of the Medicinal Herbs will be found very useful. They thrive nicely along the sunny side of the fence, in a deep and fairly rich soil.

ANISE
Used for cordial, garnishing and flavoring. Pkt. 5¢; oz. 18¢.

BALM
The leaves are used for making a pleasant beverage known as Balm Wine or Tea. Pkt. 5¢; oz. 25¢.

BASIL, SWEET
The leaves are used in flavoring soups, stews and highly-seasoned dishes. Pkt. 5¢; oz. 25¢.

BORAGINE Leaves used for flavoring, and flowers furnish bee pasture; most easily grown in any waste place. Pkt. 5¢; oz. 15¢.

CARAWAY Seeds are used for flavoring bread, pastry, meats, etc. The oil relieves gas on the stomach and prevents gripping. Pkt. 5¢; oz. 15¢.

CATNIP, or CATMINT
Grown for bee pasture. Leaves and young shoots are used for seasoning. Pkt. 10¢.

CORIANDER
The seeds are used in the manufacture of liquors, in confectionery, and culinary preparations. Pkt. 5¢; oz. 10¢.

CHAMOMILE
Makes valuable pot liquors. Desirable also for diseases of the stomach. Pkt. 10¢.

DILL
Fruit is warming, stimulating and quiet nerves. The tea is good for colic and prevents hiccuph. Used largely for pickling with cucumbers. Pkt. 5¢; oz. 10¢; 2 oz. 15¢; ½ lb. 30¢; ½ lb. 50¢.

FENNEL, SWEET
The leaves are ornamental. When boiled, are used in fish sauces, also make a splendid tea for colic. Pkt. 5¢; oz. 15¢.

HOARHOUND
Used for seasoning, also for the manufac-turing of the popular cough remedy. The tea is a remedy for colds and lung affec-tions. Pkt. 5¢; oz. 25¢.

LAVENDER
An aromatic medicinal herb. The leaves are used for seasoning, the flowers for perfume. Pkt. 5¢; oz. 25¢.

MARJORAM, SWEET
The leaves and the ends of the shoots are highly esteemed for seasoning. Pkt. 5¢; oz. 25¢.

MIXED HERBS

For medicinal purposes; used for fowls having pouls. Pkt. 10¢.

SAGE
The most extensively used of all herbs for seasoning and dressing. Pkt. 5¢; oz. 10¢; 2 oz. 80¢; ½ lb. $1.30.

PENNYROYAL
The tea is valuable for colic. The fresh herb is obnoxious to mosquitoes. Pkt. 10¢; 3 pkts., for 25¢.

SUMMER SAVORY
The leaves and flowers are used for flavoring soups and dressings, etc. Pkt. 5¢; oz. 20¢.

THYME
The leaves and young shoots are used for seasoning; a tea is also made of the leaves, a remedy for headaches. Pkt. 5¢; oz. 25¢.
Buckbee’s “Full of Life” Lettuce

Curled or Loose Leaved Varieties

For those who like a large, thin, exceedingly tender leaf, and for those markets which demand a large, loose cluster of leaves rather than a solid head, this is the best variety for forcing and growing in the open ground.

BUCKBEE’S EARLIEST FORCING
The Earliest Lettuce Grown.

The plants form a large, loose head, rich light green in color and blanched nicely. The leaves are very much blanched and crumpled, crisp, and are of excellent quality. This is the earliest of all Lettuces; it is a splendid shipper, of beautiful appearance and keeps in good condition better than any other sort. It is a money-maker for the market gardener, either if sown under glass or outdoors, and is very satisfactory for the home garden. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 45c; 1 lb. 86c.

GRAND RAPIDS FORCING
Buckbee’s Private Stock.

New variety of superior quality and beautiful appearance; a strong grower, free from rot; one of the best for forcing; keeps crisp and tender without wilting, when exposed for sale, longer than most other forcing Lettuce. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 50c; lb. $1.00.

IMPROVED BLACK SEEDED SIMPSON Buckbee’s Private Stock.

Acknowledged one of the best early forcing varieties. Leaves are a delicate green, almost white, crisp, tender and sweet. Very early, easily grown, very reliable, does well in hot Summers when others fail. Grown for the market, but also very popular for the home garden. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 50c; lb. 90c.

SIMPSON’S EARLY CURLED

A decided crisp variety. Color, very light green; never spotted or brownish in any part. Quality excellent; sweet in flavor. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 50c; lb. 90c.

TOMHANNOCK

Handsome reddish bronze Lettuce.

Edges of outer leaves are a reddish bronze; within, the leaves are almost white. Very crisp, tender and sweet. Keeps in fine condition for a long time. Excellent for the home garden. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 50c; lb. 90c.

Cos Lettuce

Cos Lettuce is distinct from other varieties, in having long, narrow, spoon-shaped leaves, folding into loose, sugar-loaf shaped heads which blanch better by having the outer leaves drawn about them and tied. The heads are always crisp and mild and considered by many superior to other kinds.

PARIS WHITE COS—Grows to very large size, producing long, pointed, compact bunches of light green color and fine flavor. Succeeds well in Summer, grows to immense size. Plants often weigh 5 to 6 pounds each. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 50c; lb. $1.00.

DWARF WHITE HEART OR CELERY—Noted for its most excellent flavor. Earliest in cultivation. The plants grow about 8 inches high and 4 to 5 inches across. Of stiff growth, every plant making a well-developed head of the most excellent flavor, almost crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 50c; lb. $1.25.
BUCKBEE'S MAMMOTH ALL HEAD LETTUCE
THE WORLD'S ONE UNBEATABLE HEAD LETTUCE

 Entirely New and Distinct

The Most Wonderful Market Gardeners' and Shippers' Lettuce Known

The Best Smooth Leaved Firm Heading All Season Lettuce

Slow to Run to Seed, Unaffected by Hot Weather

A Sure Header and a Large Header

QUALITY
NOTHING BUT
QUALITY

Mammoth All Head is a great improvement on the well-known Big Boston Lettuce. It forms larger heads, more compact and tightly folded, and is about 10 days earlier than either the white or black seeded variety. It is without the reddish brown tinge on the leaves and, furthermore, it can be sown all through the growing season, and stands heat remarkably well. It is slow to run to seed, and will not scald or burn and will make a head when other varieties fail. In our repeated trials we have found it to be the best smooth leaved, firm heading Lettuce to grow through the summer months.

Mammoth All Head is one of the earliest, large Cabbage-Lettuces grown, forming heads in six weeks from sowing, and the heads grow to a large size, often more than 12 inches across, are solid and compact with few outer leaves; of an attractive bright light green color, never spotted or reddish in any part. They blanch creamy white, have a decidedly buttery flavor and are crisp, tender and sweet.

This is the grandest, most valuable Lettuce ever introduced. There is no other variety giving such general satisfaction under so many varying conditions. Grown in the open ground, or forced in cold-frames or cool greenhouses, it produces a perfect head of extra large size, which never fails to please both grower and user.

Pkt. 10c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ¼ lb. $1.30; lb. $2.50.
Buckbee’s “Full of Life” Lettuce—Butterhead Varieties—Cont’d

Buckbee’s Extra Early May King
The Earliest Head Lettuce Grown.

An ideal Lettuce for planting in the open ground in Spring, as well as in Fall, and also splendid for forcing. Extremely hardy and very quick growing. Plants grown from 7 to 8 inches in diameter with outer leaves so closely folded that the plant is practically all head. Outer leaves are light green, slightly tinged with yellow, of a specially fine, rich, buttery flavor. The round, compact heads are very solid, so that they will carry well to market. It attains a size suitable for use before any other large heading variety. Buckbee’s May King is an extra fine strain and is much earlier than that mostly sold by others. Pkt. 5c; oz. 15c; 2 oz. 25c; ½ lb. 40c; 1 lb. 75c; lb. $1.25.

Buckbee’s Mammoth Big Boston
A very popular variety with market gardeners. It heads well in the open ground during cool weather in Spring and Fall and is grown very extensively in the South for shipping North during the Winter. It is also a fine forcing variety for cold-frames during the Winter months. Our strain is very hardy, sure to head and produces solid heads of large size, often 10 to 12 inches across, which are slow to go to seed. The leaves are thin, hard and crisp, comparatively smooth but wavy at the edges and are of bright, light green color, slightly tinged with reddish brown. The inner head blanches to an attractive greenish white. The quality is excellent.

Our seed of this famous variety is used by thousands who purchase it year after year, testifying by that to its wonderful quality. Pkt. 7c; oz. 15c; 2 oz. 35c; ½ lb. 40c; ½ lb. 75c; lb. $1.25.

Buckbee’s Ice Drumhead
A Sure Header, Slow to Run to Seed, Unaffected by Hot Weather. Crisp, Tender and Delicious. Absolutely Free from Bitterness.

It grows rapidly; heads very early, only little later than May King, but the heads are much larger, as large as Dutch Cabbage and solid as that. The leaves are thick, broad, light green outside, changing towards the center from a golden yellow to a creamy white. The heads are as palatable as beautiful; very tender; never bitter; of deliciously sweet, buttery flavor.

Buckbee’s Ice Drumhead is a sure header and an all-header. It stands hot weather better than any other variety of its class. Ready for use when quite young until it runs to seed. Buckbee’s Ice Drumhead is one of the best sellers of Lettuce we grow. It is immensely popular, especially in the Northern and Central States, and justly so, as it is unexcelled in its superb quality, beautiful appearance, heat resistance, keeping and shipping qualities. We control the entire stock of this variety. Pkt. 8c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ½ lb. 75c; lb. $1.25.
BUCKBEE'S "FULL OF LIFE" LETTUCE—BUTTERHEAD VARIETIES—Continued

BUCKBEE'S SUPERB—An extra early variety, a few days earlier than May King, but smaller. Mostly used for forcing during Winter, for which purpose it has no superior. Wonderfully crisp, tender and delicious flavor. Pkt. 5c; oz. 10c; 2 oz. 16c; 2 lb. 25c; 2 lb. 45c; lb. $1.10.

ALL SEASON OR IMPROVED DEACON—This magnificent Butter Lettuce is unsurpassed for family, garden or market use. Light green outside, while the inner blanched portion is a beautiful cream yellow, of delicious, rich buttery flavor. More heat and drought resistant than most varieties of its class. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. $1.00.

BUCKBEE'S NEW GOLD COIN—The heads are solid and compact and measure 7 inches across. Outer leaves covered with russet red and bronze green, the solid hearts of light creamy color. Very early. Quality excellent. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ¼ lb. 55c; lb. $1.00.

CALIFORNIA CREAM BUTTER—Also called Royal Summer Cabbage. Dark green, round, thick leaves forming a very solid round head, which stands a long time without running to seed. Outer leaves spotted brown, inner ones blanched to a rich yellow. Exceedingly rich, buttery, sweet and nutty in flavor. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 55c; lb. 90c.

EARLY BLACK-SEEDED TENNIS BALL or SALAMANDER—Succeeds everywhere and at all seasons. Sure header, a fine shipper, excellent quality. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 50c; lb. 90c.

BUCKBEE'S "FULL OF LIFE" LETTUCE—CRISP HEAD OR SUMMER VARIETIES

VONDERFUL OR NEW YORK MARKET

A Big Money Maker. The Standard Main Summer Crop. Hot Weather Head Lettuce.

A grand Head Lettuce, sometimes called New York and Los Angeles, furnishes fine crisp Lettuce during the hot Summer months. This is one of the largest varieties grown, producing heads more than 15 inches in diameter and weighing more than 2 pounds each. The outer color is rich dark green, but the heart blanches beautifully and is crisp, tender and delicious. It is reliable, a sure header, and is slow to go to seed. Extensively grown in all sections of the country for Summer use, but also planted in Fall and Winter, especially in the Southwest, from where thousands of carloads of it are shipped during the Winter to Eastern cities. It stands shipping as well as Cabbage and remains in good condition longer than most heading sorts. Most desirable for the private as well as the market gardener. Not used for forcing. Pkt. 8c; oz. 20c; 2 oz. 35c; ½ lb. 60c; ¼ lb. $1.10; lb. $2.00.

NEW ICEBERG

Quick growing and of exquisite flavor. The large curly leaves which cover the outside of the solid head are of bright, light green, with a slight reddish tinge on the edges. They have small indents which are constantly filled with dewdrops, keeping it fresh and showing a remarkable crystalline appearance. We can confidently recommend New Iceberg as always crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

IMPROVED HANSON

Heat-Resisting. Much Used for Midsummer Planting Outdoors. Large, firm cabbage-like heads with thick outer leaves frilled at the edge and of light green color. The inner leaves are white and delicately sweet, crisp and tender. An old, most popular variety grown everywhere and extensively used for the kitchen garden as well as market. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 56c; lb. 90c.

BUCKBEE'S COMBINATION LETTUCE MIXTURE

One Sowing Produces Salad for the Whole Season.

Contains a grand assortment of decidedly distinct and excellent Lettuces. They mature early, medium and late; some curled and crimped, others produce heads. Colors range from almost pure white, through delicate shades of green and yellow to rich golden. All are delightfully fresh, crisp, tender and of excellent flavor. All sizes, from the small early to the mammoth Summer varieties. Liberal pkt. 5c; oz. 15c; 2 oz. 20c; ½ lb. 35c; ½ lb. 60c; lb. $1.00.
Resembling the old Emerald Gem in shape, color and flavor, but though this old standby is considered the standard of excellence in quality among melons, it is only of small size and will not stand shipping; Buckbee's New Giant Wonder Gem, however, is much larger; in fact, it is the largest good melon growing, weighing under ordinary conditions as much as seventeen and eighteen pounds each and with special care much more, and it is also much more netted and of good shipping quality.

The melons are globular, slightly flattened, deeply but irregularly ribbed, covered more or less with shallow netting; the flesh is of deep, rich salmon color, about 3 inches in thickness, thicker than the flesh of any other sort we know of; the melon is indeed almost all solid meat, the cavity being very small, hardly large enough to accommodate the seeds. In quality it is like Emerald Gem when at its best, highly aromatic, of the richest and most luscious flavor, most tender, entirely stringless, practically melting in your mouth. This delicious flavor extends to the very rind.

The vines are of vigorous growth, and the foliage of firm texture, resisting the attack of insects and blight.

These fine, large melons will always sell at good prices, as they closely resemble in appearance and flavor the large, greenhouse grown melons sold at fancy prices at the fruit stands.

Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 50c; 1 lb. 90c; lb. $1.75, postpaid.

A Field of Giant Wonder Gem

Buckbee’s Giant Wonder Gem

THE BEST MELON KNOWN TODAY. AN ENTIRELY NEW AND DISTINCT MELON, MAGNIFICENT IN EVERY RESPECT, THE LARGEST IN SIZE AND FINEST IN QUALITY.
BUCKBEE'S "Full of Life" ROCKY FORD MUSK MELONS

Buckbee's New Honey Boy
Planted by 50,000 of Our Customers Last Year.
This is the earliest strain of all Rocky Ford Melons. It always brings the highest prices in the market.
Exceedingly early — very prolific — ever-bearing—yielding heavy crops from early Summer until Fall. The fruit is oval, trilobed elongated—solid netting—ideal shipper. Flesh is light green, very thick meat, sweet and delicious flavor. These Melons weigh on an average about 1½ lbs. each. They grow very uniform and a large percentage of them are of standard size, forty-five of them filling a crate 12x12x24 inches. You can't go wrong on Buckbee's Honey Boy. Cholcest home grown Seeds. Large pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; 1 lb. $1.50.

Buckbee's Famous Rocky Ford
Unsurpassed in Luscious Flavor.
This is the most popular of all Melons for shipping in baskets. This pedigreed Melon we have perfected from the famous Netted Gem, producing fruit a trifle more elongated in shape; the skin is green and is covered with a closely interwoven silver-colored netting. Blossom end is well protected by a small button, preventing cracking. Flesh is bright green, only the portion surrounding the seed cavity is slightly tinged with yellow. It is sweet, luscious and melting and may be eaten close to the skin. The melons are very solid, firm and thick meat; small seed cavity. Send to Buckbee for originator's genuine selected stock seed. Large pkt. 1c; oz. 12c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

Buckbee's New Gold Flesheed Rocky Ford
The Biggest Cropper of All Rocky Ford Melons
A selection from Buckbee's famous Rocky Ford, with salmon (not orange) flesh, maturing about ten days later than Buckbee's Honey Boy. Gold flesheed Rocky Ford is the biggest cropper and finest flavored Melon grown in Rocky Ford. It is covered with heavy gray netting over the entire surface, grows very uniform, and is more disease-resistant than any other variety; under unfavorable conditions when other strains rust badly, the plants of this variety remain green and thrifty and will produce blossoms and fruit for a long time. The flesh is quite firm, deep, leaving but a very small seed cavity, and is of superb quality and delightful, rich, aromatic flavor not excelled by any other variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; 1 lb. $1.50.
Buckbee’s “Full of Life” Musk Melons—Green Fleshed Varieties

Buckbee’s New Prolific Nutmeg
Unsurpassed in Luscious Flavor.
This is a very early Melon of great productivity. Particularly adapted for home garden, but also grown for market. Fruit of medium size, slightly ribbed, globular. Skin dark green, becoming yellow when over ripe, and neatly covered with broad, shallow netting; flesh thick, sweet and of light green color. Large Pkt. 5c; oz. 15c; 2 oz. 20c; ½ lb. 35c; ½ lb. 60c; lb. $1.00.

True Jenny Lind
"FULL OF LIFE" STRAIN.
This is the earliest of all Musk Melons, and one of the sweetest. Size small, from 5 to 8 inches in diameter; flattened, deeply ribbed and well netted. Much sold under other names such as Earliest Ripe, etc. Our strain of seed is the best. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. 90c.

New Early Hackensack
This is a Splendid Melon.
The fruit is medium sized, nearly round, evenly and deeply ribbed, with a very coarse netting, and almost as large as the Large Hackensack. The flesh is green, a little coarse, but very juicy, sweet and well flavored. A very early Melon and wonderful fielder and splendid shipper. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. 90c.

Large Hackensack
The Noted “Turk’s Cap” Melon.
About ten days later than the foregoing variety. Fruit very large, weighing from 5 to 6 pounds each; nearly round, somewhat flattened, ribs large and of irregular width, densely covered with coarse netting; flesh green, thick, coarse, but very sweet and fine flavored. A favorite with market gardeners and a good shipper. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. 90c.

New Bush Musk Melon
A VALUABLE NOVELTY.—A vineless Musk Melon that can be grown in every garden. The bush habit of growth of this new variety enables it to be grown in small gardens, where the vine sorts could not be grown for lack of room, and they yield about twice as much on the same piece of land as the vine sorts. The fruit of the popular "Jenny Lind" type, but larger, averaging 5 inches in diameter; they vary somewhat in shape from flat to almost spherical; the ribs are shallow, the surface is dark green, but so densely netted that it appears almost russet colored. The flesh is very deep, edible almost to the rind and is colored light green flushed with salmon towards the center. The seed cavity is small. The quality is superb, luscious, sweet and juicy, with a cool, gratifying flavor and a delightful aroma. They ripen a little in advance of “Rocky Ford." The plants grow from 15 to 18 inches in length and two or three plants can be grown in a hill 24 inches apart. Pkt. 8c; oz. 25c; 2 oz. 45c; ½ lb. 80c.

Queen Ann’s
See Cut
The Mango Melon or Vegetable Peach
Very striking in color, most wonderful yielder. Vines of Mango Melon are somewhat smaller than the Musk Melon, requiring same cultivation. Fruit about the size, shape and color of an orange, somewhat russeted. For sweet pickles, pies or preserving they are splendid. In the West and Northwest, where fruit is scarce, they are rapidly becoming popular, as they are easily cultivated, enormously productive, and can be used in every way as the Peach, except that they are not quite as sweet and are not used raw. Pkt. 10c; oz. 25c.

New Garden Lemon
Resembles the Mango Lemon in manner of growth, but is distinct in that the unripe fruit is striped with very dark green spots, nearly black, and when ripe is not russeted. Fruit a trifle smaller than the Mango Melon. Has a finer flesh and most desirable acid flavor, thus dispensing with sliced lemon, which is so important in putting up the Mango Melon. Unexcelled for general canning purposes. Cultivate similar to Musk Melons. It is an enormous yielder. Pkt. 10c; oz. 25c.
BUCKBEE’S “Full of Life” MUSK MELONS—Salmon Fleshed Varieties

EMERALD GEM

Splendid Size, Color and Flavor.

The standard of excellence among the salmon-fleshed varieties. Fruits small to medium size, globular or very slightly flattened at the ends, only slightly netted and ribbed. Skin deep green while young, becoming tinged with yellow as the fruit matures. Flesh deep salmon yellow, thick, ripening close to the rind; sweet, juicy, melting and unsurpassed in flavor. For home use and nearby markets it leads all other kinds on account of its delicious flavor. Choicest stock seed and of our own growing. Large pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

BUCKBEE’S OSAGE

IMPROVED MILLER’S CREAM
The Best Home and Market Melon—Original Stock.

This Melon has made its way into public flavor from the market rather than the garden, and is highly prized by those who like an exceedingly sweet and highly flavored Melon. It is medium to large sized, oval, slightly ribbed, dark green in color, covered more or less with shallow netting. The flesh is deep salmon color, very thick and deliciously rich, sugary, there being but a slight cavity in the center of even the largest fruit. The best general purpose Melon yet introduced. The most popular market Melon in the Northern States, not more than a week later than the small earliest Melons, but producing fruits three times as large. Our stock is unequaled, producing fruits larger, earlier and more netted than seed commonly sold by other dealers. Large pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

BURRELL’S GEM

One of the best yellow fleshed Melons; it is excellent for shipping and a most desirable medium early sort for the home garden. Larger, more elongated, and about a week later than the standard Rocky Ford kinds. It has a walled-arched rib, covered with a closely laced and interlaced gray netting. Flesh of a rich orange color, very thick, finely grained and of rich, spicy flavor. The Melons average 21/4 pounds, 6 inches long, 4½ inches thick, and will crate more evenly than any other Melon grown. vines very vigorous and productive. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. 90c.

BUCKBEE’S WESTERN GIANT

Noted Not Only for Its Great Size, But for Its Most Magnificent Flavor and General Good Quality.

A large Melon ripening about the same time as Osage; the flesh is rich, melting and sugary. As an exhibition and large market variety it is grand. It will astonish everyone by its merits, being exceptionally desirable for family and market purposes. For shipping it has no superior. Where size is an object, and there is not a particle of danger of sacrificing quality, Buckbee’s Western Giant will always give the most complete satisfaction. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. $1.10.
Buckbee’s "Full of Life" Musk Melons—Salmon Fleshed Varieties—Cont’d

TRUE TIP TOP
The Can’t-Be-Beat Melon.
We heartily recommend our pedigreed strain of this variety to every lover of this luscious fruit and to every gardener who grows for the market. Splendid large oval fruits, distinctly ribbed, heavily covered with a shallow netting; flesh salmon colored; firm and edible almost to the rind. Sweet, juicy, melting and delicious. Larger and about a week later than Osage. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 60c; lb. $1.00.

BUCKBEE’S IDEAL
A Most Delicious Melon.
That is the verdict of everyone who has tried this magnificent sort. Weights from 10 to 15 pounds; exceedingly thin skin. Good keeper and an excellent shipper. The flesh is of a rich salmon color, of a sweet, pleasing and delicious flavor. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

BUCKBEE’S PRIZETAKER—A new Melon ten days earlier than Osage, only little smaller, more round, but fully equal to it in delicious sweet flavor. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

HOODOO—A new orange-fleshed variety, ideal as a shipping Melon and of the very finest quality. The Melons are of medium size, round, heavily netted; flesh very thick of rich orange color with a sweet flavor. Average weight of Melon 1½ pounds. Large pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 95c.

NEW YELLOW MEATED JAPAN—Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; lb. $1.50.

NEW BANANA MELON
This most curious and most exquisitely flavored Melon grows to a length of 18 to 20 inches and is 2 to 4 inches in diameter. The flesh is yellow and quite deep. In appearance and odor it greatly resembles a banana. Seed always scarce. Order early. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

HONEY DEW
A Wonderful New Melon; the Sweetest Melon Ever Grown; Sold at Fabulous Prices.
A new type of Melon, a cross between a Cantaloupe and a Cassaba. The fruit is oval-shaped, about 6 inches in diameter and 7 to 8 inches long, weighing from 8 to 10 pounds each. It ripens about twelve weeks later than Rocky Ford Cantaloupe and in the North it should be started in hot beds to give plenty of time to ripen. The skin is smooth, dull white when ripe. The rind is thin but tough. The flesh is thick, of rich, light green color. This Melon has been appropriately named; it is of a distinct honeylike flavor, more luscious and juicy than any other Musk Melon.

BUCKBEE’S NEW STRAWBERRY
Flavor Like That of a Strawberry.
A great new Hybrid Musk Melon. The fruits weigh from 6 to 8 pounds each. Their smooth, deep flesh is of an attractive orange-red color, melting and of an exceptionally delicious strawberry flavor. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; lb. $1.50.

CASSABAS—The Long-Keeping Melon
A great acquisition and destined to become a standard vegetable. These are late maturing Musk Melons, which are largely grown in California, and hundreds of cars of them are shipped from there to the East every year. They do not ripen on the vines in the North, but are gathered there before freezing weather and if properly stored all Melons, even half grown ones, will ripen gradually. Sow and cultivate like other Musk Melons. Do not pick until the light streaks become quite yellow. Keep away as they do not touch each other in a cool, dark, dry place. When the rind becomes hardened and moister they are ready to eat. Some of the Melons will actually keep until next Spring. The seed cavity is small and the flesh thick, of fine texture, juicy and palatable to within one-quarter inch of the skin. The flavor is delicious—similar to Pineapple.

NEW WINTER PINEAPPLE—The original round form, the best keeper of all, will keep all Winter; flesh deep lemon colored, of excellent rich spicy flavor. Pkt. 5c; oz. 10c.

NEW GOLDEN CASSABA—Of the same shape as pineapple, golden yellow colored flesh; the best flavored of all Cassabas, but does not keep quite as long as Pineapple. Pkt. 10c; oz. 25c.
TWO WONDERFUL NEW MELONS

Introduced and first offered by us last year.

Nearly 100,000 people ate these grand melons in 1920.

We expect fully three-quarters of our customers will grow them this year.

Order early before our seed is all sold.

We control the entire seed supply of each of these melons.

BUCKBEE’S NEW VICTORY MUSK MELON

The Earliest, Sweetest and Best Melon for the Table or Market.

Medium size, slightly oval shaped Melon, with no distinct ribs, and heavily covered with grayish brown netting. The color of the flesh is bright salmon; very firm and ripens close to the rind. The seed cavity is unusually small, the entire fruit being practically sweet, solid flesh. Flavor is the finest of any Melon ever grown on our Rockford Seed Farms, being sweet and spicy, tender and stringless. Postpaid, pkt. 10c; oz. 25c; 2 oz. 45c; ½ lb. 85c; ½ lb. $1.50; lb. $2.50.

BUCKBEE’S NEW LIBERTY WATER MELON

Large Size—Excellent Flavor—Good Shipper—Splendid Keeper.

A large oblong Melon which is good clear to the rind, even on specimens weighing as much as 50 pounds. Color dark green with faint stripes. Flesh rich red and of exceedingly sweet flavor. Ripens close to the rind, which though thin is exceedingly tough, standing shipment nicely. Too much praise cannot be given this wonderful Melon. Postpaid, pkt. 10c; oz. 25c; 2 oz. 40c; ¼ lb. 75c; ½ lb. $1.25; lb. $2.00.
THE PRIZE WINNER EVERYWHERE
BUCKBEE'S GENUINE PERFECTED
MONTE CRISTO

The World's One Unbeatable Water Melon
THE SWEETEST FLAVORED MELON KNOWN

The Best Variety for the Table—For Shipping and Long Keeping

In hundreds of markets every season it finds ready sale at good prices when all other sorts go
begging for buyers. This grandest of all varieties has been extensively grown the past few
seasons in almost every melon growing locality of the world, and in not one single instance
t has it failed to meet the expectations of the planter. The reports received from every sec-
tion, that all are delighted with it, prove that in the hands of our customers Buckbee's Monte
Cristo has given the same surpassing results as in our careful trials on Rockford Seed Farms.

The greatest yields. The sweetest, juiciest, crispest and most solid Melon ever produced, never
having a hollow or pithy center when ripe. The easiest to sell on the market, for when once
tried, people will have no other. Many of our customers have written us, that they have cleared
$100 or more per acre by growing Buckbee's Monte Cristo Melons. Under average cultivation
you can do as well or better. Will you not try it this year? This is an early variety, ripening
about a week or ten days later than the extra early kinds offered in this book. It is a
grand, good shipper, has a firm, solid rind, not too thick, yet will stand the most severe
handling. The outside skin is of a rich, dark green color, shaded with faint stripes of a some-
what lighter color. Certainly the finest appearing Melon ever grown for market, shipping or
table purposes. While our supply of seed is fairly large, we always have advance orders from
our customers, who have planted Monte Cristo in past seasons, and we would advise all who
care to plant this "King of Melons" in 1921 to place their orders as early as possible. Please
remember that we control the entire product of this variety, so send to Buckbee for choicest
stock seed of Buckbee's Monte Cristo Melon. The price is within the reach of all.

Price of choicest stock seed of our own growing: Pkt. 10c; oz. 15c; 2 oz. 25c; 1/4 lb. 45c;
1/2 lb. 80c; lb. $1.00.

John Frush, Pleasantville, Iowa: "I have just been awarded first prize on three kinds
of vegetables at the Iowa State Fair. Your seeds are true to name and all grow."

S. F. Lowman, Oregon, Ill.: "The seeds I bought at your store in Rockford last spring
were fine. Off of 1/4 of an acre I sold $250.00 besides all the good things we could use in a
small family."

Fred Blattner, DeWitt, Ark.: "Seeds purchased from you last
spring have proven all you claim for them. I have had the best
garden this year I ever had."

Mrs. Earl Bartlett, Eaton Rapids, Mich.: "I have used your
seeds and plants for 25 years, and can truly say that there are
no better anywhere."

Forest City Greenhouses

BUCKBEE'S KING OF ALL MELONS
MONTE CRISTO
BABY DELIGHT

The Baby of the Watermelon, a Delight for the grower on account of its extraordinary prolificness, yielding fully as much in weight per acre as any of the larger Melons and being earlier than any other, always finds a ready market and brings very high prices; a delight also for the consumer on account of its convenient size and its luscious sweetness.

This Melon is almost round, and measures from 5 to 7 inches each way and weighs from 3 to 6 pounds. The skin is dark green, the rind thin but strong. The flesh of rich carmine color, always solid and of exceptionally sweet flavor. The seeds are very small, resembling apple seed, but of gray color.

Pkt. 10c; 1/2 oz. 15c; oz. 25c.

FORDHOOK EARLY

An Extra Early Large Melon; Does Well Anywhere.

One of the largest of the extra early varieties, and claimed to be the earliest of all. Shape nearly round. Color a medium shade of green. Flesh bright red, and of deliciously sweet flavor. The rind is sufficiently hard to make it a good shipper; Does well if grown in heavy soils.

Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 45c; lb. 85c.

HARRIS' EARLY

The Best Earliest Large Shipping Melon.

In form the Melon is oval to oblong; beautifully striped with green and gray; bright red flesh, which is sweet and tender. It is very productive. It is the Melon for everybody to grow who wants to be first in the market with fine large Melons weighing from 20 to 40 pounds. It bears shipment very well. Harris' Early ripens about the same time as Cole's, but having a tougher skin it is a better shipper; it also grows larger, but for quality we prefer Cole's.

Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; lb. 75c.

PHINNEY'S EARLY—The finest of all the early maturing Melons of medium size and oblong shape, marked with two shades of green. The rind is thin. The red flesh is very sweet and tender. The vine is productive and a sure cropper, the Melons maturing early. Adapted to all sections, and does exceptionally well in the Northern States. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 45c; lb. 75c.

HUNGARIAN HONEY—Very early and productive. Small, round Melons, weighing 10 to 15 pounds. Flesh of intensely red color, melting and delicious. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 50c; lb. 90c.

COLE'S EARLY

The Best Earliest Large Melon for the Home Garden.

Cole's Early is not only one of the earliest varieties in cultivation, but it continues to bear throughout the season. The beautiful bright red flesh is crisp and of delicate texture—granulated, cool and sparkling. In flavor it is lusciously sweet and refreshing. The Melons are not large, seldom over 12 inches in length by 9 inches in diameter, but what they lack in size is more than made up in number and solidity. The heart is large, there is little or no cavity and very few seeds—all solid flesh, the quality of which is sustained clear to the rind. It can be grown successfully over a larger latitude than most other Watermelons, and it will mature large crops in the Northern States when the season is at all favorable. This is a Melon for the family garden and local market, the skin being rather tender, making it unfit for shipping.

Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 45c; lb. 85c.

HARRIS' EARLY

The Best Earliest Large Shipping Melon.
BUCKBEE’S "Full of Life" WATERMELON SEED

NEW SUGAR STICK
A light green or grayish Melon of oblong form, combining handsome appearance with the finest flavor and excellent shipping qualities. Flesh red, of luscious quality. These Melons measure about 2 feet in length and weigh on an average about 30 pounds. We highly recommend this fine Melon; it is one of the best paying and most satisfactory varieties to grow. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 45c; lb. 85c.

KLECKLEY SWEETS
(Kleckley's Original Strain.)
First introduced and offered by us in 1895. Without question, it is one of the sweetest flavored of all Melons. Oblong in shape; skin dark green; flesh bright red, solid and luscious. Valuable for local market and family purposes. The first original strain can be had from no other seedman. Beware of imitations. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 45c; lb. 85c.

NEW EXCEL
This Watermelon has become a favorite sort with the Southern growers for shipping north; does equally as well planted here in our Northern climate. The large oblong melons are of a dark green color with faint stripes. The tough rind permits rough handling in transit, making it a good long distance shipper. The red flesh is very solid, crisp and of excellent flavor. The vines produce an enormous crop of medium early melons, which are handsome in appearance, making them a quick selling melon on the market. A characteristic of this melon is that the seeds are of mixed color, some black, some white with black border. Postpaid, pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 45c; lb. 85c.

ALABAMA SWEETS
The Ideal Shipping Melon.
Extensively grown in the South for shipping to distant markets. Large, oblong, with firm, dark green and slightly striped rind. The flesh is a bright red and of delicious flavor; seeds are white. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 45c; lb. 85c.

WHEN YOU THINK BUCKBEE’S "FULL OF LIFE" WATERMELON SEED
is produced on our Famous Seed Farms, from Hand-Cut, Personally Selected, Thoroughbred Specimens, you will readily appreciate their vast superiority to the SEED of other dealers which is generally saved from the CULLS of the crop, after the BEST specimens are marketed.

BUCKBEE’S GOLDEN HONEY
Golden Fleshed, Crisp, Tender and Delicious.
Some people are prejudiced against a yellow-fleshed Melon, but this prejudice will quickly disappear once they taste Golden Honey, as this Melon is one of the finest grown. The flesh being very sugary, juicy and of a most delicious flavor, similar to that of the celebrated Monte Cristo, known all over the world for its luscious quality.

Golden Honey is early, of oblong shape, medium size. The rind is light green with motled stripes. The flesh is solid, crisp, of golden yellow color and has a delightful aroma; it is entirely free from hard centers or stringy sections. This is one of the finest Melons for the home garden and nearby market, but is not a shipper. We believe it will soon be one of the most popular melons grown. Pkt. 10c; oz. 20c.

THE TOM WATSON
Best Quality, Fine Shape, Large Size, Good Shipper.
The "Tom Watson" is an extra long Melon of attractive appearance, uniform in shape and quality; the luscious crimson flesh is "as sweet as honey," melting and of superb flavor. The average Melon will weigh 50 to 60 pounds and measures about 28 inches long and about 12 inches in diameter. The skin is dark green, with thick netting all over, quite distinct from other varieties. Its appearance and quality strongly recommend it both for home use and for market. Sure to take a leading place with large Melon growers and shippers. Our choice seed was grown from selected stock under our most painstaking care and is a great improvement over the introducer's stocks. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 45c; lb. 80c.
BUCKBEE'S “FULL OF LIFE” WATERMELON SEED

GEORGIA RATTLESNAKE
The Old Reliable Branch’s Original Strain.
One of the finest Melons ever grown; a splendid keeper, excellent shipper. Sometimes called Striped Gypsy. A very large Melon of good shipping qualities. Shape oblong, striped and mottled with various shades of green. Flesh bright red. Flavor sweet and first-class. Rind not thick. Pkt. 5c; oz. 10c; 3 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

THE HALBERT NEW RUBBER RIND
One of the Finest Shipping Melons on Earth.
After years of patient labor and careful breeding, Mr. Halbert, of Texas, the well-known Melon breeder, has succeeded in perfecting this grand Melon. Shape of fruits, oblong and quite large in size, weighing from 50 to 100 pounds. Flesh dark red color, sweet and quite tender. Rind very dark green, almost black; very thin and exceedingly tough, almost as a piece of rubber, hence the name. It is decidedly a most handsome Melon in shape and color and will bring the highest price in every market. Excellent for shipping purposes. Genuine originator’s stock seed. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

Florida Favorite.

GRAY MONARCH
The exterior color of this fine Melon is a light green, though its mottled markings make it appear gray. The flesh is deep red in color, and of fine quality. Specimens of Gray Monarch weighing 60 to 70 pounds have been produced. It has become widely popular both in the home market and garden. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

NEW CLIMBING WATERMELON
A Superb Variety, Novel and Attractive.
The vine may be allowed to trail on the ground or may be trained and tied to trellises, etc. The Melons are about the size of a coconut, with seed no larger than apple seed. They are very solid, rich crimson flesh and of the highest quality, perfectly ideal for the home garden. Fruit ripens for a long period, unlike other sorts which ripen their fruit mostly at one time. Pkt. 10c; 3 pkts. 25c.

BUCKBEE'S "Full of Life" WATERMELON SEED

BUCKBEE'S NEW SWEETHEART

Most Popular for Market.

Medium early, large, handsome, heavy; good shipper, long keeper; bright color and of best quality. Vine vigorous and productive, ripening its fruit early. Fruit large, oval, heavy, uniform, mottled light and dark green; rind thin, but firm; flesh bright red, firm, solid, very sweet and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

NEW CHILIAN

A new Melon of splendid quality, which is already very popular on the Pacific Coast and will doubtless take high rank elsewhere as soon as its desirable characteristics have become more generally known. Fruits nearly round or slightly oblong, skin rich deep green, mottled and striped with a still darker shade; flesh of decidedly bright vermilion red; remarkably fine grained, firm and sweet. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 85c.

BUCKBEE'S PERFECTED

KOLB'S GEM

One of the Best Long-Distance Shippers.

Fruit of the largest size, round or slightly oval, marked with irregular mottled stripes of dark and light green, while the underside is of a creamy yellow color. Outer rind or shell, exceedingly hard and firm, making it one of the best sorts for keeping and shipping long distances. Flesh bright red, solid, sweet, tender and melting. The fruits grow very uniform in size, very solid, and are medium early. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 20c; ½ lb. 35c; lb. 65c.

NEW ICEBERG

One of the Best Round Melons for Shipping.

Often called Blue Gem; has a very firm, hard rind, and it is as good a shipper as the Kolb's Gem, but the rind is much darker and richer in color and the flesh is much deeper colored, extends nearer to the rind, is much more tender and sweet. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

Citron Melons—The Best for Preserves

APPLE PIE MELON—A Wonderful Fruit for Pies, Preserves, Etc.—This is a novelty which will be appreciated in many sections of the country, and especially so during seasons when apples are scarce or high in price. The vine and fruit are quite similar to a Watermelon and they are easily grown on any good soil. Each vine produces from five to fifteen fruits and one large fruit will make as many pies as half a bushel of apples. The flesh is white, solid throughout and of excellent quality for making pies, sauce, preserves, etc., and it resembles apples in flavor. They keep nice and fresh all Winter, so that they can be used at any time and any surplus you may have can be fed to the live stock. In fact, it would pay to raise them for this purpose alone, as they can be kept and fed fresh all Winter. Pkt. 10c; 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 70c; lb. 3.00.

COLOADO PRESERVING—Very Productive, Rich Quality—Makes beautiful, nearly transparent preserves of unsurpassed flavor. Superior to the ordinary preserving Citron in quality. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

RED SEEDED CITRON—Used exclusively for preserves. Slightly striped, round. Extremely productive, splendid flavor. Flesh white. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 65c.

GREEN SEEDED CITRON—Flesh white. Makes beautiful preserves of unsurpassed flavor. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.
Everbearing—Always Sweet Watermelon.

WATERMELON
BUCKBEE’S EVERBEARING—ALWAYS SWEET

The Grandest Shipping Melon Ever Introduced—The Greatest Yielder and Sweetest Flavored Melon Known—Unqualifiedly Superior to Any Watermelon Known.

This new Melon has made a sensation wherever it has been grown. Its surpassing merits are its large size, enormous yield and its splendid shipping and keeping qualities. It will produce more large, marketable Melons under the same conditions than any other long variety and where hauling and shipping to distant markets is done, this Melon never fails to give satisfaction.

It is better than Tom Watson either for shipping or home use. It is medium early. It is beautiful, very long and quite thick; in size it has the Watson beat a mile as it is bigger and longer all around, often producing Melons weighing 75 pounds each, and the average weight is about 40 pounds. The rind is firm and leathery, rather thick, standing rough treatment in transit, and is a splendid shipper. It has a deep green skin with dark irregular stripes and on close inspection very fine, veinlike, crisscross markings may be observed. The flesh is solidly molded, free from cavities, containing very few seeds, only about two ounces in a 50-pound Melon; there is no stringiness and no hard white heart; the flesh is intensely red to the rind and is of superb quality. This is the sweetest, crispest, most juicy and at the same time most solid Melon ever introduced, never having a hollow or pithy center when ripe.

Everbearing—Always Sweet is an excellent keeper; it may be left in the field three weeks when ripe and then be shipped to a distant market and keep well. It has been grown the past few years in different places in the South for shipping North and the commission merchants of New York, Chicago, etc., claim that it will outsell any other variety on the market time and again.

This Melon has no equal today.

Our seed is the best and the purest and is secured from Melons weighing not less than 40 pounds and is absolutely dependable.

Postpaid, pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ¾ lb. 70c; lb. 81.25.
Buckbee’s Sure Crop Mushrooms

GROWING MUSHROOMS IS NOT DIFFICULT
Get Reliable Spawn. Start Right and the Results Are Certain and Profitable.

We furnish every buyer of Mushroom Spawn with explicit directions for growing. If they are followed, nothing is so certain as big success.

The Mushroom is a delicious, edible fungus. It produces no seed, but instead a white fibrous substance in broken threads called spawn, which is developed and preserved in horse manure and pressed in form of bricks.

No expensive equipment is or ever will be necessary for the propagation. The plain fact is that anyone who starts right can grow Mushrooms successfully. An abandoned outhouse, or waste space in one, a shed, a basement or a cellar can be used for growing Mushrooms and will answer the purpose excellently.

FACTS ABOUT BUCKBEE’S SURE CROP SPAWN

This Spawn is prepared solely for us by a specialist in this country who has not only devoted a lifetime to the work, but who is a profound student of the industry. His work has resulted in procuring the best and most reliable Spawn in the world. Under our contract it is impossible for the grower to secure any Sure Crop Mushroom Spawn from anyone except Buckbee.

We can safely assure all Mushroom growers, as well as those who have never grown any, but are on the point of trying it, that they will find Sure Crop Spawn to be all that is claimed for it and more. It produces Mushrooms true to type, in much greater abundance, of much earlier maturity and of much larger size than those grown by any other method, and these Mushrooms are in great demand at the very highest market prices.

In order to meet the demand for Sure Crop Spawn, and to provide against deterioration of its producing qualities, our arrangement with the producer is for him to break bricks, which, coupled with the care we give it, renders it absolutely certain that our customers will all be furnished with Spawn that is fresh, of quick, vigorous growth and if they handle it properly will bring them big returns.

We have made the price as low as Spawn of such an exceedingly high grade can possibly be sold for.

BUCKBEE’S SURE CROP SPAWN

By mail, postpaid, brick (weight about 1½ lbs.) 15c. At buyer’s expense: Bricks 35c; 5 bricks $1.50; 10 bricks $3.75; 25 bricks $9.50; 100 bricks $25.00.

Arthur Young, 504 Superior St., Racine, Wis., writes: “You will note this is my second order for Sure Crop Mushroom Spawn. The first order of Spawn has been planted two weeks yesterday, and the last few days I have picked quite a few.”

BUCKBEE’S HIGH GRADE ENGLISH SPAWN

Comes in pressed bricks weighing a pound or more. Price, postpaid, brick (weight about 1½ lbs.) 40c. Not prepaid, brick 25c; 5 bricks $1.05; 25 bricks $4.25; 100 bricks $12.00.

MUSTARD

NEW CHINESE—The large leaves have a pleasant, pungent flavor, and can be eaten the same as other salads. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 35c; 1 lb. 75c.

OSTRICH PLUMED—Leaves exquisitely crimped, ruffled and frilled of superior flavor and very popular. Prices postpaid, pkt. 5c; oz. 8c; 2 oz. 12c; ½ lb. 20c; ½ lb. 55c; 1 lb. 65c.

NEW CREOLE SOUTHERN CURLRED—Highly esteemed in the South. Prices, postpaid, pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; 1 lb. 40c; 1 lb. 75c.

WHITE VELVET—Useful for salads and greens. Prices postpaid, pkt. 5c; oz. 7c; 2 oz. 12c; ½ lb. 20c; ½ lb. 30c; 1 lb. 50c.

BLACK SEEDED—Is sharper and more pungent than any other variety. Prices postpaid, pkt. 5c; oz. 7c; 2 oz. 12c; ½ lb. 20c; ½ lb. 30c; 1 lb. 50c.

MARTYNIA (Proboscidea)

Ornamental in growth, bearing large spikes of flowers, followed by hairy seed pods, which are used for picking. Pkt. 10c; oz. 45c.

OKRA or Gumbo

KLECKLEY’S IMPROVED—Immense plants, close jointed with ample foliage, bearing smooth white pods at each leaf joint, young pods are exceptionally tender and floppy. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; 1 lb. 40c; 1 lb. 75c.

PERKINS’ IMPROVED—Pods 4 inches long, produced in great profusion; of handsome green color and of best quality. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; 1 lb. 40c; 1 lb. 75c.

WHITE ABUNDANCE—Pods round and smooth, never prickly to the touch. Produced in abundance. Pkt. 5c; oz. 8c; 2 oz. 12c; ½ lb. 20c; ½ lb. 30c; 1 lb. 50c.

NEW LADY FINGER—Seed pods produced in abundance give a consistency and flavor that is unequalled. Quite prolific, producing long, slender pods of the form of a lady’s finger. Pkt. 5c; oz. 8c; 2 oz. 12c; ½ lb. 20c; ½ lb. 30c; 1 lb. 50c.
Buckbee’s Pedigreed

The Three Onions Shown Above Have Been Acknowledged the Giant Onions

Our New Denia Shown Below is so Much Larger That it is in a Class by Itself

**BUCKBEE’S RED GIANT**

The Mammoth Red Onion—in size it is not Excelled by the Enormous Varieties From Spain—The Grandest Red Variety Grown for the American Climate.

This magnificent new variety of our own introduction has met with the greatest success everywhere, and is now one of the most popular varieties in existence. The largest onion of this variety reported to us, weighs 3 pounds and measures 6 to 7 inches in diameter. Many of our customers have grown specimens weighing 3 to 4 pounds.

In shape, Buckbee’s Red Giant is round and symmetrical. Skin is thin, of a beautiful reddish hue, while the flesh is delightfully pure and white, very fine grained and of pleasing flavor. We control the entire stock of this grand novelty.

Pkt. 10c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.15; lb. $2.75.

**BUCKBEE’S MAMMOTH SILVER KING**

The King of White Onions—Its Mildness of Flavor and Tenderness are Unsurpassed.

The largest white Onion. Grows to a remarkable size—an average diameter is from 5 to 7½ inches. Single bulbs often attain weights of over 4 pounds each. There is no other white Onion which attains such mammoth size. The shape is flattened, but thick through. The skin is of a beautiful silvery white. The flesh is of a snowy white, and is of a particularly mild and pleasant flavor. Being a sure cropper, producing immense Onions and enormous crops which bring the highest prices, this variety has been a great money-maker for the grower; but its fine, mild flavor makes it also most desirable for the private gardener.

Pkt. 10c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.70; lb. $3.00.

**BUCKBEE’S PRIZETAKER**

Unexcelled Either for Home Use or for Market.

Buckbee’s Prizetaker Onion has proved itself to be by far the handsomest, most productive and largest of all Yellow Globe Onions which are grown extensively today. Always grows in uniform shape, which is a perfect globe; has a very small neck and ripens without stiffness of the neck. Its immense size will recommend it to all, particularly when it is known that its keeping qualities are excellent. The exterior color is pale yellow and the interior clear, sparkling white. Easily grown, medium early in maturing, mild flavor.

Pkt. 10c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.

**BUCKBEE’S NEW DENIA**

This new onion is the largest variety of onions grown of commercial value, and is considerably larger than Prizetaker. Denia is extraordinarily tender and sweet, surpassing Prizetaker in its mild, delicious flavor, while it is fully as early and as good a keeper. The flesh is pure white, of very fine grain, the skin is of bright straw color.

Pkt. 10c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.45; lb. $2.75.
Took the Leading Prizes at the World's Largest Onion Shows Held at Nappanee and Wolf Lake, Ind.

Buckbee's New Wampum

This grand new variety, which was sent out for trial in 1898, has proven, as its name indicates, the MONEY-MAKING ONION. Its color is a beautiful golden yellow, very attractive and striking. It is the most perfect globe-shaped Onion in existence today. The bulbs are firm and solid and excellent keepers. The necks are small and cure down to almost nothing. It is an enormous yielder; various customers claim from 1,000 to 2,000 bushels per acre. If you wish the best Onion you ever planted, try this greatest of all Onions. This variety received medals by the score for superior quality and vouchers by the thousands were sent us from our customers as the most satisfactory strain for largest cash returns. Buckbee's Great Pedigree Onion Seed of this variety produces the biggest, finest crops of large Onions obtainable. We advise early orders, as our stock is not very large, and this variety cannot be procured elsewhere.

Our own growth, choicest Northern grown, high-grade, pedigreed stock seed. Pkt. 10c; oz. 28c; 2 oz. 50c; ¼ lb. 95c; ½ lb. $1.70; lb. $3.00.
Southport Globe Onions are most attractive in appearance and most economical in use. They command the highest price in the market. These Onions are big croppers and splendid keepers. Harvested in September, they keep perfectly sound and merchantable until the following June. Our strains of these varieties have been carefully bred and are unequalled by those of any other grower in size, beauty, yielding and keeping qualities.

Southport Red Globe
Buckbee's Re-Selected Pedigree Seed.

The celebrated Blood-Red Globe Onion. This variety has for many years proved one of the most profitable for the market and shipping trade, commanding uniformly good prices in carload lots. It is of large size and splendid appearance, and frequently yields from 500 to 600 bushels per acre under average culture. It is an Onion of unusual merit. Flesh is firm, finely grained, very rich, yet unusually mild for a red Onion, and is sure to please the most fastidious. The crop is ready to harvest in early Fall and keeps well until the late Spring months. No one that we have ever known has been disappointed with the results obtained by planting this great Onion.

Our own growth. choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 8c; oz. 30c; 2 oz. 55c; ½ lb. 80c; 1 lb. $1.15; lb. $2.50.

Southport Yellow Globe
Buckbee's Re-Selected Pedigree Seed.

Entirely distinct from Onions of the Danvers type, having notable and striking characteristics of its own. Excells in size, excels in yield, excels in keeping qualities, excels in mildness and flavor. Matures in early Fall. It is sure to satisfy the one who buys a packet or the one who saves 50 pounds or more of seed for carload shipments. A truly grand Onion, whose large, golden-yellow spheres make a beautiful appearance, sacked or baled for the market.

Our own growth. choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 8c; oz. 15c; 2 oz. 30c; ½ lb. 50c; 1 lb. 80c; 2 lb. 1.15.

Southport White Globe
Buckbee's Re-Selected Pedigree Seed.

Handsomest of all Onions. It is of true globe form, pure white, hard, small necked, ripening regularly and evenly: a splendid keeper. The flesh is firm and finely grained and mild to taste. Average yields of 500 to 700 bushels per acre are of frequent occurrence. No market gardener or Onion grower can afford to plant inferior stock with only cheapness of price to recommend it, when seed like ours is to be had as reasonable, the results of planting a few ounces often paying many times the first cost of the best seed.

Our own growth. choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 8c; oz. 20c; 2 oz. 35c; ½ lb. 60c; 1 lb. 81.15; lb. $2.25.

Buckbee's Great Cardinal

The largest American grown red globe Onion. The color is rich, very deep cardinal-purple, darker than that of other red Onions. The flesh is thick and of splendid flavor. It is one of the very best keepers ever introduced. It has the size and shape to recommend it in the highest degree for the market. We would not praise it so highly if we did not believe it to be alone in its class. It is one of the real money makers. No one but Buckbee can furnish GREAT CARDINAL SEED. Pkt. 10c; oz. 25c; 2 oz. 55c; ½ lb. 60c; 1 lb. $1.15; lb. $2.25.
BUCKBEE'S PEDIGREE LARGE RED WETHERSFIELD

THE GREATEST OF ALL RED ONIONS

The seed which we are offering is of the earliest maturity, grown from hand-sorted bulbs that will produce Onions of immense size; 1½ to 2½-pound Onions from our seed are of frequent occurrence. BUCKBEE'S RED WETHERSFIELD grows with unusual regularity, scallions being unknown. It is a magnificent keeper. An enormous cropper—700 to 1,000 bushels have frequently been raised upon a single acre. The shape is accurately shown in the illustration above. In color the skin is a deep rich, purple red, while the flesh is of a beautiful white, finely grained and of good flavor. Our customers throughout the country indorse it as the best Red Onion ever grown.

NEVER HAS BEEN KNOWN TO FAIL

We trust no Onion grower who receives our catalogue will fail to try at least a small quantity of BUCKBEE'S RED WETHERSFIELD ONION, for all ought to know how much superior it is to other strains offered. This seed will produce highly-colored, long-keeping Onions, sure to command the highest price in the market, will yield double the crop that seed from most other dealers will produce.

BUCKBEE'S NEW GOLDEN GLOBE DANVERS

A most perfect type of the globe-shaped Onion and an extra early variety. It has a very small neck, the entire crop drying down at one time. The bulbs are of a beautiful golden yellow color. Trial tests have shown this great variety to yield over 2,000 bushels per acre, while under ordinary cultivation in past seasons several of our customers have reported yields of 1,000 bushels per acre. The bulbs are very hard, solid and are exceptionally good keepers.

Remember, that we control the entire supply of this variety. Our own growth, choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 5c; oz. 15c; 2 oz. 25c; ½ lb. 50c; ½ lb. 90c; lb. $1.75.

BUCKBEE'S SELECTED YELLOW GLOBE DANVERS

Standard of Excellence for Home and Market Use.

Buckbee's strain of Yellow Globe Danvers, developed by careful selection and breeding, is pedigreed stock of the highest type, far superior to the seed mostly offered by others. This stock produces bulbs of fine symmetrical shape, large size, average specimens weighing from 1 to 2 lbs. each. These bulbs have small necks and ripen evenly. The skin is a light golden brown; the flesh is finely grained, pure white, crisp, mild and of excellent flavor. It is a grand, magnificent keeper and shipper. Frequently produces 3½ bushels or more to the acre from seed. About a week earlier, but not quite so large nor so perfectly globe-shaped as Southport Yellow Globe. Our own growth, choicest Northern-grown, high-grade, pedigreed stock seed. Pkt. 5c; oz. 12c; 2 oz. 35c; ½ lb. 45c; ½ lb. 80c; lb. $1.50.
Buckbee's Pedigreed “Full of Life” Onion Seed

New White Silverskin or White Portugal

This Standard White Onion for Market and Family Use. Medium sized bulbs of flat shape, which ripen evenly and quite early—about 10 days earlier than Southport White Globe. They are of handsome appearance; have a clear, white skin as beautiful as glistening silver. The flesh is of mild, delicious flavor. For keeping, this is the best of all white varieties.

The gardener who does not care to plant more than one variety should use this one, and everyone should make a liberal sowing of it for continuous use. These Onions make fine bunching of Green Onions and are also grown for the market as large White Onions. They are also much used for pickling and for Onion Sets. Buy your seeds from first hands. Our own growth, choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 8c; oz. 20c; 2 oz. 55c; ¼ lb. 60c; ½ lb. $1.19; lb. $2.60.

EXTRA EARLY RED

The Earliest Red Onion in the World.

A favorite early variety of fine shape. Always a good yeldler and magnificent keeper, its beautiful shape and rich purplish crimson color making it extremely attractive and desirable. Medium sized, flat bulbs. Adapted for a great variety of soils and succeeds in wet, cold and mucky land. Very desirable for early market use. Selected stock seed. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 30c; ½ lb. 90c; lb. $1.15.

Buckbee's Round or Yellow Danvers

A Magnificent Sort in Every Way. The Earliest Yellow Onion.

Very handsome in appearance. flattened, but thick through, of fine size, in fact, is ideal in every respect for market and family purposes. Skin is thin, of a rich straw color. Flesh is pearly white, fine grained, firm, mild and of excellent quality. Ripens early, keeps well and sells rapidly. Our own growth, choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; lb. $1.15.

SELECTED YELLOW STRASSBURG OR DUTCH

Quite similar to the foregoing, but the bulbs are rather more flattened, of a darker skin, a little larger and mature a few days later. One of the best to grow for sets, and a splendid keeper. High-grade pedigreed seed. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; lb. $1.15.

Australian Brown

Long Keeping, Fine Quality.

This sort is distinct from all other Onions. Is uniform in size and shape, wonderfully hard, solid and heavy, and will keep almost indefinitely. Ripens extremely early and never makes scallions. It is of medium size, round, with skin of a deep amber-brown; flesh white, mild and agreeable. A sure cropper.

Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; lb. $1.10.

MONEY IN ONIONS IF YOU PLANT THE RIGHT SEED

And that is what you secure if you send direct to headquarters for The Best Onion Seed in the World, namely: H. W. Buckbee, Rockford Seed Farms Established 1871 Rockford, Ill.

Genuine Bermuda Onion Seed

Bermuda Onions are largely grown in the South and have proved a most profitable crop. They are planted there in the fall and shipped North in May and are the earliest large new Onions in the market. Growers can do equally well with them in the North. They are the quickest growing Onions known. Sown at the same time as Danvers and White Portugal, they will produce full grown bulbs about 3 inches in diameter when the others are only 1 inch in size.

WHITE BERMUDA—The bulbs are quite broad and flat in form. The color is not a clear white, but rather a pale straw; flesh crisp, solid and mild, early ripening. Pkt. 10c; oz. 10c; 2 oz. 70c; ¼ lb. 1.00; ½ lb. 1.40; lb. $2.55.

RED BERMUDA—Similar in form and early ripening to the Bermuda White, but grow larger in size, ranging from 2 to 4 inches in diameter; very flat and of a light pink color. The flesh is white, slightly more firm and mild, very mild. Pkt. 10c; oz. 10c; 2 oz. 70c; ¼ lb. 1.30; ½ lb. 2.10; lb. $1.35.

CRYSTAL WHITE WAX—This new variety is a large, pure-white flat Onion. It is the earliest and most popular Onion with the large growers in the South. It produces the mildest and sweetest Onions of them all. It is very fine for slicing, the color being so clear and pure. Our stock seed each year is imported direct from the Canary Islands, where the only True Bermuda Seed is grown. We spare no labor or expense to have our stock "Full of Life" and the best that can be obtained. Pkt. 10c; oz. 15c; 2 oz. 85c; ¼ lb. 1.65; ½ lb. 3.00; lb. 5.50.

Genuine Bermuda Onions—The Earliest and Mildest Onions in the World.
PIVICKING ONIONS

BUCKBEE’S WHITE PICKLING

Nothing Earlier in Onions.
This distinct variety is the very earliest Onion in cultivation. Of a pure paper-white color, very mild and delicate in flavor; from 1 to 1½ inches in diameter and about 1/2 of an inch in thickness. Its extreme earliness makes it very valuable for early table use as well as bunch Onions for market. Pedigreed stock seed. Pkt. 6c; oz. 25c; 2 oz. 40c; ½ lb. 70c; ¼ lb. $1.10 lb. $2.50.

EXTRA EARLY WHITE QUEEN OR WHITE PEARL

A silver-skinned variety of remarkably quick growth. Small bulbs, flat, of mild flavor. Particularly valuable for pickles. Pkt. 10c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.35; lb. $2.75.

EARLY WHITE WELSH (For Green Onions)

A most desirable green bunch Onion. It does not form bulbs, only scallions or enlarge- ments at the base of each shoot, which are quite attractive and, being extremely early, sell well before Onions grown from sets are brought to the market. We recommend this variety very much and know market gardeners will find it an exceedingly profitable crop. A hardy perennial can remain in the ground for years. Pkt. 8c; oz. 35c; 2 oz. 65c; ¼ lb. $1.35; ½ lb. $2.30; lb. $4.00.

BUCKBEE’S “Full of Life” ONION SETS

Bottom Onion Sets produce an Onion ready for market or the household from 4 to 6 weeks earlier than can be done by sowing the seed, and the product of the set is identical with that of the seed. This gives the market gardener ample time to sell his entire crop at the early high prices and permits the sowing of another crop on the land the same year. Every private garden should contain a sowing of sets.

BUCKBEE’S IMPROVED SPRING TOP SETS

These are planted to produce both early green Onions and large eating Onions. This variety increases by producing sets at the top of the stalk and does not produce seed. They are the best Onions to eat, will yield at least one-third more and ripen very early. It is the best keeper that we know of.

WHITE MULTIPLIERS

Produce clusters of small silvery-white Onions from a single bulb; mature earlier than any other sort. They are very sweet and of mild flavor. Fine for Green Bunching Onions and just the right size for pickling.

BUCKBEE’S NEW YELLOW POTATO SETS

Of reddish yellow color, excellent quality and good keepers. The large bulbs produce clusters of small ones often as many as twenty from a single bulb. Small bulbs produce no clusters; they yield large Onions which are ripe much before any other variety. Exceptionally good for Green Onions and also for pickling.

YELLOWS MULTIPLIORS OR SHALLOTT SETS

Multiplier Onion Sets multiply by division of the parent bulb. They are very early and productive. You will be pleased with results by planting this variety.

EGYPTIAN OR PERENNIAL TREE WINTER SETS

This variety never forms a large bulb. Its value lies wholly in its special adaptability to produce green Onions for Spring or Fall uses. It is perfectly hardy, and when once set out will come up year after year. Can be planted either in Spring or Fall. We can supply these sets for shipment from September 1 to the following March 1. This variety increases by producing sets at the top of the stalk and does not produce seed.

SPECIAL NOTICE.

Prices on Onion Sets in bulk, frequently change as the market advances or declines. See Order Sheet for prices by peck or bushel or more.

NOTICE.

For Prices on Onion Sets in Bulk, SEE ORDER SHEET.
PARSNIPS

The value of the Parsnip as a table vegetable is well known but is not generally appreciated at its full value for stock feeding. On favorable soil it yields an immense crop of roots, more nutritious than turnips and very valuable for dairy stock. Parsnips are usually grown on deep, rich, sandy soil, but will make good roots on any soil which is deep, mellow and moderately rich. Fresh manure is apt to make the roots coarse and ill-shaped. As the seed is sometimes slow and uneven in growth, it should be sown as early as possible in drills 2½ feet apart; cover ¼ inch deep and press the soil firmly over the seed. Give frequent cultivation and thin the plants to 6 inches apart in the row.

BUCKBEE’S NEW SUGAR

Parsnips are one of the few Winter vegetables. The roots are hardy and are improved in flavor by the action of the frost. Where the climate is mild the roots can be left in the ground over Winter and dug as needed. They yield immense crops and the roots are very rich in saccharine food.

After repeated trials at Rockford Seed Farms we have no hesitancy in offering BUCKBEE’s New Sugar as the best Parsnip grown. Roots fine in size, of good diameter, enabling them to be easily gathered; are exceedingly smooth; the flesh fine grained and of the most excellent quality. A magnificent cropper, yielding as high as 720 bushels per acre under good cultivation. You will not be disappointed by planting BUCKBEE’S NEW SUGAR PARSNIP.

NEW MALTESE—A wonderfully fine strain. The roots do not grow as long as the Hollow Crown, but are of greater diameter and more easily gathered. Very heavy cropper. Flesh fine grained and of most excellent quality. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

IMPROVED HOLLOW CROWN—An excellent Variety for the table. The roots grow to a length of about 12 inches with a diameter at the top of 3 inches. Very productive. Pkt. 5c; oz. 3c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 60c.

NEW INTERMEDIATE—Root smooth, in form of an elongated top. Usually about half as long as Buckee’s New Sugar with a diameter of 3 or 4 inches. Leaves short; early cropping. Excellent for stock as well as table. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

PARSLEY

Parsley is used for seasoning soups and stews, for salads, for garnishing; also for ornamental borders in the flower garden. The green leaves are used for flavoring or they may be dried, rubbed to powder and kept in bottles until needed. Parsley succeeds the best on rich, mellow soil. The seed is even slower than parsnip in germinating and should be sown as early as possible in the spring, in drills 1 to 2 feet apart. Sow the seed not more than ¼ inch with fine soil firmly pressed down. When the plants are well up thin 8 to 12 inches apart in the row. When the plants of the curled varieties are about 3 inches high cut off all the leaves; the plant will then start a new growth of leaves which will be brighter and better curled and later, if these turn dull or come down they can be cut in the same way; every cutting will result in improvement.

BUCKBEE’S BEAUTY

A distinct and handsome variety of quick, robust growth forming compact, ornamental plants, densely furnished with strong-stemmed graceful leaves, finely cut, most beautifully curled, and of that brilliant emerald green color so highly attractive when used for garnishing. The flavor of the leaves is also unusually rich and aromatic, rendering this variety of especial value where used for flavoring in sauces, dressings, etc., whether fresh or dried. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 70c; lb. $1.00.

NEW MOSS CURLED—Invaluable as a garnishing plant and suited for mixing with dwarf, ornamental foliage plants in the garden. This is a vigorous, compact growing variety, excellent for garnishing and flavoring, and a handsome decorative plant. The leaves are very finely cut and so closely curled or curled as to resemble bunches of moss. Owing to its uniformly fine deep green color and very attractive foliage, this is one of the most popular strains for both market and home garden. Pkt. 5c; oz. 10c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c.

EXTRA DWARF CURLED OR EMERALD—The moss-like leaves are a handsome, bright green color, and are finely crimped and curled. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 60c.

HAMBURG TURNIP ROOTED—The edible portion of this variety is the fleshy root which resembles a small parsnip and has a flavor similar to Colocasia; it is extensively used for flavoring soups and stews. Large pkt. 6c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.
PEANUTS

Peanuts have always been an important farm crop in this country; millions of acres have been planted with them in the southern states, but now that their great value for producing oil and oil-cake is being better realized, a much larger acreage will be grown with them. Last year about a hundred million bushels of Peanuts have been ground up by oil mills for oil and oil-cake, while a few years ago none had been used. A ton of Peanuts in pods produces 86 gallons of sweet oil and also 750 pounds of feeding cake. The oil and cake are superior in that from cotton seed. Peanut oil is fully equal to olive oil and Peanut meal makes hard hog-deash. The Spanish Peanut containing a larger percentage of oil than the other kinds, is mostly wanted by the oil mills who pay a higher price for a bushel of them than for cotton seed. In the South, especially on a sandy land, Peanuts will supplant cotton as a money crop, being more profitable. The cultivation of this crop is also every year extending farther north, and on suitable soil in the northern states Peanuts will make a profitable crop for stock feed where Indian Corn thrives and with a season of only four months free from frost.

Plant in rows 2 1/2 to 3 feet apart and 6 to 8 inches apart in the rows. The Spanish Peanuts are planted either shelled or in pods, using 1 1/2 peck of shelled or 2 bushels in pods per acre. The pods may also be broken in 2 parts, soaked in water and then planted at once. The other varieties are mostly planted shelled at the rate of 1/4 bushel per acre. Planting must not be done until the weather is warm. Cultivate until they begin to form pods. When they mature pull them up, turning the roots to the sun. In bright weather they will be cured in 24 hours. They must be pulled before frost.

NEW MAMMOTH VIRGINIA

This Mammoth Virginia Peanut is more profitable and desirable than the common spreading kind, because more productive, earlier, yields fewer imperfect pods and is more easily cultivated and harvested, having very erect stems and upright foliage. The vines make valuable forage for stock. Will ripen even as far north as Canada. Hund reeds of our young friends reported a wonderful crop the past season. The standard variety for roasting. Postpaid, choice seed, pkt. 7c; 1/4 lb. 15c; 1/2 lb. 25c; lb. 40c.

NEW EARLY LONG POD BUSH

Originated by one of the best Peanut growers in the South and is certainly a distinct improvement in appearance over any Southern variety now in use. Will do well on most all kind of land and fill out better than any other large variety. Can be pulled up with the vine same as the old Spanish Peanuts. The distinct long pods grow close and are well filled, containing 3 to 4 nuts to each pod. Very productive and of a mild, sweet flavor. Well adapted for stock feeding. Postpaid, pkt. 10c; 1/4 lb. 18c; 1/2 lb. 30c; lb. 50c.

SPANISH PEANUT

The earliest variety grown; maturing in about 100 days; in some parts of the South two crops are raised in a year. Plant upright, with abundant and heavy foliage; the pods cluster at their base. Pods are small but well filled with nuts of sweeter and finer flavor than the large for sorts. The yield is on an average from 50 to 60 bushels of nuts and a ton of hay per acre, but frequently 100 bushels of nuts have been harvested. Can be cultivated with the plow. Because of its earliness, easy cultivation and great productiveness it is the best variety for farm use; for fattening hogs and other stock. After harvesting, the nuts hang to the vine and tops and nuts are fed together as a complete hay and grain ration. This variety also has a commercial value over that for feeding; it is the kind mostly used for Peanut candy and salted Peanuts and is also the best for oil, containing 19 per cent more oil than others. Postpaid, pkt. 7c; 1/4 lb. 15c; 1/2 lb. 25c; lb. 35c, postpaid.

NEW DIXIE GIANT

The Jumbo of the Peanut family; owing to its extremely large size and handsome appearance is very desirable in every market, always bringing fancy prices. Plants grow about 18 inches high, with heavy, erect stalks and large leaves; fruits near the tap root. Can be planted close together, thus producing a large yield, and are more easily cultivated than the running varieties. The pods fill out well, forming few, if any, pips. Should yield a gallon of nuts to one kernel planted. Postpaid, pkt. 10c; 1/4 lb. 15c; 1/2 lb. 25c; lb. 45c.

CHOICEST EXTRA EARLY
ROUND, SMOOTH SORTS

Buckbee’s Lightning Express

Earliest Pea in the World—Ready for
Picking in 40 Days.

They are much harder, more produc-
BUCKBEE’S “FULL OF LIFE” PEAS
CHOICEST, EXTRA EARLY, SWEET, WRINKLED VARIETIES

GIANT LAXTONIAN OR BLUE BANTAM

A giant podded, dwarf, extra early pea. The most valuable Pea introduced in many years. This handsome new wrinkled Pea is the largest podded of all the dwarf early Peas. It grows only 18 to 24 inches high and requires no support, and has the same large pods as Gradus, even a few days earlier in season and of a little darker green color. The Peas are almost double the size of any other early dwarf Pea, are wrinkled, of bluish-green color, and have the true rich manv flavor, tenderness and quality of the best main crop varieties. Its great earliness, the very large size and dark green color of the pods commends this variety particularly for market gardens. It is a splendid variety and quality makes it especially desirable for the table. 
Postpaid, pt. 10c; ½ lb. 30c; lb. 50c.

BUCKBEE’S NEW EXTRA EARLY HONEY SWEET

The Earliest Wrinkled Sweet-Flavored Pea in Existence.

Ready for Picking in Forty Days

A wonderfully luxuriant grower and a splendid drought resister. The vines attain a height of 24 inches, do not require staking. Prolifically prolific, the pods are from 2½ to 3 inches long, nearly round, and are always well filled. Honey Sweet has made a splendid record for both quality and quantity on the market. It is as early as Alaska, but far superior to it in quality and yield. Postpaid, pt. 6c; ½ lb. 22c; lb. 40c.

THOMAS LAXTON

Extra Early Large Podded Sweet Wrinkled Pea.

The rival to the famous Gradus—as a long-podded, extremely early wrinkled Pea. The growth is identical but the pods are deeper, richer green, square at the end and contain more Peas. In the opinion of some experts, Thomas Laxton is even sweeter and finer in flavor, while as the large Peas are of a deeper green, they present a more attractive appearance on the table. The crop ripens only 3 to 4 days after Gradus. A splendid market gardener sort, but especially recommended for the home garden. Postpaid, pt. 10c; ½ lb. 35c; lb. 42c.

NEW EARLY GRADUS OR PROSPERITY

This popular Pea matures only two or three days later than the small-podded, round-seeded Extra Earlies, but has pods as large as those of the Telephone Peas and is fully equal to it in quality. Gradus is probably the most popular of all the extra early wrinkled Peas. It has taken the place of the smooth early Peas to a great extent. It grows from 3 to 3½ feet high, requiring no sticks or brush, but sticks may be used if preferred. The vines are of pale green color and bear in great profusion from top to bottom immense round, dark green pods, 4½ to 5 inches long, well filled with from 8 to 10 or more Peas of delicious quality as large and as rich in flavor as the Telephone Peas, and these Peas can be had only a few days later than the small extra early Peas. These Peas retain their color and attractive appearance after cooking. Gradus is adapted to all purposes of the market gardener and does equally well in the home garden. Postpaid, pt. 10c; ½ lb. 35c; lb. 45c.
BUCKBEE’S “Full of Life” PEAS
CHOICEST EXTRA EARLY SWEET WRINKLED VARIETIES—Continued

LITTLE MARVEL
A New Dwarf Extra Early Pea of Unusual Value, in Enormous Demand Among Market Gardeners.

We are sure that as soon as a gardener becomes acquainted with this variety he will quit growing the old varieties like American Wonder, Little Gem, etc.

In season this new sort ripens with the American Wonder, while the pods, usually borne in pairs, are more numerous, larger and contain one or two more Peas. Its two striking features are: The beautiful dark green color of the pods and its excellent keeping qualities. Ready for the table staying in excellent condition for a week longer than “Nott’s” or “Wonders.” Little Marvel is an extraordinary cropper, and although the pods are only of medium size, it is fully as productive as most larger podded kinds.

Vines 15 inches high; pods in pairs 2½ to 3 inches long, square at bottom, jammed with 6 to 8 quite large, deep green, wrinkled Peas, which are of luscious, sugary flavor. Postpaid, pkt. 10c; ½ lb. 25c; lb. 40c.

POTLATCH OR BIG DINNER
The Best Main Crop Variety of Large Podded Dwarf Peas.

Potlatch is Chinook Indian for Big Dinner. The vines are sturdy and vigorous, growing about 20 inches high, with coarse and unusually dark green foliage which can be distinguished from that of other peas a quarter of a mile away. The pods, which are borne in pairs, are long, often measuring 6 inches or more. They are broad, pointed, rich dark green in color and in size and fullness fully equal to those of the Tall Telephone Pea. They contain 5 to 11 Peas, which are very large and in sweetness and flavor rank with the finest. Potlatch is a wonder of productiveness and the way the Peas shell out is astonishing. On account of its large, beautiful pods, enormous productiveness, it is a great favorite with market gardeners, and owing to its delicious quality one of the best for the table. Potlatch is a second early, dwarf, very large podded Pea; it has become the leading and most popular variety of its class. Postpaid, pkt. 10c; ½ lb. 30c; lb. 50c.

SUTTON’S EXCELSIOR

As early as the Nott’s Excelsior, but much more productive, with larger and broader pods. It grows about 15 to 18 inches high, and is an exceedingly heavy bearer. The pods are 1½ inches long, very broad, square at the end, and are packed with 6 to 8 immense wrinkled Peas. It is one of the sweetest Peas grown, and is unexcelled in delicious, melting quality, and superb, rich flavor. The vines and pods are of a light green color. Now often grown for the market in place of Gradus, which matures at the same time. Postpaid, pkt. 10c; ½ lb. 25c; lb. 40c.

McLEAN’S IMPROVED LITTLE GEM
Vines 18 inches high, covered with long pods, well filled with sweet, tender Peas. Postpaid, pkt. 8c; ½ lb. 21c; lb. 35c.

NOTT’S EXCELSIOR
Vines larger, more productive, but a few days later than American Wonder, earlier and more prolific than Little Gem. Unsurpassed in sweetness and quality. Height, 12 to 15 inches.

TRUE AMERICAN WONDER
Dwarf-wrinkled Pea, esteemed for earliness, productiveness, quality. Strong and robust, about 10 inches high, and produces medium large pods which contain 5 to 6 wrinkled Peas of very sweet flavor. Postpaid, pkt. 10c; ½ lb. 32c; lb. 50c.
BUCKBEE'S "FULL OF LIFE" PEAS

DAISY OR DWARF TELEPHONE

Thoroughbred Main Crop Sweet Wrinkled Peas.

The vines, though growing only about 18 inches in height, are very thick, stout and bear a big crop of large, well-filled pods. The pods average 5 to 6 inches in length, containing 7 to 9 large Peas of a light green color which are tender and sweet. Compared with the tall Carter's Telephone in size, shape and color of pods and exquisite flavor, the two varieties are alike, but the Daisy being dwarf can be grown without support and the rows of it can be made closer together and furthermore it is about ten days earlier than the tall sort. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.

IMPROVED STRATAGEM

High Grade Standard Dwarf Late Peas.

One of the best of the large-podded sorts. The pods are of immense size and uniformly filled with very large dark green Peas of the finest quality. The vines grow 15 to 16 inches in height. About 5 to 6 days later than the Daisy. It is vastly superior to the stocks now generally sold as Stratagem. Vines require no support. Postpaid, pkt. 8c; ½ lb. 25c; lb. 40c.

CARTER'S TELEPHONE

Selected Stock

A Standard Large Potted Main Crop Variety in Every Market.

The Telephone has become the leading Pea with market gardeners, whose taste appreciates fine appearance and high quality. Vines vigorous, growing about 4 feet high, producing an abundance of very large pods filled with immense Peas, which are tender, sweet and of excellent flavor. Foliage and pods are of light, bright green color. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.

ALDERMAN OR IMPROVED TELEPHONE

This comparatively new Pea is, in many regards, the very best early main crop variety of the valuable Telephone type. The vines grow nearly 5 feet high, are dark green, vigorous and exceedingly productive. Pods are very large, long, dark green. They appear a little later than those of Carter's Telephone, but are larger, often measuring 8 inches and over. The Peas are of the largest size and of unsurpassed quality. Market gardeners are demanding the large podded, dark-colored sorts, which retain their fine appearance even after shipping a long distance. The Alderman answers these requirements and furthermore is the most productive variety of this class. We recommend it unreservedly as one of the finest and most desirable for the home as well as for the market gardener. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.

PRINCE EDWARD OR PRODIGIOUS

This is an English strain of the Telephone type, selected and bred from the Alderman, which also belongs to that type, especially for size of the pods. Prince Edward is considered by all who have tried it the most profitable variety to grow for the trucker, and where it is known there is an enormous demand for it. This is the largest garden Pea we grow. It is truly the giant of the Pea family and is unsurpassed for exhibition purposes. In England, where it has been exhibited in the last few years at the leading shows, it has always taken the first prize. The vines grow about 6 feet in height, are of vigorous and robust habit and have dark green foliage and pods. The pods are produced in pairs and in great profusion. They attain the extraordinary length of 7 inches and upwards and are closely packed with 11 to 13 large, dark green Peas of delicious quality. Postpaid, pkt. 10c; ½ lb. 30c; lb. 50c.
BUCKBEE'S "Full of Life" PEAS  
Second Early and Main Crop; Sweet, Wrinkled Sorts—Continued

NEW EVERBEARING
The Great Continuous Everbearing Variety.
Vine stout, about two and one-half feet high, bearing at the top six to ten broad pods. If these are picked as they mature and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. The Peas are very large and wrinkled, cook very quickly, are tender, of superior flavor and preferred by many to any other sort. Postpaid, pkt. 8c; ½ lb. 21c; lb. 33c.

IMPROVED CHAMPION OF ENGLAND
The Standard Sweet flavored Late Wrinkled Pea.
Very productive and universally admitted to be one of the richest and best flavored Peas. Height four to five feet; seed light green and much shriveled. Very inferior and mixed stocks of this sort are frequently offered, but when the seed is as well grown and selected as that we offer, we consider the variety equal in all ways to any in cultivation and one of the best of its season, either for the amateur or market gardener. This is the latest pea we grow; it is about a week later than Telephone. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

HORSFORDS MARKET
GARDEN
A first-class wrinkled Pea; medium late. Height 2 to 3 feet. It is a profitable sort for market gardeners, equally good for the home table and also much used by canners. Medium-sized pods, enormously productive. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

YORKSHIRE HERO
The vines are stout, of medium height, about two or two and one-half feet, bearing near the top a number of rather broad pods of medium size, about three inches long, filled with large peas that remain a long time in condition for use and which never become as hard as most sorts. The peas are of fine quality and will be preferred to any other by those who like a rich, marrow-like pea. Seed large, wrinkled and flattened. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

Grant's Favorite.

GRANT'S FAVORITE
This fine variety of our own introduction is unquestionably the sweetest late Pea ever offered, coming into use just after the early varieties are through bearing. Luxuriant grower, from 2 to 4 feet high. The pods are of good size, and always well filled with exceptionally sweet and highly flavored Peas. It is nearly an upright grower, but will do better if staked or planted along a fence. Postpaid, pkt. 10c; ½ lb. 25c; lb. 40c.

Buckbee's New Vigorosa

THE MOST MAGNIFICENT OF ALL NEW PRODUCTIONS
Nothing like it for a second early Pea has ever been produced. It requires no support. There is no Pea more prolific. It is a leader in the market and in demand among epicures. To try it is to surely succeed.

This grand, exceptionally good, new Pea is beyond all reasonable doubt by long odds the very best Second Early variety that has ever been introduced. The extended history of Pea culture gives us no example of a production anything near the equal of Vigorosa. It is ABSOLUTELY UNPARALLELED.

No bushing at all is required. The vines grow to be but 20 inches tall and are so stout that they bear immense crops without falling. As an enormous yielder the New Vigorosa ranks first and has no close rival.

When it comes to quality—well, that is one of its many strong points. No one who knows the merits of real Peas could possibly find fault with it. It pleases Critical Judges, which means it is all that we claim for it. Those of our customers who have tried it say it is better than we represent it to be. Postpaid, pkt. 10c; ½ lb. 25c; lb. 40c.
BUCKBEE'S "FULL OF LIFE" PEAS
THE CREAM OF THE BEST LATE VARIETIES

THE ACKNOWLEDGED WORLD BEATERS

BUCKBEE'S MELTING SUGAR PEA

An excellent edible podded Pea with large sized pods, of delicious quality. This class of Peas is used in the same way as the Snap or String Beans, but being shelled, but the pod and peas all being eaten; they are picked when the peas in the pods have reached about half their full size. Pods are very large, sweet, smooth, extremely tender, so brittle that they snap, absolutely without any string and of the most delicious flavor. Vines are tall, about five feet high, and do better if supported. Postpaid, pkt. 10c; ½ lb. 22c; lb. 40c.

MAMMOTH LUSCIOUS SUGAR

The Finest Edible Podded Pea.

These peas are not shelled, but are eaten like snap beans; the pods are stringless and are unexcelled in flavor, brittleness and sweet succulence. They may be served with butter or white sauce, and can be made ready in 10 to 15 minutes; they are good when quite old. Excellent also for pickles.

The vines grow 5 to 6 feet tall, require support; the pods are 6 to 7 inches long and 1½ inches broad and are produced continuously for a long period in the greatest abundance. Postpaid, pkt. 10c; ½ lb. 25c; lb. 42c.

LARGE BLACK EYED MARROWFAT

One of the largest of the Marrowfats, with a distinct black eye. Vines grow about 5 feet high; pods 3 inches long; Peas very large, smooth and round, of ordinary quality. Immensely productive. Postpaid, pkt. 6c; ½ lb. 16c; lb. 28c.

LARGE WHITE MARROWFAT

Cultivated extensively for the Summer crop. About 5 feet high, of strong growth. Pods about 3 inches long, filled with large, round, creamy, yellow Peas. Enormous croppers. Postpaid, pkt. 7c; ½ lb. 18c; lb. 30c.

Mammoth Luscious Sugar

BUCKBEE'S MAMMOTH-PODDED SUGAR MARROWFAT

The Largest Podded, Most Productive and Best Flavored of the Marrowfat Peas; a Good Variety for Late Crop.

Here is an excellent Pea for the home gardener—and a profitable shipping variety for the professional Pea Growers. Extremely prolific, outyielding any known sort. Pods are 4 or 5 inches long, completely filled with large peas of good flavor. Vines grow about 4 feet high; should be bushed for best results, although great results are obtained without. The productiveness of this variety, in large pods as well as heavy crop, is a distinctive feature of special interest and importance. Uniformity in type, large pods, and the fine, cool looking, rich, green color of the pods, giving them the highest marketable value in appearance, which is retained several days longer than pods of lighter color could be, are all points for the market gardener to figure on. We have harvested a fine crop of the choicest seed of Buckbee's Mammoth Podded Sugar Marrowfat Peas the past season and will put the price within reach of all. Postpaid, pkt. 10c; ½ lb. 22c; lb. 40c.
BUCKBEE'S "Full of Life" PUMPKINS

BUCKBEE'S TRUE SUGAR PIE

One of the very earliest and very best pumpkins. The fruits are small, round, with orange-colored skin and flesh. Remarkably prolific and an excellent keeper. The flesh is thick, fine-grained, dry, sweet, sugary, and of the finest quality for pies. It cannot be beat for table use. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

NEW JAPANESE PIE

The earliest pumpkin, the seeds marked with curious indentations like Japanese letters. Fruits medium size, good keepers and weigh 15 to 20 pounds each. The flesh is a rich salmon, unusually fine grained. For making pies, custards, etc., they certainly have no superior. Containing but little water, can easily be cut and dried like dried apples and make excellent pies or sauce for winter use. Pkt. 5c; oz. 12c; 2 oz. 25c; ¼ lb. 45c.

BUCKBEE'S KING OF THE MAMMOTHS

Wonderfully grand and colossal variety, astonishing everyone by its mammoth size and heavy weight. Think of it—a single Pumpkin weighing 469 pounds! Many of our customers saw this specimen on exhibition at the World's Fair. King of Mammoths is always a prize winner at fairs and exhibitions. Notwithstanding its enormous size, it is one of the best pies and table varieties grown. A splendid keeper, and exceptionally valuable for feeding purposes. We control the complete stock of this variety. Send to Buckbee for true stock seed. We do not save seed from specimens weighing less than 200 pounds. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 50c; ½ lb. 90c; lb. $1.75.

GOLDEN OBLONG

Very hardy and productive; pumpkins fifteen to twenty inches in length and eight to ten inches in diameter. Skin of a rich golden orange, thin but tough, making it almost as good a keeper for Winter as the hard shelled squashes. Flesh is light golden yellow, of very rich, fine quality. Pkt. 6c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c, postpaid.

CUSHAW OR CROOKNECK WHITE

Creamy-white skin. Flesh yellow, solid and sweet. Popular for the table. Pkt. 5c; oz. 12c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; lb. $1.50.

QUAKER PIE

Fine grained and of rich flavor, having none of the stringy nature common to so many varieties. It is early and keeps late. Oval shaped, tapering to the ends. Of cream color, both inside and out. Pkt. 5c; oz. 12c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; lb. $1.50.

NEW WINTER LUXURY

Fine keeper and enormously productive. It is very finely netted and in color is a golden russet. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

NEW CALHOUN

Fine variety, heavy and solid; very productive. Skin rich cream color, flesh salmon yellow, very thick, fine grained and of superior quality. Pkt. 5c; oz. 12c; 2 oz. 35c; ¼ lb. 40c; ½ lb. 75c; lb. $1.40.

WESTERN FIELD

Sometimes Called Big Tom or Connecticut Field. One of the best varieties for field purposes, particularly desirable for stock feeding. Grows to a fine size. Color rich yellow, flesh fine grained, of good flavor. Postpaid, oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c. By express or freight at buyer's expense, 5 lbs. $3.50; 10 lbs. $6.50.

BUCKBEE'S PURE GOLD

Acknowledged by all the best field Pumpkin, either for growing with Corn or in the field by itself. Excel for feeding stock, and, best of all, makes most delicious Pumpkin pies. Deep, rich, creamy yellow color; flesh fine grained and of excellent flavor. Choice stock seed, by mail, postpaid, oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c. By express or freight, at buyer's expense, 5 lbs. $3.50; 10 lbs. $7.50.
AN EMINENT AND SURPRISINGLY FINE VARIETY

Buckbee’s New Sandwich Island Pumpkin

It affords us great pleasure to present to you this "Pumpkin Novelty." Our customers well know from experience that we never offer a novelty unless it has been carefully tested, and this new Pumpkin is no exception. Coming from a remote section of the Sandwich Islands—where by chance our representative found it—it has already created a great furor in its new home. Remarkably distinct in every way, of fine size, very prolific bearer, and deliciously thick flesh. An excellent keeper. Certainly a grand future is in store for this new Pumpkin. Seed is naturally scarce this season. Order early before our supply is exhausted. Choicest seed of our own growth. Pkt. 10c; oz. 15c; 2 oz. 35c; ½ lb. 45c; ¾ lb. 60c; 1 lb. $1.50.

Tennessee Sweet Potato Pumpkin

A magnificent pear-shaped variety of medium size; a little ribbed. Color creamy white. When cooked it has somewhat the appearance of sweet potatoes, but is of more delicious taste. Flesh thick, creamy white, remarkably fine grained, dry and brittle. There is no superior for making pies and custards. Hardy and productive, and keeps perfectly sound until late in the Spring. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; 1 lb. $1.25.

Large Cheese Pumpkin

Sometimes called Kentucky Field—Flattened fruit with broad rib; creamy buff skin; averages 2 feet in diameter. It is an excellent keeping variety, with thick flesh of exceptionally fine quality. Pkt. 5c; oz. 7c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 1.00.

Mixed Pumpkins

All Shapes, Colors and Sizes—This mixture is especially offered to those who wish to grow a collection of the different kinds of pumpkins for exhibition at County Fairs, or for home use. All are good keepers. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 1.00.

PIE PLANT OR RHUBARB

Pie Plant or Rhubarb Roots

A saving of from two to three years is made by planting the roots.

BUCKBEE’S NEW PINEAPPLE—Price, by mail, postpaid, 25c each; $2.50 per dozen. By express or freight, not prepaid, 30c each; $3.00 per dozen; $15.00 per 100.

BUCKBEE’S WESTERN MARKET—Price, by mail, postpaid, 20c each; $2.00 per doz. By express or freight, not prepaid, 15c each; $1.50 per dozen; $7.00 per 100.

SMALL RHUBARB ROOTS—Postpaid, 15c each; $1.50 dozen.

Pie Plant or Rhubarb Seed

BUCKBEE’S NEW PINEAPPLE—Without doubt this is the earliest of all Pie Plant and a variety that can be used not only in the early Spring, but Summer as well. The very best of the Giant Everbearing varieties. Quality simply superb. Stalks of good size, soft and juicy. Skin so thin and tender that it is not necessary to remove it before cooking. Flavor sprightly and refreshing and has the true pineapple flavor. This variety is about two or three times the size of the common Rhubarb. This is the first vegetable of the season and no garden should be without it. Choicest “Full of Life” Seed. Large pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; 1 lb. $1.50.

BUCKBEE’S WESTERN MARKET—A very fine variety, very productive, large size, and very early. The stems are numerous, broad, heavy, but very tender. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; 1 lb. $1.00.
GROW PEPPERS, ALWAYS MONEY-MAKERS

BUCKBEE'S GREAT WEST—The giant of all. The heaviest cropper; the mildest flavor; the finest appearing; the surest to grow. The one you can't do without. Beautiful red color and of mild flavor. Our stock is limited, so order early. Large pkt. 10¢; 1 oz. 35¢; oz. 50¢; 2 oz. $1.15; 1/2 lb. $3.00.

CHINESE GIANT—Double the size of Ruby King and equally as mild. The compact plants produce four or more extra large Peppers at the base very early in the season, which ripen while a second crop is setting on the branches. Very vigorous, hardy grower, and a valuable variety for either the home or market garden. Large pkt. 10¢; 1/2 oz. 35¢; oz. 50¢; 2 oz. 95¢; 1/2 lb. $1.75.

CORAL GEM BOUQUET—Plant tall, bearing a profusion of round, bright red fruit which is very pungent when ripe. The plant, when in fruit, is very ornamental. Pkt. 5¢; oz. 60¢.

SWEET MOUNTAIN—Plants very vigorous and productive. Fruit large, long, very smooth and handsome, being, when green, of a bright, deep green color, entirely free from any purple tinge, and mature of a rich red. Flesh very thick, sweet and mild flavored. Well suited to use for stuffed pickles or mangoes. Pkt. 5¢; oz. 40¢; 2 oz. 70¢; 1/4 lb. $1.30.

LONG RED CAYENNE—(The Red Hot Pepper)—A long, slim-pointed pod, and when ripe of a bright red color. Strong and pungent. Pkt. 5¢; oz. 35¢; 2 oz. 65¢; 1/4 lb. $1.35.

NEW PIMENTO—A new variety, absolutely without pungency. Very early. Fruits 4 1/2 inches long by 3 inches across. It should be grown largely in the family garden because it is delicious with salads and sandwiches. The green Peppers are excellent stuffed with salt and pickled or filled with meat and baked. It is largely used by canneries. Pkt. 8¢; oz. 30¢; 2 oz. 55¢; 1/4 lb. $1.00.

NEAPOLITAN—The earliest large, mild Red Pepper. Fruits about 4 1/2 inches long by 2 inches across. Pkt. 5¢; oz. 35¢; 2 oz. 65¢; 1/4 lb. $1.35.

IMPROVED RUBY KING—An improved American sort, reaching the largest size, yet retaining the symmetrical shape of the smallest sorts. It is very bright colored, temptingly sweet, mild flavored, and one of the best for stuffed pickles or mangoes. Pkt. 5¢; oz. 40¢; 2 oz. 75¢; 1/4 lb. $1.40.

FINEST MIXED PEPPERS—The above and many other valuable Peppers in choice mixture. Price per pkt. only 5¢; oz. 45¢; 2 oz. 80¢; 1/4 lb. $1.55.

We can also supply the following varieties:
Large Bell or Bull Nose, Golden Queen, Red Chili, Sweet Spanish for—Pkt. 7¢; 1/2 oz. 35¢; oz. 40¢; 2 oz. 75¢; 1/4 lb. $1.45.
The Cream of the Extra Early Radishes

Buckbee's selected strains of Extra Early Radishes, listed on this page, are grown from transplanted roots and are the earliest and finest known. Will invariably produce roots even in size, shape, maturity with small tops, rich, bright colors and command the highest market prices.

**BUCKBEE'S ROCKFORD BEAUTY**

The Handsomest Radish.

Very early—only a day or two later than Rapid Forcing. Of bright scarlet color, with a large white tip covering almost one-half of the roots. Flesh crystal white, tender and crisp. This is one of the most popular Radishes grown in the home as well as for the market, being of most beautiful appearance and exquisite flavor. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 23c; ¼ lb. 35c; ½ lb. 60c; lb. $1.10.

**BUCKBEE'S RAPID FORCING**

The Earliest of All Forcing

Quick growth is one of the main essentials for a crisp and tender Radish. Buckbee's Rapid Forcing matures in about 14 days from sowing; that is several days ahead of any other variety known today. This Radish is of a fine turnip shape. It remains in good condition without getting hollow or pithy longer than any other extra early variety. The flesh is pure white, crisp and of very pleasant flavor. The skin is a most attractive bright scarlet. The leaves are very short, which admits of close sowing. Its extreme earliness, maturing before all other kinds—its beautiful bright scarlet color, and its unusually brittle and delicious quality, make it most desirable for kitchen garden, and a source of great profit for the market gardener. Remember, that we control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 23c; ¼ lb. 35c; ½ lb. 60c; lb. $1.10.

**BUCKBEE'S BRILLIANT GLOBE**

Buckbee's Brilliant Globe is a great improvement on the well-known Scarlet Globe, as it runs more even in shape and size, is of a richer and brighter color and is very much earlier. It will surely take the place of the older variety where known. It is well suited for greenhouse and hothed forcing, and also for growing outdoors. It is of attractive globular form, of magnificent, glowing, bright scarlet color, and has pure white, crisp, tender and juicy flesh. We especially recommend this variety to the market gardener, but it is also one of the finest for the home garden. Pkt. 10c; oz. 15c; 2 oz. 23c; ¼ lb. 35c; ½ lb. 60c; lb. $1.10.
BUCKBEE'S EXTRA EARLY RADISHES

BUCKBEE'S NEW EARLY RED KING
The Earliest and Best: Sweet, Crisp, Juicy, Mild; Wonderful Yielder, Beautiful Color, Uniform Size.

This new variety is our own production and is one of the earliest ever grown—fully matured Radish being pulled on our Rockford Trial Grounds in the short space of 14 days from time seed was planted. Won favorable comment and helped to secure First Prize and Diploma at the State Exhibit at the Springfield, Illinois, State Fair. It is of small size, just right for the purpose; beautiful dark red skin; ivory white flesh; extremely mild and sweet flavor; retains its crispness even after quite old and never becomes pithy. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ¼ lb. 60c; lb. $1.10.

BUCKBEE'S CRYSTAL FORCING
The Quickest Growing White Radish.

Without an equal. Matures in 14 days. Pure snow-white in color—fairly crystal—so clear and transparent. Nothing is more tempting and pleasing than a combination of Buckbee's Crystal Forcing and Buckbee's Rapid Forcing when arranged in market or on the table. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ¼ lb. 55c; lb. $1.00.

VICK'S SCARLET CLOSE
Its color is a rich scarlet. It has a small top and is a highly bred Radish. A grand forcing variety and excellent for sowing outdoors. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

EARLY WHITE TURNIP
Very handsome; of quick growth; sweet, juicy and tender. Skin ivory white; flesh pure white. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

EARLY SCARLET TURNIP
The famous standard variety. One of the finest, juiciest, sweetest and best Radishes for early use grown. Rich, red color; flesh white. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

NEW ROSY GEM
Handsome Turnip Radish, a great favorite in many markets and for early planting outdoors. But little later than Rockford Beauty and will give satisfaction where extreme earliness is not the object. Roots slightly flattened on the underside, color very dark scarlet with a white tip; flesh white and of the best quality. One of the best, either for home or market use. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

NEW TRIUMPH
The Greatest Radish Novelty.

Both unique and useful. Matures early, generally in about 14 days. Nothing produces a more pleasing effect on the table than this beautiful variety. The roots are of globular form, tops are short and attractive, which make it valuable for cultivation under glass. The flesh is very crisp and solid and mild, pleasing flavor. Its most attractive and distinctive feature, however, is the unique color of the skin. The ground color is beautiful ivory white, striped horizontally and splashed with bright scarlet. Sure to become popular with market gardeners and private planters. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

NEW LEAFLESS
The extra early forcing Radishes lately introduced are remarkable for the small size of their leaves; they develop their roots in so short a time that the latter are practically in advance of the leaves. The character is still more noticeable in this new variety. The seed leaves, which are noted for great development from the start, are the only green parts to be seen on the plants until the bulbs are almost large enough for pulling. At that time one or two small leaves only are produced. The roots are of the shape and color of our Rapid Forcing Radish. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

EARLY SCARLET TURNIP WHITE-TIPPED
For many years we have found this variety to be the most popular of all among private gardeners, and unsurpassed as a Table Radish, where, by reason of the strong, contrasting colors of the root, it makes a most attractive appearance. The flesh is crisp, white and tender, and extremely mild. Roots smooth, fine bright scarlet, with clear white tips. Very early. Very popular for planting outdoors and a splendid market variety. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.
EARLY SCARLET OLIVE SHAPED

This variety has a small top and is very early, making it one of the best for early use. Roots ready to pull may be had in three weeks, and they remain fit for use longer than any other early variety. They are small, true olive shaped, smooth, very deep red in color; flesh is white, crisp, tender and mild in flavor. May be planted very closely owing to their small tops. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

EARLY WHITE OLIVE SHAPED

A splendid olive-shaped radish, pure white in color. Distinctly earlier than any other half long white sort. Good-sized radishes may be pulled in 20 to 25 days which are solid and crisp, of good flavor, and first-class in every respect. A splendid companion to Early Scarlet Olive Shaped. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

PARIS BEAUTY OR HALF LONG DEEP SCARLET

A brilliant deep, rich red color, changing to a pure white in the lower portion. About 3 to 4 inches long, but thicker than Cardinal. The flesh is very white, crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

CARDINAL OR LONG BRIGHTEST SCARLET

The Earliest and Finest of Long Red Radishes

Of the same size and shape as the old and well-known Long Scarlet, but it is a few days earlier and the color is of a much brighter scarlet, with a distinctly clear white tip. It has a small top. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

LONG SCARLET SHORT TOP

The Very Best Long Red Radish

Our strain of this very popular long radish is the finest we have on the market. In it we have, without exception, the very best long, brittle, brightest scarlet radish we are acquainted with. It matures beautiful radishes, which are always brittle and sweet, 30 days from the sowing of the seed. Size and shape cannot be improved. It is undoubtedly the standard long red variety that will withstand the hot dry weather and remain firm and crisp of fine flavor. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE’S NEW ICICLE

The Finest of All Radishes. The Earliest of the Long White Sorts.

Ready for the table in about three weeks. The roots are perfectly white in color, long, slender and tapering in shape. They quickly grow to market size and remain tender during the entire growing period, and are quite as good when an inch in diameter as when only half an inch. The leaves are short, very few in number, and the roots are, therefore, be grown very closely together. The flesh is crisp, tender and mild in flavor. Admirably adapted for growing under glass as well as in the open ground. Excellent for market and private gardeners. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

Improved French Breakfast

IMPROVED FRENCH BREAKFAST

A great favorite. Beautiful bright scarlet, with pure white tip. Oblong in shape, medium size, makes rapid growth. It is a fine table variety on account of its excellent quality and attractive appearance. Fine for open ground or forcing. It matures quickly and is sweet, crisp, solid and tender. When offered for sale it quickly attracts the buyer’s attention. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.
BUCKBEE'S SUMMER RADISHES Require a longer time than Early Radishes to mature, but grow larger and keep longer

NEW GOLDEN DRESDEN A Favorite With Market Gardeners.

It has proved a universal favorite everywhere. Matures in less than 30 days. Flesh pure white, crisp, juicy and of the finest flavor. Skin of beautiful golden russet color. Market gardeners can either grow this variety in the open ground or force it, and be sure of an early, perfect and uniform crop. Unexcelled for the home garden. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

GOLDEN SUMMER TURNIP

Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 43c; lb. 83c.

NEW WHITE DRESDEN

Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

GRAY SUMMER TURNIP

Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

BUCKBEE'S ROCKFORD MARKET

A World Beater Among Radishes

The extraordinary earliness is remarkable in view of the fact that it grows to such a large size and keeps in good condition for such a long time. The shape is regular, smooth and nearly conical; it grows to a very large size about twice as long as Brightest Scarlet. In brightness of color it is quite unique, being the handsomest scarlet we have yet seen in a Radish and tipped at the end of the roots with just enough white to present an ideal appearance. Crisp, tender and juicy. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ¼ lb. 40c; lb. 70c.

IMPROVED CHARTIER

A standard variety. The roots come to usable size very early, remaining hard and crisp three times as long as any other sort. Flesh, white, crisp and mild-flavored. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 70c.

NEW WHITE LADY FINGER

Beautiful in shape and the skin and flesh are pure snow white. Crisp, brittle and of rapid growth. Order early. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 40c; lb. 70c.

WHITE STRASBURG

This grows to the largest size, but is usable when quite small, thus covering a long season. Four to five inches long and about two inches thick. With white, crisp and tender. One of the finest of the large summer sorts. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 90c.

BUCKBEE'S WINTER RADISHES

MAMMOTH CELESTIAL—Edible at all seasons of the year. It can be planted from Spring until late Fall, and keeps in perfect condition all Winter, while the other Winter Radishes are best sown not before June 15th. Roots frequently grow 14 to 18 inches in length and 6 to 8 inches in diameter, growing mostly above the ground. Skin and flesh pure paper white; very tender, crisp, juicy, mild. There is no other Winter Radish equal to it in quality. It is the most juicy, luscious of them all and it keeps its solidity, crispness and sweetness when all others have become pithy and worthless. This is a Radish to tie to and plant in every garden. Its beauty and quality will please everyone. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 90c.

CHINESE ROSE—Chinese Rose requires about fifty days from sowing to be fit for the table. It is a beautiful, showy Radish with a bright scarlet skin, growing 4 to 5 inches in length and from 1 to 3 inches in diameter. The roots are cylindrical, somewhat larger at the bottom than on top, blunt at both ends. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 90c.

CALIFORNIA MAMMOTH WHITE—Pure white about 1 foot long and 2 or 3 inches through, tapering regularly to the tip. Flesh tender and crisp. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 90c.

ROUND BLACK SPANISH—The roots are from 3 to 4 inches in diameter, almost round and very black. Long flesh. The flesh is white, very compact, pungent and well flavored. Keeps well all winter. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 90c.

LONG BLACK SPANISH—Later than the Round Black Spanish, growing 10 to 12 inches long, having a diameter of from 2 to 3 inches. The skin is black and the flesh white, firm and pungent. Keeps well throughout the winter. A favorite sort with many people. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 90c.

RADISH MIXTURES

Price each of the following varieties: Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; lb. 80c.

EARLIEST RADISHES MIXED—For family gardens, earlist varieties.

SUMMER RADISHES MIXED—For family gardens we offer a mixture of all summer varieties.

WINTER RADISHES MIXED—Seed of the best white, black and rose-skinned varieties, which will produce all the best Radishes for Autumn and Winter use.
SALISFY

This delicious vegetable should be more generally grown. It surpasses for table use both parsnips and carrots, acquiring, after a good frosting, a decided oyster flavor.

BUCKEE'S ALL AMERICA—By far the Very Best Salsify—A truly American variety of the highest merit. Introduced in 1908 and sprang into immediate popularity. The largest and thickest roots of all varieties; of most superior quality, excelling by far any variety now on the market. Pkt. 10c; oz. 20c; 2 oz. 25c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.

BUCKEE'S NEW LONG SEASON—Also Called Triumph—The best variety to sow in Spring and also continuously all summer, as it remains firm and fresh during the hot summer months. Plants are comparatively small, of compact but prostrate growth. The leaves are thicker and heavier than those of any other sort; they are heavily crumpled and blistered, of dark green color, and do not wilt or run to seed as quickly as any other kind. Pkt. 6c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ⅛ lb. 30c; lb. 50c.

MONSTROUS VIROFLAY—Strong, quick grower, immense yielder, the largest salsify; the plants sometimes measure 2 feet in diameter with leaves 14 inches long and 8 inches wide at the base. Leaves handsome in appearance and deservedly popular. Pkt. 6c; oz. 8e; 2 oz. 12e; ¼ lb. 21c; ½ lb. 35c; lb. 35e.

PRICELESS WINTER—Very hardy and productive; slow to run to seed. For fall and spring sowing. Pkt. 6e; oz. 8e; 2 oz. 12e; ¼ lb. 21c; ½ lb. 35c; lb. 35e.

SAVOY LEAVED—Often called Norfolk Savoy and Bloomsdale. The earliest Salsify; extremely hardy; the best for fall planting, also much sown in early spring; an excellent shipper. Leaves numerous, succulent, curled, blistered and of glossy dark green color. Pkt. 5e; oz. 7e; 2 oz. 12e; ¼ lb. 15c; ½ lb. 25c; lb. 35c.

IMPROVED ROUND SUMMER BROAD-LEAF—Excellent for early spring sowing. Leaves large, thick and fleshy. Pkt. 5e; oz. 8e; 2 oz. 12e; ¼ lb. 17c; ½ lb. 25c; lb. 35c.

IMPROVED THICK LEAVED—Large, thick, slightly savoyed leaves. Pkt. 6e; oz. 8e; 2 oz. 12e; ¼ lb. 21c; ½ lb. 35c.

LONG STANDING PRICKLY—Matures a little later than the round leaved sorts, but furnishes a large quantity of thick and well-flavored leaves. Prickly seed. Pkt. 6e; oz. 8e; 2 oz. 12e; ¼ lb. 17c; ½ lb. 35c; lb. 50c.

SORREL

LARGE-LEAVED GARDEN—The best garden variety, having large pale green leaves of fine quality. Pkt. 5e; oz. 20e; 2 oz. 35c; ¼ lb. 60c.

SWISS CHARD or SUMMER SPINACH

LARGE RIBBED WHITE—Also called Silver Beet and Sea Kale Beet—The leaves are used for greens the same as Spinach or beet tops; they are equal in quality and easier to prepare than Spinach, and far superior to beets. Nothing in the garden requires less care, and yet it yields a constant crop from July to winter and can be used all summer when Spinach is not available. Pkt. 5e; oz. 10e; 2 oz. 16c; ¼ lb. 25c; ⅛ lb. 45c; lb. 50c.

LUCULUS—This grand new and distinct variety is a great acquisition. The stalks are as thick and broad as Rhubarb. The plants grow to a height of from 2 to 2½ feet, and stand 1½ inches broad. Pkt. 6e; oz. 10e; 2 oz. 18c; ¼ lb. 30c; ½ lb. 60c; lb. 90c.
BUCKBEE'S "Full of Life" SQUASH
SUMMER SQUASHES

BUCKBEE'S NEW GIANT SUMMER CROOKNECK
Standard Early—Splendid Quality.
Twice as large as the ordinary Crookneck, more warty and earlier. This combination makes it the most desirable for the market or private garden. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 33c; ¼ lb. 63c; lb. $1.25.

BUCKBEE'S NEW MAMMOTH WHITE BUSH
Scalloped or Improved Patty-Pan.
Great improvement over the Early White Bush. Very uniform in shape and wonderfully prolific. Fit to use very early, of a beautiful clear white color, and grows to a large size—12 to 15 inches across. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

MAMMOTH EARLY GOLDEN CUSTARD OR YELLOW BUSH, SCALLOPED
Standard early Summer variety. Nice to use in its green state and valuable for making pies when it has attained full size. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

NEW FORDHOOK
This Squash is very early, but in a cool, dry place it will keep as long as a Winter Squash. The outside color is bright yellow; inside color, straw yellow. The skin is so thin that it need not be removed for cooking. The meat is thick, dry and sweet and can be used at any stage of their growth. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 33c; ½ lb. 63c; lb. $1.25.

WINTER SQUASHES
NEW DELICATA
Rind orange-yellow, splashed and striped with dark green. The flesh is rich, dry and particularly fine. A desirable feature is its small size—not too large for an ordinary family; is wonderfully solid and heavy, the seed cavities being very small. It is also extremely early, maturing about the same time as the Summer Squashes, and for early use will doubtless supplant this class on account of its superior dryness and flavor, while its extreme solidity renders it fully as good a keeper as any of the Winter varieties. Pkt. 6c; oz. 15c; 2 oz. 21c; ¼ lb. 40c; ½ lb. 70c; lb. $1.30.

GOLDEN WEST HARD SHELL
A Splendid Keeper.
This grand Fall and Winter Squash originated by a "cross" in a field of Hubbards and is practically "bug-resistant." Quality is delicious. Skin and flesh beautiful golden orange-red color. Big Yielder. Very profitable for home or market purposes. Makes the very best baked Squash and pies. Don't fail to plant this grand variety. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

MAMMOTH WHALE
The Jumbo of the Squash Family.
The Largest of All. Single specimens have grown to the enormous weight of 300 pounds. Outer color a dark olive green with stripes of lighter tinge; flesh very thick and of rich yellow color; quality good, very nutritious, making it exceptionally valuable for all family and market purposes. Profitable also grown for stock feeding. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 65c; lb. $1.25.

650 MIXED SQUASHES
In this mixture will be found early and late, small, medium and large, whereby anyone can have a good supply of delicious squashes from early Summer until late in the Fall. All are good winter keepers. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 33c; ½ lb. 65c; lb. $1.25.
BUCKBEE'S "FULL OF LIFE" HUBBARD SQUASH

Four varieties that have been perfected until they are now absolutely unequaled

NEW GOLDEN HUBBARD

First Offered by Us as a Novelty in 1901. Now Known and Grown in Every State in the Union.

This is a true Hubbard Squash, except in color, which is bright golden. The vine is a vigorous but not rampant grower and wonderfully productive, expending the energy derived from liberal fertilizing in the production of an increased number rather than of overgrown and coarse fruits, as some varieties are apt to do. It ripens its crop very early and uniformly, thus making it a certain cropper. The fruits are very uniform in size, weighing from 6 to 8 pounds, and in shape are like the Hubbard. Though maturing early, they are wonderfully long keepers, so they can be held over in good condition for spring use. The shell is warty, hard and strong, and a very beautiful orange red color, except for a bit of olive green on the blossom end. The flesh is deep orange and uniformly so to the rind, never having the green tinge so objectionable in other sorts. It cooks very dry, fine grained and good flavored. We believe this is the best fall and winter sort yet introduced and that it deserves to and will become a most popular variety. It certainly has no superior as a table Squash. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; lb. $1.15.

CHICAGO WARTED HUBBARD

A Standard Variety and a General Favorite.

The leader in many markets. Our strain of the above will produce what we consider the Ideal Hubbard for home or for market. For thirty or forty years this Squash has ranked first as a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Choicest stock seed of our own growing. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. $1.20.

New Golden Hubbard Squash.

BUCKBEE'S IMPROVED HUBBARD

The Famous American Standard Winter Squash.

The Grand Old Favorite—This is a superior selection of this famous variety and one of the best winter Squashes; flesh bright orange yellow, fine grained, very dry, sweet and rich flavored, keeps perfectly good throughout the winter; boils or bakes exceedingly dry and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wariness of the shell, but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

BUCKBEE’S BEEFSTEAK

The King of All Main Crop Tomatoes

See Painting from Nature on Front Cover.

NOTHING in the way of a Tomato Creation has ever achieved in so short a time, the tremendously excellent reputation that has come to BUCKBEE’S BEEFSTEAK. Growers from every section of the wide world have sent in unsolicited praise, and the tests to which they have subjected it leave no room for doubt that it has all the qualities required in a Tomato. Its important features are:—Earliness, Large Size, Perfect Shape, Solidity, Handsome Color (which is rich red), Productiveness, Everbearing, Fine Flavor, Best Keeper, Splendid Shipper.

Without question—the King of All Tomatoes—and unqualifiedly Superior to any other variety grown, for market, for family use or canning. It is a sturdy healthy grower and practically Everbearing, yielding enormous quantities of tomatoes always smooth and handsome until killed by frost. For a main crop there is no variety that can equal Buckbee’s Beefsteak, and it is particularly desirable for large growers and shippers as it stands rough handling well, while its beautiful bright red color and handsome shape makes it very valuable as a market sort. It never fails to please every one, the amateur as well as the market gardener.

We supply over 150,000 of our customers with Buckbee’s Beefsteak Tomato Seed annually. This speaks for itself, and substantiates our claim that Buckbee’s Beefsteak is the “King of All Tomatoes,” and the most extensively planted of any variety.

THE WORLD’S ONE UNBEATABLE TOMATO

We control the entire seed supply and offer the choicest “Full of Life” Seed of our own growing at the following reasonable prices. Send to Buckbee for the true “Beefsteak.” Pkt. 15c; 2 pkts. 25c; ½ oz. 40c; oz. 75c; 2 oz. $1.25; ½ lb. $2.25; 1 lb. $4.00; ½ lb. $2.50, postpaid.

Ten Reasons Why You Should Plant Buckbee’s Beefsteak Tomatoes

1—Introduced by us in 1904, and has never failed to give satisfaction.
2—Reputation. Less than 1000 packets were sold in 1904. Over 150,000 of our customers were pleased in 1920. This is a wonderful record.
3—Has been grown in every state in the Union with splendid results.
4—Large size; in fact, the largest smooth Tomato ever grown.
5—Matures early, and continues to set fruits until frost.
6—A splendid shipper, even when sent long distances.
7—Enormously productive; in fact, we claim and believe that you can raise more bushels per acre from Beefsteak than from any other variety.
8—Handsome color, which finds it a ready sale in any market.
9—Good keeper. Holds up a long time after picking.
10—Flavor unequalled, practically all meat, having few seeds.

True Originator’s Stock Can Only Be Obtained from H. W. Buckbee
THE EARLIEST SCARLET TOMATOES

BUCKBEE’S EARLIEST MARKET

The Earliest, Large, Smooth, Scarlet Tomato in Existence.

This variety bears fruit which in size, shape, color, solidity and quality compares favorably with the noted later kinds, and by repeated trials at Rockford Seed Farms and elsewhere has demonstrated that it ripens up a larger portion of its crop the earliest of any variety. It is, without question, the earliest good, large scarlet Tomato. Gardeners and Tomato fanciers will readily see the advantage obtained over their competitors by growing Buckbee’s Earliest Market. This is the variety which will give them the opportunity to be first on the market with a large crop of beautiful large fruits, selling readily at good prices.

Compared with the well-known Earliana, Earliest Market is about a week earlier, the fruits are fully as large, smoother, have no hard core, while Earliana is often rough and has large seed cavities. Furthermore, Earliest Market is much more prolific. An excellent kind also for the home garden, and if you have not given this wonderful variety a trial, be sure to include it in your order for 1921. Pkt. 10c; oz. 35c; 2 oz. 65c; ½ lb. $1.25; ½ lb. $2.30; lb. $4.00.

MANSFIELD TREE OR MAMMOTH PRIZE

This wonderful variety grows from 10 to 15 feet in height, and will begin to ripen by July 4th and bear until killed by frost. Flesh firm and solid, almost seedless and of the most delicious flavor. Pkt. 5c; oz. 35c; 2 oz. 65c; ½ lb. $1.25.

CHALK’S EARLY JEWEL

The largest, smoothest, and finest flavored extra early bright red Tomato. Within a week to ten days as early as Spark’s Earliana, it is even a heavier cropper, with Tomatoes of a larger size and sweeter flavor. Pkt. 5c; oz. 25c; 2 oz. 45c; ½ lb. 80c; ½ lb. $1.45; lb. $2.75.

BUCKBEE’S NEW 50-DAY TOMATO

The Largest Fruited, the Smoothest, the Finest in Quality of all Extra Early Scarlet Tomatoes.

Originated on our Rockford Seed Farms. Called 50-Day Tomato because it produces large, ripe fruits on strong plants in 50 days from time they are set in the open ground.
The vines are short, very vigorous, enormously productive and ripen a very much larger crop at the early part of the fruiting season than any other extra early variety. The fruits are globular, always entirely free from cripplers, wrinkled or cracked fruits, and weigh on an average about 5 oz. each, although many fruits as heavy as 6½ oz. each and over have been found in our fields. The color of the fruits is a beautiful bright scarlet. They ripen evenly, well up to the stem, have no hard core, small seed-cells, and are practically all heavy, solid meat of mild and most delicious sweet flavor. The skin is thin, but very tough, making it a splendid long-shipping variety.

Compared with Earliana, 50-Day is a much heavier cropper and its fruits of much larger size, smoother, of better quality, containing less seed and more meat. They are of better appearance and therefore better sellers; furthermore, they ripen practically as early. Fifty-Day will soon replace Earliana, and it should also be planted in place of second early sorts like Bonny Best and Chalk’s Jewel, being earlier, more productive and producing fruits fully equal in size, beautiful appearance and of better quality; only Buckbee’s Earliest Market is a few days earlier than 50-Day, but has somewhat smaller fruit. Price, pkt. 10c; oz. 40c; 2 oz. 75c; ½ lb. $1.40; ½ lb. $2.50; lb. $4.50.
BUCKBEE’S “Full of Life” TOMATOES—Scarlet Varieties—Continued

NEW EARLIANA
An extremely early, smooth, bright red Tomato of good size and flavor, is among the very first ready for the market, and not only remarkable for its earliness, but for its very large size, handsome shape and bright color. The vines are very vigorous and very productive, bearing the fruits in clusters near the base of the plant. The fruits grow about 3 inches in diameter, have solid thick flesh of splendid quality and are excellent shippers. Go to Buckbee for the earliest strain. Pkt. 8¢; oz. 28¢; 2 oz. 50¢; ½ lb. 95¢; 1 lb. $1.70; 2 lb. $3.00.

BUCKBEE’S BONNY BEST
One of the very best early Tomatoes yet introduced; within a week as early as Earliana, but a much heavier cropper, producing Tomatoes of much larger size, more attractive in shape and color. The fruits are very smooth, round, very deep, solidly meaty, with only a few small seed cells; of bright deep scarlet color and of excellent quality. The plants are very vigorous, of robust growth and fruit continuously throughout the season. Very desirable for the home garden and one of the best for market gardeners whose trade demands extra fine fruits. As a canning sort it yields from 12 to 15 tons to the acre, grading as No. 1. Pkt. 6¢; oz. 5¢; 2 oz. 40¢; ½ lb. 70¢; 1 lb. $1.30; 2 lb. $2.50.

NEW JOHN BAER
An extra early Tomato, large, smooth, bright scarlet fruits of excellent quality. Short, vigorous vines, enormously productive. Fruits larger, smoother, with less seeds than those of Earliana, but somewhat later.

For early crops the New John Baer Tomato is planted exclusively in many sections supplying large city markets.

Plants are compact in growth, with short, close-jointed branches, setting fruits very freely in the center. So freely are the fruits set that one plant usually will produce ½ to ¾ of a bushel of uniform Tomatoes in a season. Most valuable for the market gardener and very desirable for home use. Pkt. 8¢; oz. 50¢; 2 oz. 40¢; ½ lb. 70¢; 1 lb. $1.70; 2 lb. $3.00.

THE NEW STONE
Buckbee’s Improved Strain
A standard main crop variety of red Tomatoes. Late, enormous productive, with very large, very deep solid and very smooth fruits of splendid shape and finest quality. Unsurpassed for slicing and canning. The vines are large, vigorous and very productive. Buckbee’s Improved Strain of this old and valuable variety is the finest on the market, being larger, smoother, more uniform in size and shape and of brighter color than that offered by others. Pkt. 5¢; oz. 35¢; 2 oz. 65¢; ½ lb. 70¢; 1 lb. $1.20; 2 lb. $2.15; 4 lb. $3.75.

BUCKBEE’S NEW EARLY BANQUET
The Earliest and Finest Very Large Scarlet Tomato.
The most valuable variety introduced in the last 30 years.
As large and more productive and earlier than Stone, the king of all main crop tomatoes for the canner and market gardener.

This new variety which we introduced in 1918 has all the good qualities of the old Stone, it has the same large solid, smooth fruits, and its immense productiveness but it far excels it in earliness, beginning to fruit about 2 weeks earlier, hence, lengthening the bearing season.

The fruits are brilliant, bright-red, often weigh a pound and a pound and a half each and are borne in large clusters averaging six and more to the cluster; all fruits are invariably of marketable size and have flesh of the richest, brightest red color, which makes them especially suitable for canning and catsup making. Price, pkt. 8¢; oz. 35¢; 2 oz. 65¢; ½ lb. 70¢; 1 lb. $1.20; 2 lb. $2.15; 4 lb. $3.75.
PINK or PURPLE TOMATOES
BUCKBEE'S NEW EARLY JUNE PINK

The Earliest Pink in Cultivation.

The earliest of the pink fruited Tomatoes, similar to the popular scarlet-fruited Earliana in growth of vine, shape and size of fruit and time of maturing, is Buckbee's. The vines are compact and branch freely, bearing their handsome, good-sized deep pink fruits in large clusters continuously throughout the season until frost. It is very popular as a market and shipping variety and most desirable for the home garden. The seed is superior to that commonly offered by others and will produce fruits earlier, larger, smoother, of better shape and color. Pkt. 5c; oz. 25c; 2 oz. 50c; ¼ lb. 95c; ½ lb. $1.70; lb. $3.00.

BEAUTY
We have been perfecting this to a larger, smoother fruit than the original stock, and we have made it one of the smoothest and best of the large purple sorts. Fruit large, uniform, very smooth; color purplish pink, flesh light pink, excellent flavor. The vines are large, vigorous, not subject to rust or blight and bear enormous crops until killed by frost. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.15; lb. $2.25.

BUCKBEE'S IMPERIAL
Unquestionably the Most Productive of the Large Purple Tomatoes.

BUCKBEE'S IMPERIAL is fully as early as Beauty, but the fruits are much larger and heavier. They are very showy, smooth, of fine shape, beautiful, glossy, purplish crimson color, and command the highest prices in every market. The vines are hardy, vigorous and enormous croppers, single plants often yielding under field culture more than a bushel of fully grown, ripe fruits. The plants bear continuously until destroyed by frost. The flesh is firm, of the finest flavor; ripens evenly to the stem. The skin is thin but tough.

BUCKBEE'S IMPERIAL is the best purple variety to grow for the market. A splendid long-distance shipper and most desirable for the home market. Pkt. 10c; oz. 35c; 2 oz. 60c; ¼ lb. $1.15; ½ lb. $2.00; lb. $3.50.

HENDERSON'S PONDEROSA or No. 400
Shape Perfect, Size Massive, Extra Prolific, Early and Late, Finest Quality

Monster Tomatoes, the largest of all Tomatoes, often weighing 2 to 3 pounds each. The fruits are oblong in form, deep through, of rich, bright solid meat, exceptionally free from seed and unsurpassed in sweet delicious flavor; used raw or cooked; a single Tomato enough for a meal. The vines are healthy and vigorous, medium early, and bear large crops continuously until frost. Buckbee's strain is exceptionally fine, bearing smoother and larger fruits than any other one. Pkt. 8c; oz. 40c; 2 oz. 75c; ¼ lb. $1.40; ½ lb. $2.50; lb. $4.50.
BUCKBEE'S "Full of Life" TREE TOMATOES

The so-called Tree or Bush sorts are the most valuable Tomatoes for the home garden, where room is generally short, as they grow stiffy erect and have close, heavy foliage, allowing very close planting. Even if set as close as 12 x 12 inches apart they will produce an abundant crop. All of these varieties are very productive and of the finest quality.

BUCKBEE'S NEW MASTERPIECE TOMATO

The Tomato that will surprise you for large size, handsome shape, beautiful rich crimson-purple color, thin and tough skin, solid meaty flesh, small seed cells with few seeds; rich appetizing flavor; smooth, clean fruit that does not crack, no hard or green core, and the true dwarf tree type; plants well balanced, strong and vigorous, phenomenally productive, bearing regular sized fruits continuously until frost. In fact, New Masterpiece is the acme of perfection in the Tomato family, the largest fruiting and best all-around dwarf growing sort. We have no hesitancy in offering "New Masterpiece" as a candidate for public favor, knowing a trial will convince the most skeptical it is the Tomato of Supreme Excellence.

We control the entire stock of this variety. Price, pkt. 8c; oz. 40c; 2 oz. 75c; ¼ lb. $1.15; ½ lb. $2.50; lb. $4.50.

EARLY DWARF CHAMPION—Very early; hard to beat for home use. Color purpish pink. Fruit smooth, symmetrical, solid and meaty. Pkt. 5c; oz. 35c; 2 oz. 60c; ¼ lb. $1.15; ½ lb. $2.50; lb. $4.00.

BUCKBEE'S WORLD'S FAIR—The fruit is a beautiful golden yellow shade, good size, round and solid, with few seeds; flesh meaty and very sweet and mild. A handsome table sort. Pkt. 8c; oz. 55c; 2 oz. 65c; ¼ lb. $1.25; ½ lb. $2.30; lb. $4.00.

BUCKBEE'S EARLY PROSPERITY—Prosperity is a Tomato of sterling worth, one that is bound to please. It is the earliest of the Tree Tomatoes, with large, perfect fruits; a SPLENDID KEEPER, AN ENORMOUS TIELDER AND FINE SHIPPER. COLOR BRIGHT SCARLET RED. Invaluable for the home garden, market garden or for eating purposes. Pkt. 8c; oz. 35c; 2 oz. 60c; ¼ lb. $1.15; ½ lb. $2.00; lb. $3.50.

BUCKBEE'S NEW TREE or STATION

This New Tomato owes its popularity to its stiff, vigorous, upright growth, with fruit well above the soil, and to the earliness with which it reaches its maturity. In color the fruit is purplish pink and it is always round, smooth and symmetrical. Size medium, table quality superior. A good shipper. Pkt. 8c; oz. 35c; 2 oz. 65c; ¼ lb. $1.15; ½ lb. $2.15; lb. $3.75.

NEW DWARF PONDEROSA

A cross between Dwarf Champion and Tall Ponderosa. The fruits are glossy, purplish-red, with solid, meaty, bright-red flesh; no core and but few seeds. They are fully as large as those of the Tall Ponderosa. Plants grow about 2 feet high, stocky and branching, bearing Tomatoes in great clusters from July until frost. Pkt.
BUCKBEE’S “FULL OF LIFE” YELLOW TOMATOES

NEW GOLDEN PONDEROSA

A splendid novelty. Equals its famous parent, the red Ponderosa, in every respect but color. It possesses its large size, heavy meat and luscious quality, and in addition is of a striking rich golden yellow color, making a novel and most attractive table effect, especially when served sliced with a red variety. This is the largest of the yellow varieties in cultivation. The fruits are very uniform in shape and size, contain little core and few seeds, and are a solid mass of succulent meat. Their skin is thin and they ripen the first fruit quite early, continuing to bear until frost. Pkt. 8c; oz. 35c; 2 oz. 65c; ½ lb. $1.25.

BUCKBEE’S GOLDEN PRIZE

New golden yellow sort. Flesh thick and of extra quality. Produces enormous crops of quite large fruits. Even if you should be prejudiced against a yellow sort, this will please you. Pkt. 6c; oz. 35c; 2 oz. 60c; ½ lb. $1.25; 1 lb. $2.50.

SEE also BUCKBEE’S WORLD’S FAIR on page 88

CHILD’S RESPLENDENT—THE NOVELTY TOMATO

For the benefit of many customers who would like to try all kinds, we offer this mixture of many sorts. Pkt. 5c; oz. 25c; 2 oz. 40c; ½ lb. 75c.

MIXED TOMATO SEED

SMALL FRUITED TOMATOES

CURRENT RED—Extremely small, exquisite flavor. Pkt. 5c; oz. 15c.

CHERRY RED—Fruit small, about five-eighths of an inch in diameter; perfectly round and smooth. Fine for pickles and preserves. Pkt. 5c; oz. 30c.

CHERRY YELLOW—Diffs from Red Cherry in color only. Pkt. 5c; oz. 30c.

PEACH NEW ROSE—A most delicious and handsome Tomato with appetizing, fruity flavor, not met with in any other variety. Pkt. 5c; oz. 25c.

BUCKBEE’S SNOWBALL. The New White Tomato—A grand new variety of recent introduction, which always gives the best of satisfaction. Color is pearly white inside, skin nearly the same shade, flavor unexpected, flesh firm and solid. Almost a continual bearer, flavor unchanged, with lingering peak in late season. Pkt. 5c; oz. 25c.

STRAWBERRY HUSK OR WIN-TER CHERRY—The fruit has a pleasant strawberry-like flavor and is much relished raw, but generally used for preserves, for which it is excellent. The small yellow fruits are enclosed in a husk, and when ripe are half an inch in diameter. Easy to grow, do well on any dry soil. Plants of low spreading growth. immensely productive. Pkt. 5c; oz. 40c.

MAMMOTH PURPLE GROUND CHERRY—Large fruits 1½ to 2½ inches in diameter. The flesh is green, the color of the skin is green, changing to a purple. When made into preserves has the appearance of Green Gages. Pkt. 5c; oz. 40c.

We can also supply the following well-known varieties at the following reasonable prices:

Dwarf Aristocrat
Dwarf Golden Champion
Early Ace
Favorite
Perry’s Early Detroit
Matchless

These are available in various sizes:

Pkt. 5c; oz. 25c; ½ lb. 50c; 1 lb. 75c.

Golden Fig Tomate
BUCKBEE’S “FULL OF LIFE” TOBACCO
Newest and Best Varieties for All Sections

Buckbee’s Genuine Vuelta De Abajo

Our Seed Is Guaranteed Cuban Grown

This is absolutely the finest, silkiest and most delightfully flavored Havana Tobacco we have ever handled. This seed is raised by our own grower in Havana, Cuba, and seed taken from the finest plants only. Every tobacco grower knows that Cuban-grown seed is superior to that raised at home, so if you want the very finest Cigar Variety, send to Buckbee for this superior variety. Pkt. 10c; ½ oz. 15c; oz. $1.25.

Other Cigar Varieties

IMPORTED SUMATRA—Makes high-grade cigar wrapper and brings a high price. Pkt. 10c; ½ oz. 50c; oz. $1.00.

BIG HAVANA—An Americanized Havana used for cigar purposes; sometimes used as a manufacturing sort. Large, long leaf; very early, making two crops in the South from one planting. Pkt. 5c; oz. 60c.

BRAZILIAN—Makes excellent cigars and delightful aromatic pipe smoking Tobacco. Pkt. 5c; ½ oz. 55c; oz. 60c.

COMSTOCK SPANISH—Sometimes called Zimmer’s Spanish. The standard variety for cigar leaf. More extensively grown in this country than any other kind for this purpose. Most popular kind grown in Wisconsin. The leaf is good sized and is suitable for wrappers and fillers. We have the finest strain in the country. Pkt. 5c; oz. 60c.

CONNECTICUT SEED LEAF—Popular in the middle and northern states. Largely grown for filler. Productive, robust habit. Pkt. 5c; oz. 50c.

CUBAN SEED LEAF—Grown from imported stock; is acclimated and makes fine tobacco. Pkt. 5c; ½ oz. 55c; oz. 60c.

EVANS OF CINNAMON SINTERED—Highly aromatic; extensively grown in Canada for pipe tobacco. Pkt. 5c; ½ oz. 35c; oz. 60c.

GENERAL GRAY—One of the finest, earliest and most popular kinds for Cigars. Matures as far north as Canada. Leaves large. Pkt. 5c; ½ oz. 35c; oz. 65c.

IMPORTED HAVANA—The finest Cuban stock, imported from the famous Vuelta Valley. Pkt. 5c; ½ oz. 50c; oz. 60c.

PENNSYLVANIA SEED-LEAF—The best grown in the famous Lancaster County district. Pkt. 5c; ½ oz. 35c; oz. 60c.

TURKISH—Leaves broad, of fine texture and excellent flavor. Makes the very finest of high-grade Cigars. Pkt. 10c; ½ oz. 60c; oz. 95c.

SELECT VARIETIES

STANDARD VARIETIES

BEATS ALL OR LACKS—A heavy, dark type and makes a splendid mahogany. Good texture for dark wrappers and fillers. Pkt. 5c; oz. 50c.

BLUE PRIOR—A large, long and broad leaf. Makes a rich, waxy Tobacco for black wrappers, strips and fillers. Pkt. 5c; oz. 50c.

FLANNAGAN—Greatly used for making sweet fillers and mahogany wrappers. Pkt. 5c; oz. 50c.

ONE SUCKER—A dark manufacturing sort; good breadth, long leaf and good, rich quality. Pkt. 5c; oz. 50c.

STERLING—Early; makes silkiest of wrappers, brightest of cutters and sweetest of fillers. Pkt. 5c; oz. 50c.

IMPROVED SWEET ORONOKO—Makes the finest fillers known. Cures a rich red; long and narrow leaf, tough and waxy. Pkt. 5c; oz. 50c.

TENNESSEE RED—Excellent for dark strips. Pkt. 5c; oz. 50c.

TUCKAHOE—Long leaf and extra fine; the perfection of a wrapper. Pkt. 5c; oz. 50c.

YELLOW MAMMOTH—A new western variety of the export type. Large yielder that demands top prices. Pkt. 5c; oz. 50c.

YELLOW PRIOR—Makes a fine wrapper, cutter, filler or smoker. Pkt. 5c; oz. 50c.

BRADLEY BROAD LEAF—A popular variety for several types—export, manufacturing and Cigars. A good reliable variety and succeeds where yellow Tobacco can be grown. Pkt. 5c; oz. 50c.

IMPROVED GOLD LEAF—The best bright Tobacco on the market. It is fast replacing all other varieties. Leaves long, narrow and of very fine texture and make the finest wrappers, strips and fillers. Pkt. 10c; ½ oz. 55c; oz. 60c.

IMPROVED HESTER—Adapted for wrappers, cutters, fillers or cigars. Leaf large, broad, silky; very tough; cured lemon-yellow. Pkt. 5c; oz. 60c.

IMPROVED LONG-LEAF GOOCH—For cutters and wrappers. Pkt. 5c; oz. 60c.

IMPROVED WHITE BURLEY—This variety is especially valuable to manufacturers, either for cut or plug Tobacco. Often used for wrappers. Leaf large, broad; cures a very desirable wrapper. Pkt. 5c; oz. 50c.

IMPROVED WHITE STEM ORONOKO—Fine for wrappers, cutters and smokers. Bright leaf of good width and length. Pkt. 5c; ½ oz. 35c; oz. 60c.

IMPROVED YELLOW ORONOKO—For yellow wrappers, cutters and smokers. Bright leaf of good length and width. Pkt. 5c; ½ oz. 35c; oz. 60c.

KENTUCKY YELLOW—A very fine, large, broad-leaved Tobacco, excellent for stripes, dark fillers and wrappers. Pkt. 5c; oz. 50c.

NEW ORLEANS—One of the best Tobaccos for wrappers and cutters. Of a beautiful oval shape and makes the finest quality leaf. Pkt. 5c; ½ oz. 30c; oz. 50c.

WARNE—A new variety for yellow wrappers. It is tough, silkiest and makes the finest quality leaf. Pkt. 5c; ½ oz. 30c; oz. 50c.
BUCKBEE'S BEST TABLE TURNIPS

EXTRA EARLY VARIETIES

EXTRA EARLY PURPLE TOP
MILAN
The very earliest Turnip grown. The tops of this variety grow very small and are distinctly strapleaved, growing very erect and compact. The roots are small and flat Turnip-shaped; skin purple on top of the root, clear white below. Flesh white, of mild sweet flavor. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE'S EXTRA EARLY CAMEO
A grand acquisition from the land of the Czar, identical with Buckbee's Cardinal in every way except color, which is a beautiful pearl white. By all means include it in your order. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 60c; lb. 1.25.

BUCKBEE'S EXTRA EARLY CARDINAL
Called by some Scarlet, Kashmir—very early variety, of magnificent shape, handsome appearance and wonderful keeping qualities. Outside skin brilliant cardinal red color, resembling a radish; the flesh is white, tender, crisp, of splendid table quality. It keeps well. Pkt. 5c; oz. 12c; 2 oz. 25c; ½ lb. 45c; ½ lb. 90c; lb. $1.50.

EARLY VARIETIES

EARLY SNOWBALL or SIX WEEKS
The earliest round variety. Roots of medium size, smooth, very beautiful and showy. Skin and flesh snow white. Very mild and sweet. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE'S RED OR PURPLE TOP STRAP LEAF
There is probably a larger amount of seed of this variety sown annually than any other turnip. As a market variety, without doubt the peer of all. Has single tap root and a bright purple top. Matures 8 or 9 weeks from sowing. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

NEW GOLDEN GLOBE
Most delicious and sweetest of all yellow fleshed turnips, very superior for all general purposes. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 1.50.

NEW WHITE EGG
This is certainly one of the very choicest and finest varieties; producing beautiful egg-shaped roots with thin white skin. They are always firm, solid and of sweet flavor. A most profitable market sort. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.
BUCKBEE'S BEST TABLE TURNIPS—Cont’d.

Cow Horn

Sometimes called Long White. The roots are long, carrot-like, of cylindrical form but ending in a point and slightly crooked: they are 12 to 15 inches long by 2½ inches in diameter and grow partly above the ground. The color is pure white with a little shade of green on top. Well flavored and of rapid growth. Fine for Fall and early Winter use. Very valuable also as a soil enricher: can be sown broadcast in Fall on stubble ground, will grow on poor, worn-out soils, and if plowed under will enrich it as much as a crop of clover. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

Improved Early Flat White Dutch

Excellent early garden variety and very much used. The roots are of medium size, very flat and the color white. Very early, sweet and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

New White Flat Strap Leaf

Identical with Buckbee's Red or Purple Top in valuable qualities, differing only in color, which is a beautiful ivory white. The leaves are few and grow upright. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

Yellow Aberdeen

A turnip of high merit. Very hardy, very productive; medium sized roots; late maturing. Unequalled for its long keeping qualities. The flesh is yellow, tender, sugary and very solid. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

Southern Seven Top

Cultivated extensively and with profit in the South for the tops, which are used and are most excellent for greens. It is very hardy, will grow all Winter, but will not produce a good root. In many sections of the South it is also a favorite green feed for stock, and its use as a pasture crop like rape is quite general. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

New Purple Top White Globe

A globular variety, very even in shape and of beautiful appearance. The flesh is white of excellent quality and desirable for table and stock. Immensely productive, much more so than any other flat variety. This variety is a good keeper and a fine market sort. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

THE BEST RUTA BAGAS

For feeding stock in fall and winter there is nothing superior to Turnips and Ruta Bagas. If sown the first of August Ruta Bagas make an excellent pasture for sheep during the fall months and the root will furnish a rich food for them all winter. All kinds of stock relish and fatten upon them when fed in combination with hay.

Buckbee's Giant

This is the finest of all Ruta Bagas, and a variety that should be sown in preference to all others. Prize Winner Everywhere. This magnificent Ruta Baga, which we first offered in 1890, is unquestionably the most profitable to grow of all Swede Turnips. It is the largest of all, growing to much greater size than the American Purple Top variety, which is so much used in this country; it out-yields all other sorts; a crop of a thousand bushels and over per acre under careful cultivation, being a frequent occurrence; it is the most hardy of all Ruta Bagas, withstanding cold and drouth better than any other sort. Bulbs are somewhat oval or slightly oblong in shape: purplish red above and bright yellow below the ground. They are quite smooth with bit a small tap root and have a small top and very short neck and remain sound and good indefinitely. Flesh is of a beautiful yellow color, always sweet, tender, juicy and nutritious. Prices: Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ½ lb. 70c; lb. $1.00.

New Monarch or Elephant

Produces large, tankard shaped roots, with small necks, relatively small tops; skin dark purple above ground, yellow below. Flesh rich yellow, fine grained; of the best quality. Easy to harvest. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

Improved Purple Top Yellow

Very hardy, productive and nutritious. A large, purple top yellow variety. Shape slightly oblong. Produces heavy weight per acre. Sweet and good keeper. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 70c.

Buckbee's Mammoth White Russian

Grows very large with single tap root, small top, short neck. Strong constitution; certain cropper. Will stand severest weather. Flesh white, hard, sweet, of better flavor than most yellow sorts. Fine for table and stock. Keeps sound till late Spring. Pkt. 5c; oz. 8c; 2 oz. 15c; ½ lb. 25c; ½ lb. 35c; lb. 65c.
Wonderberry Plant.
Three Months from Seed.

The Sunberry or Improved Wonderberry
This is without question Luther Burbank's greatest production, a luscious berry that may be grown and ripened from seed in any soil or climate in three months.

Fruit more like a great, rich, luscious blueberry than anything else. Blue-black in color, fine in flavor and unsurpassed for eating raw, cooked, canned or preserved in any form. It is easily the greatest garden fruit ever introduced, and equally valuable for the North, South, East or West, or, in short, any part of the world. Easiest plant in the world to grow. Succeeding anywhere and yielding great masses of rich fruit all Summer and Fall. The greatest boon to the family garden ever known. Everybody can have this grand fruit at small expense, as one or two packets of the seed will be sufficient for any ordinary garden and produce all the fruit wanted. The quality of the Sunberry or Improved Wonderberry is sweet and delicious when fully ripe. Like the grape it should have time to ripen well after turning black in full sun. Skin, which may seem a little tough in a raw state, cooks tender. Seeds small, one-quarter the size of Tomato seed, and, are not noticeable.

Price of Seed: Pkt. 15c; 2 pkts. 25c.
Price of Plants. We can supply a limited number of nicely started plants at 10c each; 3 for 25c; 50c per doz., postpaid.

Strawberries from Seed
Brazilian Everbearing
It will begin to bear fruit in about four months after seed is sown and continues to produce fruit until very late in the fall. Seeds sown in April will give ripe berries in July. The berries are not as large as the standard varieties, but are of superior quality and have the rich wild Strawberry flavor. The plant is ever-bearing in the true sense of the word, producing fruit all summer, and comes perfectly true from seed. It also makes a beautiful pot plant, will grow well in the house, and even fruit during the winter. Perfectly hardy everywhere and easy to grow. A packet of seed should produce 40 to 50 plants. Pkt. 10c; 3 pkts. 25c.

The Best Herb Plants
(See Page 42 for Herb Seed)
Peppermint.—From the leaves of this plant is distilled the well known peppermint of commerce. The green leaves and stems have the same effect as the essential oil, and to most persons the flavor is very pleasant. Hardy perennial. Strong plants, each 15c; 2 for 25c.
Spearmint.—The plant which produces the mint of the markets and largely used for culinary purposes. It is also used in concocting the refreshing Mint Julep, so popular in some sections. Hardy perennial. Strong plants, each 15c; 2 for 25c.
Chives.—(For seed see page 39.) Chives are perfectly hardy perennial plants of the Onion type. They are grown for their small leaves which are produced very early in the Spring for giving a mild Onion flavor to various dishes. Selected clumps or plants, 20c each; 3 for 50c; $1.25 per doz., postpaid.

Holt's Mammoth Sage (Hardy and Everlasting).—Holt's Mammoth is a great improvement upon the ordinary Garden Sage; its leaves being four to five inches long, clean and perfect. They are held well up from the soil, very rich in flavor. Perfectly hardy; does not produce seeds. Each, 15c; 2 for 25c; 10 for $1.25.

Tarragon or Estragon.
The True Tarragon.—The leaves and young shoots of which are much prized by many as an ingredient in soups, salads, stews, pickles, etc. Leaves may be used in a fresh state, or cut in the Autumn and dried. Hardy perennial. Strong plants, each 20c; 5 for 50c.

Lavender (Old-Fashioned Sweet).
The leaves are sometimes used for seasoning, but the plant is chiefly grown for its fragrant flowers which are used for the distillation of Lavender Water or dried and used to perfume linen. Hardy perennial. Strong plants, 20c each; 3 for 50c.
BARLEY

SUCCESS BEardless BARLEY

This is the earliest Barley known. It is six-rowed and beardless.
The absence of beards makes it much more agreeable to handle in threshing
and also makes it a safer and better feed for stock than bearded varieties. It is
well known that many young pigs are lost annually by choking on Barley heads.
This beardless Barley is without question the best nurse-crop which we have.
It stooks much less than other Barley or Oats, rarelylodges, and forms so little shade that it never injures a meadow.
Furthermore being a very early variety, it can be cut and put
out of the way before Wheat and Oats.
It can be grown on any soil. Makes good yields on poor,
thin lands and stands up well and yields big crops of 50 to
75 bushels on rich land. Success Beardless Barley is a vig-
orous grower; has strong straw and heavy, well-filled heads.
The grain has hulls like common Barley and its quality is
excellent.

Prices, postpaid, pkt. 10c; lb. 55c; 3 lbs. 70c.

ODERBRUCKER
or WISCONSIN No.
55 BARLEY

A stiff-strawed, heavy-
yielding, six-rowed,
bearded variety. It is
about the same as Man-
shury in time of matur-
ity, manner of growth
and general appearance,
but has a plumper ker-
nel and weighs more
to the measured bushel.
It has protein content of 12 per cent, or nearly
twice the amount of protein
found in many other varieties. This makes it a very valuable feeding Barley, which is an
important consideration with
the leading farmers and stock-
men, who are now appreci-
ating more and more the value
of Barley as a food for all
kinds of stock, horses as well
as cattle. Prices, postpaid,
per lb. 25c; 3 lbs. 70c.

WISCONSIN PEDIGREE BARLEY

The Champion Barley of the world. The greatest of all six-rowed bearded varieties. Wisconsin Pedigree
Barley has yielded from 5 to 24 bushels more than common varieties, and many have reported yields from
35 to 65 bushels per acre. The average yield of it in Wisconsin for 5 years has been 36½ bushels per
acre and the average yield of common varieties 20 bushels during the same time.
Pedigree Barley grows taller than any other 6-rowed sort and has very stiff straw, which stands up
better than that of Oderbrucker. The heads are unusually large and long and are completely filled out
with very plump grain, which is very uniform in size, brighter and whiter than that of most other sorts
and very attractive. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

MANSHURY BARLEY

We believe this to be as fine a Barley as was ever offered the farmers of the United States. It is
a variety which will yield plump grains as well as strong, stiff straw and long, well filled heads. In
quality no other Barley excels it. It yields abundantly. It is early and very vigorous in growth. The
straw seldom lodges. Postpaid, pkt. 10c; lb. 35c; 3 lbs. 70c.

Wisconsin Pedigree Barley.
SOY AND SOJA BEANS

Soy Beans are fast becoming a leading crop in all states of the Union. They can be grown as far north as corn and are always a sure, safe and profitable crop. Soy Beans grow erect, branching out in 4 to 6 stems near the ground, which attain the height of 2 or 3 feet. The branches are thickly covered with leaves and pods from the ground to the top. On a single plant, as many as 300 pods, containing from 3 to 4 beans each, have often been counted. They are more drought and heat-resistant than alfalfa, grow on all soils, even sandy and acid ones where clover fails. Growing erect, they can be easily cultivated and harvested.

Soy Beans are mostly grown for grain. This grain is equal in feeding value to oil meal, and contains times as much protein and fat as corn. It is richer in carotene, soys on pigs and Japanese meal. Millet, hay.

Soy Bean hay is richer in protein than alfalfa and twice as nourishing as millet hay. Soys are largely used as a catch crop and can be sown as late as July.

For ensilage, Soy Beans are mostly used in combination with Corn or Japanese Millet, which makes the best of all ensilages, containing all the elements necessary for a completely balanced food for milk cows and is greedily eaten by all stock. If the right varieties are used, Corn and Soy Beans may be planted the same time. Japanese Millet being much earlier than Soy Beans, should be sown 4 to 5 weeks later. Use 2 parts of Japanese Millet or Corn to 1 part Soy Beans for a perfect balanced ration. The corn and soybeans should be separated by an intercrop of sorghum, which can be especially recommended; it has been a great success everywhere. In a trial at the Iowa Station, pigs hugging down Corn and Soy Beans gained 30 per cent more than those pastured on corn alone.

Soys are used with great profit as soil renovators, and are especially valuable on sandy soils. When the entire crop is plowed under they will add to the soil such a quantity of nitrogen alone which, in the form of commercial fertiliser, is worth over $15.00 per acre. This is twice as much as a crop of Cowpeas or Clover will furnish. Soys will produce a crop without inoculation, but inoculated plants produce larger crops. It always pays to inoculate. We offer artificial soil inoculation for Soys on page 97.

Sow the seed about corn-planting time when the ground is thoroughly warm, in rows 12 to 18 inches apart and 2 to 3 inches apart in the rows. From one-third to ½ bushel of seed is required per acre. Cover not over ½ inch deep; never cultivate two or three times, but only after the pods appear. Cut for hay when the pods are forming, before the leaves drop; for seed when half the pods are dry.

EVANS’ EARLY SOJA—Originated by Mr. Evans, the noted Soja Bean specialist of Michigan. The earliest and best variety for sowing our own seed. Postpaid, pkt., 10c; lb., 35c; 3 lbs., 85c.

ITO SAN OR EARLY YELLOW—One of the earliest and best; 2 feet high; yields about two tons of cured hay or 25 to 30 bushels of grain per acre. Matures in 55 to 100 days. Postpaid, pkt., 10c; lb., 35c; 3 lbs., 85c.

BEANS, EARLIEST BEAUTY—Earliest. Maturing in 115 to 118 days, well suited for all parts of the cornbelt. Splendid for forage and reasonably good for grain; 2½ to 3 feet high. Postpaid, pkt., 10c; lb., 30c; 3 lbs., 85c.

EARLY BROWN OR OHIO 9035—Will mature in 115 to 125 days; 2 to 3 feet high. A remarkably heavy yielder of grain and forage. For the retention of beans this is probably the best variety. More than 50 bushels of grain and 3½ to 4 tons of straw per acre have been harvested of it. Postpaid, pkt., 10c; lb., 30c; 3 lbs., 85c.

FIELD BEANS

WEATHER—OUR FIELD BEANS

Grows and Produces a Crop with Less Moisture Than Any Other Plant Known.

A Most Valuable Dry Farming Crop for the West.

White Tepary Beans are a native of the Southwest but although it comes from the desert and has been raised in a country having a very light rainfall without irrigation, it responds, nevertheless, to better conditions and we believe will be found profitable for general culture all over our country.

In the warm climate of the Southwest it ripens in about 60 to 65 days. It can even be planted there after the grain is harvested and still make a crop. It matures in 1½ to 2½ times as much grain as long as it is not neglected and will quickly recover from drought when more favorable conditions set in. Profitable crops can be raised in regions where the rainfall is 8 to 9 inches and less.

In the Southwest, where these Beans have been grown for years, they produce very much larger crops than any other variety. At the Arizona Experiment Station, where ordinary Beans produced 2 to 3 bushels per acre, the Tepary plants produced 3 to 4 bushels of pods, the ordinary pods.

The Tepary can easily be distinguished from ordinary Beans by its more slender vines and thinner and smoother leaves. The pods are small, only about 3 inches long. The seed is smaller than that of the Navy, oval and of a pure white color.

As a food, Tepary is equal to any Bean known to commerce. When soaked in water they swell to twice their original size and more than double in weight. A given weight of Teparies will produce 40% more cans than with the same weight of ordinary Navy Beans. Its quick growth makes the bean also very valuable as a green manure crop. Till in rows 2 to 3 feet apart and 4 inches apart in the rows. Sw 1½ lbs. to an acre. Postpaid, pkt., 8c; ½ lb., 15c; lb., 25c; 3 lbs., 70c.

Buckbee’s Electric Tree Bean

The Earliest, Heaviest Cropping White Field Bean and the Best for Baking

Grows nearly 2 feet high, branching out in all directions, bearing its pods so high that they seldom touch the ground, enables it to expand a wet spell without any injury. This is, indeed, a wonderful cropper, yielding from 80 to 150 bushels per acre under careful cultivation in a favorable season, while hundreds of our customers report yields of 40 and more bushels per acre under average cultivation. The crop matures in 80 days from planting. Seed medium sized, oval, pure white; very uniform in size and shape. This variety is not only more productive, but also of much better quality and flavor appearance than any other White Field Bean. They are very sensitive to both cold and wet, and should not be planted before the ground has become dry and warm.

Postpaid, pkt., 8c; ½ lb., 15c; lb., 30c; 3 lbs., $1.00.

Improved White Navy Beans

The common White Field Beans. We have selected a stock of this variety which ripens uniformly. The plants are large, spreading, with pods 3½ inches long, containing 6 beans.

Postpaid, pkt., 8c; ½ lb., 15c; lb., 30c; 3 lbs., 85c.
VELVET BEANS
A valuable plant for the South, used for pasture, green manuring and green forage. It is the rankest grower of any of the legumes; 3 or 3 seeds planted 4 feet apart in rows 3 feet apart will literally cover the ground 2 to 3 feet thick with a mass of foliage and vines 25 to 30 feet long, no matter how poor the soil. It leaves a mulch on the ground that is very beneficial to the soil. Sow 15 lbs. per acre.

100-DAY VELVET BEANS—The earliest and quickest-growing of all Velvet Beans, well adapted for double rows in the garden. It is one of the most delicious, and, as it is not much affected by soil, it is suitable for growing in all localities. Velvet Beans ordinarily have been grown. They are to be preferred to Cowpeas, as they are tender, make two crops a year and yield much more than Cowpeas. Velvet Beans are also valuable as a food crop; pods and seeds and will add a supply of vegetable matter to your soil that will show for years to come in your crop. Postpaid, pkt. 10c; 1/2 lb. 15c; 1 lb. 25c; 3 lbs. 50c.

PINTO BEANS
This is the Bean that made New Mexico famous and added much to the wealth of that state; more than a thousand car

loads valued over $4,000,000 were shipped out of that state in a year. The crop per acre on an average brought about $90.00 to the farmer. Large quantities of these Beans have also been grown in other southern and western states.

Pinto Beans are very hardy and as heat resisting as Tepees; they have done very well without irrigation on high altitudes with a light rainfall and wherever they can be grown, they make larger crops than Tepees. They mature about 2 weeks after Navies and have to be planted so much earlier. The dried Beans are larger than Navies and are brown striped in color; in flavor, they are much superior to the Navy or any other field bean.

Postpaid, pkt. 10c; 1/2 lb. 20c; 1 lb. 35c; 3 lbs. $1.00.

BUCKWHEAT
This desirable and profitable crop, should be more generally known. It is usually sown in the Northern States in July, and will fill up the vacant plots at a time when all other planting is past. Can be sown after a crop of Winter wheat or rye and will make a second crop maturing in about two months. It does well on light soils, gives a good crop even on land that has been in corn the year before, is easily grown and is profitable on account of its large grain yield; turned under it is a good soil improver, at the same time that Buckwheat will smother weeds and put the soil in good condition for the crop to follow. It is prized as a poultry feed, being regarded as a stimulant to egg production, and when ground is profitably fed to hogs and other stock. It makes also a fine quality of flour and a paper used in the manufacture of “Buckwheat Cakes.” Sow 1/2 to 1 bushel per acre.

BUCKEES GIANT JAPANESE
Entirely distinct from all other varieties. Has all the valuable characteristics of the old Japanese Buckwheat, and in addition is earlier and will yield at least one-quarter more per acre than it can be grown further north. It resists drought and blight very well. The seed is rich dark brown in color and larger than Silver Hull. As much as 1/3 to 1/2 bushel per acre can be harvested from this variety, making it very profitable to raise. More than a week earlier than Silver Hull. Choicest stock seed, postpaid, pkt. 10c; 1/2 lb. 25c; 1 lb. 75c.

IMPROVED SILVER HULLED
This valuable variety is a decided improvement on the old black or gray sort. It is early, and is the only bushel that has ever succeeded on the variety for Buckwheat. The grain is of a beautiful light gray color and has a thin husk. Millers prefer Silver Hull, there being less waste, and, as it grows whiter, better and more nutritious flour than any other varieties. It is more productive than the Japanese and the grain meets with a ready sale, bringing high prices. Choicest stock seed, postpaid, pkt. 10c; 1/2 lb. 25c; 1 lb. 75c.

BUCKEES “FULL OF LIFE” FLAX SEED
No. 25 or Primost Flax
This is a pure bred flax. It is selected from a variety which came to the Minnesota Experiment Station from the U. S. Department of Agriculture.

Its record in the field test at the Minnesota Experiment Station showed an average yield for 3 years of 193 bushels, or 2,4 bushels more than the average of the next best varieties. It is about 10 days earlier than common flax and is wilt-resistant to a considerable extent. This is no doubt the champion, best yielding variety of Flax. Our supply of this seed is limited. Send your orders early. Price, postpaid, pkt. 10c; per lb., 80c; 3 lbs., 85c.

Buckwheat's Superior Evergreen Broom Corn.
CORN FOR FORAGE AND ENSILAGE

Fodder corn is a very valuable crop on the farm. It occupies a place that cannot well be filled by any other crop and should be largely planted by every farmer. Corn has no equal in yielding large amounts of valuable forage under a great variety of soil and climatic conditions. Used for forage, ensilage and hay, it furnishes the cheapest supply of healthy and nutritious food in winter, spring, summer and fall for dairy and cattle, for hogs and other live stock on the farm. When preserved as ensilage it can be stored much more cheaply in much less space than hay, and will keep indefinitely and is always ready to feed. The growing of corn on a fair proportion of the farm will permit the keeping of more cattle and so increase the revenue as well as augment the manure supply so necessary to the maintenance of soil fertility. When other crops have failed and it is too late to plant anything else, fodder corn can always be grown and will furnish feed for the stock and make a paying crop. In selecting corn for fodder and ensilage, we do not recommend the very large, coarse and late varieties, which require a very long time to come to maturity, but according to our experience varieties which have medium sized fodder and ripen medium early in localities where they are to be planted are the most satisfactory. It is not necessary that the crop fully mature, but the nearer it comes to maturity the greater the food value and the more valuable it is to the stock feeding on it.

Sow in drills 3/4 feet apart, using from 1/4 to 1/2 bushel per acre. The more seed is planted the more bulk, more stalks and leaves but the less grain will be harvested. About 20 pounds of seed is a good quantity to sow in the cornbelt; sown that thickly the plants will not get larger than a man's thumb, look like a mass of leaves, have a high feeding value and are eaten without waste.

We offer the following corns for fodder and silo:

**Buckeye's Goliath Fodder Corn**

The World's Best Fodder and Ensilage Producer. Surpasses Any Other Fodder Corn on Earth in Yield and Feeding Value.

A great variety which we have been developing for years. Thousands and thousands of our customers in every part of the country assure that it stands without a peer for feeding either in the green state or for silo purposes. It is very rich in nutriment and a wondrously immense yielder. Grows rapidly, is early, short stalked, tall, and produces an overwhelming abundance of leaves and rich, juicy, sugary stalks, with a strong tendency to mature several ears. In favorable seasons, on good soil, it will produce from 50 to 60 tons per acre of the very best feed. We consider this corn the best and most economical fodder and silage variety for most parts of the country. It is a very large, hardy corn and will do well in the North and South, even Manitoba is planting it largely, but it will mature only as far as it is used for stock by the following season. The ears when fully grown are from 10 to 12 inches long and have very deep kernels of nearly white color. Postpaid, pkt. 10c; 1/2 lb. 15c; 1 lb. 25c; 5 lbs. 75c.

**White Cob Ensilage Corn**

A Popular Standard Variety. A pure white corn with a white cob, of tall growth, short joints and leafy, giving an abundance of fodder; sweet, tender and juicy. It is a popular standard variety grown successfully in almost any latitude. Price, postpaid, pkt. 10c; lb. 25c; 3 lbs. 75c.

**Edwards' Genuine Legume Bacteria**

The same cultures can be used for either Alfalfa or Sweet Clover and likewise the same cultures can be used for Red, Alaskan or Crimson Clovers. All the other crops require a different culture for each as named. Be sure to state for what kind of seed the culture is wanted.

When new crops of legumes, such as alfalfa, etc., are to be sown, nitrogen-gathering bacteria, necessary for their successful growth, are usually not present in the soil and must be supplied either by seed inoculation or by the use of small quantities of the usual inoculant. Edwards' Legume Bacteria is, we believe, the best of the many Nitrogen Bacteria Culture for seed inoculation and the least expensive one now on the market.

The culture is applied to the seed before sown; the inoculation is done in a few minutes and the bacteria are carried into the soil in ample number to insure infection of the roots when germination takes place.

Seed inoculation is not only used to secure good stand, but the crops also grow more vigorously, winter-killed less readily and in case of perennial legumes, like alfalfa, much larger crops are also harvested in the second year than from uninoculated seed. Furthermore, inoculation increases the amount of nitrogen in the plants from 50 to 60 per cent. and increases, therefore, the value of the crops, whether they are used for forage or for hay. The cultures are good for six months after leaving our warehouse. Full directions for use with each package.

Price of Edwards' Legume Bacteria Cultures to inoculate 30 lbs. of seed, 75c; for 60 lbs. of seed, 1.10, postpaid.
BUCKBEE’S “Full of Life” FIELD CORN

We Grow and Furnish Corn Adapted for All Parts of This Country.

Seed Corn will not produce satisfactory results unless planted in localities with similar climatic conditions to those where it was raised. Corn, for instance, that will mature in 90 days in Illinois will require two to three weeks more in Minnesota, and Corn grown in the North should not be planted in the South unless it is tough enough to be disappointing. For this reason we grow Seed Corn in different localities north and south and we state where each variety was grown and for what section it is best suited.

The Corn we offer is pedigreed stock, carefully bred, free from barren stalks, and the seed is tipped and buttered and of the highest vitality.

FLINT VARIETIES

BUCKBEE’S EARLY NORTHER

The Greatest Yielding Flint Corn. Ears 10 to 15 inches long, of rich yellow color. Enormously productive, outyielding any other Flint Corn that we have ever seen in the far North. Matures exceedingly early, from 85 to 90 days being a fair average. The kernels are large and the stalks are of good height. The ears average 7 feet to a stalk, great yield of about 4 tons cut by the harvester. The stalks grow very tall and leafy and make a very large stock. Will surely prove the greatest value to the farmers of the far North, particularly the Dakotas, Northern Minnesota, Wisconsin, Michigan and the Canadian provinces. You will be pleased with this early and big-yielding Flint Corn. Postpaid, pkt. 10c; ½ lb. 20c; 1 lb. 30c; 5 lbs. $1.00.

IMPROVED INDIAN SQUAW CORN

Holds More Records for Wonderful Performances Under Difficult Conditions Than Any Corn Ever Grown.

It is an extremely early variety, maturing in 75 days, and could be planted up June 15 and more. It is a crop before frost.

Perhaps the most wonderful quality of this Corn is its power to resist drought. The most prostrated dry weather hinders its growth not at all, and still it will weather a wet season equally well. It can stand as much dry weather as Kaffir Corn. In Western Kansas and Oklahoma, where this Corn is called Arkansas Valley Squaw Corn, it is considered the best dry land Corn. In appearance this Corn is one of our most handsome varieties. The kernels are of different colors, red, blue, yellow and white, giving the ears a curiously beautiful motled appearance. The ears grow from 8 to 10 inches in length and are of symmetrical form. This is the Flint Corn which is so much used in Western Kansas and Nebraska and which gives a good crop in the driest season when all other varieties fail.

Postpaid, pkt. 10c; ½ lb. 30c; lb. 35c; 3 lbs. $1.00.

LONGFELLOW

Has Individuality that Commands

A yellow paste variety that is particularly adapted to the North; ripens in 90 to 95 days. It is an 8-rowed sort, with ears 12 to 15 inches in length and about 1½ inches in diameter. Small cob, large kernel and very dry. One of the best high ears 3 feet above the ground. Postpaid, pkt. 10c; ½ lb. 18c; lb. 30c; 3 lbs. 85c.

NORTH DAKOTA WHITE FLINT

An Early Maturating Variety.

This is a broad-stalked variety, with uniform characteristics, including extra early maturity and medium size, both of stalks and stock seed. Postpaid, pkt. 10c; ½ lb. 18c; lb. 30c; 3 lbs. 85c.

GREAT BRAZILIAN FLOUR CORN

One of the Greatest Novelties Ever Introduced.

This Corn is inclined to stool, and one grain will produce usually more than one stalk. Each stalk bears 2 or 3 ears, 9 to 12 inches in length, and beautifully white. It produces an abundance of fodder and is the best for ensiling and for stock feed, and it is a great favorite for making flour that will make bread, biscuits, etc., the same as the wheat flour. Plant 2 kernels in a hill and cultivate the same as other corn. Postpaid, pkt. 10c; ½ lb. 20c; lb. 30c; 3 lbs. 85c.

For Bulk Prices by Express or Freight, see Order Sheet.
BUCKBEE'S "Full of Life" SEED CORN

REGENERATED RED HACKBERRY OR IMPROVED NORTHEASTERN DENT

The earliest and hardest Dent Corn grown; it is the corn for the North, is very popular throughout the northeastern states and can be depended upon to mature in North Dakota, Northern Minnesota, Wisconsin, Montana and Manitoba; but it is also quite largely used in other states for early feeding, hogging down and is very often grown with early soy beans for that purpose, and for late planting when other corn has been destroyed by frost or drought, as it is planted as late as July and will generally mature before frost. It is also planted largely in drought stricken sections of Kansas, Oklahoma, etc., where it is known as White Cap Red Butcher and also is the only variety that will make a crop there, all home grown kinds being dried up.

The Red Hackberry grows 6½ feet high, the ears are 7 to 10 inches long; setting 3 feet above the ground, they can be cut with the corn harvester; their 10 to 14 rows of large red kernels with a yellow cap. This corn matures in 75 to 85 days and is very productive yielding on an average 70 to 75 bushels per acre.

Our strain is the finest and earliest in the country.
Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

MINNESOTA No. 13 or WIS. No. 8

This is the earliest yellow dent corn grown; largely grown all over Minnesota, Wisconsin, the Dakotas and Northern Michigan; there is no other Yellow Dent, fully as early, that is equally as productive.

The stalks are 7 feet high, are very leafy and furnish great quantities of fodder; there are usually two ears on a stalk which average 8 inches in length and have 16 to 20 rows of smooth, plump, rich yellow kernels. Minnesota No. 13 will ripen in about 90 days and yields from 60 to 80 bushels per acre in a good season.

Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

MURDOCK EARLY YELLOW DENT

The Murdock is the heaviest yielding Yellow Dent corn that can be grown in the Northwestern states; it is an ideal corn for Southern Minnesota, Southern South Dakota, the Southern half of Wisconsin and Northern Iowa. Murdock was awarded sweepstakes for the Northern zone at the National Corn Exposition of 1909 and 1910 and received First Prize at the Wisconsin State Fair in 1914. The stalks are 8 feet high, the ears setting 3½ feet from the ground. The ears are 8 to 9 inches long, 16 to 20 rows and have very deep, large grains, slightly rough which are setting very compactly and solidly on the cob. There is no other extra early corn which grows as uniformly in type, size of ears and color as Murdock; a load of this rich, golden-yellow corn is a beautiful sight.

Murdock matures in about 95 days of average corn weather and has a record of yielding a hundred bushels and more per acre.
Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

SILVER KING or WIS. No. 7

It may be called a small Silvermine, not having quite so long a cob nor so deep a grain, but on the other hand it is 10 days earlier. The ears are 8 to 9 inches long, very uniform in size and type and always filled out clear to the tips; the kernels are of good size, set compactly in straight rows and are pure white. In 100 to 105 days the corn matures in 100 to 105 days. At the Wisconsin experiment station, Silver King gave an average yield on 22 acres of 93 bushels per acre.

The highest yield of any corn grown in Wisconsin in 1913 was 132 6-10 bushels Silver King and in 1914, 133 bushels 64 pounds of Silver King. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.
BUCKBEE'S FAMOUS SEED CORN

In offering the following varieties of Field Corn we desire to say that they are the Buckbee "Full of Life" Brand and can be relied on. CAREFULLY HARVESTED, HAND-SORTED, FIRE-DRIED, PEDIGREED STOCK SEED.

Our Corn Is Northern Grown

We regret to say that a great deal of Nebraska, Iowa and even Missouri Corn is sold each year by seedsmen as Northern Grown Seed. The term "Northern Grown" is somewhat indefinite, and advantage is taken of this to deceive. With us "Northern Grown" means THAT EVERY BUSHEL OF OUR SEED CORN OFFERED HEREIN IS GROWN ON AND AROUND OUR OWN HOME FARMS.

While in unusually long season the earliest varieties of Nebraska and Iowa grown seed will sometimes mature in the Northwestern states, it is as a rule about thirty days later than Illinois Grown Seed. We cannot believe that any intelligent farmer in the Northwest will knowingly plant Southern seed when for a few cents an acre more he can secure true and reliable planting stock that will mature. Those who want early maturing Corn should buy nothing but the true Northern Grown Seed, and absolutely know that they are getting it.

Buckbee's New Early Prosperity

Best 90 Day Early Yellow Dent Corn.

Prolific, hardy and vigorous. Stalks grow to a height of 7 or 8 feet, and set the ears about 3½ to 4 feet from ground—just right height for easy picking. A wonderful peculiarity of this Corn is that it never produces a barren stalk—every one has an ear, and often two, sometimes three. Surpasses all other yellow varieties—70 pounds in the ear will make more than 50 pounds of shelled Corn. Prices, postpaid, pkt. 10c; lb. 35c; 3 lbs. $1.00.

Buckbee's New Early Illinois

The Best 90 Day White Dent Corn.

A fitting companion to Buckbee's New Early Prosperity, the one being all that a White Dent ought to be, the other a Yellow Dent of surpassing merit, yields of 1½ bushels per acre being about the average. We claim that there are more good points combined in these two Corns than in any two other Varieties in cultivation. Prices, postpaid, pkt. 10c; lb. 35c; 3 lbs. $1.00.

Buckbee's Great Western White Dent

The type is very even, ears measuring 10 to 12 inches in length, often weighing 1½ pounds or more. Very uniform in size and shape, with sixteen to eighteen rows of deep, pure golden yellow kernels set on small-sized cob, which is well filled out over the tip and butt. The grains are of good size, long, flat, and closely set together, deeply dented, and solidly fill the entire surface of the ear. We call this a one-hundred-day Corn, but it often ripens in ninety-five days. Prices, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

For Bulk Prices on All Farm Seeds by Express or Freight, see Order Sheet.
BUCKBEE’S “Full of Life” SEED CORN

The Great Prize-Winning Show Corns of the Central and Southern Corn Belt

The two famous prize corns listed here, Boone County White and Reid’s Yellow Dent, are the standard varieties for states in the latitude of Illinois and further south. More than 75 per cent of all corn raised in the cornbelt is grown of these two varieties; under these and other names. They are the greatest yielding white and yellow Corns known, have made records of bumper crops never reached by other sorts, and have won more prizes than all other varieties combined.

Our stock of these two varieties has been grown from prize-winning strains and was raised in Northern Illinois. These Corns are safe to plant as far north as Central Iowa. They matureat about the same time, requiring 119 to 115 days.

Reid’s Improved Yellow Dent

Reid’s Yellow Dent is the main Corn crop of the cornbelt. It outyields any other yellow variety and gave the highest yields of any variety tested at the Illinois Experiment Station for a period of over 20 years.

The stalks are 9 to 12 feet high, making an abundance of fine fodder. The ears are very large, 9 to 11 inches long and 7 to 8 inches in circumference, and have 29 to 34 rows of deep, wedge-shaped kernels, moderately rough and of light yellow color, which is characteristic of this variety. The ears are of cylindrical shape from butt to tip, with no lost space between the rows and tips. The ears are particularly well filled. The cob is red and small and easy to shuck. The ears are remarkably uniform in shape, size and color, and in this respect this variety is superior to all Corns. It shells from 85 to 100 per cent of grain. Postpaid, pkt, 10c; lb, 30c; 3 lbs, 85c.

Boone County White

Perfected Boone County White

The most popular and the heaviest cropping white Corn known. It is also the most highly bred Corn in the world. It does well on all classes of soil. On old corn land it should be planted in preference to yellow Corn. The root system is very extensive, deep growing, making the plant drought-resistant. The stalks are strong and exceedingly heavy from the ear down. They seldom blow down. The foliage is abundant, leaves broad and thick, furnishing an enormous quantity of forage. The ears are 9 to 12 inches in length, 7½ to 8½ inches in circumference, averaging a pound in weight, and contain 13 to 24 rows of exceptionally deep kernels of pure white color. They are solid as a rock, there being very little space between the rows; are of cylindrical shape, rounding off only within about an inch of the top, and are most uniform in size and shape. Postpaid, pkt, 10c; lb, 30c; 3 lbs, 85c.

EARLY WHITE CAP YELLOW DENT

A very strong grower with heavy fodder and large ears. Matures in 90 days and is a good Corn for planting as far north as Southern Minnesota. The grain has a white cap and yellow body. Heavy yielder. Postpaid, pkt, 10c; lb, 30c; 3 lbs, 85c.

BUCKBEE’S EARLY GOLD MINE

This great variety will usually produce a crop in 90 days and has always matured in Northern Iowa. It can safely be planted in this section up to the middle of June and still be depended upon to ripen by the middle of September. It produces a magnificent yield, there generally being two good-sized ears to the stalk, with large kernels, cob well filled. Postpaid, pkt, 10c; lb, 25c; 3 lbs, 70c.

BUCKBEE’S GREAT LIBERTY FIELD CORN

This new variegated Corn combines more solid merit than any Corn in cultivation. Expert corn growers pronounce it a perfect field Corn as to yield, size of ears, color and length of grain and quality of fodder. Postpaid, pkt, 10c; lb, 30c; 3 lbs, 85c.

THOROUGHBRED LEAMING

Deep golden color; striking uniformity. The ears range from 9 to 12 inches long. Kernels broad, thick, deep, rather rough, rounding wedge-shaped. Red cob, medium in size. Maturing in about 120 to 110 days. It is safe for planting in Central Iowa. Postpaid, pkt, 10c; lb, 25c; 3 lbs, 70c.
BUCKBEE'S “Full of Life” OATS

Oats are a profitable crop if new seed of varieties that have merit is sown. There is no grain that demands a change of seed more often than Oats. Every second or third year the seed stock should be renewed, because if grown in the same soil and in the same neighborhood year after year they will deteriorate and become light and chalky. Our prices are so low that every farmer can afford to buy new seed of our pedigreed, vigorous-growing varieties every year and harvest a paying crop.

BUCKBEE'S ILLINOIS

Introduced by us several years ago. At that time it was generally considered “the greatest of all Oats,” and although many new varieties have since been offered, some of them with heavier grain and later maturities which have outyielded the Illinois on some soils and under certain conditions and some earlier varieties which were more productive in certain sections but have a smaller berry not wanted by some farmers, we believe most of our customers will continue to sow the Illinois, which is an all-around good Oat, with good-sized bushel, stalk, and is a sure-crop year in and year out, adapted to the rich soils of the prairie states. It is hard to beat. No one can miss it by sowing this variety.

The Illinois is an early variety, has a well-branched head and long but plump pure white grains with a thin hull. The straw is dark brown, straight, very stiff, and does not lodge easily, but stands up well on rich, well-watered land. It is an ideal sort for any soil. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 75c.

WHITE KHERSON (Iowa No. 103)

A new production from the Iowa Experiment Station, which won the “Sweepstakes on all Oats” at the International Dry-Farming Congress at Wichita, Kansas. It has been tried largely in the Western and cornbelt states, and wherever grown it has outyielded all other varieties in the same neighborhood by about 20 bushels per acre. We do not hesitate, therefore, to offer it as the best Oats for the west and the cornbelt as yet produced.

White Kherson was bred from Yellow Kherson, or 60-day Oats, at the Iowa Experiment Station. It has all the good qualities of the old variety, is as early as, has strong, stiff, short straw, branching heads with very numerous small but exceptionally heavy berries with thin hulls, and in addition to this the new Oats has a better color, being pure white, and it is a very much better yielder. White Kherson matures early before the hot and dry season sets in and before blight and rust appear. This accounts for some of its big yields. It has also proven to stand up extra well on heavy, rich soil, and where the ground is rich and the Oats lodge or run to straw these new Oats will prove of special value. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 55c.

SILVERMINE

One of the most popular varieties and very largely grown in all central and western states. It is a medium early Oat, maturing about a week ahead of the Swedish Select, and is very hardy and prolific. Has long, stiff straw and grain of the clearest white color, usually plump and heavy with a reasonably thin hull. It is a sure cropper; will thrive under favorable conditions. It shows little tendency to rust or lodge unless soil is very rich. Many people who have raised Silvermine think them the best Oats on earth. It is the standard variety for main crop in most parts of Iowa. At the trial stations of the Silvermine in Wooster, Ohio, the 10-year average yield of Silvermine was 18 bushels per acre, the third best of 21 varieties; about a bushel less per acre than the highest yielder. Silvermine has a record of yielding immense crops of 100 to 150 bushels per acre in favorable years. Our seed is very choice, pure stock. Postpaid, pkt. 10c; lb. 20c; 3 lbs. 55c.

IMPROVED WHITE RUSSIAN

A distinct variety, being a side or horse-mane Oat. It originated in Russia, but has become thoroughly acclimated and is a great favorite everywhere. White Russian is as nearly rust-proof as Oats can be. It is a medium late variety. It is much appreciated for its rugged hardiness, enabling it to withstand diseases, insects and cold, unfavorable weather. It yields large crops. The berries are longer and larger than those in other varieties. It ripens with Blue Stem Wheat, and several of the best varieties of flax and corn. These two kinds make a good combination for succotash. This variety is much grown and a very heavy yielder in the North. Postpaid, pkt. 10c; lb. 20c; 3 lbs. 55c.

REGENERATED SWEDISH OATS

An improvement of the well-known Swedish Select; has given larger yields in this country than the old variety; it stools heavier, grows more vigorously, resists droughts better and is free from rust and smut. In short, it possesses all the good qualities of the Swedish Select in a much higher degree than its parent.

Our stock is grown from the originator's seeds and is very plump, heavy and of bright color; pure, clean and entirely free from weeds and other grains. It is ahead of the English stock now grown in this country, and is therefore acclimated and will give much larger crops. Regenerated Swedish Oats have been widely advertised and is one of the most popular Oats grown in this country. We believe it will outproduce the best varieties grown in nearly all soils, except when very rich. It is especially well adapted to upland soils and seems to do better on poorer ground than any other variety.

The straw is coarse, very stiff and noted for its power to resist lodging. The heads are large, branching and filled with very large, thick grains of bright color. They are medium late. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 55c.

EARLY BLACK PROLIFIC TARTARIAN

Heaviest Cropping Variety of Pedigreed Black Oats.

Tests made by many progressive farmers convince them that these Black Oats are more reliable croppers than White Oats. They are very early. The grain is short and plump and of the best quality. Early Black Prolific Oats are practically drought-proof and rust-proof. The straw is stiff. The heads are long and the grain head is heavy. These Oats are the best to grow on rich and also on cold and damp soil. Postpaid, pkt. 10c; lb. 20c; 3 lbs. 55c.
The Famous Quaker Oat

The Greatest Oats in the Country.
The Earliest of All Large Grained Oats.
The Best Yielding Oats.
The Plumpest and Heaviest Oats.

Quaker Oats is a spreading variety, throwing out its heavily laden branches on all sides. It has thick walled, stiff straw of medium height, that carries the load without lodging, withstanding winds and storms better than most other varieties.

The grains of Quaker Oats are short, very plump and heavy, the heaviest of any oats we know of, generally weighing from 19 to 20 lbs. per measured bushel. They have a thin skin and heavy meat, and in addition the color is a fine white as bright and clean as a new silver dollar.

Such oats grade higher on every market than common stock and usually bring a cent or two a bushel more for the crop, which will more than pay the extra cost of seed, not to say anything of the extra yield which may be secured.

These oats are medium early, a few days later than Silvermine. We have grown them now for many years, but never noticed a sign of rust, smut or blight on the straw.

The plants do well on most soils, standing up well on rich land, and owing to their strong root system, they are the best Oats for thin, upland ground and the best drought resistant in dry season. They have been grown with great success in all parts of Northwest and in the central and eastern states. They are of strong, vigorous growth and remarkable for their great stooling capacity, which accounts for their wonderful yield; often more than 80 strong, healthy stems, each carrying a large head filled with heavy grains have been counted coming from one single seed. Yields of one hundred bushels per acre have been quite common of Quaker Oats, but even crops of 200 bushels and more have been harvested on well prepared land in a favorable season.

Sow Buckbee's Quaker Oats and do not miss your chance to get a start with this famous variety and harvest more Oats to the acre than ever before and Oats which would always bring a high price in every market, if you do not sell them for seed.

Our stock of Quaker Oats is very fine this year and the seed compares very favorably with that of any other variety. Ask for sample.

Chiclet Pedigreed Seed of our own growing. Postpaid, pkt. 10c; ½ lb. 15c; lb. 25c; 3 lbs. 70c.

WINTER OATS

Winter Oats are of the greatest value for the states south of the Missouri line. They are grown there for fall and spring pasture and for grain. They also generally stand the winter everywhere in our state and in the southern half of Iowa. Our Winter Oats grown in the North are incomparably superior to southern-grown stock. They are more hardy, earlier, less susceptible to rust, of more vigorous growth, stand up better and are more productive.

Texas Red Rust-Proof Winter Oats

A standard favorite not only in Texas, from which it derives its name, but all through the Southern States. Texas Rust-Proof Oat has a very heavy berry, nearly every one has a distinctive beard, protecting it from the sun and enabling it to stand extreme heat. It has short, strong, stiff straw and does not lodge easily. These oats are much used on light, sandy soils and also for low grounds, where Oats are likely to rust. These oats can be sown in Fall and Spring. Sow 2 bushels per acre. Postpaid, pkt. 10c; ½ lb. 25c; 3 lbs. 70c.

Winter Turf Oats

Sometimes called Virginia Gray. This splendid variety has proven immensely popular and satisfactory wherever it has been grown. When sown early in fall and the roots thoroughly established in the soil, it is very hardy and will stand a great deal of cold. Its stooling propensities are remarkable and on good soil yields from fifty to seventy bushels per acre. The grain is of a dark gray color, with a distinct stripe and weighs heavier than the ordinary Oat. These oats can also be sown in Spring and if sown very early, will outyield ordinary Spring Oats. Sow 1½ to 2 bushels per acre. Postpaid, pkt. 10c; ½ lb. 25c; 3 lbs. 70c.

New Appler Winter Oats

This is undoubtedly one of the best all round Oats for planting in the Fall as they afford a valuable pasture the greater part of the Winter and early Spring, thus reducing the quantity of other necessary food. They may be harvested early enough in the Spring for other crops to follow. This variety spreads and stools out enormously, especially when grazed, and if stock be taken off by March will yield a large crop of grain. This is a very popular Oat in the South especially on the light sandy soils of the coast region. Prices, postpaid, pkt., 10c; ½ lb. 25c; 3 lbs. 70c.
Buckbee's Northern Grown Cow Peas

Cow Peas grow on almost all soils and thrive on land too poor for clover. They are drought-resistant and are largely grown in the South, but the early varieties listed here are also of great value for any northern states.

Cow Peas, whether used for green fodder, hay or silage, have a higher feeding value than clover, millet or any other grass. They make an excellent hog pasturc; an acre of ripening Buckbee's Cow Peas will feed and fatten 15 to 20 young hogs. The Georgia Experiment Station makes 1½ tons green hay or 2½ tons dry per acre. The yield of peas is about 15 bushels per acre.

Used for green manuring, Cow Peas will increase wonderfully the fertility of the soil. For hay, Soy Beans and Millet and Cow Peas are much planted together at the rate of about a bushel of Cow Peas to half bushel of Soys or Millet per acre.

Culture—Sow warm, in drills 2 feet apart, and cultivate, using 60 lbs. per acre; or broadcast 100 lbs. per acre. The planting is often done in corn at the last cultivation.

BUCKBEE'S EXTRA EARLY MICHIGAN FAVORITE—Mature in about 50 days. In quality and production it is equal to any of the well-known standard varieties; 8 to 12 tons of excellent fodder or 20 to 30 bushels of seed per acre is obtained. Much used as a fertilizing crop. Postpaid, ½ lb., 25c; lb., 50c; 3 lbs., $1.50.

NEW ERA—Upright, remarkably prolific. Ripens in 60 days. Yields 2 crops in the South. Postpaid, pkt., 10c; ½ lb., 15c; lb., 35c; 3 lbs., 75c.

IMPROVED WHIPPORWILL—Upright, a week later than New Era, a favorite in the South and Middle West. Very productive. Much used for pasture and fertilizer. Postpaid, pkt., 10c; ½ lb., 15c; lb., 35c; 3 lbs., 75c.

BRABHAM—The most valuable Cow Pea today in America. One of the most productive in yield of forage and of shelled peas. Of upright growth, early and very similar to New Era but is bound to supplant this variety on account of its wilt-resisting qualities. Postpaid, pkt., 10c; ½ lb., 15c; lb., 30c; 3 lbs., 50c.

PROLIFIC BLACK EYE—One of the earliest; will mature seed in about 60 days. Of the same value as a forage and soil improving crop as the other varieties, but also grown for table use. Postpaid, pkt., 10c; ½ lb., 15c; lb., 35c; 3 lbs., 75c.

BUCKBEE'S NEW EARLY SNOWFLAKE FIELD PEAS

BUCKBEE'S NORTHERN GROWN FIELD PEAS

For the northern states there is no crop of greater value than Field Peas. They can be grown under most any condition of soil or climate and yield a profitable crop no matter what purpose it is grown for in pasture, silage, hay, grain or fertilizer. Field Peas make their best growth when the weather is cool and the earlier they are seeded the better they will do. When sown in March or April in the Northern states they will be ready for cutting the latter part of June, coming before any good nutritious feed suitable for silage or hay.

Field Peas are sown alone at the rate of 3 bushels per acre, but the most satisfactory way has been found to be, if sown with oats, about a bushel of peas to a bushel of oats per acre. When clover or grasses are frozen out or are liable to fail on account of dry weather, then peas and oats will furnish the quickest returns of any forage plants and in feeding value are equal to clover hay. The feeding may commence as soon as the oats are headed out and the peas are in bloom. When the grain reaches the dough state the crop has attained its maximum feeding value, and it wanted for hay it should be cut at that time. If grown for pasturage, as soon as the peas are fully developed the stock can be turned in. The best way of seeding Peas and Oats is to plow the peas under not more than 4 inches deep; then sow the oats in the usual way.

BUCKBEE'S NEW EARLY SNOWFLAKE—By far the best Field Pea. Immensely productive. Height of vine 3½ to 4 feet. Dry peas is of a beautiful pearly white color. Price, postpaid, pkt., 10c; ½ lb., 15c; lb., 35c.

BANGALIA—An exceptionally heavy cropper for an extra early Pea. It is easily a week to ten days earlier than the famous June Peas, and two to three weeks earlier than the Canada Pea. The vines are very heavy. The Peas are somewhat wrinkled, very heavy and a beautiful light green in color and decidedly distinct from the White Canadian. Aside from its drought resistant character and big cropping habit, it is a very early variety, which is a fine quality in a Field Pea. Price, postpaid, pkt., 10c; ½ lb., 15c; lb., 35c.

IMPROVED WHITE CANADA FIELD—A well known and standard variety. Prices, postpaid, pkt., 10c; ½ lb., 15c; lb., 35c.
It is a characteristic of the Rosen that the 4 rows are always evenly well filled on 99 per cent of the heads, while Common Rye seldom shows a well-filled head.

We offer genuine, pure, clean stock, postpaid, ptk. 10c; lb. 30c; 3 lbs. 85c.

New Rosen Winter Rye

This famous Rye, originated by the Michigan Experiment Station, has now proven its superiority over all other varieties in the Rye-producing section. The average yield of common Rye in this country is less than 15 bushels per acre, but that of Rosen Rye, 40 to 45 bushels.

Rosen Rye has a very stiff straw and very large heads with 4 even rows filled with very large kernels.
GRAIN OR NON-SACCHARINE SORGHUMS

These varieties are more resistant to heat and drouth than Corn, and are therefore more profitable to grow, where—because of drouth, hot winds and shallow soil—Corn is not a reliable crop. They yield as much grain as Corn, make excellent fodder and silage and will grow on any soil where Corn will, and on many too poor for Corn. They are unsurpassed as a grain and fodder crop, for dry, alkaline lands. The feeding value of the grain, forage and silage of these Sorghums is about equal to that of Corn.

They should be planted about 10 days later than Corn, as they do not withstand the cold and dampness of Spring like Indian Corn, but are strictly hot weather plants. Sow for grain, 4 to 8 lbs.; for silage, 8 to 12 lbs., and for hay, 1 to 2 bushels per acre.

Cut for hay when the grain is in the milk or soft dough stage; for silage, when in the hard dough stage or nearly ripe; for grain, when fully matured.

BUCKBEE’S EARLY KAFFIR CORN

The Standard Grain Sorghum and the Best for Forage and Silage.

Early Kaffir Corn not only produces excellent forage and silage, but the seed is, as a grain, almost if not equal to Indian Corn, while it is profitably grown on land low and high, rich or poor and whether the season is wet or dry. Plants attain the height of from 5 to 8 feet, growing upright. Stems have a stalky tendency and produce numerous wide leaves; they do not harden as do many other Sorghums, but keep green, brittle and juicy, making the best silage or forage, either green or dry, of any of the grain Sorghums, and are highly relished by all stock.

Early Kaffir is grown more extensively than any other grain Sorghum, and it usually outyields all other Varieties, and also Corn for forage as well as grain. It does well in most parts of the corn belt.

Early Kaffir matures in about 110 to 115 days.

Very choicest “Full of Life” seed of strong germination. Postpaid, pkt. 10c; ½ lb. 15c; lb. 25c; 3 lbs. 70c.

FOR BULK PRICES BY EXPRESS OR FREIGHT SEE ORDER SHEET

EGYPTIAN WHEAT or SHALLU

A valuable new grain, entirely different from Wheat. It belongs to the Sorghum family and should be planted like Cane or Kaffir Corn, for hay or grain. Broadcast, it makes from 4 to 8 tons to the acre. In drills, it yields 75 to 80 bushels of grain per acre. The plant grows from 5 to 7 feet tall, stouts from the root, a single grain often producing 2 to 6 stalks. It produces more grain than any other Sorghum. The grain makes excellent feed for horses and cattle. When ground it makes fine flour for pancakes; it pops like popcorn. Postpaid, pkt. 10c; ½ lb. 15c; lb. 35c; 3 lbs. 85c.

JERUSALEM CORN

Belongs to the non-saccharine Sorghums, and was brought a few years ago from the arid plains of Palestine. It is pronounced the surest grain crop for dry countries and seasons—better adapted for the sections with very low rainfall than Kaffir or Milo Maize. It grows one large head on main stalk and several smaller heads on side shoots, having one as many as 8 heads on a plant. Very valuable for feeding stock, and proves a gold mine for chicken feed. The grain is pure white and nearly flat. Plant 5 to 10 pounds per acre. Postpaid, pkt. 10c; ½ lb. 20c; lb. 35c; 3 lbs. 95c.

FETERITA—The Earliest and Most Drought Resisting Grain Sorghum.

Introduced by the United States Department of Agriculture from Africa. It produces a stalk 7 to 8 feet high and a large head, well filled with bluish-white seeds. The grain is softer and larger than that of Milo and Kaffir and in feeding value is equal to either of them. Feterita is an excellent drought resister; it yields from 50 to 80 bushels of grain per acre. It stands erect, branches out from the root, matures 28 days earlier than Kaffir, ripening in about 50 days when used as catch crop to follow Winter Wheat or early Oats in the South. Not as leafy as Kaffir and not so much used for forage. Postpaid, pkt. 10c; ½ lb. 15c; lb. 25c; 3 lbs. 70c.

Feterita.
Sugar Cane or Sweet Sorghum

Sugar Canes can be profitably grown in all portions of the United States where corn is grown, and it is more drought resistant than corn. It remains fresh and green through periods of drought that ruin corn.

As a forage crop, it has a very high value. Milch cows are exceptionally fond of Sugar Cane, and it is excellent for milk production. It furnishes an enormous quantity of succulent food, outyielding corn for forage, and it is fed with much less waste. At the Iowa Agricultural College 25 tons were harvested per acre.

As a pasture crop it is mostly used for hogs and sheep. It makes splendid hay, which is very palatable, nutritious and much relished by all kinds of stock, including hogs.

Thelage of Sugar Canes has practically the same feeding value as that of Corn and Kaffir, but Sugar Cane generally produces a much larger crop than those varieties and is the most profitable crop to grow for silage. Where Sugar cane is not wanted exclusively for silage it may be mixed with field corn with most satisfactory results.

As a catch crop, Sugar Cane is much used. It could be sown after an early grain crop, or in place of other crops, if they have been destroyed by frost, flood, drought, etc. The plants grow very quickly, reaching maturity in about 70 days.

It yields a large quantity of Seed, about 25 to 30 bushels per acre, which can always be saved, no matter for what purpose the crop is wanted. If the cane is cut only when the seed is nearly ripe. The seed has a high feeding value. It makes a fine feed for all stock, flavored mixed with oats, peas or soy beans. One of the most common uses of cane seed is as poultry feed, and it is very much recommended for laying hens.

For hay, sow broadcast or in drills at the rate of 50 to 100 lbs.; for silage and forage, sow in drills 3/5 feet apart, using 12 to 15 lbs., and for syrup, use 6 to 8 lbs. per acre. The seed should be sown about 10 days later than corn. Cut for hay when grain is in the milk and for silage and syrup when in the dough stage.

Buckbee's New Honey Syrup Cane

The Favorite Syrup Producer

This is the earliest Cane, and our seed is grown in the North, is entirely pure, not mixed with any other sorghum.

As a syrup producer it has no equal, being exceedingly juicy and sweet, making from 250 to 400 gallons per acre, highly flavored. It grows 10 to 12 feet high, is very prolific, sometimes producing 5 to 7 stalks from one seed. Matures about the middle of August, and according to time of planting: will keep green and stand, if desired, until killed by frost, allowing the farmer to take his own time to produce syrup. A row of Seed could be grown worth $25.00 or $30.00 per acre. Also a splendid forage crop for feeding hogs and poultry, and will make excellent hay. It is sown in drills very thick, it may be planted at the same time between April and August.

Price, postpaid,扑kt. 10c; lb. $2.50; 3 lbs. $7.00.

Buckbee's Improved Early Amber

Successfully grown even in the extreme northern latitudes. Not only is it valuable for fodder and pasture purposes; but it makes a high-grade cane syrup or sorghum. Price, postpaid,扑kt. 10c; lb. 30c; 3 lbs. $8.50.

Buckbee's Improved Early Orange

An exceedingly valuable variety. Very large, of strong and vigorous habit. Frequently produces 210 gallons or more of beautifully colored and highly flavored syrup in a season. It is also a better forage crop than Early Amber, but taller and producing a heavier quantity of forage. Price, postpaid,扑kt. 10c; lb. 30c; 3 lbs. $8.50.

Australian Salt Bush

A valuable forage plant for soils containing alkali and for all regions subject to periodic drought; will grow freely on soils that will produce no other vegetation. It seems to take up from the soil the salty substance which is so detrimental to the growth of other plants, and after 3 or 4 crops of it have been grown the soil is capable of producing any other crop. The plant is a perennial in the South, but not hardy in the North, and has to be sown there every year.

Sow in Spring or Summer, when soil is warm and moist, after a rain; do not cover seed. When once started it will grow strong and vigorously during the driest season. The plants are of spreading habit, reaching for a period of 2 years, they make a thick mat of stems and foliage 2 to 4 feet in diameter, yielding about 20 tons of Australian Salt Bush forage per acre, which makes about 5 tons of hay. This is very nutritious and eagerly eaten by all live stock. When dry it contains about 5 to 10 per cent of salt matter. One pound of seed will seed one acre. Postpaid,扑kt. 8c; oz. 15c; ½ lb. 50c; lb. $1.25.

Giant Beggar Weed or Florida Clover

An erect leguminous, annual plant, from 3 to 6 feet high, with abundant foliage; excellent as a pasture crop, only making hay of the finest quality. The feed is much relished by stock and is highly nutritious, comparing favorably with that of red clover and cowpeas. It is especially recommended for the highland feed, and on land too poor to grow any other crop it has produced 2 to 3 tons of cured hay per acre. If cut when about 2 feet high, the plants again stand out from the bottom, yielding successful crops. It is an excellent crop to turn under for green manure. It can be easily eradicated. Sow when soil is warm in June, 3 or 4 lbs. in drills 3 feet apart, or broadcast 10 lbs. per acre, cover 1 to 2 inches. Will mature in 60 days. Postpaid,扑kt. 10c; ½ lb. 35c; 1 lb. 40c; ½ lb. 65c.

For Bulk Prices By Express or Freight See Order Sheet

Australian Salt Bush

Thousand-Heads Kale

Similar to and now frequently used in place of rape, as it yields a heavier crop, which is estimated at about 10,000 lbs. per acre in one season.

Thousand-Headed Kale attains a height of 3 to 4 feet; the stem is covered with rosettes of leaves. It grows well on almost any kind of soil and is hardy. All farm animals are fond of it, but it is of especial value for feeding hogs and sheep. Sow same as rape; broadcasting requires 1 ½ lbs. per acre. Postpaid,扑kt. 10c; ½ lb. 40c; lb. $1.25.
SPRING WHEAT

NEW MARQUIS

Ten days earlier and yields 10 bushels more per acre than any other hard spring wheat known.

Pronounced by both farmers and millers the finest spring wheat for the Northwest and it is also the best hard red variety of spring wheat that can be raised in the Cornbelt.

This wheat has very stiff straw of medium height, which does not lodge easily, the heads are broad and quite heavy, have smooth yellow chaff; the kernels flinty, more round than those of other spring wheats, thicker and more plump, and of dark red color. Marquis weighs 64 to 66 lbs. per bushel, a five-year average yield at the Brandon, Mani-toba, experiment station was 54 bushels per acre. Almost without exception it will grade No. 1 Hard, and it is superior to any known variety in milling and baking qualities.

Postpaid, pkt. 10c; lb. 25c; 3 lbs. 75c.

EARLY JAVA

A very early bearded variety and one of the most prolific ones, about 10 days earlier than Velvet Chaff or other standard varieties and about as early as winter wheat. One of the best spring varieties to grow in the Cornbelt. Very stiff straw, long well filled heads with round, plump grains of the best milling quality. Sow 1½ bushels per acre. Postpaid, pkt. 10c;

MACARONI, KUBANKA OR DURUM

This is the best of the Macaroni varieties for milling purposes. It is very early and very productive, generally yields 10 to 20 bushels more per acre than any other spring wheat. The heads are bearded, the grain very large, hard, glossy and of yellowish color. Sow 1½ to 2 bushels per acre. Postpaid, pkt. 10c;

VELVET CHAFF

This is a bearded, smooth chaffed variety, very hardy and a big yieldeer. It yields from two to ten bushels more per acre than the Blue Stem. It is early in maturity, from 110 to 115 days. The Minnesota Experiment Station reports a 14 year average yield of 26.7 bushels.

Postpaid, pkt. 10c;

BLUE STEM MINN. No. 169

One of the heaviest yielding varieties for the Northwest: originated at the Minnesota experiment station. Fine, plump, grains. Large bald heads. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

WINTER WHEAT

New Marquis. Winter Wheat is the best paying crop on the farm; wherever possible it should be grown instead of Spring Wheat, for if the right varieties are used it will give one-third larger yield and it is as sure a crop.

BUCKEE'S RED TURKEY. This is a bearded variety and is the hardest known; it can be planted in almost all parts of the Northwest and is also the best adapted sort for the states of Nebraska, Kansas, Oklahoma, etc. It is one of the earliest varieties of winter wheat and matures before rust and chinch bugs appear. The heads are long, well filled with large, flinty grains of reddish-amber color equal to No. 1 Hard spring wheat. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 35c.

HARVEST QUEEN. A beardless variety, white chaff, golden-yellow grain; a splendid yielder; while not as hardy as our Red Turkey, it has been grown for years with good success in Southern Minnesota. This and Harvest King are the hardest varieties of beardless winter wheats known, giving excellent results in all parts of the Cornbelt. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

HARVEST KING. Another beardless or bald variety, red chaff, very large dark amber colored grains, larger than most other bald varieties, of splendid milling qualities. The earliest beardless wheat, very hardy, often sold as Red Cross wheat. One of the most productive kinds in the Cornbelt, quite hardy at far north as Winona, Minn. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Buckee's Red Turkey.
BUCKEE'S WONDERFUL DWARF BONANZA RAPE

There is no other forage plant which can be grown so advantageously in the northern part of the United States and which furnishes such an abundance of succulent forage during Summer and Fall when the supply of grass and clover is often limited as Rape. It is indispensable for raising sheep and hogs and is much relished by all stock.

Rape belongs to the Cabbage family; grows 2 to 3 feet high and is never troubled by insects.

Buckee's Dwarf Bonanza is undoubtedly the heaviest yielder of all varieties of Rape. Crops of nearly 10 tons of green fodder per acre have been reported of it, while of Dwarf Essex not more than 10 to 20 tons have been harvested.

Rape is best adapted to cool and moist climates, but has also successfully been grown in warm and dry sections.

Rape does well on any kind of soil, especially if rich in vegetable matter, as it is a gross feeder. Land that produced a good crop of corn and wheat is suitable for Rape.

In the northern states Rape is sown from April to August, and in the South from August to October.

Four to five pounds of seed are used per acre if sown broadcast, and 2 to 3 pounds if sown in drills 21 to 28 inches apart to allow cultivation. It may be sown alone in Fall after the grain has been harvested, or it may be sown in the Spring in the Winter or Spring grain, when this is 2 to 3 inches high, at the rate of 2 lbs. per acre. With a good stand of Rape in the stubble, sheep can be turned in in about 3 weeks after the grain is cut. It also is sown in the corn at the last cultivation. When the crop is cut it is best to follow a cultivated crop, which will cause the stems to send out new shoots more rapidly. Rape is usually ready for use in about 2 months from sowing the seed; it is used as a soilmaking crop in many places, but its chief use is for pasture and especially for hogs and sheep. Its fattening properties are twice as good as clover.

There is no danger to hogs from bloating, but cattle and sheep may suffer seriously if sufficient care is not taken. When on Rape they should at all times have access to salt.

Rape must not be fed any more after it has been frozen.

Postpaid, pkt. 10c; lb. 30c; 3 lbs. 70c.

Dwarf Essex Rape

A standard variety. Not quite so strong and vigorous a grower as Dwarf Bonanza, but never fails to give the best of satisfaction. Fine imported seed. Price, postpaid, pkt. 25c; 3 lbs. 70c.

Lentils

This is a comparatively unknown but really valuable addition to our food supplies. The seeds should be sown in Spring in drills and if further attention is required until August or September, when the plants are ready to gather. The seeds keep best in the pods and should only be removed as occasion requires. They are cooked after the manner of beans; they also make excellent soup. Pkt. 10c; ½ lb. 30c; lb. 50c.

Field Lupines

An annual leguminous plant, very valuable for plowing under to reclaim poor soil, particularly sandy and old, wornout land. It also makes good fodder in the green state or as hay. The seeds are very fattening when used with hay. Sow in the early Spring at the rate of 60 to 90 lbs. per acre. Postpaid, pkt. 10c; ½ lb. 30c; lb. 50c.

Field Seeds

Sunflower

Sunflower seed makes a splendid food for all farm animals; it is relished by horses and cattle, fattens sheep and swine, but it is especially valuable as a food for fowl and as the best egg producing food known. It also keeps the fowl in a strong, healthy condition; gives it a bright, lustrous plumage and is said to prevent roup. The strong, thick stalks can also be used as fuel. Sunflower is one of the cheapest foods known; it can be raised cheaper than corn. The variety we offer is an immense yielder and often produces crops of 100 to 125 bushels per acre.

Sunflowers are planted in rows or hills and cultivated the same as corn. If you cannot spare land to cultivate them, plant them in the waste corners. The heads should be cut from the stalks before they are fully ripe, as they are apt to mold on the stalks; spread heads out thinly on the barn floor or corncrib, and as soon as dry enough remove the seeds from the heads; this is done the easiest way by rubbing the inverted head over a coarse screen. Three pounds of seed will sown one acre.

MAMMOTH RUSSIAN—This is the largest "the Jumbo" of the Sunflowers. There is no variety which produces larger seeds or heads than this one. Single heads measure 15 to 22 inches in diameter and contain an immense amount of seed. It is very productive. Postpaid, oz. 5c; ½ lb. 15c; lb. 55c; 3 lbs. 70c.

Bird Seeds

CANARY, best Sicily.......................................................... Postpaid, ½ lb. 15c; lb. 25c; 3 lbs. 70c
HEMP, recleared.......................................................... Postpaid, ½ lb. 15c; lb. 25c; 3 lbs. 70c
BIRD RAPE, strictly pure............................................. Postpaid, ½ lb. 15c; lb. 25c; 3 lbs. 70c
MILLET, for birds.......................................................... Postpaid, ½ lb. 15c; lb. 25c; 3 lbs. 70c
MIXED BIRD SEED, for Canaries, etc., strictly clean...... Postpaid, 25c; 3 lbs. 70c
BUCKBEE’S "FULL OF LIFE" CLOVERS
BUCKBEE’S "FULL OF LIFE" CLOVERS ARE THE HIGHEST GRADE OBTAINABLE

These seeds are carefully tested and are of the highest Vitality and purity; they are free of fungus and insect seeds and, in fact, we aim to have every bushel of Buckbee's Famous "FULL OF LIFE" Clover Seeds that we send out test 98 per cent or better for purity and 95 per cent or better for germination. These seeds are also very plump, heavy, being well ripened, so as to insure a good stand and big crop.

Alsike or Swedish Clover

Alsike seems to be especially adapted for the Northern States; it is a perennial clover, longer than Alkali Red; it is also harder in fact, it is the hardest of all clovers; it does not heave out of the ground in cold weather and cold does not injure it and it resists the extremes of drought and wet. It is the only clover that will thrive on moist soil, but it will also grow fairly well on stiff clay. It is mostly grown in bottom lands and in places where it grows with Timothy; these varieties seem to be well adapted for this soil and ripen at the same time.

Alsike is a hybrid of the Red and White Clover. It grows 2 to 3 feet high. The stems are thinner than those of Red Clover, and the leaves are more numerous, making a hay of finest texture, which is eaten without waste. The hay is of good feeding value and is equal to that of Alfalfa. The yield of Alsike hay is fully as large as that of Middle Red Clover.

For hay, cut when in full bloom; it can be cured easier than other clover, thus to have the best.

For seed, cut when 2/3 of the heads are ripe; an average crop is about 4 bushels of seed per acre.

For pasture, Alsike is preferred to Middle Red, it being more permanent. Alsike is one of the best honey producing plants that can be grown.

Sow at the rate of 5 to 7 pounds per acre in Fall or Spring. It may be sown alone, but does well if sown under cover of grains. The seed of Alsike being small, it requires less seed to sow, an acre of alsike does less seed than of Red Clover.

Price, postpaid, Buckbee's Alsike, "Full of Life," pkt. 10c; lb. 60c; 3 lbs. $1.75.

Alsike and Timothy Mixed

When Alsike and Timothy are grown together it is impossible to make a complete separation of the seeds of these two varieties. We are purchasing this mixture for less money than we could have separated seed and can, therefore, sell it for about the same price. Those desiring to sow Alsike and Timothy together, therefore, can save money by buying the seed in mixture form where it is harvested. This, we believe, is the cheapest Clover and Grass Seed Mixture you can buy.

Alsike and Timothy make an excellent combination for hay and pasture; they are adapted for the same kinds of soil and mature together; they do well on most any land where other grasses and clovers grow, but give the best results on moist lands. Both varieties are perennials, are very hardy, do not winter kill and when established they will live for years. The Alsike is a hybrid of Red and White, and gives, therefore, a mixture of many different kinds of soil and has given better satisfaction than any other grass mixture ever offered; it is of the highest feeding value for stock of all kinds.

Our mixture contains about 1 1/2 Alsike, the other part is pure Timothy. Sow at the rate of 10 to 12 lbs. of seed per acre. It can be sown alone or with small grain in the Spring or Fall.

Price, postpaid, pkt. 10c; lb. 55c; 3 lbs. $1.00.

Medium Red or June Clover

This is the most valuable and most universally grown clover throughout the country. It is a dependable variety for pasture and meadow. It lives 2 years, grows 2 to 4 feet high, makes 2 crops each year. The first one is generally cut when in blossom for hay; the last crop may be harvested for seed, cut for hay or plowed under, to add fertility to the soil.

Medium Red Clover furnishes a splendid pasture; all animals thrive on it, especially cattle, sheep and pigs.

For soilings, this is the best clover to use, furnishing succulent food all season long.

It yields about 10 tons of well cured hay per acre.

This clover, whether used as hay or green fodder, is very nutritious and always greedily eaten by all farm stock. Less grain is required per acre for good clover lands than for other clovers.

Clover adds to the fertility of the land on which it is grown. Like all leguminous plants, the clover adds nitrogen to the soil on which they grow, where it can be drawn upon by subsequent crops, and crops following a crop of clover are larger and of better quality than when grown on land not improved by clover.

It is estimated that a full crop of Medium Red Clover turned under adds $15.00 worth of nitrogen alone to the soil. It would, therefore, to grow clover for if for no other use than green fertilizer; and it would save the cost of fertilizers and the expenses of using farm manure.

Medium Red Clover does well on a great variety of soils, and it thrives most luxuriantly on strong, well-drained loams.

It may be sown in the Spring or Fall, and if sown alone, 8 to 12 lbs. are used per acre.

Buckbee's Northern-grown Clover Seed has become widely known for its purity, strong vitality, hardiness, vigorous and healthy growth and standing qualities, so that we now receive many orders from the most distant parts of the United States. It pays well in the North, and on poor land.

Buckbee's "FULL OF LIFE" Medium Red Clover—the plumpest, purest, cleanest seed of the highest vitality. Price, postpaid, pkt. 10c; lb. 55c; 3 lbs. $1.60.

Mammoth Red or Sapling Clover

Mammoth Red Clover is quite distinct from Medium, being larger, of coarser and more robust growth, and two to three weeks later. It is also more hardy, standing better under hard winters, and is therefore largely used to restore fertility to worn out soil. Mammoth Red Clover should be in every permanent pasture, as it retains its greenness throughout the Summer and furnishes a larger amount of forage than Medium Clover; it is especially used for permanent hog pastures.

As a fertilizer for green manuring it also surpasses Medium Clover, growing more rank and making a good cover to plow under. Medium to 10 pounds of seed per acre.

Buckbee's "Full of Life" Mammoth Clover, price, postpaid, pkt. 10c; lb. 60c; 3 lbs. $1.75.

White Clover for Lawns

A low growing clover, spreads rapidly and is very hardy: valuable for permanent pastures, being sweet and nutritious. For lawns it is also much used. Round, white, fragrant heads, which make excellent passage for bees. It grows on most any kind of soil, but succeeds best on moist ones. Postpaid, pkt. 10c; lb. 60c; 3 lbs. $2.50.
White Bohkara Sweet or Bee Clover (Mellitlus Alba)

A Money-Making Crop for All Sections of the Country. Valuable for Sollage, Pasture, Hay, as a Green Manure, and Especially as a Fertilizer.

Of the different varieties of Sweet Clover the white flowering is the most important one and the one most grown. It is biennial if not grown, but will die out the second year. Grows 6 to 9 feet high. The flowers are white, give a strong smell of honey and appear each year from sowing. Sweet Clover can be grown successfully in all parts of our country and on most soils except poor ones. It is one of the few plants that thrive on alkali and also on dry, sandy loam.

To succeed with Sweet Clover the ground must contain lime and must be inoculated; the bacteria being the same for Alfalfa and Sweet Clover. The soil of one will inoculate the field of the other. We can furnish Alfalfa soil, see page 11, and also Edwards' Legume Bacteria for the inoculation of Sweet Clover, see page 97.

Sweet hay from first cutting and the second year. It should be cut for hay before it comes into full bloom and about a foot higher, otherwise the plant may be killed. The hay is cured the same as alfalfa. For Seed, Sweet Clover should be cut when about 3/4 of the pods have turned brown; an ordinary clover harvester will thresh the crop clean if plowed under it will add four times as much nitrogen to the soil as clover. Buckbee's "Full of Life," hulled seed, postpaid, pt. 10c; lb. 50c; 3 lbs. $1.45.

Yellow Sweet Clover (Mellitlus Officinalis)

This is a biennial variety like the white; it does not grow quite so tall, only about 4 to 6 feet high, the stalks and branches are, however, more slender, making fine hay. It blooms from the first till frost and yields a big crop of honey of excellent quality.

Sweet Clover is the greatest of all fertilizer plants which we have; when a full crop and hay is plowed under it will add four times as much nitrogen to the soil as clover. Buckbee's "Full of Life," hulled seed, postpaid, pt. 10c; lb. 45c; 3 lbs. $1.50.

Sanfoin or Espartesse

A deep rooting perennial, very desirable for feeding, either dry or green, to milk cows; careful tests have proven that it increases quantity and improves quality of the milk. Sown two bushels per acre. Seed weighs about 20 pounds per bushel. Postpaid, pt. 10c; lb. 40c; 3 lbs. $1.15.

Burr Clover

An annual clover for the South; matures in May. A most valuable Winter grazing crop, growing very thickly all through the Winter. After once being seeded, it reseeds itself and improves in growth each succeeding year. It is admirably adapted for growing with Bermuda Grass as an excellent combination of the two makes a splendid all-the-year-round pasture. Sow 15 pounds per acre from July to October. Excellent hulled seed, postpaid, pt. 10c; lb. 55c; 3 lbs. $1.60.

Japan Clover or Lespedeza

A perennial valuable clover for the South, stands excessive drought and is particularly suitable for wornout soils, waste lands and woodland pasture, growing well in the shade. Especially valuable for pasture and green fertilizer. On good and moist soils it grows 20 inches high. A combination of the two makes a splendid all-the-year-round pasture. Sow 15 pounds per acre from July to October.

Crimson Clover (Giant Incarnata)

Valuable for Pasture, Sowing, Hay, But Especially for Flouing Under to Restore Wornout Soils

Crimson Clover forms upright branching plants 2 to 3 feet high, blooms a month earlier than Red Clover. It roots very deeply and is a bountiful provider of nitrogen. It grows most luxuriantly on fertile soil, yet it will thrive better on thinner and poorer soil than Red Clover. It is more efficient for green manuring than the latter. A plowed under crop of Crimson Clover is equivalent to 20 tons of stable manure per acre. It is the cheapest source of nitrogen, has revolutionized the methods of farming in many states, and has restored to profitable cultivation thousands of acres of poor land.

It is one of the best clovers for use in the silo, yielding up to 30 tons of green forage per acre. For sowing and for pasture it is frequently sown with Rape, Winter Ryegrass or Vetches. Sow at the rate of 15 pounds per acre. Price, postpaid, pt. 10c; lb. 40c; 3 lbs. $1.15.

Buckbee's Great Sand Vetch (Vicia Juncosa)

The Sand Vetch, also called Winter Vetch or Hairy Vetch, is an annual plant, similar in growth to a Pea Vine, but more slender, more branching and leafy. It will grow from 6 to 10 feet tall.

As the name indicates, it has a special adaptation for sandy soils; it succeeds well on light soils too poor for clovers, cowpeas, etc., and will give bigger crops on richer land.

Sand Vetch is of great value for pasture and hay, and the fodder, either green or dried, is much relished by all stock; it is very rich, nutritious, containing even more protein than alfalfa. It is cut for hay where the roots of alfalfa are formed from 8 to 9 tons per acre.

Sand Vetch is, however, mostly grown and is of the greatest value as a fertilizer; it is the best legume for enriching soils of low fertility, the total value of a crop of Sand Vetch if plowed under is estimated by the Department of Agriculture to be $1.00 to $4.00 worth pf commercial fertilizer per acre; or twice as much as crop of clover.

Sown early in Spring alone or with a nurse crop of barley or oats, it furnishes good winter and fall pasture. Seeded in the field as late as can come on early in Spring, and will yield a bountiful crop of hay or splendid pasture till June; or can be plowed under about May 10th in the North, when it will be easy to kill as the pods are mature and can be turned under with a plow.

Sow 15 to 40 pounds of Sand Vetches if sown alone; or 20 pounds Vetches with 1 bushel of Oats or Barley in Spring, or 1 bushel of Winter Rye in Fall. Cover Vetch about 1 inch deep. Postpaid, pt. 10c; lb. 40c; 3 lbs. $1.15.

Spring Vetches

An annual, sown in Spring only; does not do as well in the North as Sand Vetches. Sow alone 50 pounds per acre, or 40 pounds Vetches and 1 bushel of Oats. Postpaid, pt. 10c; lb. 50c; 3 lbs. $1.00.
BUCKBEE'S HARDY NORTHERN AMERICAN ALFALFA

There is no State in the Union Where It Cannot Be Successfully Grown.

FACTS ABOUT ALFALFA

One acre of Alfalfa yields as much protein (the milk and meat producer) as three acres of common Clover or nine of Timothy, or twelve of Bromus Grass. It does not exhaust the soil; it enriches the soil.

CULTURE OF ALFALFA

SOIL—The soil must be well drained, free of weeds. Alfalfa does not thrive where water is within 6 feet of surface.

LIME—Where lime is not present in the soil it must be supplied or the plants will fail.

INOCULATION—Soil is the best source of inoculation, see below. We can also furnish bacteria inoculation for Alfalfa. See page 57.

SOWING THE SEED—Seeding can be done in Spring or Fall. In the Northern states seeding must be done before Aug. 15. Use 10 to 15 pounds of seed on a well-prepared seed bed in the Northwestern and Central States and 20 to 25 pounds in the Eastern and Southern States.

CUTTING FOR HAY—Alfalfa should be cut when about one-tenth in bloom, but in the North never later than Sept. 1.

CUTTING FOR SEED—Cut when the pods are dark brown.

BUCKBEE'S HARDY NORTHERN AMERICAN ALFALFA

We have handled this strain for many years and the best results have been obtained with it everywhere, in exceptional localities, but many of the finest Alfalfa fields in the Northwest have been grown on some of the finest old fields and the actual results our customers obtained with this strain vary from field to field and from year to year. We can furnish pure, hardy, and productive. This strain comes from very old, very long-standing fields on non-irrigated land which lived through the severest winters. The fact that our seed is taken only from very old fields and the actual results our customers obtained with it in the North and South prove it an extremely hardy frost and drought-resistant and almost everlastig strain of Alfalfa. It has stood every winter in every locality where it was grown in 1896 and late cutting without injury and stood as much cold as any other Alfalfa seed raised in Montana and Dakota, except the hybrid varieties like Grimm, etc. This strain is very hardy, our strain grows very tall and is more productive than most other kinds on the market.

Our Alfalfa seed is grown in Montana on dry land. We recommend it to be genuine, straight stock, free from nervous weeds. It has a vitality of not less than 95 per cent and a purity of 99 per cent.

One or two pounds of seed per acre when drilling in rows 24 to 32 inches apart. Use five pounds when broadcast on well-prepared fertile soil.

Price, postpaid, pkt. 10c; lb. 50c; 3 lbs. $1.40.

SIBERIAN ALFALFA

The following varieties are the best of the new kinds of Alfalfa brought by Prof. N. E. Henson, of the South Dakota Experiment Station, Siberian strains, where they were growing in localities having a short and hot summer and a long, bitterly cold winter.

These varieties have been grown now for many years in the Northwest and have made good; they grow luxuriantly on the dry uplands west of the Missouri and as far north as Alaska, standing adverse conditions of drought and cold in which no other forage plant will survive. They never winter kill.

The variety often known as South Dakota and is true stock. We recommend to sow these high-priced sorts with a gardenseed, as they are apt to run apart, averaging 2 pounds for one acre.

COSSACK—A hybrid of purple-flowered and hardy yellow-flowered Alfalfa. It resembles Grimm, but is a larger producer. This strain of strains also has both yellow and blue flowers, often both on the same stem and many intermediate shades. It can readily be distinguished by its flowers from common Alfalfa, which makes it very valuable. Of tall upright growth, it recovers quickly after cutting. Price, postpaid, pkt. 10c; oz. 15c; lb. 75c.

ORENBERG—A pure, hardy, yellow-flowered variety. Probably the most valuable of all Alfalfas and entirely different from all other kinds known now. Its root-system is entirely different from those of others, having hard tap-roots but a mass of laterals spreading out in all directions for great distances, making it impossible for the roots to grow where water is near the surface. The crowns are 4 inches below the surface and of mature plants average about 2 feet in diameter. They send up hundreds of stems which are finer and more leafy. Orenberg makes the best forage of all Alfalfas, but it does not grow quite as tall as others. Price, postpaid, pkt. 10c; oz. 25c; lb. $1.00.

PEDIGREED GRIMM ALFALFA SEED

Montana Grown on Dry Land

No other Alfalfas have a record of hardiness, drought-resistance and productivity like Grimm. Two years ago all Alfalfa and Clover fields in a large part of the Northwest froze out—all the fields of Grimm survived. It proved then again the most hardy and dependable forage plant we have.

The characteristics of the Grimm in which it differs from common Alfalfa are:

1. The branching root stock, which enables the plant to live above hard pan, on poorly drained soil and so withstand heaving.
2. The sunken crown, that is a crown below the surface and protected by soil from winter freezing and drying out. It also generally has variegated flowers, mostly blue shades, but occasionally yellow blossoms.

Our Grimm Alfalfa seed has been grown in Montana on dry land. We recommend it to be genuine, straight stock, free from nervous weeds. It has a vitality of not less than 95 per cent and a purity of 99 per cent.

Sow two pounds of seed per acre when drilling in rows 24 to 32 inches apart. Use five pounds when broadcast on well-prepared fertile soil.

Price, postpaid, pkt. 10c; $1.00 per pound.

PEDIGREED GRIMM ALFALFA PLANTS

By setting plants a full stand is assured and a gain of one year is made; the plants grow quickly after being set out and secure a foothold in the soil which dry weather cannot overcome. By root planting Alfalfa bacteria are easily established in the soil as they cling to the roots when planted and save the expense of inoculation.

To secure best results, set the plants in rows two to three feet apart and 18 inches apart in the row. They may be plowed in by setting against a furrow and plowing against them. The crown should be set four inches beneath the surface. Cultivate to keep the plants down. When planted as suggested about 5,000 to 10,000 plants are required to the acre.

We ship Alfalfa Plants during the months of April, May and October.

Prices: Strong Two-Year-Old Plants, by mail, postpaid, per 100, $3.75; by express, not prepaid, per 500, $4.00; per 1,000, $5.00.

INOCULATED ALFALFA SOIL

The best and surest way to inoculate a field with Alfalfa bacteria is by applying soil of an old Alfalfa or Sweet Clover field at the rate of 100 pounds per acre; scatter the soil over the field in the afternoon and harrow it in immediately; do not allow the sun to strike it.

We can furnish Alfalfa soil free of weeds at the following prices: By Express or Freight at buyer's expense, sacks included, 100-lb. sack, $2.00; 500 lbs., $8.75; 1,000 lbs. for $15.00.
**Millet**

**BUCKBEE’S CALIFORNIA BEAUTY MILLET**

The most remarkable leafy, bushy, vigorous growing Millet in the world. Yields as high as fifteen tons of hay or more to the acre. It will make a magnificent crop of hay if sown immediately after your Wheat. Rye or Wheat is cut, as it will ripen in from sixty to ninety days. It is positively the Millet wonder—very leafy, prolific and exceptionally fine for hay and feed. This Millet, unlike any other, thrives on our hot, dry winds of the Devil’s Wash and the burning prairies of Kansas and thrives on the semi-arid soils of Western Nebraska and Colorado—in fact, it grows where no other Millet grows. Sow one-half bushel per acre.

Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

**LIBERTY OR GOLDEN MILLET**

Grows very rank, 4 to 5 feet high, and is one of the best varieties for hay, being sweet, palatable and milk producing. On good rich soil it yields 5 tons of hay and more per acre. The hay seems coarse, but is very tender, and cows, horses and all other farm stock are exceedingly fond of it. Should be cut when in full bloom. Sow 3 lbs. (25 to 40 lbs.) per acre. Postpaid, pkt. 8c; lb. 30c; 3 lbs. 65c.

**HUNGARIAN MILLET**

A luxuriant, vigorous growing and very leafy Millet which is relished by all farm stock; the hay is not so coarse as that of the Liberty Millet, but the yield is nevertheless quite large, averaging 3 to 4 tons an acre. It is earlier than Liberty Millet and is often used as a second crop to follow Barley and early Potatoes, etc. Postpaid, pkt. 8c; lb. 30c; 3 lbs. 70c.

**NEW WHITE WONDER MILLET**

The most striking feature of White Wonder Millet is the size of the heads, which will run from eight up to eighteen inches, and a single head will have as many as 15,000 seeds. The yield is extremely heavy, being fully half again as heavy as that of Common Millet. Some growers claim that it will outyield all other Millets three to one. Another desirable feature is its earliness. The foliage is very heavy, the leaves broad, and therefore it produces an immense amount of excellent fodder which cures very readily. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

**HOG OR BROOM-CORN MILLET**

It is a very early variety ripening in 50 to 60 days from time of sowing. The seed ripens while the fodder is yet green, hence it can be cut and used for both hay and seed with best success; it yields from 60 to 70 bushels of seed to the acre besides the fodder hay. This Millet does not grow very tall and is therefore not much planted for hay, but its enormous quantity of seed makes good feed for swine and other stock. It also makes fine feed for poultry and young chicks.

Postpaid, pkt. 8c; lb. 30c; 3 lbs. 65c.

**JAPANESE MILLET**

Also Called Billion Dollar Grass.

Entirely distinct from any other Millet, grows 6 to 8 feet high and produces an enormous crop, often yielding 25 to 30 tons of green fodder or 4 to 8 tons of cured hay per acre. The feeding value of this Millet is much superior to that of corn fodder and the Millet is much more readily used by all kinds of stock. Japanese Millet is mostly used for feeding green, but on account of the large yield and good quality of forage, it is also most excellent for silo use and frequently a good crop of this Millet can be raised under conditions which would not admit the growing of corn for ensilage. An ideal ensilage mixture may be composed of two parts Japanese Millet to one part of Soja Beans, mixed when filling the silo; this mixture forms a complete balanced ration for milch cows, without the addition of grain.

The seed of this millet makes good food for poultry and hogs, as it contains almost as much fat and extract matter as shelled corn and a little more protein. Sow the seed at the rate of 15 lbs. per acre. Postpaid, pkt. 8c; lb. 30c; 3 lbs. 85c.

**PEARL MILLET OR PENCILARIA**

This quick-growing forage plant has been long known under the name East India or “Cat-tail” Millet. Sown in drills 4 feet apart and cultivated like corn, the plants attain a height of 3 to 12 feet, with slender, long-bladed leaves. These stalks can be cut for winter use and the seed makes an excellent poultry food. But the best use of the plant is to cut the stalks for green forage when about 3 feet high and allow the plants to make a second growth for fall feeding or ensilage. On richly manured land these plants grow luxuriantly and no other crop will yield as much forage. Pearl Millet is of exceptional value for sections subject to protracted drought where natural grasses dry up, as it will keep on growing and furnish a good crop in the driest season. Eight pounds of seed are required per acre, if sown broadcast, and 5 to 6 pounds if sown in drills. Postpaid, pkt. 10c; lb. 35c; 3 lbs. $1.00.
BUCKBEE’S “FULL OF LIFE” GRASS SEEDS

Are of the HIGHEST GRADE obtainable, both as respects purity and high germination; they are pure and clean, free from noxious weeds and foreign seeds and are plump, heavy and well ripened, so as to insure a good stand and a big crop.

**Timothy**

Timothy is the most popular and most important of all hay grasses and is adapted to a wider range of conditions than any other grass. It is one of the most certain grasses to grow, and without doubt is the hardest of all our grasses; no other kind will stand the extremes of heat and cold better than this one; no other variety equals it in average yields, excels it in feeding value.

It luxuriates on clay and moist soil and is unsurpassed on peat, but it does not root as deeply and is not so well conserved, therefore, as much of an improver of soils as many other grasses; consequently it should not be sown on land deficient in humus or on soils of light, sandy nature. It flows into full bloom in July and should be cut when in full bloom and not until later the hay becomes hard and coarse. The hay is very nourishing and can be preserved for a long time; it is greedily eaten by all cattle and horses and are especially fond of it. On average soils it is frequently sown along with Red Clover, and on lower with Alisike; these two clovers mature with the Timothy. The practice of sowing the common Red Clover with Timothy is not advisable, as they do not ripen together and either one or the other must be cut at a stage which will not give the best results. For pasture, Timothy cannot be well recommended. If sown alone its growth is not thrifty enough and close pasturing is very injurious to it. For pasturing, therefore, it should be sown in interseeding with clover, which is the best. For pasture and meadow are Red Top and Meadow Fescue which are some of our most hardy, perennial varieties, and ripen at the same time as Timothy. We have also added Timothy to most of our Clover Grass mixtures wherever good results could be expected (see page 118). Timothy attains the height of its productiveness in the first year after being sown. It has grown itself especially well adapted to the Northwest and seldom fails to make a good stand on prairie soil when sown early in the season under suitable conditions.

Height: 2 to 3 feet; yield of hay on good ground, 3 tons per acre. If sown alone, use 1/2 bushel per acre; to sow with clover, use 9 pounds Timothy and 3 pounds of Alisike, or 5 pounds of Mammoth Clover.

**Red Top—Solid Seed**

A very hardy native grass and probably the most perennial variety we have. Red Top accommodates itself to a variety of situations but succeeds best on moist land, where it attains a height of 2 to 21/2 feet. After being established, it thickens and improves year by year, taking possession of the land, gradually supplanting all other grasses and is especially valuable for a permanent pasture where the grazing is continuous; it does best on heavy, uncharged, moist soils, which are usually preferable to any other grass. It is of slender growth, fine foliage, and throws out slender, spreading heads; it is very nutritious and much relished by all farm stock. Sow 10 pounds solid seed per acre.

**Meadow Fescue or English Blue Grass**

One of the most valuable grasses for all parts of the country. Drought and frost resistant, furnishing an abundance of pastureage from the spring till late fall. Meadow Fescue is well suited to a wide range of soils, does well on loamy clay and gravelly soils, and thrives on heavy black loam, strong and low-lying soils, but is not adapted to light sandy soils.

Of all grasses, Meadow Fescue is the surest crop. It comes up quickly and in three or four weeks after sowing it will be about 4 inches high and cover the ground perfectly.

It lives longer than most other kinds of grasses, and although it produces the first year a good crop of hay or pasture, it does not reach the highest stage of growth until 2 or 3 years, and for this reason is the best adapted and most useful of the grasses. It would not be advisable to sow the seed for a shorter period than 3 or 4 years. As a pasture grass it is particularly valuable, as it is the most persistent grower and is one of the very earliest in the spring and the latest in the fall. When two or three years old it surpasses most other grasses in the quantity of its productive matter, producing four to five tons of hay or pasture. It is always tender and juicy, and the grass, either green or dried, is very nourishing and much relished by cattle. Horses eat it greedily.

Meadow Fescue matures at the same time as Timothy and Red Top and Alsike Clover, and for mead-ows these varieties are often grown together. It grows 2 1/2 to 3 feet high. It blooms in June and July. Sow 15 to 25 pounds per acre.

**Orchard Grass**

A valuable grass for pasture or hay land, and on account of its earlyness especially valuable for a permanent pasture. It furnishes good grass very early in the spring and until late in the fall. When closely cropped it grows up very finely and is ready for grazing again in ten to twelve weeks. It is succulent and nutritious, furnishing excellent pasture or hay. When grown for hay, hay of good crops can be obtained in one season. The roots extending to a great depth, it will stand drought better than most other grasses.

It grows in tufts and is, therefore, best sown with other grasses. It is well suited for shady places, such as orchards and groves and will grow under any kind of land, but does best on deep, rich, sandy loam or clay soils. Height: 3 feet. It flows into full bloom three weeks earlier than Timothy and about the same time as Red Clover and Tall Meadow Oat Grass. Sow 2 pounds per acre.

Buckbee’s "FULL OF LIFE" Orchard Grass, price, postpaid, pkt. 10c; lb. 35c; 3 lbs. $1.00.

** Orchard Grass.**

**Kentucky Blue Grass**

One of the most widely distributed and valuable native grasses. It is a true perennial, lasting indefinitely and improving every year. It forms a close turf, starts very early in the spring and lasts very late. It succeeds in almost any soil, except very light or very sandy soils, and stands long; continuous dry weather. It is comparatively free from weeds and is one of the oldest and most established grasses for very best grasses for the lawn. It is very productive and nutritious. Sow 25 to 30 pounds per acre.

Buckbee’s "FULL OF LIFE" Kentucky Blue Grass, price, postpaid, Kentucky Blue Grass, pkt. 10c; lb. 45c; 3 lbs. $3.15.
BROMUS INERMIS

A great and wonderful grass that has proven a great boon for the dry, and districts of the West, North and South. It does not need irrigation. It supplies the feed for many of the large stock raisers of the plains. Bromus adapts itself to nearly all conditions of soil and climate, equaling in quality and rivaling in yield almost any other grass. It is a good grass for all States of the Union, does well in poor, and on rich soil, has proven one of the best grasses for low, wet, sandy soils, and gave good returns on poor, sandy soil where Timothy was an entire failure. Bromus is one of our hardest perennials, grows much longer than any other grasses. It does not become woody at any time, but always remains succulent and always greedily eaten by all farm stock. Bromus spreads rapidly, and when allowed to grow, is a thin and thick grass. It forms a dense sod 5 to 6 inches thick, thus binding the soil together and prevents it from being wind blown, and at the same time completely eradicating all noxious weeds, such as thistles, mustards, etc., within a few years.

Bromus Inermis obtains a height of from 4 to 5 feet, producing an abundance of leaves and yields on good soil about 4 tons of cured hay per acre, which has about the same feeding value as Timothy. Warm animals are fond of it, and cattle and sheep like it the best of any grass. Much more now for pasture, with White Sweet Clover, using 10 lbs. each acre. Sow 15 to 20 pounds per acre.

Buckbee's "FULL OF LIFE" Bromus Inermis is of the highest Vitality and free of all dangerous weeds, especially of quack grass. Price, postpaid, pkt. 10c; lb. 45c; 3 lbs.

TALL MEADOW OAT GRASS

A hardy grass of rapid growth, luxuriant, and reaching a height of 4½ feet on rich soil by June 15th. Makes excellent hay on sandy loams, but is particularly suited to rich soils and clay formations. It has a wonderful capacity for enduring severe heat and drought. And in the South it does much better than Timothy. To make good hay it should be cut immediately when it blooms. It frequently produces twice as much hay as Timothy. It possesses the advantage of early, quick and late growth, fills well and is admirably suited for a pasture grass. When kept in a cool state Buckbee's "FULL OF LIFE" Tall Meadow Oat, price, postpaid, pkt. 10c; lb. 50c; 3 lbs. $1.75.

CANADA BLUE GRASS

-A very hardy perennial grass with creeping root stocks. It grows on the poorest and driest soils—sandy, gravelly or clayey, sandy loams, or drought, and keeps green through all the frosts of Winter. It is especially valuable for dairy pastures. It is distinguished from the Kentucky Blue Grass by its flattened, wiry stems and by its decidedly bluer color. Sow 22 to 25 pounds per acre.

Prices, postpaid, pkt. 10c; lb. 50c; 3 lbs. $1.00.

ENGLISH OR PERENNIAL RYE GRASS

Invaluable for permanent pastures. It produces an abundance of remarkably fine foliage, tillers out close to the ground and soon forms a cover eider and stunted. After being cut it grows up in a very short time and remains bright and green throughout the season; it consequently is well adapted for lawn mixtures. It is also a good variety for hay if cut when in blossom, as it is then most nutritious; if cut much later it becomes better suited to a great diversity of soils, but provides the best rich soil in moist situations.

It will last three to four years. Sow 22 to 30 pounds per acre. Buckbee "FULL OF LIFE" English Rye, price, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

ITALIAN RYE GRASS

A remarkably rapid grower: stands extremes of temperature, remaining green until late in Fall and retaining its freshness in the hottest Summer. When sown very thick or in mixture with other sorts it makes a good, dense turf, and it is used with much satisfaction on lawns. On rich, moist soils it is exceedingly productive and may be cut in four or five weeks after sowing and every six weeks after that until frost. For temporary meadows, on good soils, it is a most valuable grass. Not perennial, but lasts two to three years. Sow 22 to 30 pounds per acre.

Buckbee's "FULL OF LIFE" Italian Rye, price, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

BERMUDA GRASS OR SOUTHERN BLUE GRASS

(Cynodon dactylon)

A most valuable grass for our Southern States, both for pasture and lawns. It is of dwarf habit, with long, creeping stems rooting at the joints and covering the ground with a matting of fine turf which no amount of trampling will impair. It is also useful for binding drifting sand and for steep embankments subject to wash. It requires heat and moisture to start it. As it cannot stand cold, it is of little value North of Virginia. It thrives in the poorest and sandiest soil, and resists extremes of drought and intense tropical heat. Sow at the rate of 5 pounds to the acre. Postpaid, pkt. 10c; lb. 90c; 3 lbs. $2.65.

JOHNSON GRASS

(Sorghum Halapense)

When carefully handled, one of the most satisfactory hay crops for the Southern farmer, yielding even during hot and dry seasons in the South. It grows to a height of 15 feet in those states, while a single kernel will produce from 60 to 100 stalks of the most nourishing green fodder imaginable. On our Rockford Seed Farms, where the soil is a plinthite of green feed than corn, cane or any other forage plant, and when the season was favorable we cut two crops. A bushel or more of seed are required per acre. Price of Seed, postpaid, oz. 10c; ½ lb. 30c; lb. 90c.

TEOSINTE

Here is a truly wonderful forage plant worthy of general cultivation. Give it a rich, warm, sandy soil and it will yield 20 to 25 tons of green fodder per acre. It is simply marvelous. Down in Georgia, in Florida and Louisiana its yields are all the way up to 30 tons. It grows to a height of 15 feet in those states, while a single kernel will produce from 60 to 100 stalks of the most nourishing green fodder imaginable. On our Rockford Seed Farms, where the soil is a plinthite of green feed than corn, cane or any other forage plant, and when the season was favorable we cut two crops. A bushel or more of seed are required per acre. Price of Seed, postpaid, oz. 10c; ½ lb. 30c; lb. 90c.

FOR BULK PRICES BY EXPRESS OR FREIGHT SEE ORDER SHEET
SUDAN GRASS

Sudan Grass was introduced by the United States Department of Agriculture as a forage plant early introduced by this Department. It has now been thoroughly tested, has given most satisfactory results in most states of the Union and is obtaining ever-increasing favor as one of the standard summer grasses and forage crops.

It belongs to the Sorghum family and in general appearance is very much like Johnson Grass, but differs from it in that it is entirely free from Johnson Grass' persistent underground root system, which makes a Johnson Grass sod so difficult to eradicate. Sudan Grass being an annual and having fibrous roots similar to Millet or Oats, is easily controlled and eradicated at the close of the growing season as these varieties, and will never become a weed.

Sudan Grass is not particular about the soil. It does best on rich clay loam, but on sandy and poor soils the yields are not so very far from the greatest value to the Central States, and especially to parts of Texas, Kansas, Oklahoma and the like, where rainfall is deficient in the dry seasons. There has been no satisfactory hay crop, and Sudan Grass will therefore be of immense value there, as it is as drought-resistant as any other Sorghum plant, and can be readily utilized to produce a crop of hay with very little rainfall. It requires but a shower of rain to start, but will be cut for hay in about 20 to 25 days, and matures seed in 100 days from planting.

Sudan Grass has many other advantages. It is a quick growing grass, and makes a fast, stand, and light saw, but like all other Sorghums it has a preference for a warm growing season, and for best results should be planted until the soil has become warm in Spring. It can be sown at any time in Summer 70 to 75 days ahead of the frost. It is sown in rows 18 to 24 inches apart 3 lbs. per acre. On good soil, where there is plenty of moisture, it is sown broadcast or drilled in, and 10 to 25 pounds of seed is required per acre.

Sudan Grass is easy to cut with a mower and cures readily. When wanted for seed it is harvested with an ordinary grain binder. Used for hay, it is cut when fully head out. An early cutting is especially advisable when more cuttings per season are expected. After cutting it resumes its growth promptly, and in about 40 to 45 days another cutting is ready. In Texas it has been cut four times, but farther North only two or three cuttings may be expected.

Sudan makes a very nutritious and palatable hay which is relished by cattle, horses and other farm stock. In feeding value the value is second only to Alfalfa and far better than Millet. The yields vary a great deal, but from five to eight tons of cured hay have been harvested per acre on dry land and a good season of growing. The yield of seed is, on dry land, from 500 to 1,800 pounds, but on irrigated land as much as 2,900 pounds have been grown per acre.

Sudan Grass crosses quite easily with other cultivated Sorghums and Johnson Grass; we therefore had our seed grown in the North, where no Johnson Grass is grown, and our fields have been kept far apart from any other Sorghums. Buckbee's "FULL OF LIFE" Sudan Grass Seed is the finest and purest in the market.

Buckbee's "FULL OF LIFE" Northern Grown Sudan Grass, price, postpaid, 10c; lb. 35c; 5 lbs. $1.00.

GRASS AND CLOVER SEED MIXTURE (Sow One to Two Bushels per Acre.)

All authorities agree that for PASTURE and HAY best results are obtained from the use of grass seed in MIXTURE. The reason for this is quite obvious: No one species is ever the best, and because of this fact a number of species will insure a much DENSER GROWTH than the same number of seeds of one species could be expected to do. A mixture of grass seed used in these circumstances is the only economical way to secure the best results. MIXTURES are now of course much more extensively used in the homestead farms than ever before. BUCKBEE'S RELIABLE "FULL OF LIFE" BLENDS—FOR MEADOWS AND PERMANENT PASTURES. The prices quoted below are by Express or Freight at purchaser's expense.

BUCKBEE'S SPECIAL HOG PASTURE MIXTURE No. 8

Especially prepared for quick results and a full crop. This mixture is composed of the following ANNUAL VARIETIES:

FIELD PEAS, SOYA BEANS, CLOVER, VETCHES, COWPEAS, CRIMSON CLOVER, RAPE, SUGAR CANE, JAPANESE MILLET- TURF, PARTHABAGAS, SPELTS, RYE and other grains and forage plants all in the right proportion.

This mixture will provide an abundant pasture within six weeks from day of sowing the seed, continuing for 9 months and destroycd by frost; among all of these varieties will come up again as fast as they are cut down and will furnish 4 to 5 times as much forage as can be obtained from any clover-grass mixture, and this food is succulent and nutritious and much relished by hogs; it will keep them healthy and strong and they will gain weight easily and regularly. This mixture will prove a most profitable investment for every farmer not only for feeding hogs, but also all other farm stock. It is usually sown about corn planting time, but can also be sown as a catch crop any time during the season until July 1st. Use 100 pounds for 1 acre. Price, 10 lbs. 95c; 25 lbs. $2.15; 50 lbs. $4.00; 100 lbs. $7.50; by express or freight not prepaid.

Buckbee's Famous "Full of Life" Lawn Grass Seed
HARDY, LUXURIANT, ALWAYS GROWS, ALWAYS THRIVES

Our Lawn Grass Seed
Produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm, deep and elastic turf, and is generally ready for mowing in six weeks from time of sowing and is composed of a thoroughly balanced combination of native and foreign fine-leaved, deep-rooting grasses of interweaving habit, that flourish under varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward free from clumps is maintained from snow to snow without burning brown in the hot months of summer.

A Lawn may be established either by "sodding" or "seeding." The latter is not only much less expensive but much more satisfactory, as better grasses can thus be obtained, and the quantity and quality of the grasses have a great deal to do with the appearance and the permanency of the Lawn.

Buckbee's World's Fair Lawn Grass
The Very Best Lawn Seed Ever Offered.
This famous Prize-Winning Lawn Grass is made up of a most evenly balanced combination of native and foreign fine-leaved, deep-rooting grasses that interweave and flourish in different soils and climates, each showing its best strength at seasons different from the others, and thus keeping the Lawn vigorous and green from winter's end to winter's next advent.

Was awarded the great Columbian Prize at the World's Fair. This mixture was used by the World's Fair authorities to produce the beautiful Lawns, which were without question one of the greatest features of the Fair. It is the Ideal Mixture, and is unrivaled for purity and luxuriance in growth and will give complete satisfaction wherever sown. With ordinary care anyone can, by using this mixture, secure a beautiful Lawn. Complete and explicit directions on "How to Make a Lawn" accompany every package of this seed. The quantity table on this page shows the amount of seed to plant in a given area. Price, postpaid, 1/2 lb. 25c; 1 lb. 40c; 3 lbs. $1.15. Large quantities, by express or freight, not prepaid, 5 lbs. $1.75; 10 lbs., $3.10; 15 lbs., $4.95; 25 lbs., $8.00.

How to Make a Lawn
Is fully described in our new pamphlet, which will be given free with every package of Lawn Seed.

Special Quotations
We shall be pleased to quote special prices to Golf Clubs, Institutions, Parks and others who require Lawn Grass and Clover Seeds in large quantities.
Buckbee's "Full of Life" Potatoes

Pedigreed Stock, grown in the famous Red River Valley of the North expressly for seed.

No seed Potatoes can be compared with those produced in the North, either for vigor and freedom from disease, or for producing and long-keeping qualities. Furthermore, our stock is all grown from hill selected Potatoes and only from plants which have produced a large number of market-sized tubers, and it will easily yield a hundred more bushels per acre than common stock. Remember, no matter what fertilizer, cultivation, protection against disease and insects you give the crop, the fact remains that the yield is dependent very largely on the seed you plant.

Date of Shipment—Potatoes will be shipped at any date ordered, at purchaser's risk, but where no special instructions are given to the contrary, we will hold same until in our judgment there will be a minimum danger from freezing. Of the many varieties that claim public favor, we have selected the best in cultivation.

Buckbee's Extra Early Rockford

A new Extra Early Variety of great promise. Makes an extremely quick growth and, considering its extra earliness, is a wonderfully heavy yielder. Is of very handsome appearance, with pinkish tinged skin and white flesh. Of delightful flavor. Prices, postpaid, 1 lb. 35c; 3 lbs. $1.00.

Early Six Weeks

A fine Potato of the Ohio type and as early as that variety. It is in demand everywhere. As now improved we consider it one of the best early market varieties grown. As table Potatoes they are not excelled. Prices, postpaid, 1 lb. 30c; 3 lbs. 85c.

Irish Cobbler

Sometimes called Early Eureka. A most excellent extra early variety. Maturing good sized tubers seven weeks from time of planting. It has the remarkable characteristic of producing almost only tubers of large size. The vines make good tall growth, allowing close planting. The tubers are of round shape with fine white skin. The flesh is pure white, with a clean, smooth skin, and in quality they are excellent, always cooking dry and mealy. They are splendid keepers and, taking it all in all, are one of the most reliable and satisfactory first early sorts, excelling in productiveness many of the late varieties. Specially suited to dry climates on account of its deep roots and by far the best white Potato for the South. In a comparative test of sixty-seven varieties, reds and whites, made at the Station at Fayetteville, Ark., the Irish Cobbler gave the best yield of all, which was 193.49 bushels per acre. Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 30c; 3 lbs. 85c.

Improved Extra Early Ohio

It is fully two weeks ahead of the Early Rose, and is a general favorite with Potato growers and market men alike, and the most profitable Potato they can possibly grow. Maturing early, it brings the highest prices. The tubers grow compact in the hill, are easily dug, with very few small ones—nearly every Potato is of marketable size; has few eyes which are even with the surface. Our Improved Extra Early Ohio is very fine, pure stock and uniform in shape. Prices, postpaid, 1 lb. 25c; 3 lbs. 70c.

Buckbee's Noroton Beauty

This and Bliss Triumph are the earliest Potatoes grown. Noroton is fully as productive as many main crop sorts. It is handsome in appearance, having a russety white skin and pinkish eyes, and being more uniform in size and shape than any other variety. Little troubled by bugs; almost blight and disease resistant. Its table quality is superb. Prices, postpaid, lb. 30c; 3 lbs. 85c.

Bliss Red Triumph

The standard extra early Potato much planted in the South. The tubers are nearly round, are smooth, medium in size, reddish pink in color. Vines are small and compact, with short, thick stalks and broad leaves. This is one of the hardest varieties known, and is least susceptible to blight, scab and other diseases; In fact, it can be grown on the mo's., etc., in manured land without danger of rot. Prices, postpaid, 1 lb. 30c; 3 lbs. 85c.

Pure Early Rose

The good old favorite, which continues in great popularity. A prolific yielder, sure cropper and popular market Potato. The seed we offer is the purest and best on the market. Prices, postpaid, 1 lb. 25c; 3 lbs. 70c.

A Valuable New Book of Practical Information

How to Grow Seeds and Flowers

A complete guide for the house and garden. Price 50c, postpaid, or we will send a copy free with an order amounting to $1.00 or upwards if requested on the order.
BUCKBEE'S IMPROVED GREEN MOUNTAIN POTATOES

Green Mountain is fast becoming the most popular late variety all over the country. In fact, in many sections it has now superseded all other late varieties, being the heaviest cropper of them all and yielding, especially on light soils, often one-third more than the older late sorts; it is medium late, earlier than most main crop varieties. It thrives in all soils and all localities. On good soils the potatoes are nearly free from small tubers. This is a strong and vigorous grower with an abundance of bushy vines with bright green leaves. The tubers are large, smooth, of oblong to roundish form, somewhat flattened. The skin is of a yellowish or slightly russet tinged, is finely netted, indicating fine quality. Eyes are few and of medium size and well distributed. The flesh is white, solid, fine grained, cooks white, dry and mealy and has a very fine flavor. It retains its fine eating qualities all through Winter. Buckbee's Improved Green Mountain is selected stock, very pure and a heavier cropper than stock sold by others, and is entirely free from all diseases. Postpaid, prices, lb. 25c; 3 lbs. $1.00.

CARMAN No. 3

The Carman No. 3 is one of the greatest yielding Potatoes ever introduced. The tubers are borne very close to the plant, a single turn of the fork turning out every Potato. It is of a large size and of the shapeliest form. Eyes are few and shallow. It is a perfect keeper and in not surpassed as a table variety. Skin and flesh of extreme whiteness. It has a hollow heart or any dark parts. We recommend this Potato to our customers as being unqualifiedly one of the best of all late sorts. Prices, postpaid, lb. 25c; 3 lbs. 70c.

SIR WALTER RALEIGH

A white-skin, main crop Potato much resembling Rural New Yorker No. 2, of which it is a seedling. It is decidedly better than its parent; the tubers being quite uniform in size, with but few small ones among them. It is from four to six days later than the parent stock. The color is the same, the skin and flesh being white. It is very fine grained. Prices, postpaid, lb. 25c; 3 lbs. 70c.

BURBANK

Continues in good demand and is one of the most largely used kinds. It ripens medium late, is of good size, of fine oblong form and an excellent yielder. The flesh is white, very mealy and of fine flavor and quality. The best Potato for boiling. This variety is well adapted for heavy soils and is a long keeper. Prices, postpaid, lb. 25c; 3 lbs. 70c.

RURAL NEW YORKER No. 2

One of the largest yielding varieties in existence. Large, oval form and rather flat, with few and shallow eyes; the smoothest and cleanest potato grown; skin white, as is also the flesh, which is of best quality; it comes dry and floury. Medium late and best drought resistant. Although it is a large yielder, it grows but few and small vines. It is hardy and will stand the heaviest manuring without getting scabby or spotted. Under ordinary circumstances they will yield from 250 to 500 bushels per acre, but by heavy manuring this yield can be doubled. Prices, postpaid, lb. 25c; 3 lbs. 70c.

From Selected Northern Grown Seed

WE GUARANTEE SAFE ARRIVAL IN GOOD CONDITION FOR PLANTING

Every farmer knows that a heavy expense in sending whole Potatoes long distances by Express or Freight, the charges often costing more than the Potatoes. Then, too, if shipped during the Winter and early Spring they usually freeze, and if not sent until this danger is past, they oftentimes arrive too late for planting. The Eyes as put up by us, will keep 60 to 90 days in good condition for growing; as it freshly cut from the Potato, and will produce just as good a crop as if the whole Potato was planted. Hence every one who has a garden can order at any time during the Winter or early Spring (no matter how far away) and test the new and choice varieties of Northern-Grown Potatoes we offer, at trifling cost and safe Express or Freight Charges, as we guarantee safe arrival of the Eyes in any part of the United States. All orders for the South can be sent at any time during the Winter with perfect safety. Orders for the North and West will be booked when received, and sent when Spring opens or planting time arrives.

PRICES OF POTATO EYES OF ANY VARIETY WE OFFER BY MAIL PREPAID: 100 Eyes $1.00; 250 Eyes $1.80; 500 Eyes $4.50; 1,000 Eyes $8.00. Positively no less than 100 Eyes of any variety will be put up.

New Hybridized Potato Seed from the Flower Ball: Headquarters Stock

Growing new and distinct Potatoes from the Seed-Ball-Seed is intensely interesting and fascinating. They will produce innumerable kinds, colors, shapes, sizes, forms and qualities. Some may be of immense value. This incomparable mixture contains choice selections for the United States, Italy, Chile, Switzerland, South America, France, Africa, Mexico and Europe. New creations of merit bring rich returns and your fortune may be in one of these. POTATO SEED. Postpaid. Pkt. 10c; 3 Pkts. for 25c.

Potato Seed Balls. (One-Fourth Life Size.)
BUCKBEE’S  
“Full of Life”  
FLOWER SEEDS

FLOWER SEEDS IN BULK
We grow on Rockford Seed Farms large quantities of flower seeds, and will be glad to quote you prices on any amounts you may need.

ASTERS
Buckbee’s New Upright Mammoth Wonder
The latest and highest achievement in Asters; a magnificent, new, mid-season flowering class with immense, fluffy flowers of the finest type, full double to the very center. These Asters are continuous and most prolific bloomers from Summer until checked by frost. The colors are very beautiful, clear and rich. The plants grow tall, compact and upright, sending the flower stems directly upward from the ground, and these stems are strong, firm, 2 feet or more in length.

We offer five colors in Mammoth Wonder Asters:
- Snowdrift, pure white.
- Red Fire, scarlet.
- Blue Beard, dark blue.
- Dove, lavender.
- Bride, pink.

Each of the above: Pkt. 10c; ½ oz. 45c.

Mixed all colors: Postpaid, pkt. 10c; ½ oz. 40c.

Queen of the Market
The best early Aster, coming into bloom fourteen days earlier than most other kinds. Good-sized double flowers on long stems; 1 foot high. Separate colors: White, Pink, Scarlet, Rose, Lavender, Purple. Each pkt. 5c; ¼ oz. 25c.

Finest Mixed, pkt. 5c; ½ oz. 20c.

Paeony Flowered Perfection
One of the most beautiful and perfect, and deservedly one of the most popular of all Asters; very double, large, beautiful flowers, with incurved petals; height, 18 inches. Blooms in August. Separate colors: Bright Crimson, Clear White, Peach Blossom, Violet, Blue. Each pkt. 5c; ¼ oz. 30c.

Finest Mixed, pkt. 5c; ½ oz. 25c; oz. $1.25.

Buckbee’s Improved Victoria
Magnificent flowers, massive and showy, with regular overlapping petals clear to the center. The flowers measure 4 inches and over across and are of rich and varied colors. The plants grow very evenly, pyramidal in form, about 18 inches high, and carry from 25 to 40 flowers. The stems being long and strong, make them fine for cut flowers. Separate colors: Snow White, Flesh Color, Rich Purple, Dark Crimson, Peach Blossom, Light Blue. Each pkt. 10c; ½ oz. 40c.

VICTORIA CHOICEST MIXED, pkt. 5c; ½ oz. 30c.

New Upright Mammoth Wonder.

New Japanese or Tassel
Entirely distinct and novel. Plants of pyramidal growth about 18 inches high, bearing on long stems from 40 to 50 flowers, averaging 2 inches across, composed of wavy and twisted needle-shaped petals. The color is of a soft flesh pink and rose, the two colors mixed. Pkt. 6c; ½ oz. 35c.

Improved Daybreak.

Improved Daybreak
Sturdy, upright, bushy plants, 15 inches high, producing huge double rich colored flowers more massive than any other Aster, not less than 50 blooms appearing on a plant.
- Daybreak Shell Pink.
- Daybreak Salmon.
- Daybreak Snow White.
- Daybreak Lavender.
- Daybreak Blue.
- Daybreak Rose.

Any of the above, per pkt. 6c; ½ oz. 30c.

New Sensation.

New Sensation
Color is the brightest red ever seen in an Aster, being deep ox-blood. Height is about 18 inches, plants well branched, and completely covered with very double flowers, which are over 1 inches in diameter. Stems are usually a foot long and very stiff. Large pkt. 10c; ½ oz. 75c.

Canary Bird.
ASTERS—Continued

FIRE KING

The Most Brilliant Aster Ever Produced and the nearest approach to the scarlet yet obtained. Color previously unknown in this popular flower. Habit: very compact, not more than 10 inches in height, with large, beautifully incurved flowers. Pkt. 8c; ½ oz. 20c.

SNOWBALL

Large, massive, double flowers, 5 inches in diameter, with long narrow more or less quilled petals which are curled and incurved in the center. Ten inches high. Pkt. 8c; ½ oz. 40c.

THE KING

Large, massive, double flowers, 5 inches in diameter, with long narrow more or less quilled petals which are curled and incurved in the center. Ten inches high. Pkt. 8c; ½ oz. 40c.

BUCKBEE’S RADIANT BRANCHING

The flowers are the most beautifully formed of all large Asters, and quite different in several respects from any Aster known. The branching habit is accompanied with great vigor of growth and profusion of bloom. The flowers are very large, 5 to 6 inches across, very double, borne on long, stiff stems and the colors are clear and handsome. The petals are of thick, durable substance and in consequence the flowers last long in perfection. These magnificent blossoms being gracefully poised on strong, well-leaved stems 15 to 18 inches long, are unsurpassed as cut flowers for vases and home decoration. Bloom from the end of August until frost. We offer the following separate colors: Pure White, Dark Blue, Rose Pink, Lavender, Crimson, Each. pkt. 8c; ½ oz. 40c.

BUCKBEE’S RADIANT BRANCHING ASTERS, Mixed. Pkt. 6c; ½ oz. 30c; oz. $1.50.

NEW GIANT QUILLED

The flowers are produced on long, thin, wiry stems, are very large, perfectly double, with long needle or quilled-shaped petals giving the blossoms a very distinct appearance. The plants are of healthy and vigorous habit and grow to a height of about 11 inches. Choice Mixed, pkt. 6c; ½ oz. 50c.

NEW ROYAL

An early strain of the late Branching Aster, coming into bloom only a little later than Queen of the Market, but superior to it in every way. The flowers measure 3½ to 4 inches across, are of perfect form, exceedingly double, are carried on long, strong stems and are unsurpassed as cut flowers. Plants 12 inches high. Separate Colors: White, Pink, Rose, Lavender, Purple. Each. pkt. 8c; ½ oz. 50c.

MIXED COLORS: Pkt. 1c; ½ oz. 50c; oz. $1.50.

BUCKBEE’S NEW GIANT COMET

Or Mammoth Ostrich Plume.

Grand American Asters, a magnificent strain of Comet or Ostrich Plume Asters, finer and larger than Crego and Astermum. The plants grow 18 to 24 inches in height, branching freely, each plant bearing from 20 to 30 magnificent flowers from 4 to 6 inches in diameter, composed of long, curled, twisted petals, forming loose, fluffy, globular heads. The whole flower has a distinctly feathery effect, greatly resembling that of the fine Japanese Chrysanthemums. We offer the following separate colors: Pure White, Purple, Clear Carmine, Bright Rose, Lilac. Each pkt. 6c; ½ oz. 30c.

Finest Mixed, all the desirable colors: Pkt. 6c; ½ oz. 20c; oz. $1.50.
AMERICAN BEAUTY ASTERS

Identical Except in Color. See Illustration.

When we first offered the original American Beauty in 1916, we had an immense flower of most pleasing color. This has now been perfected until the flowers are 4 to 5 inches in diameter. Last year we listed for the first time New Purple Beauty, and now this year we have the New Lavender and September Pink—two varieties that will be even in greater demand than the originals. All four colors are carefully grown, of the same mammoth size, and will come true from seed.

AMERICAN BEAUTY-CARMINE—The beautiful carmine-rose shade. Pkt. 8c; ½ oz. 55c.

AMERICAN BEAUTY-PURPLE—Deep rich purple; strong stems. Pkt. 10c; ½ oz. 55c.

AMERICAN BEAUTY-LAVENDER—Novelty for 1921. Flowers extra large, Pkt. 15c; ½ oz. 95c.

AMERICAN BEAUTY-SEPTEMBER PINK—1921 Novelty. The finest of them all. Pkt. 15c; ½ oz. 95c.

BUCKEES SUPERB MIXTURE OF GIANT ASTERS

Producing beautiful flowers, gigantic in size, gorgeous in colors, perfect in form. This mixture includes the cream of all the Asters on this and the preceding pages, together with many other sorts of the most beautiful forms and brilliant colors. Especially selected from the finest and most popular double-flowered types and the most critical flower lover will be pleased and astonished at the wide range of colors and varieties, and we know it will give satisfaction. Pkt. 10c; ½ oz. 40c; oz. 81.75.

BUCKEES FINE MIXED ASTERS

A splendid collection of the leading types of Asters in choice mixture. We have made the price so low that you cannot pass it by. Pkt. 5c; ½ oz. 20c; oz. 75c.

PERENNIAL ASTERS (Michaelmas Daisies)

Single, Fall blooming, hardy plants, with bright, beautiful flowers; it soon early will bloom the first year. Mixed Pkt. 10c; ½ oz. 55c.

ALYSSUM

LITTLE GEM—This should really be called "Snow White Carpet Plant," for the plants, which are only a few inches high, grow so dense and are so completely covered with snow-white blossoms that it creates the impression of a beautiful carpet spread over the ground. We know of no other white flower which is so particularly well adapted to borders, ribbons, etc., as "Little Gem" Alyssum. The plants commence to bloom when quite small, and will flower uninterruptedly all summer long until late in the fall. Added to all this is the sweet fragrance, and we cannot see how a garden could be complete without it. Pkt. 6c; ½ oz. 15c.

SWEET—Pure white, free bloomer. Pkt. 5c; ½ oz. 10c.

SAXATILE COMPACTUM (Basket of Gold)—Showy, deep, pure yellow flowers. One foot high; for edging. Hardy Perennial. Pkt. 6c; ½ oz. 32c.

Ageratum. Blue Perfection.

AGERATUM

One of the best for bedding. The plants start rapidly, grow rapidly and soon come into bloom, and flower uninterruptedly throughout the season.

BLUE PERFECTION—Deep amethyst blue. Pkt. 6c; ½ oz. 20c.

FINMIXED MIXED—Pkt. 5c: ½ oz. 10c.

ABUTILON

Frequently called "Flowering Maple" or "Chinese Bell Flower." Blooms quickly; easily grown. Pleases everyone. New Fancy California Seedlings, Mixed. Pkt. 5c.

AMBROSIA

A hardy annual, exceedingly fragrant. It is as desirable as the Rose Geranium as a plant with fragrant foliage and for making into bouquets and other floral work. Pkt. 5c.

ANCHUSA

The Heavenly Blue Flower.

A hardy annual of more than ordinary beauty. It grows about two feet high, branching freely and bearing a profusion of the most lovely flowers similar in all respects to the Forget-Me-Not, though the blossoms are much larger and of finer color. It is always taken for a beautiful large flowering Forget-Me-Not and for bouquets and cut flowers. It is indeed superior to it. It blooms early and continues all summer. Pkt. 5c; ½ oz. 15c.
BABY'S BREATH (Gypsophila)

ELEGANS, ALBA, GRANDIFLORA—An annual that should be in every garden, for it thrives everywhere and furnishes the loveliest material for all kinds of bouquets. Pure white flowers. Pkt. 5c; 1/4 oz. 10c.

PANICULATA—One of the favorite hardy perennials; white flowers, fine for bouquets; two feet high. Pkt. 6c; 1/4 oz. 25c.

BALLOON VINE

A rapid and graceful climber; tender annual; 6 feet high. The flowers resemble small balloons. Pkt. 5c; 1/4 oz. 15c.

BIRD OF PARADISE FLOWER

This striking and attractive flower has lately become widely popular. The blossoms are of a rich golden yellow, about 2 1/2 inches in diameter, produced in large trusses, the most striking feature being the long, incurving stamens and pistils of a beautiful bright crimson color. Seed should be soaked in warm water and started indoors or under glass in a light sandy soil. A sunny situation is required in dry warm soil. Plants should be carefully hardened by gradual exposure to fresh air before going into the open ground. If the seed is started early it will bloom the first year. Pkt. 8c.

BEGONIA VERNON

One of the most satisfactory pot plants for the house, and a popular bedding plant for the garden or lawn. Flowers a brilliant orange carmine with bright yellow centers, and the foliage waxy and glossy. Pkt. 8c.

BEGONIA PLANTS—See page 150.

CANNA

But few people know that these beautiful flowers can be so easily grown from seeds, and become the first Summer if sown before April. One of the most popular of bedding plants, while even single specimens are most attractive in the garden. Grow singly in small pots as soon as convenient. The roots can be kept in the cellar over Winter.

CROTONS—Mixed. An imposing assortment of exceptionally fine varieties. Pkt. 6c; 1/4 oz. 15c.

COMMON TALL MIXED—A splendid assortment of exceptionally fine varieties. Pkt. 6c; 1/4 oz. 10c.

CANARY BIRD FLOWER—(Tropaeolum Cananriense)

Beautiful climber, the charming little canary-colored blossom bears a fancied resemblance to a bird with its wings half expanded. The plant has a luxuriant, rambler character, and if seeds are planted by the side of a shrub or trellis will run about 20 feet and will blossom from July until frost. Tender annual. Pkt. 5c; 1/4 oz. 25c; oz. 40c.

CALLIOPSIS OR COREOPSIS

ANNUAL MIXED—Very handsome and showy plants of the easiest culture; require no care and thrive in any garden. Produce flowers in nearly every shade of yellow, orange, crimson, red, brown. New Dwarf Compact Strain. Pkt. 5c; 1/4 oz. 10c.

LANCELATA GRANDIFLORA—One of the finest hardy perennials; blooms the first year from seed and produces on long stems rich bright yellow flowers, 2 or 3 inches across. Pkt. 6c; 1/4 oz. 20c.

CALIFORNIA SUNBEAMS—The newest and best. All the shades of yellow and orange, and many with distinct eye. Large Pkt. 8c.

BUTTERFLY FLOWERS

SCHIZANTHUS or POOR MAN'S ORCHID—A very decorative, hardy, and showy; for beds and borders, or for pots for the house. They form compact plants 1 1/2 to 2 feet high, with finely cut foliage, and when in bloom are literally covered with beautiful, orchid-like flowers, and all delicately fringed and curiously marked with crimson, lilac, purple and yellow blotches. Examplar Pkt. 5c.
CARDINAL CLIMBER
The finest new annual climber introduced in many years. Very graceful and beautiful, growing rapidly, and in a warm, sunny location, it has a height of 20 feet and is densely clothed with deeply indented palm-like, rich green leaves, be- spanged with clusters of fiery scarlet, tubular, spear-shaped flowers, measuring 1 ½ inches across. Pkt. 10c.

CARNATION
GIANT-FLOWERING MARGUERITE—These lovely fragrant Carnations produce fine double flowers which measure 3 inches across. The variety of color includes white, bluish, deep pink, salmon, carmine, scarlet, dark crimson, maroon and many beautifully variegated flowers. Most of them have beautifully fringed petals, and are delightfully fragrant. One great merit of these Carnations is that they commence to flower in about 12 weeks’ time from seed. Spring-sown plants will bloom from August until frost: sow in Summer for the winter-flowering plants. They are valuable for pot culture and for garden use. All Colors Mixed. Pkt. 6c; ½ oz. 30c.

MARGUERITE CARNATIONS MIXED—Ordinary strain. Pkt. 5c; ½ oz. 10c.

GREENHOUSE EVERBLOOMING CARNATIONS—This is the famous Carnation that is grown so extensively by florists for Cut Flowers. We are saved from our wonderful collection of Carnation Plants grown in our celebrated Forest City Greenhouses at Rockford, and is obtained by hand fertilization of the best and most varied colored flowers. Mixed Colors: Pkt. 10c.

(Centifolia listed as ‘GREENHOUSE GIANT-FLOWERING Carder Incurved. Fall. best famous Cut use."

CANDYTUFT
GIANT HYACINTH FLOWERED—Most desirable for cut-flower purposes, producing a very large elongated head of quite large, pure white flowers. The immense broad heads frequently measure six inches in length. Pkt. 6c; ½ oz. 35c.

ALL COLORS, MIXED—Pkt. 5c;

PERENNIAL (Sempervirens)—Unique for Cemetery work, being perfectly hardy white flowers. Pkt. 6c.

CANTERBURY BELLS—Well-known popular perennials, producing bell-shaped flowers of many colors; bloom very freely throughout the summer.

MEDIUM SINGLE MIXED—All colors: Pkt. 5c; ½ oz. 10c.

MEDIUM DOUBLE MIXED—All colors: Pkt. 6c; ½ oz. 20c.

CALTANLTHEM (Campanula)—The finest Campanulas. Mixed colors: Pkt. 6c; ½ oz. 25c.

CENTAUREA (New Marguerite)
The Most Fragrant and Longest Keeping Cut Flower. The flowers are the size of a medium Carnation, freely produced on long stems: colors mostly pure white. The flowers are sweet scented and their lasting quality after being cut is remarkable. From Spring sow seed they commence to flower in July. Pkt. 6c; ½ oz. 15c.

CENTAUREA (Dusty Miller)
Silver foliage plants used for edgings, etc.

CANDIDISSIMA—Broadly cut, silvery leaves. Pkt. 5c.

GYNNOCARPA—Finely cut, silvery leaves. Pkt. 5c.

BACHELORS BUTTON
Also known as “Corn Flower.”

BLUE EMPEROR—Single, dark blue, much in demand for cut flowers. Pkt. 1c; ½ oz. 10c.

SINGLE MIXED—Blue, white, rose, etc. Pkt. 5c; ½ oz. 10c.

DOUBLE BLUE—Largely grown by florists for buttonholes. Pkt. 5c; ½ oz. 25c.

DOUBLE FINE MIXED—Flowers are 80 per cent double and semi-double, with beautiful bright colors. Pkt. 5c; ½ oz. 15c.

CANDYTUFT Giant Hyacinth Flowered.

Candytuft Giant Hyacinth Flowered.
COCKSCOMBS (Celosia.)

**DWARF QUEEN**—This is the best dwarf growing Cockscomb; plants about 8 inches high, heads 10 to 12 inches across. Color varied. Pkt. 6c; 1/6 oz. 30c.

**OSTRICH PLUME**—A new Cockscomb which bears feathery plumes of bloom, more like ostrich feathers than pampas grass than anything else. Plumes are 1 to 2 feet in length, and of all colors from sulphur yellow to deep rich crimson. A plant in bloom is one of the very brightest and showiest of all garden annuals. All Colors Mixed. Pkt. 6c; 1/6 oz. 15c.

**CHRYZANTHEMUM**

BUCKBEE'S CHOICEST MIXED—Large flowering. Best suited for pot culture and cut flowers. Perennial. These are the famous Chrysanthemums that are grown so extensively by florists for cut flowers. Our seed is saved from our own wonderful collection of plants; of the best and most varied colored flowers. Sown in early spring they will flower in Fall. Buckbee's Choicest Mixture. Pkt. 10c.

**FRENCH MARGUERITE**—Annual. The plants grow 15 inches high and produce beautiful, large flowers of many bright colors. Single and Double Mixed. Pkt. 5c; 1/6 oz. 10c.

**BABY GOLDEN GLOW**—Annual. Two feet high; flowers early and profusely. Bright yellow double blossoms. Pkt. 5c.

**SNOWBALL**—Same as above, except pure white flowers. Pkt. 5c.

**CRAB'S-EYE VINE OR WEATHER PLANT**

This beautiful plant has, during the last few years, created a great sensation. If the leaves stand upward, the sky will be cloudless; if they stand out straight, changeable weather is indicated; when the leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by the curling together of the leaves.

Plants clusters of bright yellow flowers, followed by pods with brilliant red seeds used for making beads, etc.

Seeds should be soaked in lukewarm water before planting. Pkt. 9c.

**CINERARIA HYBRIDA**

One of the most popular house plants. Rich and vivid colors—blue and crimson shades. Some of the varieties have a well defined white eye, while the flowers are sharply margined with some rich contrasting color. Flowers 2 inches across. Large Flowering, Finest Mixed. Pkt. 10c.

**COLUMBINE OR AQUILEGIA**

One of the most of the early Summer perennials. Curious flowers, extremely graceful, and borne in great quantities high above the foliage, which itself is very beautiful and attractive. Extra fine for cutting. Double and single; all colors. Price Mixture. Pkt. 5c; 1/6 oz. 15c.

**COLEUS HYBRIDUS**

One of the best known and most universally admired ornamental foliage plants. EXTRA FINE MIXED HYBRIDS—Finest and showiest varieties. Pkt. 9c.

**COLEUS PLANTS**—See page 153.
CYPRESS VINE
A most beautiful climber with delicate dark green feathery foliage and an abundance of bright, star-shaped rose, scarlet and white blossoms. Tender annual. All colors, mixed. Pkt. 5c; 1/2 oz. 15c.

CHINESE LANTERN PLANTS
Plants numerous large inflated saucers, much the shape of Chinese lanterns, at first a beautiful green color, changing to a yellowish hue and then to brightest scarlet. Pkt. 5c.

CLARKIA ELEGANS
Beautiful, hardy annuals with rose, white and purple flowers in delicate shades. Double, mixed. Pkt. 5c; 1/2 oz. 10c.

COSMOS

GIANTS OF CALIFORNIA. This strain is noted both for beauty and the enormous size of its flowers, which measure 4 to 5 inches across. The colors are very varied and beautiful. Choicest mixed. Pkt. 5c; 1/2 oz. 15c.

NEW EARLY FLOWERING—Grace, faintness and brilliancy are the characteristics of this pretty flower, with its yellow heart, encircled with broad, daisy-like petals, carried on long slender stems, rising from a cloud of feathery foliage. Blooms from July to November. Superb mixed. Pkt. 6c; 1/2 oz. 15c.

BLONDYKE—Large golden-yellow flowers on long stems, and measure from 2 to 3 inches across. Larger than the above varieties, an seed should be planted early in a warm sunny place. Foliage graceful and attractive making this one of the most desirable of the Cosmos. Pkt. 5c.

NEW DOUBLE—A new hybrid strain. The flowers vary considerably in their degree of doubleness; some are absolutely double, others have a frill or collar surrounding the double disk, and others again are single, but all are very large and beautiful and are produced in great profusion in full. Pkt. 5c; 1/2 oz. 10c.

DIGITALIS—Fox Glove
Handsome and highly ornamental, hardy perennial plants of stately growth, succeeding under almost all conditions, and with but little attention will give a wealth of flowers during the Summer. If the spikes are cut as soon as they commence to fade, new shoots will keep the blossoms of flowers for a long time. Mammoth flowered mixed. Pkt. 5c; 1/2 oz. 15c.

CLEOME PUNGENS
(Giant Spider Plant)
A very showy annual, growing 3 to 4 feet high, with rose-colored flowers of peculiar and interesting shape, suggesting spiders. The long curving stamens give the flower its name. It is a plant that is in bloom every day of the season. Pkt. 5c; 1/2 oz. 10c.

CORN, Bark's Ornamental
Rainbow
A highly ornamental plant. Leaves striped crimson, yellow, cream, white, bronze, scarlet, red. Pkt. 5c.

CYCLAMEN
Charming plants with beautiful foliage and richly colored, fragrant flowers. Universal favorite for Winter and Spring blooming. The Giant varieties have large leaves and stouter flower stalks, throwing the flowers well above the foliage. Seed may be sown any time during the Spring or Autumn. Pkt. 10c. For Cyclamen Bulbs see page 1143.5c. Very large flowered mixed. Pkt. 10c. For more plants to garden see page 1270.

DORLAIAS PLANTS SEE PAGE 146
DIANTHUS PINKS

DIANTHUS PINKS—One of the most useful and desirable plants, and for beauty and variety of colors and markings cannot be surpassed. A bed of these in a flower garden will make a grand display at a small cost. Plants from seed grow and bloom very quickly.

ROCKFORD FAVORITE MIXED—Comprises over 15 of the choicest Chinese and Japanese varieties, and includes, besides the standard sorts, all the new and brightest colors in spotted, striped and randomly fringed varieties of late introduction, both single and double. This magnificent mixture contains the cream of the Dianthus family, and unexpected results may be obtained by planting a package. We cannot recommend this mixture too highly. Pkt. 6¢; ½ oz. 25¢.

DOUBLE ROYAL PINKS—The flowers range in color from blood-red to pure white, and are beautifully frilled and fringed. The enormous blooms are especially adapted for cutting, the stems being long. Mixed colors, Pkt. 6¢; ½ oz. 25¢.

MIXED CHINA OR INDIA PINKS—Our mixture includes all the best colors and shades. Double mixed. Pkt. 5¢; ½ oz. 10¢.

DOUBLE FIREBALL—A beautiful, very dwarf and compact growing pink, only 10 to 15 inches in height. Flowers are perfectly double and color a rich velvety blood red. Effective for garden beds or pot culture and as cut flowers. Pkt. 6¢; ½ oz. 25¢.

DOUBLE SNOWBALL—This dwarf Dianthus belongs with Double Fireball, and is equally beautiful, differing only in being pure white instead of the red. It has all the striking qualities of that sort, and is equally hardy and desirable. Pkt. 5¢; ½ oz. 25¢.

MOURNING CLOAK—A magnificent new variety with very double flowers, almost black; petals margined pure white. Pkt. 5¢; ½ oz. 20¢.

DIANTHUS PINKS

ROCKFORD FAVORITE MIXED

FRINGED AND RUFFLED (Laciniatus Mirabilis)—Petal's are deeply cut into fine strips of thread-like fringes for about half their length, and are twisted in all directions, presenting a novel aspect. In color they vary greatly, having all shades from pure white to deep pinkish-red and rose zones. Single mixed colors. Pkt. 5¢; ½ oz. 25¢.

HARDY GRASS PINKS (Pheasant’s Eye Pink)—Single—The old reliable favorite. Fringed edge, white flowers with dark centers. Delightfully clove scented. Pkt. 5¢; ½ oz. 15¢.

DOUBLE CLOVE PINKS (Plumaris flore pleno)—Double and semi-double varieties. Good range of colors, having a strong clove fragrance. Pkt. 6¢; ½ oz. 40¢.

DAISY (Bellis) DOUBLE

Daisies are easily grown from Spring sown seed and come into flower in a very short time.

LONGFELLOW—Double, dark red rose. Pkt. 5¢.

MAMMOTH WHITE—Double, purest white. Pkt. 5¢.

DOUBLE QUILLED MIXED—A new strain. Pkt. 5¢.

MAMMOTH OR GIANT MIXED—Finest offered. Pkt. 6¢; ½ oz. 40¢.

IMPERIAL DOUBLE—Good mixture. Pkt. 5¢; ½ oz. 40¢.

BLUE DAISY

(Agatha Coelestis.)

A beautiful bedding plant and an excellent indoor bloomer. The flowers are the very counterpart of the Paris Daisy, but sky blue with a yellow disc. Of easy growth, produces flowers all the year. Pkt. 8¢.

AFRICAN DAISY

(Dimorphotheca.)

AFRANICA—Rare and extremely showy annual from South Africa, destined to become a great favorite on account of its easy culture and its beautiful flowers. The single Daisy-like blossoms ½ to 1½ inches in diameter, are of a unique shade of glossy terra cotta orange, which brilliant coloring is rendered the more conspicuous by the dark colored disc surrounded by a black zone. Pkt. 6¢.

AFRANICA HYBRIDS—Brilliant flowers in great diversity of colors, mostly shades of white, yellow and red. Pkt. 10¢.

DIAMOND FLOWER

Dainty little annual with tiny foliage and beautiful little white and violet flowers. Blooms in a month from seed.

Pkt. 5¢; ½ oz. 40¢.

ESCHSCHOLTZIA

(California Poppy.)

Hardy annual, growing about one foot high, bearing a profusion of rich colored flowers about 2 inches in diameter; valuable for garden ornamentation and easily grown.

GOLDEN WEST—Bright yellow and orange. Pkt. 5¢; ½ oz. 15¢.

SINGLE AND DOUBLE, Mixed Colors. Pkt. 5¢; ½ oz. 10¢.

EVENING PRIMROSE

(Nonenthera.)

Large, saucer-like flowers of pure white and soft yellow. Very fragrant. Pkt. 5¢.

FAIRY OR BABY ROSE

Roses from Seed the First Year.

The plants bloom in three months after sowing, so that seed sown in February in the house may be had in bloom in June in open ground, where they continue to bloom throughout the season, single, semi-double and double flowers. Pkt. 6¢; ½ oz. 20¢.

EUPHORBIA

VARIEGATED (Snow on the Mountain)—Attractive foliage, veined and margined with white; 2 feet. Pkt. 5¢.

HETEROPHYLLA (Mexican Fire Plant)—An annual resembling the beautiful hot-house Poinsettia; 2 to 3 feet high, of bush-like form, with smooth, glossy-green leaves, which in Summer turn an orange-scarlet. Pkt. 8¢.

CHINESE STRAWBERRY

(Exaraxis—India.)

A Beautiful Basket Plant.

Hardy perennial creeper from Indo-China, with yellow blossoms and beautiful small scarlet fruit. Pkt. 8¢.
FORGET-ME-NOT (Myosotis)
QUICKBLOOMING—This type may be treated as annuals and be sown at any time of the year, beginning to flower in from 8 to 14 weeks time. The plants are of round, bushy form, 5 to 7 inches high, and when fully grown are perfectly covered with clusters of exquisite blue flowers. Valuable for winter flowering in pots, as well as for garden beds and edgings. Pkt. 6¢; ½ oz. 35¢.

VICTORIA—This is the finest variety of the beautiful old favorite Forget-Me-Not. Makes low bushy plants 2 to 3 inches high and the same in width, and bears a profusion of lovely azure blue flowers. Fine for edging and also for growing in pots and for cutting. Pkt. 5¢; ½ oz. 25¢.

SEMIPERENNIAL—A hardy perennial. Large, clear blue flowers in pretty sprays. Everblooming, in flower from May until frost. Pkt. 10¢.

Feverfew
WHITE GEM—A fine, old-fashioned bedding plant; also suitable for pot culture. It grows about 18 inches high with numerous branching flower stems which are literally covered with very double, pure white flowers an inch in diameter. Pkt. 6¢; ½ oz. 25¢.

GOLDEN FLEECE—Especially adapted for edging, as the foliage is beautifully serrated. Flowers very double of a rich golden color. Pkt. 5¢; ½ oz. 20¢.

GIANT GHOST FLOWERS
Is often called Wedding Bells. Blooms always. Fine for house culture and outdoors. The flowers are drooping, bell-shaped, over a foot long, 9 inches wide, of creamy white color and very fragrant. Pkt. 6¢; ½ oz. 25¢.

GERANIUMS
They will bloom from seed in four to five months, and will frequently reward the cultivator with charming new varieties; in fact, propagation by seed is the only sure way to attain new varieties.

CALIFORNIA GIANTS—Seed saved from the finest double, semi-double and single varieties of the most gorgeous and brilliant colors. All shades of scarlet and crimson, rose, pink, salmon, fuschia, veined, pink, blush, snowy white, and all new auricle types. Pkt. 10¢.

APPLE SCENTED—The old-fashioned favorite apple-scented Geraniums. Pkt. 8¢.

ZONALE—Mixed—A superb strain. Pkt. 7¢.

LADY WASHINGTON—These are the well-known richly colored show Pelargoniums. Our mixture includes all the best varieties. Pkt. 15¢.

If You Are a Florist or grow flowers for sale, you should have our Special Florists’ Price List. We supply many of the leading Florists’ and cater to the most critical trade. Send your name and address, today; a copy will be sent free.

Plants
We have a splendid line of Pelargoniums and Zonal Pelargonium Plants on pages 150-157.

Forget-Me-Not, Quick Blooming.

Four O’Clock or Marvel of Peru.

FOUR O’CLOCK (Marvel of Peru.)
No flower makes a prettier border than the old-fashioned Four O’Clock. It is one of the most brilliant and showy plants that can be grown. Finest mixed. Pkt. 5¢; oz. 15¢.

Feverfew
Fuchsia

NEW FRAGRANT TREE FERN
(Artemisia)
This new ornamental foliage plant introduced from China is an annual, and owing to its fast growth reaches its full size during the year of sowing. It forms grand pyramidal bushes of 3 to 5 feet high. As a solitary plant it looks like a nicely grown-out Christmas tree. Also as pot plant it is very pretty, and may also be successfully grown in groups and borders. The color is a rich dark green. Pkt. 5¢.

Geum
(Mrs. Bradshaw)

Ornamental Gourds
Tender annual climbers of rapid growth, vines often growing 20 to 50 feet long. They have luxuriant foliage and are immune from insects. Fruits curiously shaped in various colors and peculiarly marked. Forms may be wonderfully varied by tying strings around the young fruit or by enclosing same in a curved mold while growing. Many of these fruits keep for years, being very hard shelled. Mixed. Pkt. 5¢; oz. 15¢.

Gaillardias
ANNUAL VARIETIES—Graecly admired for their fine forms and rich blending of colors, the gay colored flowers being abundantly produced from July until frost, while they thrive anywhere. Single and double mixed. Pkt. 5¢; ½ oz. 15¢.

PERENNIAL—Grandiflora Hybrids—One of the showiest hardy plants. Growing about 2 feet high and succeeding in any soil in a sunny position, beginning to flower in June, then continuing the entire season. The flowers are of gorgeous coloring. The center is dark red brown, while the petals are marked with rings of brilliant crimson, orange and vermilion, and often a combination of all in one flower. Excellent for cutting. Pkt. 6¢; ½ oz. 15¢.

Ornamental Gourds
GLOXINIA

Lovely Summer-blooming pot plants. They flower profusely and have gorgeous color. Many are magnificently spotted and mottled. Easily grown. Blooms in four to five months from time seed is sown.

Hybrid finest mixed. Pkt. 10c.

HYACINTH BEAN (Dolichos)

A showy annual climber, grows luxuriantly about 10 feet high, branching out well from the bottom, and is clothed with dense, insect-proof foliage. The Sweet Pea-like white and purple blossoms are borne in long, Wisteria-like clusters, often a foot in length, which are followed by exceedingly ornamental seed pods. Finest mixed. Pkt. 5c; ½ oz. 10c.

HOLLYHOCK

Unexcelled Double Strains

Nothing is more beautiful than a background of stately double Hollyhocks. Our named colors can be depended upon to come true, while our Mixtures we believe to be the finest in the land.

DOUBLE WHITE—Clear, pure white. Pkt. 10c; ½ oz. 25c.

DOUBLE MAGENTA—Fine bright purple. Pkt. 7c; ½ oz. 25c.

DOUBLE ROSE—Rich solid color. Pkt. 7c; ½ oz. 25c.

DOUBLE SCARLET—Intense blood red. Pkt. 7c; ½ oz. 25c.

DOUBLE LEMON—True lemon yellow. Pkt. 7c; ½ oz. 25c.

PRIZE DOUBLE MIXED—Perennial—The perfect doubleness and large size of this magnificent flower will please the most critical. The seed has been saved from our own unrivaled collection of plants. All colors mixed. Pkt. 5c; ½ oz. 20c.

DOUBLE ALLEGHENY—Perennial—Rich colors, fringed petals. Pkt. 5c; ½ oz. 25c.

NEW ANNUAL EVERBLOOMING HYACINTH—The perennial varieties do not bloom until the second year, if grown from seed; these annual kinds, however, bloom the first year, and if sown in the open ground in May, they will be in flower in August, but if started indoors and set out in May, they will bloom in July. They are continuously covered till frost with large flowers—some semi-double, but mostly densely double with fringed petals, and all are unusually large, often measuring 6 inches across. Double mixed. Pkt. 6c; ½ oz. 25c.

HIBISCUS

HARDY HYBRIDS—A fast-growing perennial, fine for clumps. Enormous flowers—as large as tea-saucers—white, pink, purple, or red, and deep pink, rose, etc. Plants from Spring sown seed will bloom in September. Mixed colors. Pkt. 5c; ½ oz. 20c.

NEW GIANT FLOWERING RAINBOW—The most striking introduction of hardy plants for many years. Grows about 6 feet high, producing huge blossoms in many shades of pink, rose, brick red, and also white. They bloom from July until frost. Perfectly hardy and grow anywhere. If sown early, will bloom the first season. Mixed colors. Pkt. 10c; ½ oz. 45c.

LANTANA

Well known shrubbery plants with clusters of Verbena-like flowers, and producing their pink, yellow, orange and white heads in great abundance. They have an agreeable aromatic perfume. Hybrid finest mixed. Pkt. 5c; ½ oz. 15c.
LARKSPUR—DELPHINIUM

NEW DOUBLE HYBRIDS (Hardy Perennial)—Produce beautiful spikes of immense flowers, semi-double and double, from 2 to 3 feet in length. The colors are very beautiful, ranging from rose white through all the shades of lavender and blue, to deep purple. Mixed colors. Pkt. 6c; ½ oz. 15c.

CARDBINAL—True cardinal red color. One of the finest of the perennial Delphiniums. Pkt. 10c; ½ oz. 30c.

CHINESE BLUE BUTTERFLY—A pleasing blue. A fine perennial with the graceful foliage of the annuals. Pkt. 8c; ¼ oz. 40c.

DWARF DOUBLE GIANT HYACINTH (Annual)—Our strain of Giant Hyacinth is a vast improvement over the old varieties, more flowers being double and all of them much larger and finer colors. They make handsome beds and borders and are of exceptional value for cutting purposes. Sown in the open ground early in Spring, plants will be in bloom at the beginning of July. Mixed. Pkt. 5c; ½ oz. 10c.

LINARI—Annual

MARCIANA EXCELSIOR HYBRIDS—Hardy annual plants, 15 inches high and producing beautiful flowers resembling small Snapdragons. They are very desirable for bedding, bouquets and table decoration and are of the easiest culture. The flowers are produced on long stems. The flowers are wide open, ¾ inches across, mostly of violet and light purple shades, each has a white tip with a yellow blotch, which gives a vivid light tone and makes it very pretty. Our mixture is very beautiful and effective. Pkt. 10c.

LINARIA, KENILWORTH IVY

A very pretty hardy perennial trailing plant for covering rock work, and very useful for hanging baskets. The flowers are small but pretty. It is easily grown from seed. Pkt. 5c; ½ oz. 30c.

LOBELIA

FINEST MIXED—A beautiful dwarf-growing plant with delicate little blue and white flowers for borders and vases. About 4 inches high. They are among the few plants that will grow in a shady situation. Pkt. 5c; ½ oz. 15c.

CRYSTAL PALACE

COMPACTA—Dark blue flowers, dark foliage, compact, erect growth. Pkt. 10c; ½ oz. 40c.

CARDINALIS (Cardinal Flowers)—A beautiful hardy perennial of striking appearance, unrivaled for permanent beds and borders. Will thrive in the shade. Three feet high, with large spikes of brilliant scarlet flowers, 1½ to 1¾ inches long, keeping the plant afloat throughout the season. Pkt. 15c.

MONARDA DIDYMA

(Oswego Tea)—A hardy perennial. Bushy plants 3 feet high, covered with masses of vivid scarlet flower heads with petals similar to Cactus Dahlias. It is called Oswego Tea. Mint, etc., on account of the delicious fragrance of the leaves when crushed. Grown anywhere in any soil and in any position, and spreads rapidly. Blooms the second year from seed. Much used in beds around a flag pole on the lawn with blue Cornflower and white, the Cornflower around your garden pays its tribute to your country colors, too. Pkt. 10c.

MARIGOLD

LEMON BALL—The extra large flowers are perfectly rounded—of nearly ball-like form; the color is a clear canary-yellow; the brightness of coloring and perfection of form make them resemble large double Yellow Dahlias, originally produced so much more abundantly and for a longer season. Pkt. 6c; ½ oz. 15c.

ELDORADO—The flowers are from 2 to 4 inches in diameter, imbricated and perfectly double. They embrace four shades of color—the lightest primrose, lemon, golden yellow, and deep orange. Pkt. 6c; ½ oz. 10c.

TALL AFRICAN, DOUBLE MIXED—Very early, profuse bloomers. Pkt. 5c; ½ oz. 10c.

DWARF AFRICAN, DOUBLE MIXED—Pride of the Garden—Compact habit, 1½ inches high with immense double, yellow and orange flowers. Pkt. 5c; ½ oz. 10c.

FRENCH DOUBLE MIXED—A class of showy and extremely effective plants. Fine double flowers of rich and beautiful colors. Pkt. 5c; ½ oz. 10c.

LEGION OF HONOR—A beautiful single dwarf bushy variety bearing rich, golden yellow flowers with garnet blotches in the center of each petal. Pkt. 5c; ½ oz. 10c.
Buckbee's Everblooming Mignonette

BUCKBEE'S ROCKFORD—FINEST MIXED

The finest Mignonette Mixture ever blended. It includes all the well-known sorts, together with many new Hybrids. No garden is complete without this mixture. sow in early spring and again in July to keep up a succession of flowers till frost. When grown under favorable conditions spikes will not only be of remarkable size, but deliciously fragrant. The individual florets are of immense size, forming a graceful as well as compact spike. of extraordinary keeping qualities, retaining their grace and fragrance until every bud opens. Pkt. 5c; ½ oz. 15c; oz. 25c.

IMPROVED GOLDEN QUEEN
Golden-yellow flowers; very sweet and fragrant. Pkt. 5c; ½ oz. 10c.

MILES' GIANT WHITE SPIRAL
Very showy; fragrant blossoms. Pkt. 5c; ½ oz. 15c.

NEW GIANT RED FLOWERED
Intense red, very sweet-scented. There is no Mignonette except Red Goliath which can equal this. Its flowers are larger in every way than those of other sorts, the spikes are very dense, its foliage is distinct, being crinkly, while its odor is strong and most delicious. Pkt. 5c; ½ oz. 15c.

SWEET FLOWERED
The old favorite Sweet Mignonette with small spikes, but very sweetly scented. Pkt. 5c; ½ oz. 15c.

RED GOLIATH
The grandest Mignonette ever introduced. Remarkable for color, size, fragrance and profusion of bloom. The plants are of strong yet compact growth with rich green foliage. The giant flower spikes are borne on erect, strong stalks, and measure from 6 to 8 inches in length, by 2½ inches in diameter. The individual florets are of an immense size, forming a graceful as well as compact spike which is of a fire-red shade, surpassing all other Varieties in brilliancy of color. The fragrance is rich and powerful and the keeping qualities are remarkable. The flowers remaining fresh in water for 8 to 10 days. Pkt. 10c; ½ oz. 25c.

MOONFLOWER

NEW CROSS-BRED OR HYBRID VARIETY
—Of great value for the North, as it is in full bloom one month before the White Seeded, will grow 30 to 40 feet in a single season. Its flowers are 4 to 5 inches across, very numerous, are open every evening and on cloudy days. Pkt. 5c; ½ oz. 25c.

NEW IVY LEAVED (Day Blooming)—A new Moonflower which opens its blossoms early in the morning (instead of evening), and remains open nearly all day. Flowers pink or creamy white; leaves ivy-shaped. Pkt. 5c.

WHITE SEEDED—This is the variety most generally grown, being larger in flower and of sweeter odor than the Black Seeded variety. Pkt. 5c; ½ oz. 20c.

MAURANDIA
(Climber.)

Elegant twining, climbing plants, with handsome, graceful foliage and flowers. Particularly adapted for hanging baskets, vases and light trellises. A half-hardy perennial, flowering in July from Spring-sown seed and continuing till frost. If desired for Winter culture in the house, take up before frost. Mixed colors, blue, mauve and white. Pkt. 5c; ½ oz. 35c.

MONKEY FLOWER

MIMULUS TIGNRINUS—Tender little plants about one foot high, producing in great profusion very showy, large, Gloxinia-like flowers, brilliantly colored, blotched and striped in every conceivable manner and ranging in colors through white, yellow, rose, crimson and maroon. Excellent for house culture, baskets and vases, and also have a brilliant effect in beds and borders. They thrive in shady and moist situations. Mixed. Pkt. 10c.

MUSK PLANT

MIMULUS MOSCHATUS—A well-known and favorite plant, both for outside borders and for pot culture. Cultivated in gardens as one of the most fragrant of the flowering plants. Pkt. 10c; ½ oz. 35c.
MORNING GLORY

NEW IMPERIAL OR GIANT JAPANESE

The flowers are of gigantic size and the colorings and markings beyond description ranging from snow-white to black, purple, with all the possible intermediate shades, such as pink, rose, fleshy red, copper red, carmine, crimson, pale blue, deep blue, royal purple, maroon, bronze, indigo, slate, brown, cherry and ash gray. Others are edged with white, having throats of one of the above colors; there is also an endless number of flowers spotted, marbled, striped, flaked and splashed. Cheapest mixed. Pkt. 6c; oz. 15c; 2 oz. 30c; ½ lb. 55c.

IMPROVED TALL OR CLIMBING

Most popular climber in cultivation. Of rapid growth. Our seed is selected from the best varieties only and is a great improvement over the old sorts. Select mixed. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 55c.

DWARF MORNING GLORY

The wonder of the age as a Winter house-blooming variety. Flowers richly colored. Mixed. Pkt. 5c; oz. 15c.

NEW FUCHSIA-FLowered—TALL

The vines or shoots are gracefully slender, but very numerous and most densely set with five-fingered deep green leaves, growing very rapidly. Bear pretty, light rosy-pink flowers. Finest mixed. Pkt. 8c.

BUCKBEE'S NEW DOUBLE—TALL

This Double Morning Glory will be greeted as a welcome addition to this class of plants. It is of rapid growth, producing its large double flowers very freely. They are of beautiful form and coloring. Mixed. Pkt. 10c.

---

New Imperial, or Giant Japanese Morning Glory.

Nigella (Love-in-a-Mist)

DAMASCENA

A popular old-fashioned flower; free flowering with finely cut foliage surrounding the curious looking flowers and seed pods. Mixed. Pkt. 5c; ½ oz. 15c.

MISS JEKYLL BLUE—An improved large flowering variety of the above with double cornflower blue blossoms. Pkt. 6c; ¼ oz. 20c.

MISS JEKYLL WHITE—A counterpart of the blue with pure white flowers. Pkt. 8c; ¼ oz. 25c.

---

Nigella (Love-in-a-Mist).

Nicotiana

Sweet Scented Tobacco Plant

AFFINIS—Handsome and well-known hardy annuals that grow easily from seed, forming compact bushes about 3 feet high which are in continuous bloom throughout the season. Their blooms are tube-shaped, pure white, very sweet-scented and desirable as cut flowers. Pkt. 5c; ½ oz. 15c.

AFFINIS HYBRIDS—Similar to the Affinis, but the flowers are larger. Colors, white, purple, red, salmon, pink, violet, etc. Very showy; bloom profusely all Summer and Fall. Mixed colors. Pkt. 6c; ¼ oz. 25c.

---

Nicotiana (Sweet-Scented Tobacco Plant).

Nolana

Beautiful trailing plant, fine for growing in masses and unsurpassed for baskets, pots, vases or rock work. Flower is similar in shape to the Morning Glory. Fine Mixed. Pkt. 5c; ¼ oz. 10c.
Buckbee's Tall Giant Flowering Mixed

A wonderful diversity of rich colors and new and striking combinations are found in this unequaled mixture. A row in full bloom is truly gorgeous beyond description, containing as it does every shade and tint of yellow, rose, scarlet, carmine, orange, lemon, bronze, violet, purple, maroon, ruby, cream and pink, both in solid colors and mottled and striped in many showy and exquisite ways. Pkt. 6c; oz. 10c; ½ lb. 30c; lb. $1.40.

Tall Selected Mixed

This mixture is a most beautiful assortment of rich and brilliant colors and is surpassed only by Buckbee's Giant Flowering Mixed. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. 95c.

Hybrids of Madame Gunter

A most beautiful dark-leaved strain of climbing varieties, flowering profusely and having a wide range of bright and distinct colorings. Pkt. 5c; oz. 10c; ½ lb. 35c.

New Tall "Ivy-Leaved"

The plants are of running growth, but have the same foliage and flowers as the Dwarf "Ivy-Leaved" varieties. Pkt. 6c; ½ oz. 20c.

New "Ivy-Leaved" Dwarf Mixed

A new class, with thick, green lobed leaves resembling those of the English Ivy. The flowers, which are borne in the greatest abundance throughout the season, are of medium size, and peculiarly cut and fringed, giving them an airy butterfly effect. Pkt. 6c; ½ oz. 20c.

New Tall Variegated Leaved

The leaves are so beautifully variegated with yellow, white and green that the plants would be worthy of culture for the foliage alone. The flowers are of the same size, form and colors as the regular tall Nasturtiums. Superb Mixed. Pkt. 6c; ½ oz. 20c.

New Dwarf Variegated Leaved

The very best of the variegated leaved Nasturtiums. The leaves are marked with white, green and yellow and contrast nicely with the large showy flowers which are of all colors. Pkt. 6c; ½ oz. 20c.

Buckbee's Giant Flowering Dwarf Mixed

These grand New Bedding Nasturtiums are brilliant in the extreme. They produce in wonderful abundance large flowers of the most gorgeous hues. The colors are very intense, making a sharp diversity of color not to be found in common mixtures. The plants are strong and vigorous, growing very quickly and producing erect, symmetrical bushes, with foliage from light green to deep blue green. Pkt. 6c; oz. 10c; ½ lb. 35c; lb. $1.50.

Dwarf Fine Mixed

A first-class mixture from selected colors that harmonize beautifully. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. 95c.

Lilliput or Miniature Mixed

Very beautiful varieties smaller in growth, leaf and flower than the other dwarf sorts, forming dwarf compact bushes, 8 to 10 inches high, fairly hidden throughout the season by flowers of a great variety of brilliant colors. Pkt. 6c; oz. 25c.
Pansies are a universal favorite with young and old and, aside from their great beauty, we all treasure them as the symbol of modest worth and true affection. The smallest yard must have its Pansies. Not poor, forlorn plants, struggling with heat and drought and hard baked ground, though even there, yielding us handfuls of cheery bloom; but, rather, strong, vigorous plants, riotous in the cool, deep, mellow beds they love, made rich with fertilizers, kept free from weeds, and shaded from the hot afternoon sun. In such a bed one may gather great, velvety Pansies by the handfuls—flowers so radiantly beautiful that they scarcely seem of the earth. Pansies are now produced in an almost infinite variety of colors and markings. Their brilliancy of shading, extended season of blooming and long-keeping characteristics make them general favorites. We have been interested in the bringing forward of advanced types of large varieties in this country as well as in Europe, and our stocks are the very best obtainable. We spare neither pains nor expense to satisfy the most critical trade. Poor Pansy seed is dear at any price. Ours is saved with great care and is the best.

**Buckbee’s Mammoth Sunrise Mixture**

This splendid mixture is a blended combination of mammoth flowering Pansies. It contains all colors and will prove a delightful surprise in regard to the great size and rich and varied colorings of its flowers. Very popular. Pkt. 10c; ½ oz. 75c.

**Buckbee’s Mammoth Jubilee Mixture**

Our new fiftieth anniversary selection, of new and wonderful varieties. Shades and markings never before seen in a Pansy. All are large size, and many are exquisitely curled. Large pkt. 15c; 2 pkts. 25c; ½ oz. 95c.

**Buckbee’s Sweet Scented Mixture**

The Perfume of the Violet. The Beauty of the Pansy.

This new class is the result of crossing the Pansy with the Sweet Violet; the resulting hybrids, in addition to retaining the delightful Violet perfume, produce the most beautiful Pansy-like blossoms, 2 to 2½ inches across, of great substance and of an endless variety of colors. Mixed. Pkt. 8c; ½ oz. 60c.

**Orchid—Flowered**

All the delicate shades and tints of the orchids may be found in these charmingly pretty favorites. Rose, orange, pink, lilac, terra cotta, chamomile and other exquisite shades. Orchid-flowered Pansies are not as large as some of our giant strains, but they will appeal by their exquisite coloring and the elegant shape of their flowers. Pkt. 8c; ½ oz. 95c.

**Buckbee’s Collection of Giant Pansies**—1 Pkt. each of the above 10 sorts for 75c.
BUCKBEE'S "FULL OF LIFE" PANSIES

BUCKBEE'S GIANT FLOWERING MIXED
In this magnificent mixture of giant flowering Pansies, the colorings are wonderfully rich and varied; every shade and tint of rose, canary-yellow, black, white, cream, lavender, garnet, sky-blue and orange are produced in endless variations and striking combinations, while others have silvery grounds, heavily blotched at the base of each petal with a dark, rich shade. The enormous flowers are of thick, velvety texture, perfect form, and borne on long stems well above the foliage. The compact, rounded plants are of sturdy habit and deep rooted, so that they bear the gigantic flowers profusely and continuously. Pkt. 10c; 3/4 oz. $1.00; oz. $7.00.

BUCKBEE'S WORLD'S FAIR PRIZE MIXED
This mixture was awarded Grand Prize Medal at the World's Fair. It is an exceedingly fine mixture, producing flowers of rare beauty in both colorings and markings. Pkt. 6c; 3/4 oz. 55c.

IMPERIAL SPLENDID MIXED
Much used for bedding. The flowers, while not giants, are very large, of fine form, and of a wonderful variety of colors, this mixture embracing over fifty varieties. Pkt. 5c; 3/4 oz. 40c.

GIANT MADAME PERRET
A superb new strain; large flowers and beautiful colors, blossoms ranging through all the shades of red, from a pink to a fine, deep purple, with an intermediate bright red, edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped. The extraordinary size of the flowers, which reach as much as 2 to 2½ inches in diameter, makes it a novelty of the first rank. Pkt. 7c; ¾ oz. 65c.

GIANT "MASTERPIECE"
This magnificent Pansy comes nearer to double Pansies than anything ever introduced under that name, the border of every petal being conspicuously crimped and curled in such a fashion that the flowers appear double. The color combinations and variations are very odd and striking, and contain some very lovely tints that cannot be found in any other strain of Pansies. Pkt. 15c; 2 for 25c.

BUCKBEE'S BEDDING PANSIES IN SEPARATE COLORS
These are very early and free flowering, and of good size.

EMPEROR FREDERICK—Velvety brown, shaded into a narrow band of deep golden yellow, which borders each petal. Pkt. 6c.

EMPEROR WILLIAM—The flowers are of the true ultramarine blue color, with well defined violet purple eye. Pkt. 6c.

FAUST or KING OF THE BLACKS—Almost coal-black. Pkt. 6c.

FIRE KING—Lower petals with large blotch of deep brown-red, margined yellow; upper petals fiery red-brown. Pkt. 7c.

LORD BEACONSFIELD—Deep purple-violet, shading to white on the upper petals. Pkt. 6c.

NEW RED MIXED—A mixture of all the best red and fiery shades which have been produced up to date. Pkt. 6c.

PEACOCK—Upper petals ultramarine blue; lower, deep claret with white margin. Pkt. 6c.

PURE WHITE—Pure white, without blotches. Pkt. 6c.

ROSY MORNING—Purplish white, without blotches. Pkt. 6c.

YELLOW GEM—Pure yellow, without edge. Pkt. 6c.

BUCKBEE'S COLLECTION OF BEDDING PANSIES—1 PKT. EACH OF THE ABOVE 10 KINDS FOR 55c.
Buckbee’s Mammoth Prize Mixed Phlox
The Finest Mixture Ever Offered

New Double

Double Phlox are most desirable annuals for cut flowers, lasting longer than single ones. We have secured a particularly fine strain from France, which has a large percentage of pure white and cream color and is perfectly double and semi-double. The white is especially valuable as a cut flower. The semi-double flowers are fully as desirable as the doubles; in fact, many claim they are even prettier. This Phlox is not rivaled among garden flowers in brilliancy of bloom. They are strong growing, healthy plants, with pretty foliage, and belong in every garden, being one of the most brilliant and at the same time one of the earliest and most satisfactory plants, which can be readily grown from seed. The fine blooms, produced in large trusses, furnish a grand display in the garden and are very effective for table decoration. We are sure our customers will be greatly pleased with them. Select Mixed. Pkt. 5c; ½ oz. 50c.

Finest Mixed

Contains in splendid blend many varieties. Invaluable for bedding and cut-flower purposes. Pkt. 5c; ½ oz. 15c.

Starred and Fringed

In the fringed flowers the petals are fimbriate, three-toothed, of a great variety of magnificent velvety colors with a bright eye in the center and a white border. In the Starred Phloxes the central teeth of the petals are five or seven times the size of the lateral ones, and projecting beyond them like little spines, give the flowers a distinctively star-like form. All colors mixed. Pkt. 5c; ½ oz. 25c.

Cecily, New Dwarf, Compact, Large Flowering

A lovely strain with immense flowers. The plants grow erect, only 6 to 8 inches high. For bedding alone, or as borders in beds with taller varieties, it is one of the most brilliantly effective annual flowers. A choice mixture of countless shades. Pkt. 6c; ½ oz. 50c.

Portulaca or Moss Rose

DOUBLE GIANT FLOWERED
MIXED—One of the most showy and beautiful annuals with abundant highly colored flowers. For baskets, beds, masses or edging. It is invaluable. Pkt. 6c; ½ oz. 50c.

SINGLE MIXED—A great variety of colors. Mixed. Pkt. 5c; ½ oz. 15c.

Hardy or Perennial Phlox

Hardy or Perennial (For Plants, See Page 169)

The great rich heads of flower masses are simply magnificent. The most admired sorts and the best bloomers. Mixed. Pkt. 10c.
BUCKBEE'S NEW DOUBLE FANCY FRINGED
A mixture of the best large flowering and Fringed Double Petunias. It embraces a wide range of colors and shows finer combinations than we have ever heretofore found in any double Petunia, including delicate mauve, porcelain blue, white, garnet and violet shades. This carefully hybridized seed will yield a larger percentage of double flowers than any other Petunia in cultivation. Mixed. Pkt. 10c.

HYBRIDA—Single Mixed
A splendid mixture, embracing all colors, including striped and blotched varieties. Are excellent for bedding or massing, remaining in bloom the entire summer. Pkt. 5c; ½ oz. 35c.

DWARF—Single Mixed
Neat, compact growing erect bushes about 8 inches high, covered with a multitude of flowers all season. Valuable for edging and pots. Pkt. 10c.

GRANDIFLORA—Single Large Flowering
One of the richest colored mixtures in cultivation, beautifully veined with various shades of purple, rose, lavender, yellow and crimson. Mixed. Pkt. 8c.

BUCKBEE'S GIANT SINGLE PETUNIAS

ROSY MORN—One of the prettiest soft carmine-pink with white throat. Very fine for beds or porch boxes. Pkt. 8c; ½ oz. 40c.

HOWARDS STAR—Color is an old rose with well defined white star-like stripes. Pkt. 8c; ½ oz. 40c.

SNOWBALL—Dwarf and compact plant. Blooms profusely the entire season. Flowers pure satiny white. Pkt. 8c; ½ oz. 40c.

STRIPE—Flowers not quite as large as above, but all are beautifully striped and blotched. Pkt. 8c; ½ oz. 10c.

Petunia Plants—See Page 161.

BUCKBEE'S "FULL OF LIFE" POPPIES
Although the Poppy may be termed by some an old fashioned flower, it is as indispensable today as it was in our Grandmother's garden. Innumerable flowers of the brightest and most varied colors with their graceful, feathery foliage makes this one of the most desirable of our easily grown annuals.

BURBANK'S SANTA ROSA GIANT SHIRLEY
A great advance in single-flowering annual Poppies. The flowers are immense, often measuring 2 to 4 inches across, the petals are fluted and crinkled and in the sunlight appear like rumpled satin. Bloom in continuous succession for weeks. Flowers white, white-veined pink, white-splashed crimson, rose banded with white, salmon, carmine, blush, scarlet, and many splashed, striped, spotted and edged, etc. Pkt. 5c; ½ oz. 15c.

BUCKBEE'S GIANT GRANDEST DOUBLE MIXED
A dazzling mixture of beautiful double Poppies, giant-flowering kinds of the richest and brightest colors, as well as the daintiest and softest tints. Pkt. 5c; ½ oz. 15c; oz. 25c.

PAEONY FLOWERED
Large, showy double globular flowers. Fine Mixed. Pkt. 5c; oz. 15c.

ICELAND
Hardy perennials, bloom the first year from seed. Brilliant flowers. Mixed Colors. Pkt. 5c; ½ oz. 25c.

ORIENTAL HYBRIDS
Hardy perennials with enormous gorgeous flowers. Mixed Colors. Pkt. 8c; ½ oz. 30c.

POPPY PLANTS—See Page 171.

Double Fancy Fringed Petunias.
Pyrethrum

HYBRIDUM GRANDIFLORUM, Single—Large, bright and showy, daisy-like flowers ranging in colors from white, light pink, to deep red, with bright yellow centers, bloom in spring and again in fall. The flowers are invaluable for cut flowers, being borne on long stems and lasting a long time. The foliage is most elegant in its finely cut, fern-like form and fresh deep green color and is attractive at all times. Nothing surpasses these Pyrethrum for profusion of flowers during the season, and being so simply and easily cultivated, they ought to have a place in every garden whether large or small; height 2 feet. Hardy perennial. Mixed. Pkt. 10c.

HYBRIDUM DOUBLE—Hardy perennial; large double, beautiful flowers, resembling a refined China Aster. Height 1½ feet. Pkt. 20c.

Penstemon

A most showy perennial; as a bedding plant takes rank with the Petunia, Phlox, etc. Colors, rose, red, crimson, cherry, pink, lilac, purple, etc. The plants grow 2 feet high; every branch is a spike of large flowers, gloxinia-like in size and shape. Not quite hardy and is best treated like an annual, sown early indoor and set out as soon as the weather permits; it will bloom from July till frost. Choicest Mixed. Pkt. 5c; ½ oz. 10c.

Ricinus

(Caster Oil Bean)

ZANZIBARIENSIS GIANT MIXED—From seeds sown in the open ground in May the plants are in full foliage early in July, and attain a height of 15 to 14 feet. The enormous leaves, beautifully lobed, measure 2½ to nearly 4 feet across. Pkt. 5c; oz. 15c.

GOOD MIXED—Many choice varieties. Pkt. 5c; oz. 10c.

Primula Sinensis or Chinese Primrose

One of our most beautiful and indispensable plants for Winter or Spring blooming in the house or conservatory. Unequaled as Winter bloomers—easily grown.

CHINESE PRIMROSE, Buckbee's Superb Mixed—An elegant mixture embracing all the best large-flowering varieties, and also including the fringed sorts. Pkt. 10c.

CHINESE PRIMROSE, Finest Double Mixed—A splendid strain of the finest large-flowering fringed varieties. Our mixture includes the most brilliant colors. Pkt. 18c.

Primula Obconica Grandiflora

BABY PRIMROSE—Primula Obconica is as near an everblooming plant as is possible to obtain. It has been known to flower for over twelve months without a break. Pkt. 10c.
SALVIA OR SCARLET SAGE

SPLENDENS—The original Scarlet Sage with beautiful long spikes of bright scarlet color. It is a standard bedding plant and keeps the garden bright with color until frost. Pkt. 5c; ½ oz. 35c.

SCARLET DRAGON—The Most Magnificent Summer and Autumn Flowering Bordering Plants—The old Salvia Splendens or Scarlet Sage has long been a favorite, and our customers can partially appreciate the superiority of this new variety when we state that the flowers are nearly double the size, closely crowding the immense long spikes that often measure 6 inches across. Full-grown plants in bloom form compact bushes 3 feet high, and bloom from ground to summit. We know of nothing that can equal the gorgeous effect of a row or bed of these fine Salvias when in full bloom; the waving masses of glistening scarlet against green surroundings of lawn or foliage is matchless. Grows very easily from the seed. Pkt. 8c; or 3 pts. 20c; ½ oz. 45c.

SALVIA PLANTS—10c each; 3 for 25c, postpaid. By express at buyer’s expense, $1.00 per 100.

Salpiglossis—New Emperor.

SMILAX
One of the most desirable window vines on account of its charming, glossy green, elegant and graceful foliage, and will grow several feet high the first season. Pkt. 5c; ½ oz. 25c.

STOKESIA HYBRIDS
Cornflower Aster
A beautiful hardy perennial plant no garden should be without. Blooms in July from Spring-sown seed and continues till frost. Plants 2 feet high, bearing 20 to 30 blossoms 3 to 4 inches across in shades of blue, pink, purple, yellow and also in white. Mixed Colors. Pkt. 10c; ½ oz. 35c.

Be sure to include Buckeye’s New Upright Mammoth Wonder Aster in your flower seed order.

SALPIGLOSSIS
Very showy bedding or border plants with richly colored, erect, funnel-shaped flowers. The flowers are very beautifully marbled and penciled purple, scarlet, crimson, yellow, buff, blue and almost black. Bloom from August to October.

NEW EMPEROR—This variety shows a very marked distinctiveness from the older type in habit of growth as well as in flowers. It forms only one leading stem about 10 inches high, from which branch out near the top numerous side shoots, each bearing a large flower, thus forming a veritable bouquet of the most beautiful flowers, each one richly veined with gold. A bed of Emperor Salpiglossis in flower is strikingly beautiful. Mixed Colors. Pkt. 8c; ½ oz. 20c.

LARGE FLOWERING MIXED—Pkt. 5c; ½ oz. 15c.

SENECEO ELEGANS
A beautiful free flowering annual. Flowers purple, red, crimson, rose and white; perfectly double. Pkt. 5c; ½ oz. 25c.

SENSITIVE PLANT
An interesting and curious plant with globular heads of pink flowers. It affords much amusement by its sensitive character—even when touched slightly, the leaves instantly close and droop for a short time. Pkt. 5c; ½ oz. 15c.

SCABIOSA OR MOURNING BRIDE
This is one of the most attractive of the old-fashioned flowers. Great abundance and long succession of richly colored fragrant blossoms borne on long stems make it one of the most useful of the decorative plants of the garden.

BLACK KNIGHT—Deep velvety purple. Pkt. 8c; ½ oz. 25c.

FIERY SCARLET—Rich vermilion red. Pkt. 8c; ½ oz. 25c.

APPLE BLOSSOM—Delicate shell pink. Pkt. 8c; ½ oz. 25c.

SNOWBALL—Purest white. Pkt. 8c; ½ oz. 25c.

DWARF DOUBLE LARGE FLOWERING MIXED—Pkt. 5c; ½ oz. 15c.

TALL DOUBLE LARGE FLOWERING MIXED—Pkt. 5c; ½ oz. 15c.

CAUCASIA (Blue Bonnet)—Hardy perennial, 3 feet high. Flowers blue-blue on long stems; fine for cutting. Pkt. 8c.

SNAPDRAGON
(Antirrhinum.)
Snapdragon now rivals the Sweet Pea in popularity, and it is one of the most valuable flowers which can readily be grown from seed, whether intended for cutting or for show in the garden.

FIRED KING—Deepest cardinal red. Pkt. 8c; ½ oz. 25c.

YELLOW BEAUTY—Bright orange yellow. Pkt. 8c; ½ oz. 25c.

SILVER PINK—One of the best. Pkt. 8c; ½ oz. 25c.

QUEEN VICTORIA—White shaded cream. Pkt. 8c; ½ oz. 25c.

GIANT—The flowers of this new type are double the size of older sorts, are more closely set on the stems and the colors most clear and brilliant. They grow about 12 inches high. All colors, mixed. Pkt. 5c; ½ oz. 25c.

TOM THUMB—Eight inches high. Finest mixed, all colors. Pkt. 5c; ½ oz. 20c.
A Spray of
GIANT HYBRID
SWEET
PEAS

New Yellow
Sweet Peas
One of the most beautiful, interesting and easily grown plants in existence. This beautiful novelty has been much admired by visitors because of the unusual waviness of a duplex or double flowers. A few sprays form quite an imposing bunch. The flowers are of a rich primrose color, generally borne three on a stem, and produced extremely early.
Large Pkt. 10c.

Select List of
Named Giant Hybrid Sweet Peas

WHITE
DOROTHY ECKFORD—Grand pure white, shell-shaped flowers of extra large size; borne three on a stem.
PRIMROSE
HON. MRS. E. KENTON—Beautiful primrose yellow.
ORANGE
MISS WILLMOTT—Brilliant orange-pink; very large.
PINK
PRIMA DONNA—Exquisite clear light pink.
JACK ET SCOTT—A grand deep rich pink.
SCARLET
KING EDWARD VII—The finest crimson-scarlet.
QUEEN ALEXANDRA—Intense pure scarlet.
LAVENDER
FLORA NORTON—Clear bright blue.
LADY GRISEL HAMILTON—A grand pale lavender.
MRS. WALTER WRIGHT—Beautiful mauve.
BLUE AND PURPLE
LORD NELSON—Rich, deep navy-blue.
MAROON
BLACK KNIGHT—Very deep maroon, shaded black.
STRIPE OR MOTTLED
AMERICA—Striped blood-red on white.
BLANCHE FERRY—The popular pink and white.
DAINTY—White, daintily edged with pink.
HELEN FIERCE—White, mottled bright blue.

PRICES—For any of the above varieties: Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. $1.25, postpaid.

Buckee's Pedigreed Gilt Edge Mixture

Best Colors, Largest Size, Very Fragrant.

This mixture is carefully blended by ourselves from all the finest selected colors in the right proportion for the most beautiful show and without question it cannot be surpassed for gorgeousness of colors and brilliancy of effect, embracing every known good sort to date in the large-flowering, new and best standard varieties. Large packet 6c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. $1.25, postpaid.

FINE MIXED

A cheap mixture, but a real good one, and will please those who do not care for the fancy/new varieties of late introduction. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c, postpaid.

Cupid or Dwarf Sweet Peas

In Fine Mixture.

These little beauties only grow 3 to 6 inches high, and excite wonder wherever seen; are very fragrant; bear full-sized flowers of fine substance, two or three on each stem; are profuse bloomers; excellent for beds, borders and pot culture. As they cover the ground so closely they are not so likely to suffer from drought as the tall sorts. Our mixture includes all the desirable colors and shades. Pkt. 6c; oz. 15c; 2 oz. 30c; ¼ lb. 55c.

Everlasting Sweet Peas
(Lathyrus)

Perfectly hardy perennial. Handsome, free-blooming climber with clusters of elegant Sweet Pea-like blossoms, which are produced in a great profusion. They come up year after year, and also bloom earlier than other Sweet Peas. Especially suitable for covering arbors and trellises. Mixed, All Colors. Pkt. 8c; ½ oz. 25c.

Double Flowering Sweet Peas

In Fine Mixture. Under favorable conditions they will produce a large percentage of double flowers. Usually the double and single flowers are borne about half-and-half. They are regular tall-growing Sweet Peas. Our mixture includes every desirable shade and color. Pkt. 6c; oz. 25c; 2 oz. 35c; ¼ lb. 60c.
Spencer Sweet Peas

A wonderful type, quite distinct from the old sorts, with beautifully formed large, open and upright standards and immense wings, the flowers measuring from 2 to 2 1/2 inches across. Both standards and wings are daintily waved.

A very large percentage of these varieties bearing four or more of these immense flowers to the stem, making them unsurpassed as cut flowers. The following are the best of the new and old sorts:

**WHITE**

**CONSTANCE HINTON**—The best black-seeded white.

**KING WHITE**—New, hailed as the King of the Whites. Immense blooms, faultlessly frilled and waved.

**PRIMROSE**

**DOBBIE'S CREAM**—The largest and finest primrose-yellow.

**ORANGE**

**THOMAS STEVENSON**—Fiery orange-scarlet, most striking color of all.

**ROBERT SYDENHAM**—Glowing orange, the nearest approach of real yellow yet seen; very large and beautiful.

**PINK**

**ELFRIA PEARSON**—The finest and largest light pink.

**MARGARET ATLEE**—The best rich pink.

**HERCULES**—A lovely soft rosy pink, immense flowers.

**NEW MIRIAM BEAVER**—Apricot pink on butt ground.

**ROSE**

**ATLANTA**—Salmon Rose, striped and flaked on white ground; very large.

**ROSE-BLUE**—The largest deep rose.

**MRS. CUTHBERTSON**—Rose-pink, wings white; an Improved Blanche Ferry.

**FIERY CROSS**—Scorching fire-red; does not burn in sunlight.

**KING EDWARD SPENCER**—Large deep crimson.

**PRESIDENT**—Magnificent glowing scarlet, surpassing all in its class.

**VERMILION BRILLIANT**—Rich bright scarlet; surpassing all other scarlets in color, size, form and profusion of bloom.

**LAVENDER**

**R. F. FELTON**—Soft lavender-blue; flowers of enormous size.

**FLORENCE NIGHTINGALE**—The largest and finest purple lavendar.

**BLUE AND PURPLE**

**WEDGWOOD**—Clear silvery blue, the best blue Spencer.

**ROYAL PURPLE**—Immense flowers, rich royal purple.

**MAROON**

**KING MANOEUL**—Giant wavy flowers, rich, glossy, deep maroon.

**PRICE FOR ANY OF THE ABOVE NAMED VARIETIES:** Pkt. 8c; oz. 30c.

Buckbee's New Early Flowering Giant Spencer Sweet Peas

**A New Race Five to Six Weeks Earlier Than the Regular Spencer Sweet Peas**

These new varieties have been developed by crossing Spencer Sweet Peas with Early Blanche Ferry. The plants are very vigorous growers, profuse and continuous bloomers. They come into flower five to six weeks earlier than the other Spencers, and if grown outdoors the flowers are kept picked, will bloom in the Northern states until destroyed by frost. They are much better adapted for our Southern states than the late flowering varieties and will no doubt supersede all other types in warm climates. They are already very popular and in great demand for forcing under glass for winter blooming. The flowers are of immense size, measuring fully 2 1/4 inches in diameter, beautifully waved and are carried on stiff stems of great length usually in threes and often in fours.

**EARLY MORNING STAR**—Deep orange-scarlet or flame color.

**EARLY SONG BIRD**—A soft shade of pastel pink.

**EARLY MELODY**—Deep rose-pink.

**EARLY SPRING MAID**—Exquisite light cream-pink.

**EARLY SNOWFLAKE**—The best pure white early Spencer.

**EARLY HEATHER BELL**—A rich pleasing mauve-lavender.

**EARLY RED LIBERTY**—Rich bright crimson.

**YARRAWA**—The new famous early blooming Australian variety. Commences flowering two weeks before any other large flowering sort and continues weeks after other Sweet Peas. Large, waved, rosy-pink flowers.

**EARLY FLOWERING GIANT SPENCER MIXED**—Made up especially for our customers from the above and many other new varieties.

Any of the above Early Flowering Spencers: Pkg. 15c; 1/2 oz. 50c.
STOCKS

LARGE FLOWERING GLOBE PYRAMIDAL—This is the best class for outdoor bedding for Summer blooming, and is the earliest tall to come into flower. Spike and flowers very large, the individual blooms frequently measuring 2 to 2½ inches in diameter. The large, double and perfect flowers are produced in great profusion, and the plant is of pretty shape. Seed saved from named sorts of various colors. Grand Mixture. Pkt. 8c; ½ oz. 45c.
GIANT FLOWERING BEAUTY STOCKS—A magnificent new strain of early flowering winter stocks, forming bushy plants about 2 feet high with tall, strong spikes of unusually large, very double, deliciously fragrant flowers. These plants do not bloom as early as Globe Pyramidal Stocks, but longer and more profusely. Mixed Colors. Pkt. 7c; ½ oz. 40c.

DWARF—Large Flowering. Ten Weeks—Fine Mixed—A very popular strain. Pkt. 5c; ½ oz. 25c.
VESUVIUS—Brightest crimson. Pkt. 10c; ½ oz. 50c.
MONT BLANC—Clear white. Pkt. 10c; ½ oz. 50c.
MONTE CARLO—Pure yellow. Pkt. 10c; ½ oz. 50c.
BLUE BIRD—Purplish blue. Pkt. 10c; ½ oz. 50c.
PRINCESS ALICE PERFETUAL—Cut and Come Again—A pure white double variety, about 2 feet high, producing endless numbers of side branches. Every branch bears a cluster of delightfully fragrant flowers, and new ones are produced to replace those which are removed. Pkt. 6c; ½ oz. 30c.

SUNFLOWERS

NEW CHRYSANTHEMUM FLOWERED—Fine, perfectly double golden flowers, resembling Japanese Chrysanthemums. Height, 6 feet. Pkt. 5c; ½ oz. 12c.

NEW DOUBLE MULTIFLORA—The plant is pyramidal in shape and the handsome, double flowers are produced at base of each leaf. Pkt. 5c; ½ oz. 12c.

STELLA—Flowers star-shaped, of brightest golden yellow, with dark centers. Borne on long stems. Four feet high. Pkt. 5c; ½ oz. 12c.

RED SUNFLOWER—A unique and gorgeous novelty. The plants grow 7 to 9 feet and produce large flowers from 5 inches to 1 foot in diameter. The color also varies greatly, but the majority of flowers have a more or less wide red circle around the purplish black center and the tips of the petals are golden yellow. Pkt. 8c.

FINEST MIXED—For background or screen to hide unsightly places. Pkt. 5c; oz. 15c.

SWEET ROCKET

Hardy perennials, bearing purple or white flowers. Plants 2 to 3 feet high. Flowers fragrant. Fine mixed. Pkt. 5c; ½ oz. 12c.

VINCA

Ornamental free flowering house or bedding plants. Flower the first season. Glossy green foliage; handsome circular red and white flowers about ½ inches across. Will flower in the garden all season and if potted in Fall will bloom all winter. Mixed. Pkt. 8c; ½ oz. 25c.

SWEET WILLIAM

NEW HARDY EVERBLOOMING. The Floral Wonder. Blooms in 50 days from sowing of seed—Flowers all Summer and Fall—Lasts for years.

The old favorite Sweet William, as all know, does not flower until the second year from seed, but this new hybrid strain, a cross of the old perennial sort with the Chinese Pine, begins to bloom in 10 to 60 days from seed sown in Spring, and continues to flower all Summer and Fall. It is entirely hardy and will last for years, doing better each succeeding year. The flowers are very fragrant and like those of the old Sweet William in size, form, marking and color. Some of them have smooth edges, while others are fringed. The colors embrace every hue and shade from pure white to deep crimson; some flowers are self-colored, but the majority are two-colored.

The plants are hardy, about 2 feet high, more compact and prettier than the old variety, and bloom long after they are gone. The Everblooming Sweet William may be started indoors or sown direct in the garden. All colors Mixed. Pkt. 10c; ½ oz. 45c.

PERENNIAL SWEET WILLIAM

PERENNIAL FINE SINGLE MIXED—Various beautiful shades and markings. Pkt. 5c; ½ oz. 15c.
PERENNIAL FINE DOUBLE MIXED—A splendid strain. All colors. Pkt. 6c; ½ oz. 25c.

VIOLET

(Viola Odorata.)

The true hardy violet. This should not be wanting in any garden on account of its fragrant and early appearance. Succeeds best in a shady, sheltered place, and can be easily increased by dividing the roots. Finest Mixed. Pkt. 8c.
Zinnias

This selection and mixture embraces all the choice and most desirable colors in the Giant Flowering Verbenas. The shades are mostly very delicate and dainty; in fact, perfectly exquisite, there being very little of the common blue and purple colors among them. Many of the individual florets are nearly as large as a silver half dollar. Pkt. 10c; ½ oz. 30c.

**CHOICE PRIZE MIXED**
From a most superb collection of named varieties. Very large in flower and corollas, and of the richest and most brilliant colors.

Pkt. 5c; ½ oz. 20c.

**MAMMOTH SORTS**
In Separate Colors
- **BLUE KING**—Showy and distinct, best blue.
- **BURBANK’S MAYFLOWER**—Lovely pink.
- **RED BEDDER**—Scarlet, yellow foliage.
- **ITALIAN STRIPED**—Striped flowers.
- **PURPLE**—Dusk purple. Very rich color.
- **PURE WHITE**—A fine strain.
- **SCARLET DEFiance**—Brightest scarlet.
- **YELLOW**—Soft yellow or primrose.

Price for above, each: Pkt. 10c; ½ oz. 30c. The set of eight colors, one pkt. each, 65c.

**VERBENA**
Fragrant plant, easily grown from seed. Pkt. 5c; ½ oz. 35c.

**VERBENA ODORATA**
Sweet Scented
Very sweet scented. Flowers pure white. Pkt. 5c; ½ oz. 30c.

---

**Wild Cucumber Vine**
Undoubtedly the best climber for covering verandas, trellises, etc., never suffering from the heat and never infested with insects. Pkt. 5c; ½ oz. 15c.

**Zinnias**

BUCKBEE’S GIANT FLOWERED—A superb new class of Zinnias, giant in size, measuring 5 to 8 inches across and perfectly double flowers of richest, most varied colors and shades. Plants grow 2 feet high. There is much satisfaction in a bed of Zinnias with their twisted and recurved petaloid flowers in many bright colors, and when nearly every other flower has been killed by frost this plant is still in full bloom. Few flowers are more easily grown or bloom more abundantly throughout the season, and the wide range of color is not less remarkable than their unusual depth and richness. Sow the seed early in spring, in open ground in good, rich soil, preferably in rows 1½ feet apart and covering about ½ inch deep. When the young plants are 1 to 2 inches high thin to 6 inches apart. Choiceest Mixed. Pkt. 1c; ½ oz. 30c.

**BUCKBEE’S SUPERIOR DOUBLE MIXED**—The grandest mixture of double flowers. Large size, brilliant colors. Pkt. 5c; ½ oz. 30c.

**GIANT CRIMSON**—Pkt. 8c; ½ oz. 25c.

**GIANT ORANGE**—Pkt. 8c; ½ oz. 25c.

**GIANT WHITE**—Pkt. 8c; ½ oz. 25c.

**GIANT PINK**—Pkt. 8c; ¼ oz. 25c.

**MAMMOTH ZEBRA**—The finest strain of striped or Zebra Zinnias in cultivation. Pkt. 5c; ¼ oz. 25c.

**LILLIPUT MIXED**—Half the height of ordinary Zinnias. Blossoms small, double and of very brilliant colors. Pkt. 5c; ¼ oz. 25c.

**Wall Flower**

**SINGLE PARISIAN**—This annual variety wil flower throughout Summer and Fall from seed sown in Spring. Pkt. 5c; ½ oz. 25c.

**DOUBLE MIXED**—Spikes of deliciously fragrant flowers, combining many shades and colors, chocolate and orange-purple predominating. Half hardy perennial. Pkt. 10c.

---

**Everlasting and Ornamental Grasses**

**ACROCLINIUM**—Double Mixed. Pkt. 5c; ½ oz. 15c.

**ACROSTIS NEBULOSA** (Cloud Grass)—12 inches, delicate and graceful. Pkt. 5c.

**COIX LACHRYMAE** (Job’s Tears)—Pkt. 5c; oz. 10c.

**GOMPHIRENA** (Globe Amaranth)—2 feet, many colors. Mixed. Pkt. 5c; ½ oz. 15c.

**HELICHRYSUM**—Double mixed, 2½ feet high. One of the best. Pkt. 5c; ½ oz. 15c.

**RHODANTHE**—One foot high. Mixed. Pkt. 5c; ½ oz. 15c.

**MIXED EVERLASTINGS**—Mixed. Pkt. 5c; ½ oz. 15c.

---

**Wild Flower Garden**

A mixture of many varieties of beautiful, easy-growing flowers, producing a constant and varied bloom the whole season, and is especially suited for those who wish only a few seeds each of the leading varieties. In no other manner can so many seed be obtained at such a small cost. Large pkt. 5c; oz. 15c; ½ lb. 50c.
BUCKBEE’S SUMMER FLOWERING BULBS

WE GROW AND OFFER ONLY THE MOST POPULAR Sorts THAT ARE EASILY GROWN. REQUIRED SCARCELY ANY CARE, AND MAKE A SHOWY AND GORGEOUS DISPLAY. ALL OUR BULBS ARE SURE TO GROW AND BLOOM.

Many of our best bulbs are grown for us in Europe, and orders for them are taken only subject to our receiving the bulbs from our growers; we will ship as soon as received, or return amount paid for them.

Amaryllis Formosissima

JACOBean LILy

There is hardly a flower which has such deep, rich velvety crimson color, a color so intensely brilliant as this. It is a free bloomer and succeeds well either in pots or in the open ground, and blooms very soon after planting. Few flowers can equal it in richness and beauty of color; blooms profusely every year. 25c each; 3 for 50c, postpaid.

Apis Tuberosa

WISTARIA, HARDY TUBEROUS Rooted

A valuable and desirable tuberous-rooted twiner, resembling Wistaria in form of leaf and flower, but smaller. Grows to a height of 3 to 10 feet. Dies to the ground each Winter, but the tuberous root is perfectly hardy. The numerous clusters of deep purple, pea-shaped blossoms have a strong, delicious violet fragrance. A valuable vine for trellis or rock work. Plant two or three bulbs near together to produce a mass of vines and flowers. 10c each; 3 for 35c; doz. 75c, postpaid.

Cyclamen

(NEW GIANT FLOWERED PERSIAN VIOLET)

Most beautiful of all pot plants, giving the richest profusion of elegant flowers; foliage decidedly handsome, being variegated with different shades of green, helping to show off the richly-colored flowers. In fact, a plant in bloom resembles a tastily arranged vase of flowers and beautiful foliage. Price of choice bulbs, 25c each; 3 for 70c, postpaid.

Cinnamon Vine

Beautiful foliage, dainty flowers, exquisite perfume

Hardy climber with dark green foliage, and late in the season bearing a profusion of small white flowers of a delicious cinnamon fragrance. Perfectly hardy everywhere, the vines dying down to the ground each autumn, but growing very rapidly in early Spring, soon covering any trellis or arbor. Where you wish to hide unsightly places we would suggest planting the Cinnamon Vine. Be sure to grow a few each time in Spring. Please order at once. Price of bulbs, 10c each; 3 for 35c, postpaid.

Caladium

NEW FANCY LEAVED VARIETIES—For window boxes, house or greenhouse growing this is one of the most decorative plants. Their leaves, handsomer than Begonias, are spotted, marbled, veined and striped with white, pink and dark red. These bulbs, though comparatively rare, are easily grown and their handsome foliage is much admired. Bulbs should be started into growth in a warm place. Selected Plants, 35c each; 3 for $1.00, postpaid.

Elephant’s Ear

CALADIUM ESCULENTUM—A handsome plant of tropical aspect, bearing leaves sometimes a yard or more in expanse. Effective as a single plant on a lawn, or in groups, also useful for decorative effects near streams or ponds. We make a specialty of supplying bulbs of this splendid plant, and handle them in large lots. Good size bulbs, 20c each; $2.00 doz. Larger bulbs, 30c each; $3.00 doz. Mammoth bulbs, 40c each.

of Practical Information

How to Grow Seeds and Flowers

A complete guide for the house and garden, profusely illustrated. Price 50c, postpaid, or we will send a copy FREE with an order amounting to $1.50 or upwards, if requested on the order.
Monarch of the East
A most wonderful novelty. Nothing like it ever seen in a Calla. Not only is it a curiosity but a wonderfully beautiful flower. Our bulbs are imported from Asia where they grow out of doors without water and often times in the poorest soil. Highly decorative Garden Calla. Blossom 12 to 16 inches long. Beautifully colored, mostly pink with darker spots. Fine large bulbs, 30c each; 3 for 85c.

Mammoth Everblooming White Calla
One of the grandest of all Callas. Its foliage alone makes it desirable as a decorative plant. Add to this its profusion of superb white flowers, yielded throughout the season, and you have a plant you may well be proud of. Our select stock is adapted for pot culture everywhere; can also be set out of doors in summer. Strong bulbs, each 25c; 3 for 70c. Postpaid.

Golden Trumpet
Novel, Beautiful and Fragrant
A variety of the well-known Amaryllis family of free flowering habit, which starts growth and blooms as soon as potted. The flowers are borne in clusters of 3 to 6 and are in color the brightest golden yellow, and such fragrance! Strong and delicious without being in any way rank or offensive as is the case with many highly scented flowers, being a combination between the Lilac and the Thiberos. Two or three spikes of these exquisite large yellow blossoms are produced at each blooming period. Pot the bulbs at any time, Winter or Spring, and they will soon be in bloom. A truly magnificent plant! Strong bulbs, 10c each; 3 for 25c; 10 for 75c. Postpaid.

Lily of the Valley—Too well known to require description. 15c each; 2 for 25c; doz. 75c. Postpaid.

Madeira Vine (Climbing Mignonette)
One of the most satisfactory flowering climbers we have ever had. It is not new; many of our customers have grown Madeira Vines for over 30 years; still, for grace, beauty and general usefulness it still is clarmed among the finest. A rapid growing vine, covering a large space in a short time. Fleshy, heart-shaped leaves of a light green, and in late summer, numerous racemes of feathered flowers of powerful and delicious fragrance. A very beautiful and popular vine. 9c each; 3 for 20c; 15 for 65c. Postpaid.

Buckbee's New Golden Sunbeam Calla
This is the New Calla offered last season for the first time. Thousands of our customers were delighted with the exquisite blooms. Many plants bloom when 6 inches high, while a full grown plant is a sight never forgotten. The bulbs are strong and send up numerous flowers, which are golden yellow with black centers. The color is one of the most beautiful shades of yellow seen among flowers and the jet black center lends to the blossoms a peculiar charm. Leaves differ, some being solid green, others spotted with white. Each 35c; 2 for 60c. Postpaid.

True Little Gem Calla
The pet of all is this new and beautiful miniature Calla, growing only about 6 inches high. It is, indeed, a beauty, completely enveloped in its regal white blossoms, through the entire season. As easily grown as the other Callas. Each 30c; 3 for 55c. Postpaid.

Giant Summer Hyacinths
A species of Hyacinth which blooms during August, September and October, if planted in Spring. The bulbs are large, round and solid, and grow up large flower-stems 3 to 5 feet high, with gigantic spikes of thimble-shaped white blossoms. A bed of a dozen or more bulbs produces a grand effect. For a cemetery nothing can be more beautiful or appropriate and nothing thrives better in any situation. Strong bulbs sure to bloom, producing 2, 3 and even 4 flower-stems. 15c each; 2 for 25c; doz. $1.25. Postpaid.

Giant Summer Hyacinth.
CANNAS

NOVELTY CANNA SET

The following are the finest of the latest novelties. They are
magnificent sorts with immense trusses of enormous flowers.

GLADIOLUS

BUCKBEE’S FAMOUS GRAND NAMED GLADIOLI

The following are the finest and most distinct sorts, giving a wide range of colors; they include the best of the latest and older sorts.

Price, each, 10c, or one each of the complete collection (12 varieties) for only $1.00, postpaid.

AMERICA—Beautiful soft flesh pink, orchid-like in its coloring, magnificent large flowers.

BARON HUPE—Dark violet blue, a tall, vigorous grower.

EMpress OF INDIA—Velvety crimson-maroon, shaded black, the largest flower of all.

EUROPE—The best pure white; large snow-white flowers.

HARRY—Extra early, enormous, wide open flowers, salmon-pink barred, bright red.

MRS. FRANcis KING—A striking shade of light scarlet, strong spikes, with 18 to 20 immense flowers; most effective.

NIAGARA—Very large flowers, soft cream yellow, slightly tinged with rose.

PANAMA—Resembles America, but is of a much deeper pink. Long, straight spikes with very large flowers.

PING—Immensely lily-like flowers of a brilliant salmon-pink, marked with glowing blood-red blotches in the throat. One of the finest varieties yet introduced.

PRINCESS—Immensely, wide-open flowers of rich, dazzling scarlet, marked with white on the lower portion.

SCHWARZ—Magnificent large flowers and spikes. Canary-yellow with crimson center.

YELLOW KING—The finest clear yellow yet introduced.

BUCKBEE’S NEW FRILLED AND RUFFLED GLADIOLI

A new class of Gladiolus. The flowers of this type are very large, widely expanded and of round form; the edges of the petals are beautifully ruffled and frilled and the coloring is very rich and beautiful. The flowers are produced on tall imposing spikes. Many colors mixed. Price, each, 12c; doz., $1.35. Postpaid.

BUCKBEE’S FAMOUS ROCKFORD MIXED GLADIOLI

Gorgeous Colors and Marvelous Markings

We call special attention to our Famous Rockford Mixed Gladiolus, which have been constantly improved year after year by discarding all undesirable flowers and developing new shades and combinations of colors. This mixture contains all splendid flowering bulbs that will make a grand show, and at such a low price that every one can afford a bed of this most popular bulb. Price, postpaid, 3 for 15c; 60c per doz.; 50 for $1.50; 100 for $2.75. By express, not prepaid, $3.25 per 100.

PRIMULUS "SUNBEAM" HYBRID GLADIOLI

The flowers are gracefully arranged on very slender, very tall and strong spikes, medium sized and somewhat hooded in form. The range of colors is remarkable, running mostly in shades of yellow, orange, pink and crimson. All colors. Mixed. Large bulbs (sure to bloom), 7c each; 60c doz. 100 for $3.50.

GLADIOLI IN MIXTURE

New Seeding Gladiolus in Separate Shades.

No. 1—White and Light Shades, such as delicate shades of pink, rose, yellow, etc. Valuable for cutting.

No. 2—Scarlet and Red Shades, blood reds, garnets, amaranths, and similar rich shades in great diversity.

No. 3—Golden Shades, including heliotrope, lilac, mauve and similar tints.

No. 4—Orange Shades, sulphur, primrose, yellow, different tints of orange and salmon.

No. 5—Pink and Rose Shades.

No. 6—Striped and Variegated Varieties, in splendid mixture of all colors and shades.

BUCKBEE’S GIANT ORCHID FLOWERING GLADIOLI

Flowers Size of Tea Plates.

This new race of extraordinary beautiful Gladiolus represents the perfection of this genus since its introduction. The flowers have reached enormous dimensions, often 7 to 9 inches across, far surpassing any others and much resembling Orchids of the brightest hues. Mixed, 15c each; $1.50 per doz., postpaid.
Tuberoses
BUCKBEE'S MONSTROUS FLOWERING.

A most delightfully fragrant and beautiful summer-flowering bulb. Plants are of dwarf, stocky growth, producing flower-spikes 2 feet high covered ½ of their length with perfectly double flowers 2 inches across, which are glistening white and deliciously fragrant. For early flowers start in February or March in Greenhouse or hot bed, planting at intervals as late as August. For flowering in open border, plant about the middle of May. Our select strain of bulbs has no equal and will produce the best and sweetest scented flowers ever seen. Bulbs of good size, each 10c; per doz. 95c, postpaid.

Mammoth Bulbs, blooms enormous in size and very double and fragrant each 15c; 3 for 40c; per doz. 81.13, postpaid.

Hardy Tuberous-Rooted Moon Flower
(Ipomoea Pandurata)

They will stand any vicissitude of weather until frost kills the vine to the ground. Each year it springs up stronger than before, until it becomes a large, luxuriant vine, clothed with a luxuriant growth of pretty cordate leaves, and bearing great quantities, yes, thousands of large, thick-textured waxy flowers of a rich creamy-white, with a throat of violet-purple. It will grow in any soil, no matter how poor, and its blossoms remain open all day, unlike other Ipomoeas. It is perfectly hardy in any climate.

Mexican Star Flower
(Milla Bilflora)
The flowers are pure waxy white, 2 inches in diameter, star-shaped and usually in pairs on long slender stems. It is beautiful, especially for cutting, as it lasts a long time in water. Too much praise cannot be bestowed upon this lovely flower. It pleases everyone and should be grown largely. The blossoms frequently last two weeks when cut and placed in vases of water. It is a perfect gem. 10c each; 12 for 90c, postpaid.

Armstrong's Everblooming Tuberose
This variety blooms year after year and produces single pure white flowers of a fragrance similar to that of the "Jasmine." It makes a splendid cut flower and should be in every one's garden. Each 8c; 4 for 30c; doz. 85c, postpaid.

Oxalis
No bulb is so valuable for edging the borders of walks or flower beds as the beautiful flowering Oxalis.

DIEPPI—Pure white; very fine.
LASANDRIA—Fine rosy-pink, beautiful cut foliage.
SHAMROCK—Lovely clover-like foliage and pink blossoms.
MIXED COLORS—Several sorts.
Prices for bulbs of the above four varieties, 15c per dozen; 25 for 25c; 100 for 50c, postpaid.
MAMMOTH BULBS—These bulbs are nearly as large as Gladiolus, and will produce a wonderful profusion of bloom. 5c each; 5 for 40c; 15 for 85c, postpaid.

Resurrection Plant
Most Unique Novelty. A Marvel of Plant Life.

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of tightly folded leaflets, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of water, for in a short time there is a great, loose, expanded rosette of fern-like leaves, both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. 15c each; 3 for 40c, postpaid.

Fairy Lilies (Zephyranthes)
Pretty flowers similar to the Amaryllis, but of miniature growth. The best way is to plant several bulbs in a box or flower-pot. They can also be planted in the open ground in the Spring and lifted in the Fall, and treated the same as Gladiolus. All colors mixed. Each 10c; 3 for 30c, postpaid.
The Best Hardy Lilies

ALL STRICTLY FIRST SIZE BULBS. Lilies are especially adapted to planting in borders, or between shrubs, etc. The following are the most desirable and most popular varieties of Lilies for general cultivation. They are hardy, needing little protection and will grow and flower without special treatment. A few clumps planted in your yard where they will not be disturbed from year to year, will reward you with abundant flowers.

THE GOLD BANDED LILY
(Lilium Auratum)

This is justly entitled to the name often given it—the Queen of Lilies. The immense blooms measuring nearly a foot in width when fully expanded are produced in the greatest profusion and are deliciously fragrant. The large white petals are thickly spotted with chocolate-crimson, and have a bright golden-yellow band through the center of each. Blooms from July to September. Large Bulbs. Each 38c; 2 for 76c, postpaid.

SPECIOSUM ALBUM
Pure white flowers with a greenish band through the center of each petal. They are of great substance and very fragrant. One of the best for general culture; blooms in August and September. Mammoth Bulbs. Each 38c; 3 for 75c, postpaid.

SPECIOSUM RUBRUM
No words can overstate the brilliant beauty of these famous Japanese Lilies. The six broad white or pink petals are thickly dotted with rose or crimson spots, and the graceful form and brilliant color make them very effective plants. Especially thrifty and hardy. One of the best for garden culture; blooms in August and September. Large Bulbs. Each 38c; 3 for 75c, postpaid.

LILIUM TIGRINUM SPLENDENS

Improved Tiger Lily
A grand lily, sometimes 6 feet high, with large pyramids of orange-red flowers spotted with black. Often as many as 20 flowers are counted on one plant. Very hardy. Splendid Bulbs. Each 35c; 3 for 75c, postpaid.

LILIUM TIGRINUM FLORE PLENO
New Double Tiger Lily
This is a plant of lovely habit, growing from 4 to 6 feet high, bearing an immense number of double bright orange-red flowers, spotted with black. Blooms in August. Splendid Bulbs. Each 38c; 3 for 75c, postpaid

LILIUM UMBELLATUM
One of the very best classes of the hardy garden Lilies; strong, sturdy habit, growing from 2 to 3 feet high, having large, showy flowers held upright and in clusters at the summit. They are of easy culture, flowering in June and July. Mixed colors. Splendid bulbs. Each 35c; 3 for 75c, postpaid.

WONDERFUL MAGIC LILY
(New and Beautiful)
This wonderful flower produces in early spring attractive green foliage which grows until July, when it ripens off and disappears, and one not familiar with its habits would think the bulb had died, but about a month later, as if by magic, the flower stalks spring from the ground to a height of 2 or 3 feet, developing a cluster of large and beautiful lily-shaped flowers 2 to 4 inches across and from eight to twelve in number, of a delicate lilac-pink, shaded with clear blue. As the bulb is perfectly hardy without any protection it can be planted either in the Fall or Spring. Cover the bulb about 1 inch. Very useful for the border or among shrubbery. The Illustration is a true photo of the flowers. Price, strong blooming bulbs, 10c; 3 for 30c.

NEW TANGO FLOWER

Fragrance of the South
This exquisite flower is found on the high table-lands or mesas of Central Mexico and Peru. Its pure and chaste sweetness, delightful and subtle fragrance are indescribable. The bulbs can be planted as soon as danger of frost is over, and will bloom in four to six weeks. Each bulb as it grows in the ground will form bulblets, each of which send up a flower stalk, thus keeping up one mass of bloom from early summer till frost cuts them down. The flowers appear from ten to twenty to each stalk, are snowy white, star-like, petals thick, like wax, filling their surroundings with the fragrance they exhale. Select Bulbs. Each 15c; 3 for 40c; box, $1.50, postpaid.

Lilium Speciosum Rubrum.

Lilium Auratum
Gold Banded Lily

Lilium Album.

Special Offer Cl
One each of the three Japan Lilies, Gold Banded, Rubrum and Album, postpaid.
only 96c.

New Tango Flower.
The Wonder Bedding Plant Acalypha

BICOLOR, AUTUMN TINTS—A most wonderful plant, surpassing the finest Coleus or Begonia in the rich color of the leaves, which are beautifully marked with a bright green color margined with a wide irregular band of lemon yellow and having a wide yellow bar running lengthwise of the leaf, and also thickly dotted with yellow blisters. Its most important feature is its wonderful qualification for bedding, as it will stand bedding out like a Coleus; in fact, in the sunniest place it produces the highest coloring. 35e each; 3 for 70c, postpaid.

Artillery Plant

(Pfaffia Serpaeifolia.)

Graceful, frond-like leaves. When in flower, produces a snappy sound when water is thrown on the leaves. A thin, smoky vapor will also arise when the leaves are sprinkled. Altogether a very attractive novelty, besides being an ornamental house plant. Each, 15e; 3 for 40c. Postpaid.

Chinese Paper Plant

A magnificent pot plant, with splendid Camellia-like deep shining green foliage. Commences to bloom when small and continues throughout the year. When older it is literally covered with blossoms of a dazzling rosy crimson, with deep green yellow anthers. Each, 25e; 3 for 70c. Postpaid.

Rex or Painted Leaf Begonias

Rex Begonias are the most beautiful and desirable of decorative foliage plants for house and conservatory culture; they are strong, bushy growers and their grand ornamental leaves are exceedingly beautiful and always greatly admired. The leaves are extra large and colorings magnificent. These plants are grown for the great beauty of the foliage, as they make poor bloomers. Our collection contains many new and wonderful color combinations and will be sure to please all. Fine Young Plants, 35c each; 3 for 95c.

Finest Flowering Begonias

The Flowering Begonias are among our most beautiful and satisfactory flowers for house culture and bedding. They grow nicely, make neat, handsome plants, bloom constantly, and their pretty, wax-like flowers and glossy, bright-colored leaves and stems are always greatly admired.

OTTO HACKER—In a class by itself. A strong, vigorous grower, of fine upright habit, with large shining deep green leaves eight to ten inches long. Flowers bright coral-red, borne in immense clusters eight to ten inches across. Each, 25c.

ARGENTEA GUTTATA—It has pure-bronze leaves, oblong in shape, with silver markings and large trusses of white flowers. Each, 25c.

METALLICA—This elegant variety has very large, glossy leaves shaded with green, crimson and olive, with a peculiar metallic lustre over all. Flowers large, rose or pinkish white. It is one of the most popular, desirable and showy varieties in cultivation. Each, 25c.

SPECIAL OFFER

The full set, one each of the 8 flowering Begonias on this page, for $1.50, postpaid.

Watermelon Begonia

A Most Beautiful Ornamental Plant from the Sandwich Islands.

Excellent for display on the dinner table or parlor window. The leaves are distinctly variegated white and green, thick and waxy-like and have the appearance of being powdered with frosted silver. Price, 25c each; 3 for 70c, postpaid.

Our List of Plants for House Culture, also for outdoors has been carefully revised and is up-to-date and we offer only the most valuable, easily grown and popular varieties that cannot fail to give satisfaction.

CRYSTAL WHITE—A grand novelty. Large full flowers of the purest glistening white; very early and very floriferous. Undoubtedly the finest white has been awarded the American Carnation Society’s Gold Medal and numerous other prizes. 35c each.

PHILADELPHIA—New. A clear shell pink. 25c each.

LADDIE—A pure intense, glowing deep pink; flowers 3½ inches across and over; keeps well when cut; an early and continuous grower. 25c each.

MADAM BUTTERFLY—New. A giant variety, a wonderful grower, producing flowers on every shoot. Color glowing cerise with scarlet shading. A splendid flower in every way; carries everything before it on the exhibition table. Awarded Gold Medal of the American Carnation Society. 30c each.

SERGEANT YORK—The most brilliant scarlet. Stiff stemmed, early and very free flowering. 25c each.

The Novelty Carnation

“BLUE KING”

This greatest novelty in Carnations is a marvel of beauty, bearing a flower of entirely new and distinct shade, a color hitherto unknown in Carnations, which catches the eye at once and causes everyone to exclaim: “What an exquisite color!” The flower is best described by the words—bluish, purplish-crimson, rich, deep and intense, the blue shade being at all times very pronounced, with ox-blood shadings. Flowers very perfect, measuring 2½ inches across when well grown; long, strong stems. A healthy and vigorous grower, very fragrant and a fine bloomer. It is the richest and most startling color in the Carnation family. Price, 25c each, or 3 for 70c, postpaid.

Buckbee’s Carnations have been awarded
First Prizes at all leading Flower Shows.

Giant Flowering Collection

The Set of Four Mammoth Varieties Only 75c, Postpaid.

YELLOW TURNER—Lemon yellow of enormous size. Each 20c.

CRUSADER—Blossoms of enormous size, glistening white; the finest white Mum with covered petals. 25c each.

WM. BROOKS—An extremely handsome yellow. Color is bright and pure. 20c each, postpaid.

PACIFIC SUPREME—Flowers of immense size, deep rosy-pink. A handsome and striking variety. 15c each.

GLORY OF SEVEN OAKS

Perpetual blooming. Blooms profusely bedded out from June to December. Perfectly hardy in the open ground. Flowers 4 to 5 inches across on stems 2 to 3 feet. Begins blooming in thumb pots.

Flowers of the brightest golden yellow, double to the very center and of large size and borne in clusters of 5 to 6 on strong upright stems. 25c each; 3 for 70c.
CHRYSANTHEMUMS

Garden Collection
Early Hardy Outdoor Chrysanthemums

The Glory of the Fall Garden.

These are all very early varieties with full double, good sized flowers, selected for their earliness and hardness. They begin to bloom the last of August and being frost-resistant, will continue to flower profusely until a very hard frost. Often well into November giving color, life and beauty to an otherwise empty garden. They are also root-hardy and will stand the winter most anywhere if given some protection of litter or leaves.

CRANFORDIA—Large, deep bronze yellow; very early.

LESLEI—Rich buttercup yellow.

NORMANDIE—One of the earliest and best creamy white.

WINNETKA—Pure snow-white; free flowering, from July onward.

FIREFLY—Brilliant carmine shaded scarlet.

GOLDEN CRIMSON—Large, bright crimson.

EDEN—Rose pink.

PROVENCE—Large, bright pink petals with gold points.

ROSIE—Deep terracotta, large.

L'ARGENTAILLE—Deep chestnut.

PETIT LOUIS—Large, silvery mauve.

Any of the above varieties, 15c each. The set of the ELEVEN kinds for $1.55, postpaid.

Pompon Collection
Early Flowering Hardy Pompon or Button Chrysanthemums

The only sorts which are entirely hardy in the Northern States. Small but very double, perfect flowers which will bloom outdoors despite early frosts. Also grand as pot plants.

ACTO—Deep bright rose, 15c each.

GOLDEN WEDDING—Bright yellow, 15c each.

BLYDA CANNING—Reddish brown, 15c each.

LILLIAN DOTY—Bright yellow, 15c each.

SUNSHINE—Canary yellow, 15c each.

WHITE DOTY—Pure white, 15c each.

The set of these SIX Pompons for only 76c, postpaid.

Caprice Collection
Early flowering Chrysanthemums especially adapted to grow for pot plants, being short, compact-growing and producing a wealth of very large, double flowers.

BRETES—Golden bronze.

BUTLER'S CAPRICE—Deep pink.

KATHLEEN THOMPSON—Crimson.

LADY LYDIA—Pure white.

PURPLE CAPRICE—Purple.

YELLOW CAPRICE—Yellow.

Any of the above, 20c each. The set of SIX Caprices for $1.05, postpaid.

New Comet Plant
The most Unique Flowering Plant of the Century.

Fluffy, trailing, tall-like blossoms, soft crimson scarlet, 20 to 30 inches long on specimen plants. Try one or more of these fine plants; they are always in bloom. Fine plants, 15c each; 5 for 75c, postpaid.

New Double Daisy, Mrs. F. Sanders.

MRS. F. SANDERS—Flowers glistening white, frequently measuring five inches across. The center is a mass of closely arranged fringed florets, surrounded by broad shining petals. 30c each; 3 for 80c.

BLUE DAISY (Agatha Coelestis)—The flowers are daisy-shaped, of a delicate light blue with a yellow disc. Flowers all the year round. 15c each; 3 for 40c, postpaid.

PARIS DAISY—These plants are the favorites of all as they are of the easiest culture and make beautiful cut flowers. They are equally valuable as potted plants, blooming throughout the winter. 15c each; 3 for 40c, postpaid.

BLUSH QUEEN ALEXANDRA—The new Mammoth White Paris Daisy. Single, semi-double and often fully double blooms appear on the same plant. The flowers measure 2½ to 3 inches across. 15c each; 3 for 40c, postpaid.

YELLOW DAISY (Etoile d'or)—The New Yellow Paris Daisy; a rich golden color. 15c each; 3 for 40c, postpaid.

Crown of Thorns
The Great Biblical Plant.

On the Wild Rocky Hills of Judea this emblematic plant is found. Very peculiar, thorny, with a few bright green leaves and an abundance of light rose blossoms. Easy to grow, can be trained to assume any desired shape. Fine plants, 25c each; 3 for 70c, postpaid.

Cigar Plant
(Cuphea)

Bushy plants of neat habit about 15 inches high, bearing great numbers of narrow, tubular flowers, bright scarlet, with purple and white tips. Bright and attractive, always in bloom. These plants thrive beautifully in hanging baskets, vases, etc., are also fine as pot plants in the window and good for bedding outdoors. Each, 15c; 3 for 40c, postpaid.
BUCKBEE’S FULL OF LIFE FERNS

BOSTON FERN
This is one of the old standbys, and still one of the best. Its long, graceful, drooping fronds often attain a length of five or six feet in a single year. Fine young plants 25c, 30c and 40c each, postpaid. Larger plants $1.00, $1.50 and $2.00 each, by express, not prepaid.

MAIDEN HAIR FERN
Always in great demand for table and house decoration, will thrive nicely in parlor or living room, and grow more beautiful each year. Price, 30c each, or 3 for 85c, postpaid.

NEWPORT PARLOR FERN
Resembles the Boston in some respects, but grows more erect, has shorter, narrower fronds and makes three times as many of them. Thrives nicely in parlor or living room, requires very little attention. Fine young plants 25c to 35c each, postpaid. Larger plants $1.00, $2.00 and $3.00 each, by express, not prepaid.

NEW ROOSEVELT FERN
In general characteristics it resembles the Boston Fern, but it produces many more fronds, making it a busher and handsome plant. Fine young plants 25c, 35c and 45c each, postpaid. Larger plants $1.00, $2.00 and $3.00 each, by express, not prepaid.

THE NEW CRESTED FERN
Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid-rib, and so thick they seem almost crowded. It is a healthy, vigorous grower. Fine young plants 25c, 35c and 45c each, postpaid. Larger plants $1.00, $2.00 and $3.00 each, by express, not prepaid.

MOSS FERN
A new upright growing Moss with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain a height of twelve to fifteen inches. Always fresh and green. thinly grown. 25c, 35c and 45c each, postpaid.

THE OSTRICH PLUME FERN
A strong, vigorous grower, but the fronds are heavy and feathery, and arch over in a most graceful manner, showing two shades of green and producing a lovely mossy effect, which adds greatly to its beauty. Fine young plants 25c, 30c and 40c each, postpaid. Larger plants $1.00, $2.00 and $3.00 each, by express, not prepaid.

FERNS FOR FERN DISHES
We have grown a large quantity of small ferns suitable for fern dishes. Assorted varieties. Each 3c; 3 for 5c, postpaid.
LIBERTY SPECIOSA—The Greatest Novelty in Fuchsias.

The loveliest—flowering, dwarf-growing Fuchsia known. It is a superb and handsome novelty, rich sepals, profuse, postpaid, garden, with enormous perfectly formed flowers. Sepals bright scarlet, with rich violet-purple corollas. Vigorous growing, free flowering. A most charming window plant, remarkable for its constant profusion of exquisitely beautiful flowers, and really one of the most desirable Fuchsias in cultivation. 20c each; 3 for 55c, postpaid.

LITTLE BEAUTY—Certainly the finest Double White Fuchsia ever sent out; makes a neat compact plant, branches freely and is covered nearly all the time with exquisite large flowers, having brilliant deep scarlet sepals and a corolla of pure snowy whiteness. 20c each; 3 for 55c, postpaid.

BLACK PRINCE—This is, without question, the very finest Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. Blossoms of a beautiful waxy-carmine or pink color. Certainly a plant for easy culture. 20c each, 3 for 55c, postpaid.

TRAILING QUEEN—This Fuchsia is an entirely new departure, different from other large-flowering varieties in its habit of growth, as it is a trailing vine. The young plants, as they commence growth, creep out to the edge of the pot and then go trailing downward. It continues growing and branching in this way until the vines are a solid wavy mass of the most elegant foliage and perfect flowers. The flowers are borne in large, drooping clusters; very large, long, graceful sepals scarlet, corolla purple. 20c each; 3 for 55c, postpaid.

CARMELIATA—Undoubtedly the finest Double White Fuchsia ever sent out; makes a neat compact plant, branches freely and is covered nearly all the time with exquisite large flowers, having brilliant deep scarlet sepals and a corolla of pure snowy whiteness. 20c each; 3 for 55c, postpaid.

THE VERY BEST AND NEWEST VARIETIES, EASILY GROWN—SURE TO BLOOM.

A Valuable New BOOK of Practical Information. HOW TO GROW SEEDS AND FLOWERS. A complete guide for the house and garden, profusely illustrated. Price 3 cents postpaid, or we will send a copy FREE with an order amounting to $1.50 or upwards, if requested on the order.

SPECIAL OFFER

F-3 The entire collection of eight splendid Fuchsias described on this page for only $1.35, postpaid.
GERANIUMS

New Rare Large Flowering Double Sorts
THE PARIS SET of Six for Only 99c, Postpaid

AIDA—Pure snow white, a grand bedder. 20c each.
MISS F. PERKINS—Deep snowy pink. 20c each.
DOUBLE GENERAL GRANT—Intense light orange-scarlet. 15c each.
MARYLAND—Intense dazzling fiery red. 30c each.
MME. LANDRY—Plicates, aureole, pure snow white. 15c each.

Special Offer G5—The 2 sets of New Double Geraniums, Paris and London, for only $1.88, postpaid.

NEW AMERICAN BEAUTY GERANIUM
The Semi-Double of the Purest American Beauty Color.
The only Geranium of its color. The plants are compact, medium tall, of stately shape; lush green foliage with a brownish circle. The flower heads are gigantic and the individual blooms measure 7½ inches across; often as many as eight spikes have fully opened, several half open flowers and more are in buds. It surpasses all other Geraniums in brilliancy of color, in size of its blossoms and trusses and in constancy and profusion of blooms. Fine, strong.

DOUBLE NEW LIFE GERANIUM
A Curious and Beautiful Novelty.
Always scarce and difficult to obtain. The petals are dark red and in the center of each there appears a small pure white floret, giving the flowers a novel and curious appearance. Very beautiful when flowers are perfect, but variable and best for house culture. This is a grand and strikingly beautiful variety, but at the same time one of the most easily grown and satisfactory of all flowering plants. 25c each; 3 for 70c, postpaid.

New, Rare, Large Flowering Single Sorts
THE SUNSHINE SET OF SIX—For Only 95c Postpaid

SNOWDROP—Pure snow white without a tint. 15c each.
FEVER—Vermilion scarlet, beautiful and effective. 15c each.
COL. DARDE—An attractive tint of warm rose cerise. 20c each.
SALDA—Rich crimson pink, blotched white. 20c each.
TIPHON—Fiery scarlet, splendid truss and floret. 15c each.
OLYMPIA—A splendid pink, good grower and free bloomer. 20c each.

THE RAINBOW SET OF SIX—Only 94c, Postpaid

CLIFTON—Carmine purple, shaded red. 15c each.
EUGENE SUE—A brilliant shade of tawny orange. 20c each.
COUNT ZEPPELIN—Soft red with large truss. 15c each.
THEAI—Rose pink, clear and bright. 20c each.
ARDENS—Pure scarlet, a most effective bedder. 15c each.
VICTOR—A crimson shade of salmon pink. 20c each.

Special Offer G5—The 2 sets of New Single Geraniums, Sunshine and Rainbow, for only $1.76, postpaid.

Standard Single Sorts
NONSEUCH COLLECTION OF FOUR—Only 62c, Postpaid

LIBERTY—Immense trusses; color, bright salmon; the best and most beautiful salmon-colored Geranium. 20c.
GRANVILLE—Single clear rose pink. Immense bloomer, covered with flowers the whole season. 30c.
L'AUBE—One of the finest single large snow white varieties. 15c.
JACQUERIE—Single large rich scarlet. Immense trusses on very long stems; fine bedder. 15c.
BUCKBEE’S BEAUTIFUL GERANIUMS

Ivy Leaf Geraniums
These are among the prettiest flowers we have; they are of exquisite colors and borne in large clusters all the year round; the plants are of graceful, trailing growth, with bright, glossy ivy-shaped leaves; fine for pots, window boxes, vases, etc.; also for bedding.

ALLIANCE—Blush-white, upper petals feathered deep pink. 25c each.
RYCROFT’S SURPRISE—Champagne clear rose-pink. 25c each.
JOAN D’ARC—A beautiful pure white. 20c each.
ACHIEVEMENT—Rose with white eye. 20c each.
CAESAR FRANCK—Soft, rich crimson. 20c each.
SOUVENIR De CHAS. TURNER—Pink and maroon. 20c each.

THE SET OF SIX FOR ONLY $1.15 POSTPAID.

The Pansy Geranium
A Grand House Plant of easiest growth, dwarf habit, and literally covered with flowers all the time, and as it requires little or no attention it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of coloring. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. Strong plants, ready to bloom, 35c each; 3 for $1.00, postpaid.

Sweet-Scented Geraniums
20c each; 3 for 55c. The set of 5 for only 85c, postpaid.
LARGE LEAF ROSE—Indispensable in the formation of bouquets.
MRS. TAYLOR—Rose-scented. Flowers scarlet.
NUTT—Highly scented. Very valuable.
OAK LEAVED—One of the best fragrant sorts.
LEMON—Lemon scented. A grand variety.

Variegated or Silver Leaved Geraniums
Very pretty for bedding and edgings, but particularly valuable for pots and window culture.

HAPPY THOUGHT—Foliage beautiful green and yellow; magenta flowers. 25c each.
MAD. SALLYRIO—Foliage green, edged white. 15c each.
SILVER LEAVED S. A. NUTT—Remarkably beautiful variegated foliage, the green and white about evenly apportioned; flowers of the same character and color as the famous S. A. Nutt. 20c.
MRS. PARKER—Double pink flowers, leaves silver, margined white. 25c each.
MRS. POLLOCK—Leaves bronze-crimson edged yellow; pink flowers. 25c each.
WM. LANGGUTH—Pretty scarlet flowers, silver leaf. 25c each.

The Set of 4 for only $1.20, postpaid.

Pelargoniums

Pansy Geranium, Rycroft's Surprise.

Some of the most beautiful of our Summer and Fall flowering plants; they offer a rich and varied assortment of colors; easily grown.

EASTER GREETINGS—A New Everblooming Variety. Flowers large and free; bright amaranth red, each petal marked with a large black blotch. This variety is distinct from the rest, and remarkable on account of its long blooming season, producing its prime crop very early in spring and continuing throughout the Summer and Fall. 25c each; 3 for $1.00.

CRIMSON KING—Intense rich crimson, single flowers perfectly double and beautifully laced and ruffled, of glistening snow-white color, exceedingly beautiful. 35c each; 3 for $1.00.

MRS. ROBERT SANDIFORD—Extra large flowers perfectly double and beautifully laced and ruffled. 30c each; 3 for 85c.

MAD. THIBAUT—Bright pure pink; flowers perfectly double, 2 inches across; petals heavily ruffled. 30c each; 3 for 85c.

The Set of 4 for only $1.20, postpaid.

The Strawberry Geranium
One of the handsomest plants imaginable, a gem of many colors, exceedingly rare and beautiful. Leaves nearly round, and striped with silver bands; blooms white, of great beauty and borne in spikes nearly 12 inches high; of easiest growth. Adapted for hanging baskets, vases, etc.

Will stand neglect and mis-treatment. 20c each; 3 for 50c, postpaid.
NEW AND BEAUTIFUL FRENCH HYDRANGEAS

These new varieties are the showiest and most desirable decorative plants ever offered.

Grand low growing bushy shrubs; used for decorating lawns and porches during Summer; they bear enormous heads of flowers; not being entirely hardy are usually kept in tubs or boxes, set out in Summer and taken to cellar over Winter.

BABY BIMBINET—Without any question this is the best of the highly decorative French Hydrangeas. Dwarf, free flowering and early. Large compact trusses of silvery rose flowers which are very attractive. 30c each.

AVALANCHE—A splendid large white, which has made a reputation for itself during the past two seasons. Easy to grow and a sure bloomer. 30c each.

BOUQUET ROSE—Large trusses of well formed flowers, rose amber turning to bright pink; this is a favorite wherever shown. 30c each.

RADIANT—Very deep carmine; a color never before seen in a Hydrangea; this is one of the most effective in our collection. 35c each.

MME. AUGUSTA NONIN—Large flower of pale pink color; has become a general favorite the past few years. 20c each.

MME. E. MOUILLERE—The most popular white; very free flowering and of large size and fine form. 30c each.

Special Offer C3 One each of the 6 HYDRANGEAS. Fine, strong, young plants, for only $1.43, postpaid.

HELIOTROPES

These are universal favorites on account of their delightful fragrance. Flower equally well as bedding plants in Summer, or as pot plants during Winter.

MAD. DE BLONAY—Very beautiful. Pure white and sweet scented. Flower large and well formed. Splendid bloomer. 20c each; 3 for 55c.

CENTEFAUR—Strong, stocky growth, heavily corrugated dark foliage; immense clusters of semi-double flowers, rich purple. 20c each; 3 for 53c.

HIBISCUS

ORANGE QUEEN—Large, double, orange-colored flowers. Very novel and attractive. 20c each; 3 for 55c, postpaid.

BRILLIANT KING—Semi-double flowers of a bright vermilion-scarlet; petals waved and recurved; very handsome flowers. 30c each; 3 for 55c, postpaid.

APPLE BLOSSOM—This is a truly surprising house plant, the flowers are so immense and yet so beautiful that you can scarcely believe that they are not artificial in some way. It is a rapid, erect grower, with bright glossy green leaves and immense double flowers like those, 4 to 5 inches in diameter. Color rich bright pink, with deep crimson center; likes heat and moisture and begins to bloom very quickly. 35c each, 3 for 70c.

IVY

ENGLISH IVY—Queen Victoria—This is a truly hardy evergreen climbing vine, with dark glossy green leaves. Much used for covering walls of churches, etc., and for cemetery work; also one of the very best plants for house culture. 20c each, 3 for 35c, postpaid.

PARLOR OR ORIENTAL IVY—A quick growing trailing plant of delicate green foliage; fine for hanging baskets, etc. Each 20c, 3 for 55c, postpaid.

VARIEGATED GROUND IVY—(Glechoma)—A graceful and beautiful half hardy perennial creeping plant, which quickly and densely carpets the ground; equally attractive for vases or hanging baskets. The charming foliage is bright green and pure white, and emits a refreshing fragrance. Each 25c; 3 for 70c, postpaid.

Nightblooming Jasmine

(Cestrum Parqui)

An interesting tender shrub of easy cultivation, with waxy dark green leaves and open panicles of tubular, creamy white flowers. Ails entirely inodorous during the day, they fill the whole garden with fragrance at night. Grows rapidly. Blooms nearly all the year. Each 25c; 5 for 75c, postpaid.
New Aeroplane Plant (Russelia)
A Charming Basket or Vase Plant
A novel and beautiful plant, suitable either for bedding or pot culture. Has long, wiry, leafless stems, drooping and bearing quantities of long, tubular flowers of the most vivid scarlet color. Especially adapted for hanging baskets, vases, window boxes, etc., where a delicate and graceful effect is sought. It is literally covered with brilliant coral-red buds and flowers, the full size being three-fourths to seven-eighths inches long. The great drooping masses of bloom are like a fountain of coral, scarlet and green. Price, 30c each; 3 for 85c, postpaid.

Brazilian Plume Plant
A native of Brazil, of the easiest possible culture, and does well in all kinds of soil, and in any situation. It is a strong, rapid grower, and throws long shoots, each of which is tipped with the beautiful pink, plume-like flowers, the ends of every petal drooping in a most charming manner. It is a grand pot plant, commencing to flower when the plants are very small, and blooming profusely for several months out of the year. 25c each; 3 for 70c, postpaid.

Manettia Vine
One of the handsomest little vines, easily and quickly grown and blooms continuously. Adapted for hanging baskets, pot culture, vases or bedding. The flower is of the shape and about four times the size shown on bottom of our illustration, and of brilliant scarlet, tipped with clear golden yellow, making it most wonderfully attractive. Each 20c; 3 for 35c, postpaid.

New Climbing Lily-of-the-Valley
A beautiful new plant of climbing or trailing habit. It has beautiful heart-shaped leaves and branches freely. It is in bloom all the time, the pendulous blossoms appearing at the axils of the leaves and are bell-shaped, pure white, and about the size, form and color of Lily-of-the-Valley. Grows very rapidly and makes a lovely plant in a short time. Each plant, 20c each; 3 for 35c, postpaid.

Brazilian Plume Plant
A native of Brazil, of the easiest possible culture, and does well in all kinds of soil, and in any situation. It is a strong, rapid grower, and throws long shoots, each of which is tipped with the beautiful pink, plume-like flowers, the ends of every petal drooping in a most charming manner. It is a grand pot plant, commencing to flower when the plants are very small, and blooming profusely for several months out of the year. 25c each; 3 for 70c, postpaid.

New Aeroplane Plant
Weeping Lantana
MRS. McKEELEY—A fine plant, of graceful, drooping habit, producing flowers at each leaf-point. The flowers are a brilliant rose-like, borne in elegant clusters, and hundreds and thousands of them are in bloom all the time and literally cover the whole plant. One of the best varieties for hanging baskets. Each 20c, or 3 for 55c, postpaid.

Oleanders
Beautiful decorative shrubs for growing in tubs or boxes. Our list includes the best colors.
LUTEA Yellow—Large and very beautiful. Each 25c, postpaid.
LILLIAN HENDERSON, White—Magnificent, large, snow-white double blossoms. Each 25c, postpaid.
ROSY MORN, Pink—Large blossoms, 105c pink. Each 30c, postpaid.
VARIÉGATED—Leaves bordered with creamy white; flowers pink, very double. A magnificent plant, the contrast of foliage and delicate color of blossoms being very striking. Each 30c, postpaid.
SPECIAL OFFER 61. The full set, one each of the 4 varieties of Oleanders, for 90c, postpaid.
FRUITS
FOR POT CULTURE

SPECIAL OFFER A-1
FOR ONLY $1.65.
We will send by mail, postpaid, one each of the five rare tropical fruits illustrated on this page. Strong Selected Plants. Safe Arrival Guaranteed.

Surinam Dwarf Cherry
Ornamental as well as useful, both in flower and fruit. The fruits are rich bright red in color and most delicious flavor. Being of dwarf growth, it makes a most desirable pot plant. Strong plants, each 25c; 2 for 50c, postpaid.

Orchid Orange
An extra fine pot plant, with glossy leaves, the true fragrant Orange blooms and abundant little bright Oranges that will hang on the little bush like balls of gold for six months after they are ripe. Our price: Nice young thrifty plants, postpaid, 25c each. Extra large plants, by express, $1.50 each.

Buckbee's New Everbearing Ponderosa Lemon
A Lemon that can be easily grown in a pot as a Geranium and which produces fruit weighing from one to three pounds each. These enormous fruits are borne on plants one to two feet high growing in pots. It is everbearing and its fruit is delicious for lemonade and culinary purposes. The enormous Lemons have a thin rind and are full of acid juice. Will thrive in any good soil, either indoors or out. One of the very finest plants for house culture. Our price is for the very best plants: Select, each, postpaid, 25c. Extra large plants, by express, $1.50 to $2.00 each.

25 Handsome Pansy Plants $1.25
BY EXPRESS, NOT PREPAID.
50 Handsome Pansy Plants $1.25
100 Handsome Pansy Plants $3.00

ROYAL PURPLE PLANT
Stroblanthes. The leaves are beautifully variegated, with a deep metallic purple, shaded with dark rose and mottled light green. It is particularly fine for beds and borders and is entirely distinct from any other bedding plant. Grown as a pot plant in the house it is very bright and effective, when each 2 for 50c, postpaid.

Smyrna Fig
A dwarf variety imported from the far East, of compact, bushy growth, making little wood. As a pot or tub plant it is extremely valuable either indoors or outside. It will Winter safely in an ordinary cellar, or it can be allowed to harden off with a few frosts in the early Fall and then brought indoors for growing during the Winter. The fruit is of medium size, very sweet and almost seedless. Strong plants, each 45c; 2 for 85c, postpaid.

Strawberry Guava
Another luscious tropical fruit and charming house plant, rivaling the famous Orchid Orange in beauty. Like the Orange, it bears both flowers and fruit at the same time. The flowers are pure white and delightfully fragrant. The fruit is large, nearly the size of a walnut, of a beautiful reddish color, and delicious, sweet and spicy flavor. The plant begins to bloom and bear fruit while quite small. Price, strong plants, each 45c; 2 for 85c, postpaid.
**PALMS**

**LATANIA BORHONICA**—This is one of the very best Palms for house culture, so hardy as to thrive in any ordinary living room, in spite of heat, cold, dust or draught. Has elegant fan-shaped leaves, rich dark green, beautifully fringed. Grows easily, needs no potting or coxing. Fine plants, 40c each, postpaid.

**PHOENIX CANARIENSIS**—Beautiful and strong-growing Palm with glossy, dark green foliage. Sure to please and easily grown. Fine plants, 50c each, postpaid.

**SEAFORTHIA TRIANGULARIS**—A magnificent plant for jardinières or center of tropical room. Most graceful. Leaves of rare beautiful form. Fine plants, 40c each, postpaid.

**CHAMAKROPS EXCELSA** (Japanese Fan Palm)—One of the hardest of the Fan Palms. Foliage dark green; the segments of the fan-shaped leaves deeply cut, the edges covered with tooth-like spines. Grows from 15 to 20 feet high; very desirable for lawn decoration. Fine plants, 40c each, postpaid.

**KENTIA BELMOREANA**—Exceedingly popular parlor Palm. Decidedly rugged under all kinds of treatment. Fine plants, 50c each, postpaid.

**KENTIA FOSTERIANA**—Without exception the most hardy Palm in its class. Quite graceful and scarcely has an equal for table decorations. Fine plants 50c each, postpaid.

**Umbrella Palm**

As decorative as a palm. Hardy, useful and beautiful window plant for all seasons, always fresh, green and attractive. Invaluable as an aquatics plant. Stems 2 to 3 feet high, surmounted by whorls of leaves. Price 20c each, or 3 for 55c, postpaid.

**India Rubber Plant (Ficus Belgica)**

The India Rubber Tree is well known as one of the finest plants for the table and parlor decoration. It has large, thick olive green leaves and graceful polished stems. Will stand much more neglect than most plants. By express, not prepaid, fine plants, $1.00, $1.50 and $3.00 each.

**The Beautiful Tiger House Plant**

Sanseveria Zealanica

A beautiful decorative plant which will stand any amount of neglect and should be grown for positions where other plants do not thrive. It will grow where nothing else does, in a sunless window, a dark hall, a cool bedroom, or stand on the mantel. It will stand gas and dust, and grow freely in pots without a drop of water, yet remain as thrifty as ever. Singuarily beautiful, as well as easily grown. Erect, rigid, sword-like leaves which are thick and fleshy, a dark green color, with clouded bars of white. Fine plants, postpaid, each 25c; 3 for 70c. Larger plants, by express, not prepaid, $1.00 to $1.50 each.

**Australian Silk Tree**

A fine plant for house culture, of rapid growth, finely cut foliage. The young fern-like leaves are of a light brown color, the tips being covered with a soft down. Fine plants. When grown in pots, it will stand gas and dust, and will continue to grow, and remain beautiful without a drop of water, it is easy, thrifty and rich in growth, and will furnish material for all sorts of bouquets. Fine plants, postpaid, each 25c; 3 for 55c, postpaid.

**Lemon Verbena**

A universal favorite and invaluable for its pale green fragrant leaves, so graceful when mixed with bouquets. They retain their fragrance for weeks when dried. As a plant for the garden or for pots it is equally valuable. Price: 20c each; 3 for 55c, postpaid.

**Buckbee’s Large Flowering Double Petunias**

The Double Petunia is one of the finest bedding plants for masses of blooming beauty. The brilliancy and variety of its colors, combined with the long duration of its blooming period, render it invaluable for garden decoration. Our collection is unsurpassed for brilliancy of color and size of bloom. Price: Strong Plants, assorted varieties, 25c each; 3 for 70c, postpaid.

**Shower of Gold (Genista)**

A beautiful yellow flowering plant that grows and flowers freely with ordinary care, covering the plant literally with its rich golden-yellow blooms when well grown. A very popular plant for Easter decorations, at which time it is usually a mass of bloom. 20c each; 3 for 55c, postpaid.

**Swan Flower (Swainsonia)**

ALBA—This is a very beautiful plant, both for flower bed and house culture; blooms some time in May and will give a continuous show all season. Price, 25c each; 3 for 55c, postpaid.

**NEW DOUBLE VIOLETS**

**ROYALTY**—The new double Violet. Beautiful azure blue, of rare fragrance. Each, 25c; 3 for 70c.

**THE CALIFORNIA**—Flowers single, of immense size, color, clear violet purple. The fragrance is delightful. Each, 50c; 3 for 40c.

**GOVERNOR HERRICK**—Rich dark purple; single flowers of lovely fragrance. Each, 20c; 3 for 55c.

**IMPROVED MARIE LOUISE**—One of the finest double blue Violets grown. Very fragrant and a continual bloomer. Each, 40c; 3 for 55c.

**THE BRIDE**—A grand pure white variety. Flowers are double and immense in size, extra early and deliciously fragrant. Each, 25c; 3 for 70c.

**SWEET VIOLETS**

**WANDERING JEW** (Tradescantia)

**MULTICOLOR**—One variegated leaves, striped crimson, green and silver. A very rapid grower and excellent for hanging baskets, vases, window boxes, etc. Highly ornamented. 15c each; 3 for 40c, postpaid.

**NEW DOUBLE VIOLETS**—See page 171.
LADY ALICE STANLEY—A beautiful shade of deep coral-rose. Perfect in every way; magnificent, large, full, double blooms of great fragrance. 30c each; 3 for 85c.

LAUREN CARLE—Large, brilliant, velvety carmine flowers of perfect form and intensely fragrant. One of the finest Roses grown. 20c each; 3 for 50c.

MADAME RAVARY—Rich, deep canary-yellow, becoming lighter as the flowers expand; flowers of splendid form, full, double and very fragrant. 35c each; 3 for 70c.

MRS. CHARLES RUSSELL—Grand, rosy-pink blooms, fully as large as American Beauty on stems 3 feet long. Each 30c.

MRS. GEO. SHAWVER—Brilliant deep pink, very large blooms, carried on 3 to 4 feet stems. Each 25c.

BUCKBEE’S EVERBLOOMING MONTHLY TEA ROSES

4 Choice Varieties, one of Each, postpaid, for only 75c or 4 Larger 2-year-old Plants for $1.90.

GENERAL MAKTHER—Brilliant, glowing crimson-scarlet. Flowers very large, well formed and very fragrant. A splendid garden rose. 20c each; 3 for 55c.

KAISERIN AUGUSTA VICTORIA—Pure white, extra large finely formed flowers; very deep, very delicate and sweet. One of the finest Roses. 20c each; 3 for 50c.

RADIANCE—Color, brilliant carmine pink, large blooms. An ideal bedding variety of very free flowering habit. 30c each; 3 for 50c.

TIPPERARY—Soft golden-yellow, medium sized flowers, produced continuously in immense size; deliciously fragrant. A strong vigorous grower. 25c each; 3 for 45c.

Large two-year-old plants of the above varieties, each 50c.

BUCKBEE’S EVERBLOOMING MONTHLY TEA ROSES

9 Rare Varieties, the full Set, One Each, postpaid, only $1.80 or 9 Large 2-year-old Plants for $4.25.

BESSIE BROWN—Creamy white flowers of immense size; deliciously fragrant. A strong, vigorous grower. 25c each; 3 for 55c.

GRUESSE AU TEPLITZ—Dark, rich crimson with velvety flory-red center. So free blooming as to present a iPad of scarlet. 20c each; 3 for 55c.

MADAME CAROLINE TESTOUT—Clear, bright, showy flowers; very large and showy. An old favorite, ever beautiful, seldom out of bloom. 20c each; 3 for 55c.

MRS. AARON WARD—A distinct Indian-yellow, shading lighter towards the edges. Strong, vigorous, very free flowering. 25c each; 3 for 70c.

PHARISAE—Rosy white shaded salmon. Large, double flowers of splendid form. 25c each; 3 for 55c.

PRIMROSE—Coral-yellow in Spring and Summer, deeper in Autumn, with apricot shading. Large, double flowers, deliciously scented. 30c each; 3 for 55c.

RED RADIANCE—Clear cerise-red, which does not fade. Large, perfect, double blooms. 35c each; 3 for 70c.

WM. R. SMITH—Creamy white flowers with rose shading, of large size and elegant shape, perfect and double. 30c each; 3 for 55c.

Large two-year-old plants of the above varieties, each 50c.
ROSE COLLECTIONS

Hardy Baby Ramblers

CRIMSON BABY RAMBLER—A dwarf bush form of Crimson Rambler; is fully covered with large clusters of rich crimson-red flowers throughout the season. The size of the cluster and the number of its flowers is marvelous.

PINK BABY RAMBLER—The flower stalks contain 50 to 60 flowers and buds at one time. Flowers cerise pink, measuring two inches across, with a double row of twisted and striped petals. Hardy.

WHITE BABY RAMBLER—Of free, compact growth and very attractive. Produces double pure white flowers in great abundance.

Any of the Baby Rambler Roses, Fine Plants, 20c each; the set of 3 for 55c. Large two-year-old Plants, 45c each.

Famous Souupert Roses

CLOTHILDE SOUPERT—A strong dwarf grower and a truly wonderful bloomer, producing cluster after cluster of the finest formed flowers. In form they are perfectly full and double and deliciously sweet. The color effect is beautiful—ivory-white shading toward the center to silvery rose. Hardy everywhere.

WHITE SOUPERT—The Genuine White Souupert. Identical in every way with Clothilde Souupert except in color, which is ivory-white. Free blooming and hardy.

YELLOW SOUPERT—Everybody's Rose. The flowers are very double and are produced in immense clusters; buds exceedingly dainty. A strong upright, bushy grower. Color, white on beautiful light yellow ground; center, chrome yellow.

Any of the Souupert Roses, 20c each; the set of 3 for 55c. Large two-year-old Plants, 45c each.

Everblooming Cochet Roses

PINK MAMAN COCHET—Flowers of enormous size, very full and of great depth and substance. Color, clear, rich pink, changing to silvery rose. Deliciously sweet, a hardy, vigorous grower; flowers the whole season.

RED MAMAN COCHET (Mrs. B. R. Cant)—Magnificent, perfectly double flowers of a bright rose-red color, produced in wonderful profusion all season.

WHITE MAMAN COCHET—a sport of Pink Maman Cochet and identical with it except in color, which is pure snow white. The finest bedding Tea Roses in existence.

YELLOW MAMAN COCHET—One of the finest ever-blooming yellow Roses. Gracefully molded buds, magnificent, large, very double and sweet flowers of deep sulphur yellow color.

Any of the Cochet Roses, Fine Plants, 20c each; set of 3 for 75c. Large two-year-old Plants, 45c each.

Unexcelled La France Roses

PINK LA FRANCE—The color of this is an exquisite shade of silver pink tinged with crimson. The buds are large, beautifully forced and the open flower exceedingly handsome, with a delightful fragrance. In continuous bloom all Summer and late into the Fall until stopped by frost.

RED LA FRANCE—It is much deeper in color than its pink sister, being a brilliant rose pink, handsomely shaded deeper toward the center.

STRIPE LA FRANCE—The flowers are distinctly striped with pearl-white and satin-rose.

WHITE LA FRANCE—Silvery white, with the faintest tinge of rose blush. Buds and flowers are extra large and of splendid shape and exquisitely perfumed.

Any of the La France Roses, Fine Plants, 25c each; the set of 3 for 55c. Large two-year-old Plants, 45c each.
BUCKBEE’S HARDY HYBRID JUNE ROSES

AMERICAN BEAUTY—The National Rose of America. The largest, sweetest and best of all hardy Roses. Immense size, rich color, exquisite form and delicious fragrance, magnificent buds and large, deep, double flowers. Color is a rich, rosy crimson. Strong plants, postpaid, 35c each; 3 for $1.00. Large 2-year-old plants, 60c each.

CLIO—One of the most beautiful hardy Roses grown. Flowers very large, flesh color, shaded in center to rosy-pink. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

GLOIRE LIONAISE—Flowers large, pale yellow shaded with white, orange and fawn, buds beautiful, being long and pointed. Fine strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

GEORGE ARENDS or Pink American Beauty (New)—The color is a tender rose pink; the flowers are the same large size and beautiful form as the American Beauty. They are also delightfully fragrant. Strong plants, postpaid, 30c each; 3 for 85c. Large 2-year-old plants, 50c each.

MRS. JOHN LAING—Soft pink, beautiful form. Large size, exceedingly fragrant and free flowering. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

MRS. R. G. SHARMAN CRAWFORD—Color deep, rosy pink, outer petals shaded with pale flesh, white at base of petals; beautiful in every respect. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

PAUL NEYRON—Probably the largest Rose in cultivation and one of the best bloomers. Color a bright shining pink, clear and beautiful. Strong plants, postpaid, 35c each; 3 for 70c. Large 2-year-old plants, 50c each.

PRINCE CAMILLE DE ROHAN—The Black Hardy Rose. Large, handsome, fragrant flowers. Color deep, rich, crimson maroon, shaded black. Postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

ROGER LAMBELIN—The finest variegated hardy Rose. Glowing crimson edged with white band. Strong plants, postpaid, 35c each; 3 for 85c. Large 2-year-old plants, 50c each.

ULRICH BRUNNER—Cherry-red, brilliant and showy; immense fragrance. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

Hardy Memorial or Evergreen Roses

Sometimes called the Wichuriana Rose, but appropriately classed as "Memoriale" because everywhere acknowledged to be the most suitable and satisfactory Roses for cemetery planting. They will climb when trained, or if let alone creep along the ground as closely as an ivy and make a dense mat of shiny dark green foliage, which will remain green on the plants nearly all Winter.

SNOW WREATH—The famous, pure white cemetery rose. Hardy as grass, will grow in sun or shade, poor ground or rich. Makes a beautiful display of blossoms, very large. "Daisy" type; brilliant white, 3 inches across. Strong plants, postpaid, 35c each; 3 for 85c. Large 2-year-old plants, 50c each.

JERSEY BEAUTY—Elegant single flowers. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

HIAWATHA—Brilliant scarlet, bears large clusters of single flowers; very effective. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

SUNSET—Yellow, with reddish brown centers. Strong plants, postpaid, 25c each; 3 for 70c.

RANDELL—France—One of the best flowers, very fragrant. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

SWEETHEART—Bright, rich pink, with orange red stamens. Flowers single, of good size and very fragrant. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

UNIVERSAL FAVORITE—Double bright pink, equally as beautiful as the double white and a charming companion for it. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

Beautiful Hardy Moss Roses

A class of Roses which are much admired. The beauty of the flower consists of the delicate mossy covering which surrounds the bud, and which gives the opening flower a unique appearance. They are strong, vigorous growers, perfectly hardy.

HENRY MARTIN. Rich deep rosy red, tinged with crimson; large globular flowers, very full and sweet; finely mossed. Price, strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

MOUSSILINE. Large cluster of snow-white, extra large, full and double flowers delightfully perfumed; buds thickly covered with lovely deep green moss. Price, strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

PRINCESS ADELAIDE. Rich, glossy pink, tinged with crimson; large globular flowers, very full and sweet; finely mossed; one of the finest. Price, strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

Special Offer C-9

One each of these three beautiful Moss Roses in strong one-year-old plants, postpaid, for only 70c. or one each of the 3 large 2-year-old plants, for $1.40.
THE BEST HARDY CLIMBING ROSES

CLIMBING AMERICAN BEAUTY—One of the finest climbing roses. Same size and same dark rosy-crimson color and exquisite fragrance as American Beauty, but blooms more profusely, not only in Spring, but throughout the season. Strong plants, 35c each. 3 for 85c, postpaid. Large 3-year-old plants, 60c each.

AMERICAN PILLAR—Popular single, hardy climbing rose of a brilliant carmine-rose with white eye and yellow stamens; they are 3 to 6 inches across. Strong plants, 25c each; 3 for 70c, postpaid. Large 2-year-old plants, 45c each.

MAECHAL NEIL—Golden yellow. Its magnificent buds are known the world over. A rapid grower, making shoots 20 feet high in a single season. Fragrance delicious. Fine plants, postpaid, 35c each; 3 for 70c. Large 2-year-old plants, 50c each.

PRAIRIE QUEEN—Bright, rosy-red, large, globular flowers. A rapid grower and always popular. Strong plants, 20c each; 3 for 50c. Large 2-year-old plants, 60c each.

EXCELSA OR RED DOROTHY PERKINS—The flowers are very double, produced in large clusters of 30 to 40 and of an intense crimson-maron with the tips of the petals tinged scarlet. Strong plants, 25c each; 3 for 70c, postpaid. Large 3-year-old plants, 50c each.

TRIER—Flowers creamy white, semi-double, produced in large clusters freely and continuously. Strong plants, 20c each; 3 for 50c. Large 2-year-old plants, 45c each.

TAUSENDSCHON OR 1500 BEAUTIES— Entirely distinct, rapid growing and almost thornless. Flowers are very large, fully 3 inches across and show every shade from pure white to deep pink. Fine plants, postpaid, 30c each; 3 for 50c. Large 3-year-old plants, 45c each.

WHITE DOROTHY—A pure white sport of the well-known Dorothy Perkins of the same habit of growth and freedom of flowering. Fine plants, 25c each; 3 for 50c, postpaid. Large 2-year-old plants, 60c each.

IMPROVED YELLOW RAMBLER—Large clusters of medium sized full double flowers of a soft butter yellow, deepening to golden yellow in the center. Fine plants, 25c each; 3 for 50c, postpaid. Large 2-year-old plants, 45c each.

IMPROVED CRIMSON RAMBLER—Absolutely hardy, vigorous grower, prolific bloomer, producing a gorgeous mass of crimson blossoms which remain on the plant a long time. Often grows 12 to 15 feet in a single season. Fine plants, 25c each; 3 for 50c, postpaid. Large 2-year-old plants, 45c each.

NEW HARDY CLIMBING BABY RAMBLER

A new member of the Climbing Rose class, with all the freedom of bloom and bright coloring. The past year, this climbing "sport," has proven very attractive, vigorous in growth and with a continuous show of bright colored bloom, clusters fully as large as those of Baby Rambler, produced all through the Summer. The foliage is bright green, thick and healthy, not so liable to mildew as the old Climbing Rambler whose unsightly foliage has been cause for annoyance to every Rose lover. Strong plants, 25c each; 3 for 70c. Large 2-year-old plants, 45c each.

THE BLUE ROSE

Veilchenblau or Violet Blue—Newest Climbing Rose "The Sensation of the Century" After years of effort rosarians have been rewarded by the production of a Blue Rose, which will be welcomed with the greatest interest by all lovers of the garden. This new climbing Rose surpasses all others of recent introduction in having a pure blue color. The flowers appear in large clusters after the manner of the Climbing Rambler, and are semi-double and of medium size. Upon first opening the color is partly bright red and partly bright rose, turning soon to a steel blue. The color is best described by saying that it resembles that of early violas. This variety is a strong grower, showing good foliage and few thorns. Strong plants, 25c each; 3 for 70c, postpaid. Large 3-year-old plants, 50c each.

FLOWER OF FAIRFIELD

The Ever Blooming Climbing Rambler

The Most Wonderful Garden Rose Introduced for Years

For many years past it has been the endeavor of every Rose grower to produce a climbing variety that would be of perpetual flowering habit. The many beautiful varieties of Rambler Roses were valuable acquisitions, but none of them could be called perpetual or ever-blooming, they producing only one crop of flowers during the season. The Flower of Fairfield, however, is correctly termed a perpetual blooming variety. It commences flowering in the Spring or early Summer and produces repeated crops of bloom up to the Autumn. Flower of Fairfield blooms very profusely on young wood the first year after planting. It is very effective for covering walls, trellises or arches, and is equally attractive for table decoration or other uses as cut flowers. Strong plants, 25c each; 3 for 70c, postpaid. Large 3-year-old plants, 50c each.
CHOICE HARDY ORNAMENTAL SHRUBS

No flowering plants are more worthy of cultivation than shrubs, and none can be cultivated more easily.

HARDY BUTTERFLY BUSH OR SUMMER LILAC VEITCHI—A pretty shrub of spreading habit, growing 4½ feet high and flowering freely the first season. The long tapering flower-spikes, often 12 to 15 inches long, are covered densely with lilac-like violet-mauve colored blooms from June till frost. Delightfully fragrant. During the Summer this plant is a place for butterflies, and for this reason it is named the "Butterfly Bush." Price, strong, thriving plants, 20c each; 3 for 50c, postpaid.

ASIATIC—The white Butterfly Bush, with pure white fragrant flower-spikes, larger and finer than the above variety. Not quite hardy in the North. It is a glorious pot plant for winter blooming. Each 25c; 3 for 75c, postpaid.

SWEET SCENTED SHRUB

CALYCANTHUS—Of spreading growth, bearing throughout the Summer great numbers of double, dull brownish purple flowers, covered with spikes of delightfully fragrant white flowers, produced from July to October, when flowers are of such value. A hedge of it fully equals the wonderful Jessamine hedges of the South, both in beauty and fragrance. Strong plants, each 35c; 3 for $1.00, postpaid.

SWEET PEPPER BUSH

CLETHRA ALNIFOLIA—A low-growing shrub with dense, pale green foliage, covered with spikes of delightfully fragrant white flowers, produced from July to October, when flowers are of such value. A hedge of it fully equals the wonderful Jessamine hedges of the South, both in beauty and fragrance. Strong plants, each 35c; 3 for $1.00, postpaid.

FORSYTHIA

Fortune's (Golden Bell) PERSIAN TREE LILAC

TARTARICA (Tartarian Honeysuckle)—A bush with numerous upright, spreading branches. The flowers are of pink color, are borne in great profusion in late Spring, and contrast beautifully with the scarlet and crimson foliage. The fruit clusters are large and black, ripen in late Summer, persist till Fall, and are very showy. Strong plants, 35c each; 3 for 75c, postpaid.

GRANDIFLORA—Large bright red flowers striped with white; blooms in June. The two honeysuckles appear to be advances of it if planted together. Strong plants, 25c each; 3 for 75c, postpaid.

PERSIAN BLUE, 35c each; 3 for $1.00, postpaid.

PERSIAN WHITE, 35c each; 3 for $1.00, postpaid.

NEW HYDRANGEA "HILLS OF SNOW"

Immense snow-white panicles of blooms, literally covering the bush, absolutely hardy, standing 20 degrees below zero without injury. This magnificent, hardy American shrub, is the latest addition to this class of plants found in many a year. The heads of blooms, produced in marvelous profusion, covering the bush with a magnificent mass of glistening pure white flowers. One of the most valuable characteristics is its coming into bloom just after the flowering of all the large bush shrubs, while its long season from early June, through September, renders it doubly valuable as there is no shrub so grandly decorative. The large heads of bloom are superbly attractive, and the habit of the plant is excellent. Strong plants, postpaid, each 25c; doz. $2.50. By express, not prepaid, larger plants, each 50c; doz. $5.00; or extra large plants, each 75c; doz. $7.50.

HYDRANGEA—PANICULATA GRANDIFLORA

The Most Popular of All Hardy Shrubs.

Hundreds of thousands of them are sold every year, and the demand is constantly increasing. Unsurpassed for the town, a hedge, or for garden planting. It readily attains a height of 5 to 7 feet; hardy in all localities, needs no protection in Winter; blooms the first and every season in July and August and continues to bloom for two or three months; the flowers are masses, cone-shaped, sometimes 1½ inches in length, and changing from the original pure white to pink, and finally planted a beautiful rich coppery red. Fine plants, postpaid, each 25c; doz. $2.00. Larger plants, by express, not prepaid, each 50c; doz. $5.00. Extra large plants each 75c; doz. $7.50.
Buckbee’s Hardy Ornamental Shrubs—Cont’d.

SPIREA

BRIDAL WREATH—This lovely old-fashioned shrub is always popular, and justly so, because of its real beauty; bears large spirals of densely crowded double white flowers, each blossom like a miniature rose, the entire length of the branches—and they appear by the million—hence the common title of “Bridal Wreath.” A beautiful floral wreath is made at once by bending and tying the ends of the branch together. Fine plants 35c each; 3 for $1.00, postpaid.

ANTHONY WATERER—A perpetual bloomer. Makes a dwarf bush 18 to 24 inches high, covered from Spring until late in the Fall with large heads of lovely crimson flowers, borne in dense clusters and have a peculiar feathery appearance, which is beautiful. Fine plants 35c each; 3 for $1.00, postpaid.

SNOWBERRY

A well known dwarf shrub with small pink flowers and large white berries that hang on the plant the greater part of the winter. Strong plants, each, 25c; 3 for 70c, postpaid.

SYRINGA MOCK ORANGE

PHILADELPHUS CORONARIUS—Beautiful creamy white flowers, deliciously fragrant and borne in great profusion. A very showy and desirable shrub. Strong thorny plants, 35c each; 3 for 70c, postpaid.

THE NEW HARDY JAPANESE SNOWBALL

This Japanese variety of the old-fashioned Snowball is one of the grandest and most striking of all hardy shrubs. It forms an erect, compact plant, 6 to 8 feet in height, blooms in June and for a long time the plants are filled with hundreds of big snowy balls that glisten with otherworldly whiteness like gems in the sunlight. Price 25c each; 3 for 70c, postpaid.

ROSEA NANA VARIEGATA—One of the most useful dwarf shrubs with beautiful leaves, broadly variegated green, pink and creamy white; the flowers are delicate rose-pink. When in its double beauty of bloom and foliage it is without a peer. Strong plants, 30c each; 3 for 85c, postpaid.
Hardy Ornamental Climbers

Ampelopsis

VIETCHII (Boston or Japan Ivy)—The fashionable and most hardy wall climber of the day. Clings tightly to rock, brick, etc., and it is a wall of living green the summer through, turning in Autumn to a flaming crimson, when it is certainly gorgeous. It stands the dust and dry air of cities admirably. Strong plants, 35c each; 3 for 70c, postpaid.

ENGLEMAN’S IVY (Englemannii)—A desirable variety with clinging tendrils by which it will climb walls or trees and cling as close as the Boston Ivy. The foliage resembles Quinquefolia, but it is much more dense. Strong plants, each $1.00, postpaid.

VIRGINIA CREEPER (Quinquefolia)—A native vine of rapid growth. With large, luxuriant foliage, which in the Autumn takes on the most gorgeous coloring. Strong plants, each 35c; 3 for $1.00, postpaid.

Honeysuckles

Favorite vines of strong, rapid growth in any soil or location. They are well adapted for all trellis-work, for climbing over arbors, for training to posts and along fences. They are beautiful when used for ground-cover to ramble in a wild and natural way. The vines take root where they touch the ground, and this habit makes them suitable also for retaining purposes on slopes and banks. They withstand shade and make a good ground cover in places where grass will not grow.

HALLEANA (Hall’s Japan)—For real home vines there is nothing better than Honeysuckles, and Halleana is considered by many the sweetest and most beautiful of all. It is a strong, rapid grower, perfectly hardy. Blooms constantly and profusely from June to November. Flowers are pure white, changing to yellow and of peculiarly delicious fragrance. Fine for trellises or pillars. Foliage bright, glossy green; makes dense shade. Strong plants, each $1.00; or 3 for 35c, postpaid.

GOLDEN LEAVES—Marvelously effective. It bears innumerable sprays of the most perfect little leaves, that are covered with a network of gold and green, often marked with pink also. A strong grower with white blossoms. A unique vine. Strong plants, 20c each, or 3 for 35c, postpaid.

SPECIAL OFFER G1—One fine plant each of the two Honeysuckles for only 35c, postpaid.

Mountain Beauty Vine

(Antigonon Leptopus)

A beautiful new Climbing Vine, not quite hardy here, but especially recommended for the South and Pacific coast. It is a vigorous, free-covering plant, suitable for covering porches, verandas, etc.; has handsome foliage and is covered for months at a time with splendid clusters of rose-pink flowers of the most exquisite color; leaves heart-shaped. Price, fine strong plants, 35c each, or 3 for 70c, postpaid.

Matrimony Vine

A vigorous, hardy climbing plant. It covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long. It will grow and thrive in any situation, either shade or bright sunlight. Strong plants, each 25c; 3 for 50c, postpaid.

The Wonderful

Hardy Japanese Kudzu Vine

(Pueraria Thunbergiana, "Jack and the Bean Stalk" Vine)

The most remarkable and rapid growing of all hardy vines, often making a growth of fifty to seventy-five feet in one season and flourishing when nothing else will grow; will last for 25 years or more. In the North the plant dies to the ground in Winter, coming up again from the roots in the Spring. It has clusters of delightfully fragrant purple flowers all Summer and Autumn. The large, beautiful, deep green leaves afford a dense shade, making it invaluable for covering porches, arbors, fences, old trees, etc. Price, strong 1-year-old roots, 20c each, or 12 for $1.75. Large 2-year-old plants, each 30c; 12 for $3.75, postpaid.

Trumpet Creeper

(Bignonia Radicans)

A familiar, high and rapid growing vine, with rich green foliage and large, showy, trumpet-shaped scarlet flowers. Very desirable for covering summer-houses, training over arbors, and to climb over trees, rocks and rustic bridges. Bignonias will grow in almost any soil and are very hardy. Strong 2-year-old plants, each, 30c; 3 for $1.00, postpaid.

Chinese Wistaria

One of the most elegant and rapid growing hardy climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a single season. Bears an abundance of long, pendulous clusters of purple-lilac flowers in May and June and again in Autumn. Price, large 2-year-old plants, 35c, postpaid.
PAEONIES

No flower exceeds them in popularity, and none are more easily grown. Everyone knows the old-fashioned "Pony" of our grandmother's garden. There is no other flower that will give you such an attractive display of flowers and supply of cut flowers. When once planted they practically take care of themselves, and are well adapted for planting in the border bed or in solid beds. They are among the showiest and most useful of all hardy plants.

Each
Chieftain—A deep rich red 85c
Delicatissima—Delicate pink 59c
Dorchester—Shell pink 59c
Duchess de Nemours—Large white 40c
Duke of Wellington—Sulphur-white 45c

Special Offer E7 3 best Paeonies, one each of Festiva Maxima, Delicatissima and Rubra Superba for only $1.24, postpaid.

Special Offer E8 One each of Chieftain, Venus and Zada Paeonies for only 89c Postpaid.

JAPANESE IRIS

The magnificent Iris are among the most beautiful of our Summer-flowering plants, and are becoming more popular every season. They commence blooming about the middle of June, and continue for three or four weeks. Many of these flowers measure from 10 to 12 in. in diameter, and rival the Orchids in their rich colorings and markings. For cut flowers they should be cut in the bud state, allowing the bloom to expand when placed in water. Price, postpaid.

Choice Mixed, all colors, each 25c, $2.50 per doz.

HARDY PHLOX

No class of Hardy Perennials is of more importance than the Phlox which succeed under almost any conditions and flower from the end of June until late in the Fall; and while they will continue in good condition and flower freely for many years without attention, still they are much improved by liberal cultivation. There are quite a number of different varieties, but we offer only the latest and best varieties and entirely distinct sorts, the finest in their respective colors. Our select assortment contains the very cream of the Phlox family.

Prices, any of following, unless noted, 20c each; $2.00 doz.
ALBION—White, suffused pink and pink eye.
ELIZABETH CAMPBELL—Light salmon-pink with dark red eye. Each, 25c; doz., $2.50.
EUROPA—Pure snow-white with crimson eye, immense florets and trusses.
MRS. JENKINS—Pure snow-white; elegant trusses and flowers. The finest white Phlox.
JEANNE D'ARC—Pure white, late

KATIE—Deep reddish violet with deeper eye. One of the darkest.
RIVERTON GEM—Mauve-rose with crimson-red eye.
RHYNSTROM—Carmine-rose.
THOR—Deep salmon-pink with a scarlet glow. Each, 25c; doz., $2.50.
WIDAW—Lovely violet-blue with white eye.

SPECIAL OFFER E 11: One each of the above 10 Hardy Phlox, postpaid, $1.75.

MIXED HARDY PHLOX—A fine assortment. Each, 15c; doz., $1.50, postpaid.
BUCKBEE'S CHOICE
"FULL OF LIFE"

HARDY PERENNIAL PLANTS

The old-fashioned hardy garden flowers are very popular, and deservedly so. No feature of the garden can be more satisfactory than a good assortment of these hardy plants, producing from early Spring to late in the Fall a continuous succession of charming flowers, which are equally valuable for garden ornamentation and cutting purposes. No class of plants will yield better or more pleasing results for the money invested. They require very little care or attention, are perfectly hardy and yield a rich harvest of bloom.

LADY IN WHITE (The Famous Cemetery Plant)—One of the very best white flowered plants for the border. The flowers are borne in the greatest profusion the entire Summer on strong, erect stems, pure white in color. Select plants, postpaid, 20c each; 3 for 50c; $1.95 per doz.

AQUILEGIA (Columbine)—Long-spurred varieties of many rich and varied colors and with broad petals. Two feet high. Columbines are a most important part of the hardy garden and should be grown in quantity. With their airy grace they will serve to lighten up a too stiff and formal planting. Their lasting flowers and long stems are also splendid for cutting. Prices, postpaid, 20c; 3 for 50c; $1.95 per doz.

ARMERIA (Thrift)—Attractive, dwarf plants for low edgings, forming rosettes of narrow evergreen leaves on the ground, from which they send up stiff, wiry stems with dense heads of flowers; bloom all season. Pink and white flowers. Prices, postpaid, 25c; 3 for 70c; $2.50 per doz.

BABY’S BREATH (Gypsophila Paniculata)—A beautiful old-fashioned plant possessing a grace not found in any other perennial. Beautiful pure white flowers. Plants grow 2 to 3 feet in height and about the same in diameter. Each 20c; 3 for 50c; $1.95, postpaid.

CANTERBURY BELLS (Campanula Medium)—Beautiful large bell-shaped flowers in blue, blue and white colors. This medium is the most satisfactory of the Campanulas. It grows 2 feet high on good soil and blooms for a long time. If flowers are cut immediately upon fading and if planted in a half-shady place. Mixed colors. Each 20c; 3 for 50c; $1.95, postpaid.

CHIMNEY BELL-FLOWER (Campanula Pyramidalis)—The most conspicuous of the Campanulas, producing spikes 4 to 6 feet high, crowded with salver-shaped flowers July till frost. Colors: blue and white. Each 25c; 3 for 70c; $2.50.

COREOPSIS (Lanceolata Grandiflora)—One of the most popular hardy plants. The flowers are of a rich golden yellow and invaluable for cutting; continues in bloom the entire Summer and Fall. Each 15c; 3 for 40c; doz. $1.00, postpaid.

CORN FLOWER ASTER (Stokesia)—A most charming and beautiful native plant. Grows from 18 to 24 inches high, bearing freely from early in July until October its handsome Corn Flower-like blossoms, which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. Mixed colors, blue, purple, pink, yellow and white. Each 20c; 3 for 50c; doz. $1.95, postpaid.

DAISY SHASTA (Alaska)—The very best daisy. These new Hybrids of Shasta Daisy give us flowers of different forms and a large range in shape from fully double to single; and in color from pure white to pale lemon yellow—some solid color, some prettily variegated with yellow disks. The plants are very free flowering and in bloom throughout a long season, making as effective a field show and as profitable a cut flower supply as any hardy perennial grown. Each 20c; 3 for 50c; doz. $1.95, postpaid.

DELPHINUM OR LARKSPUR (Gold Medal Hybrids)—These flowers are being used with telling effect in our parks and public grounds. They are one of the few hardy blue flowers of any note. By cutting off the flowers as soon as faded, a second and third crop will succeed. Each 20c; 3 for 50c; doz. $1.95, postpaid.

FOX GLOVE (Digitalis)—Another good old-fashioned but dignified and stately perennial. The strong flower stalks—often 4 to 6 feet high—always give an appearance of strength wherever planted. Mixed colors. Each 20c; 3 for 50c; doz. $1.95, postpaid.

GAillardia Grandiflora—One of the showiest and most effective hardy plants, about 3 feet high, and continuous bloomers from June till cut down by the frost. The flowers are of gorgeous coloring: the center is of dark red-brown, with petals marked with rings of brilliant crimson, orange and vermilion. Excellent for cutting. Each 15c; 3 for 40c; doz. $1.50, postpaid.
HIBISCUS (Mallow) CRIMSON EYE—Noble, shrub-like plants, 3 to 4 feet high, large fine green foliage and flowers of immense size, pure white, with a large spot of deep velvety crimson in the center. Each 26c; 3 for 50c; postpaid.

NEW GIANT RAINBOW HIBISCUS—The most notable and striking introduction of hardy perennial plants for many years. Plants 6 feet high, with huge blossoms 10 to 12 inches across, in white and all shades of pink, rose and scarlet. These flowers remain open all day, whereas other Malvaceae close about noon, and they are producers from July till frost. Each 25c; 3 for 70c; doz. $2.75, postpaid.

HOLLYHOCK—Few hardy plants combine as many good qualities as the Hollyhock. The flowers form perfect rosettes of the most lovely shades of color. It requires a rich, deep soil, well drained, and will repay a quantity and elegance of bloom any extra care. A slight protection during the Winter will be beneficial. Each 30c; 3 for 50c; doz. $1.95, postpaid.

MONARDA DIDYMUM (Pea Balm, Oswego Tea, Mint)—Showy plants 2 to 3 feet high, with aromatic foliage and brilliant crimson-scarlet flowers from July to September. Each 25c; 3 for 50c; doz. $1.95, postpaid.

MYOSOTIS—A true Forget-me-not. Azure blue flowers, hardly ever out of flower, useful in shady spots. Price 15c each; 3 for 40c; doz. $1.95, postpaid.

PHYSOSTEGIA (False Dragon Head)—Native perennial. 2 to 4 feet high, forming dense bushes and bearing all Summer showy spikes of pretty, tubular flowers of delicate pink color, resembling a large heather. Prices, postpaid, 25c each; 3 for 50c; $1.95 per doz.

PINKS, HARDY GARDEN—Old favorites bearing their sweet clove-scented flowers in the greatest profusion during the Summer months. Each 20c; 3 for 50c; doz. $1.95, postpaid.

POPPIES, ORIENTAL—Nothing can equal these Poppies during their period of flowering for a gorgeous display of rich, brilliant coloring. Select plants, price, postpaid, 25c each: 3 for 70c; $2.50 per doz.

PLATICodon (Balloon Flower)—Neat, branching bushes, 2 to 3 feet high, with 10 to 12 stalks covered with large bell-shaped flowers from July till September. Blue and white flower. Each 20c; 3 for 50c; doz. $1.95, postpaid.

RUBDECKIA, GOLDEN GLOW—It is a question whether any other hardy perennial has ever met with greater popularity than this. It is a strong, robust grower of 3 to 4 feet, and produces masses of double golden yellow cactus dahlia-like flowers from July to September. Price 20c each; 3 for 50c; $1.95 doz., postpaid.

SAGE, VARIEGATED—Pretty, dwarf bushes about one foot high, with small oval leaves neatly margined yellow; very fine for edging. This is a hardy perennial, the leaves may be used for the same purposes as the common herb. Price 20c each; 3 for 50c; $1.95 per doz., postpaid.

SILENE ORIENTALIS (Catchfly)—Dwarf, charming plants with large heads of dark rose flowers appearing continuously from Spring till frost. Suitable for edging and for rock gardens. Prices, postpaid, 20c each; 3 for 50c; $1.95 per doz.

SWEET WILLIAM (Dianthus Barbatus)—Beautiful old-fashioned favorite border plant. The stock we offer has been grown from a select strain; varied colors. Price 15c each; 3 for 40c; $1.50 per doz., postpaid.

TRITOMA (Red Hot Poker Plant)—Surpasses the finest Cannas for attractiveness and brilliancy; blooms incessantly from August until November. Plants show from six to ten grand flower stalks all the time, each holding at a height of 3 feet a great cluster of flame colored flowers. Prices, postpaid, 25c each; 3 for 70c; $2.50 per doz.

VIOLET, HARDY ENGLISH—This Violet is entirely hardy; of a deep Violet purple color and most deliciously fragrant and perfectly double. Will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the Hardy English Violet. Prices, postpaid, 23c each; 3 for 70c; $2.50 per doz.
MONEY MAKING STRAWBERRIES

The QUEEN OF ALL BERRIES

STRAWBERRY PLANT ORDERS

Will be shipped direct from our Strawberry Farms and cannot be shipped with other goods. Send your orders in early and they will be filled in rotation, just as early in the Spring as possible.

WHEN WE SHIP STRAWBERRY PLANTS—In this locality, we can make Fall shipments if desired. We ship Strawberries during the months of March, April, May, October, and November only. Be sure to get the ship date you want your plants shipped when ordering. Otherwise, we will use our best judgment.

Our plants are suited to all soils and climates. 100 plants will supply an ordinary family for good growing season. Set out Buckbee's "Full of Life" STRAWBERRY PLANTS. Start Right! Get the Best. ORDER EARLY.

We Warrant all shipments of Strawberry Plants to reach purchaser's hands in good growing condition and when so accepted, no orders will be duplicated or replaced for any cause.

EVERBEARING OR FALL-BEARING STRAWBERRY

A dish of luscious strawberries in Fall is a luxury which everyone who owns a garden could enjoy. Plant at least a dozen plants, but if you can spare the room plant 100 or more. Keep all blooms picked off in Spring and do not allow the plants to bear regular crops in June, thus conserving their strength for the Fall crop.
BUCKBEE'S SELECT LIST OF SMALL FRUITS

BLACKBERRIES

Burbank's Thornless Blackberry.

Burbanks New Thornless. The finest flavored, heaviest cropping, best appearing berry ever grown, easily harvested, sure to please—This new variety is the peer of all the Mammoth Blackberries and produces a berry superior to any other, on vines which are absolutely free from thorns. The canes start to grow early in the Spring, making thick, strong, light-colored canes 1 1/2 feet tall, and when they begin the trailing habit, at which time they should be trellised. It is a prolific grower, the canes reaching from 18 to 20 feet in a season, and can be pruned to suit. It is not an evergreen, but some leaves usually stay on all winter. It is exceedingly productive. All plants have been known to produce over 10 pounds of fruit at one picking. The size is immense, berries usually an ounce, and are as large as a man's thumb. It is practically free from seeds, and the core is very small and firm. Price, strong plants, each 25c; doz., $1.00, postpaid.

Mammoth. The Giant of All—The berries are enormously large; measure from 2 to 2 1/2 inches long. For cooking purposes fulfills all the desired qualities of other Blackberries and as a fresh fruit is generally preferred, owing to its large size and having more pulp and less core. Price, strong plants, each 15c; doz., $1.50, postpaid.

Eldorado—A very vigorous growing, perfectly hardy variety. Fruit very large, borne in clusters, which ripen very evenly; quality unsurpassed and an excellent shipper. Price, 10c each, or 95c doz., postpaid.

RASPBEERRIES RED RASPBERRIES

ST. REGIS EVERBEARING. Bears fruit perpetually for four months—It is the first Red Raspberry to give ripe fruit, and continues to produce berries without intermission until October. The berries are surpassing in quality—rich, sugary, with full Raspberry flavor. They are of exceedingly moist, firm texture, and keep in good condition for a very long time after being gathered. St. Regis is very hardy, an excellent shipper, and wonderfully prolific. Fine, strong, selected plants, 25c each; $1.75 per doz., postpaid.

Herbert—The hardest Raspberry; a strong, vigorous grower; fruit bright red, very sweet and juicy. Earlier and with larger berries than most others. Price, 15c each; $1.25 doz., postpaid.

Black Raspberries

CUMBERLAND—New. The latest Black Raspberry known, averaging 5 inch in diameter. Good and firm as the Gregg, but the bush is harder. A strong, vigorous grower and wonderfully prolific. Mid-season. 15c each; $1.25 doz., postpaid.

COLUMBUS—Purple or dark blue color, rich flavor, very large size. An excellent shipper, and the best for canning and drying. Late. 15c each; $1.35 doz., postpaid.

Burbank's Hybrid Berry "Phenomenal"—Burbanks Latest Berry Triumph—Largest Berry Known—The color and flavor are those of the Raspberry, while in size and shape it is more like the Dewberry. The berries grow in clusters from five to ten, and to large size, and have measured 3 inches. The color is a bright crimson. They are of delicious flavor. Price, strong plants, each 25c; doz., $2.50, postpaid.

THE WONDERFUL HIMALAYA BERRY

The Greatest Wonder of All—Ripening after all other berries are gone and extending the berry season several weeks. It is a vigorous grower and should be grown on trellis, as the vines will grow from 10 to 40 feet in one year. The berries are large, black and red, borne in clusters. Price, strong plants, each 30c; doz., $1.75, postpaid.

NEW LOGAN BERRY (BLACKBERRY-RASPBERRY)

This Thornless Blackberry-Raspberry is an exceedingly strong grower, making the growth of 10 feet in one season. The fruit is as large as the largest sized Blackberry, of the same form and size, and the color, when fully ripe, is a dark bright red. It is excellent for the table. The fruit ripens before Raspberries and Blackberries. Price, 20c each, or $3.00 per doz., postpaid.

DEWBERY

AUSTIN'S IMPROVED—The berries are much larger than those of any other Dewberry or Blackberry. It requires trellises or wires. The fruit is large black and of superior flavor. For productiveness it outrivals all other Dewberries. Price, 10c each, or 90c doz., postpaid.

IMPROVED RUSSIAN MULBERRY

An ornamental, hardy, fruit-bearing tree. Suitable for all sections of this country. Makes a beautiful tree for the lawn. Fruit larger than blackberries and of delicious flavor. It is a very rapid grower and is perfectly hardy. Commences to bear when two years old, and is very prolific, has a fine, aromatic flavor and sub-acid, sweet taste, and is used for dessert as we use blackberries or raspberries. Price, 15c each, or 3 for 40c, postpaid.

GRAPESE

Campbell's Early—The berries are large, often an inch or more in diameter, glossy black with a purple bloom, sweet and juicy, with few seeds. Price, 20c each, or 3 for 50c, postpaid.

White Diamond—Valuable for all sections of the United States. Best white, healthy and perfectly hardy.

Moore's Early—One of the best early ripening varieties. The bunch is large, round and with a black-blue bloom. In quality surpassing the Concord.

Concord—The well-known standard black-blue variety. It succeeds wherever Grapes are grown.

Worden—A large black Grape of the Concord type but 5 to 10 days earlier.

Price, any of the above Grapes, strong 2-year-old plants, 30c each; $3.00 doz., postpaid.

Special Offer E3 The set of 5 choices of grapes one of each variety, by mail, postpaid, Only $1.35 (Campbell's Early grape).

JONQUILS

Highly prized for their graceful fragrant, large yellow blossoms. Single Sweet Scented—doz. 45¢; 100 for $3.25. Double Sweet Scented—doz. 50¢; 100 for $3.50.

IMPORTANT NOTICE

All Bulbs on this page are shipped in the fall only, and according to conditions stated on top of page 174.

CHINESE SACRED LILIES

The most easily grown and satisfactory bulb for house or window culture. Fancy Bulbs 15¢ each; 3 for 40¢.

CHINESE SACRED LILY

The peerless white Lilie, queen of the garden. Also called Annunciation or Madonna Lily. Although old and common, this is still one of the finest single clear white lilies in cultivation, and no garden, however small, should be without at least one plant of this variety. Can only be planted in the fall. Perfectly Hardy. Extra Selected Bulbs, 35¢ each; 3 for 70¢.

BERMUDA EASTER LILY

(Lilium Harrisii)

The Grandest Winter Flowering Plant. Finest and easiest grown lily for Winter flowering. Requires only a short time to bring into bloom. Our stock of this most popular flower is unsurpassed. Extra Selected Bulbs, 30¢ each; 3 for 85¢. Mammoth Bulbs, 10¢ each; 3 for $1.15.

JAPANESE EASTER LILY

True type. About two weeks later than the Bermuda. Pure white, fragrant flowers 8 to 8 inches long. Selected Bulbs, 30¢ each; 3 for 85¢.

BUCKBEE'S LACE FERN

GRACEFUL BRIGHT GREEN LEAVES, OF DELICATE FORM AND UNUSUAL BEAUTY.

Buckbee's Lace Fern may be grown either as a Pot Plant or in window boxes and has the advantage of being more graceful, and having finer leaves than the most delicate fern. The individual fronds or leaves grow from 6 to 8 inches in width, and when cut and put in water, retain their shape and color for weeks.

The bright green foliage of very delicate texture falls gracefully, giving it a style and air that cannot be surpassed. No finer decorative plant has ever been introduced. As a house plant it is deservedly popular as it will thrive under almost all conditions.

Strong, young plants, 30c to 40c each, Postpaid. Larger Plants, $1.00 to $1.50 each, by express, not prepaid.

SPECIAL OFFER F 1

One fine young plant each of Buckbee's Feather Fern and Buckbee's Lace Fern for only 38c—Postpaid.

SPECIAL OFFER F 2

One large plant each of Buckbee's Feather Fern and Buckbee's Lace Fern for only $2.25 by Express—not Prepaid.

BUCKBEE'S FEATHER FERN

CHARMING EMERALD GREEN FOLIAGE, WHICH IS DENSE, GRACEFUL AND DROPPING.

The plants are of rapid growth and grow freely the year around, producing sprays 4 to 5 feet long in the greatest profusion.

Unsurpassed for window boxes or hanging baskets, in vases, or even as specimen plants. Grown in suspended pots it makes a pretty decoration and desirable house plant. When the sprays or foliage is used for cut flower work, or in bouquets, it retains its freshness for a long time. We have a splendid stock of choice young plants, which we are offering in our fiftieth anniversary catalog at the following low prices:

Strong, young plants, 30c to 40c each, Postpaid; Larger plants, $1.00 $1.50 each, by Express not Prepaid.
